NINE STEPS TO YOUR VERY OWN MINI.

MINI Hatch, MINI Convertible, MINI Clubman. Whichever model you want, this brochure will help you put your very own MINI together. The symbols at the top of the page will guide you through the process step by step. In fact, you're just nine steps away from your very own MINI. Step one is to choose the model or exclusive design model and engine you're interested in. Then, in step two, you can get an overview of your MINI's concept and safety features. In step three you can find out all about the new MINI Yours customisation programme and the exclusive design features that it offers. Steps four, five and six are where you can decide the look and feel of your MINI down to the last detail. What exterior colour is right for you? What seats, upholstery and wheels? In step seven you can equip it with all the information and entertainment systems you want, like the MINI Radio Visual BOOST and MINI Connected. And steps eight and nine, performance and accessories, add the finishing touches.

AS MANY RIGHT ANSWERS AS THERE ARE DRIVERS.

However you like to roll, there's a wide range and combination of optional equipment available that will make it easy for you to put together the MINI that's right for you. For more information about all the available equipment, read on.

1. MODELS.

MINI HATCH.

Whether you choose the MINI First/One/One D, MINI Cooper/D or MINI Cooper S/SD, with the MINI, stylish looks are guaranteed. The MINI First/One/One D includes distinctive design details, such as black fins in the radiator grille, a roof in body colour and exterior mirror caps in matt black. On the MINI Cooper/D and MINI Cooper S/SD, the roof and exterior mirror caps come in a choice of black or white, in addition to the standard body-colour finish, and MINI Cooper models also feature a central rear fog light and chrome plating of the radiator grille slats, tailpipe and tailgate handle. The MINI Cooper S/SD features a wealth of details that underline its exceptional performance, including chrome side scuttles and fuel filler cap, White side direction indicator lights, a hexagon-mesh radiator grille, and decorative air intakes in the bonnet and lower bumper grille. At the back, the rear apron and spoiler come in a special Cooper S design, and there is also a chrome-plated double-pipe exhaust system and two separate rear fog lights. All MINI models share the same distinctive LED rear lights.

MINI CONVERTIBLE.

The MINI Convertible is packed with eye-catching details in all its variants, from MINI One Convertible to MINI Cooper/D Convertible and MINI Cooper S/SD Convertible. The MINI One Convertible has a soft-top in black, exterior mirror caps in matt black, a roll-over bar in Piano Black and a central rear fog light. The MINI Cooper/D Convertible features chrome-plated radiator slats, tailpipe and tailgate handle, while the soft-top is also available in an additional colour: Denim Blue with Silver effect. The MINI Cooper S/SD Convertible, meanwhile, has a highly dynamic look, with liberal use of chrome in the radiator, side scuttles, double-pipe exhaust system and roll-over bar. There is also a hexagon mesh radiator grille, White side direction indicator lights, and a striking rear apron with fog lights at either side, plus decorative air intakes in the bonnet and lower bumper grille. All MINI Convertible models feature stylish LED rear lights.

MINI CLUBMAN.

Available as the MINI One/D Clubman, MINI Cooper/D Clubman and MINI Cooper S/SD Clubman, all of which feature LED rear lights and the large Clubdoor. On the MINI One/D Clubman, the fins in the radiator grille are in black, the roof and rear spoiler are in body colour, and the exterior mirrors are in matt black. The C-pillars come in a choice of black or silver, with a body-colour option also available in conjunction with selected paint colours. On the MINI Cooper/D Clubman and MINI Cooper S/SD Clubman, the roof and exterior mirror caps come as standard in either black or silver, matching the C-pillars. The MINI Cooper/D Clubman also features a chrome-plated exhaust tailpipe and chrome-plated radiator grille slats. The MINI Cooper S/SD Clubman, meanwhile, oozes power from every angle, with its hexagon-mesh radiator grille, and decorative air intakes in the bonnet and lower bumper grille. On the flank, there are chrome-plated side scuttles with White side direction indicator lights, and at the rear there are two chrome-plated tailpipes, one in each corner.

Images shown feature optional alloy wheels, Please see pages 36 – 37 for full details on standard and optional wheels available.

