ZOOM-ZOOM

MOVE THE FAMILY IN STYLE.

Family. Those special times when you're together. It's what life is all about. And to make those special times even better, there's the all-new Mazda5. Designed for people like yourself - busy and family-oriented - Mazda5 does everything you do, in style. With stunning design, safe-sure braking, great handling and dynamic yet eco-friendly performance thanks to SkyActiv Technology, Mazda5 means you no longer have to choose between what your family needs and what you really want. Now you can have it all. With Mazda5.

IDEAL COMFORT. EVEN FOR 7.

The all-new Mazda 5's cabin is designed around the 6+One concept, giving you comfortable accommodation for six, as well as +One fold-out seat for a seventh passenger.

The second-row seats are independent, offering a broad walkthrough to the third row and encouraging conversation and interaction between people in all three rows. Access is enhanced by the flat floor that makes it easier to move about the cabin. When you need to carry a seventh passenger, Mazda's innovative karakuri seventh seat folds out of the left second-row seat, and at other times, you can fold the handy karakuri utility box out of the right second-row seat.

Karakuri seventh seat

Karakuri seventh seat ingeniously folds out of the left second-row seat. First, the armrest swings up to form the backrest of the centre seat. Then the seat's cushion is flipped forward to reveal the centre seat cushion that folds out to fit between the two second-row seats.

Karakuri utility box

Karakuri utility box is stored beneath the cushion of the right second-row seat. When deployed, a large tray on top of the box gives the second-row passengers a pair of cupholders, while a net below the tray gives quick storage of small items. When the karakuri seat or utility box is in use, a 6.3-litre compartment becomes available beneath the respective seat cushion.

DISCOVER SKYACTIV TECHNOLOGY.

Now powered by SkyActiv Technology, the all-new Mazda5 takes Mazda's renowned Zoom-Zoom driving to a new level of smooth response and fuel-efficiency. Every aspect of performance is carefully balanced and suspension tuning is optimised, to give you the best of both worlds: responsible linear handling to please the driver in you, and a smooth stable ride to offer your passengers a comfortable ride.

SkyActiv-G 2.0 petrol engine achieves an extraordinary compression ratio of 12.0:1, setting new standards for fuel-efficiency and emissions control.

Fuel Consumption (combined): 6.6L/100km
CO₂ Emission: 158g/km

SkyActiv-Drive 6-speed automatic transmission enhances Mazda5's response for fast, smoother automatic gear-shifting together with the direct, connected feel of a manual transmission.

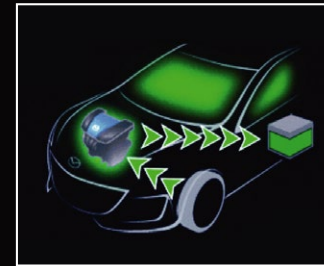

MacPherson strut front and multi-link suspension systems: optimised suspension tuning gives you the best of both worlds: responsive linear handling and a smooth stable ride.

Painstaking design and high-rigidity body suppress road and wind noise for a quiet ride.

Superior aerodynamics give lower fuel consumption and reassuring high-speed straight-line stability.

Mazda's unique i-STOP automatically shuts down the engine when the car is at a stop so as to save fuel and improve efficiency.

Electronic Hydraulic Power Assist Steering (EHPAS) realises a satisfying and reassuringly linear response while improving fuel economy.

GET INTO A SAFE PLACE.

Mazda5 is all about the family, so it's only natural it offers top safety levels. From its excellent field of view for clarity to enhanced 4W-ABS with EBD, you and your loved ones can enjoy absolute peace of mind.

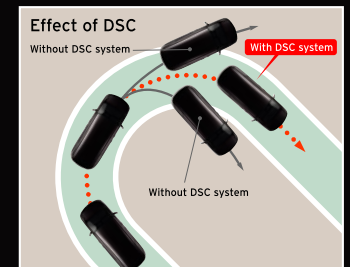

High-rigidity body structure and dual front airbags provide safety in depth.

Front latch safety mechanism holds sliding doors in place in a collision.

ISOFIX child seat anchored on second-row seats.

Dynamic Stability Control (DSC) prevents skids and maintains control on slippery roads.

ENJOY ULTIMATE EASE.

A spacious interior. Ergonomic design. Perfectly-positioned instruments as well as information. No wonder it's a comfortable ride, every time.

Large, easy-to-read high-mount information display allows the driver to focus on the road.

Intuitive audio controls mounted on the steering wheel.

Three climate control dial switches optimally positioned for easy operation.

Plenty of storage spaces to keep things close at hand, no matter where you sit.

EXTERIOR COLOURS.

Snowflake White Pearl Mica

Jet Black Mica

Meteor Grey Mica