2. CONCEPT AND SAFETY.

1

2

3

FOR SAFER CARS
EURO NCAP
www.euroncap.com

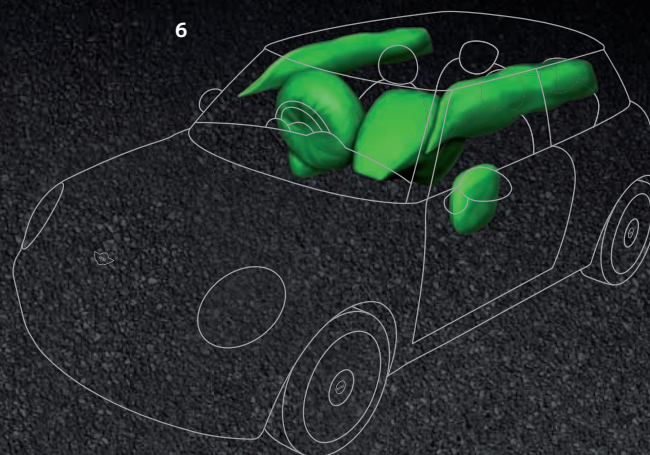

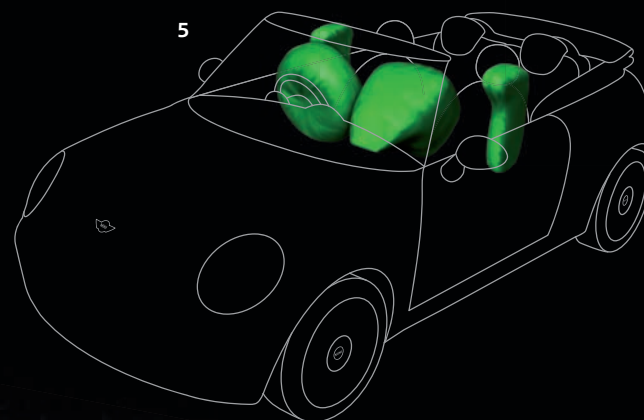

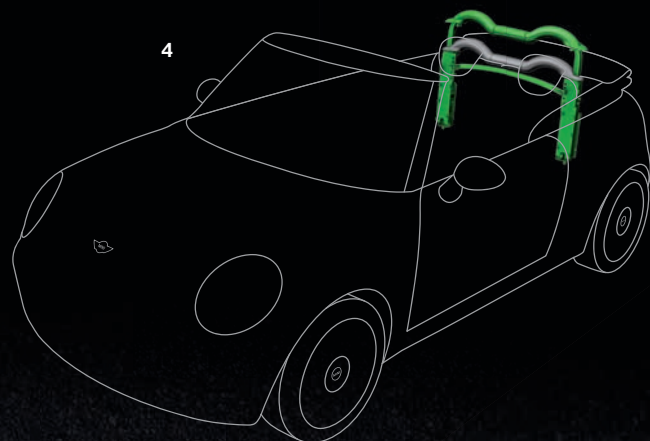

1+2. BODY. The body of the MINI has been reinforced at strategic points, guaranteeing extreme torsional rigidity for an exceedingly robust passenger compartment. The aim is to deliver the perfect combination of comfort, acoustics and protection.

SUSPENSION. The combination of a single-link spring-strut front axle and a multi-link rear axle with wide track and a low centre of gravity results in the unmistakable MINI feeling: stable, agile, with excellent cornering ability at all speeds, plus superb traction and outstanding safety.

3. RESTRAINT SYSTEM. A combination of 3-point belts, belt tensioners and integrated belt catch means driver and front-seat passenger enjoy the best possible protection in the event of a crash.

ISOFIX. To ensure the safety of younger passengers, ISOFIX child seats can be mounted in the rear.

EURO NCAP CRASH TEST. In the Euro NCAP crash test, the MINI Hatch scored the maximum possible five stars. The level of protection for passengers and driver was rated as excellent in front, side and pole impacts, and the car also received outstanding scores for child safety.

4. ACTIVE ROLL-OVER BAR. Made of high-strength aluminium, the active roll-over bar fitted to the MINI Convertible ensures optimum protection for all passengers. Normally it is retracted behind the rear headrests, and blends seamlessly into the lines of the car, but in an emergency it deploys upwards in a fraction of a second.

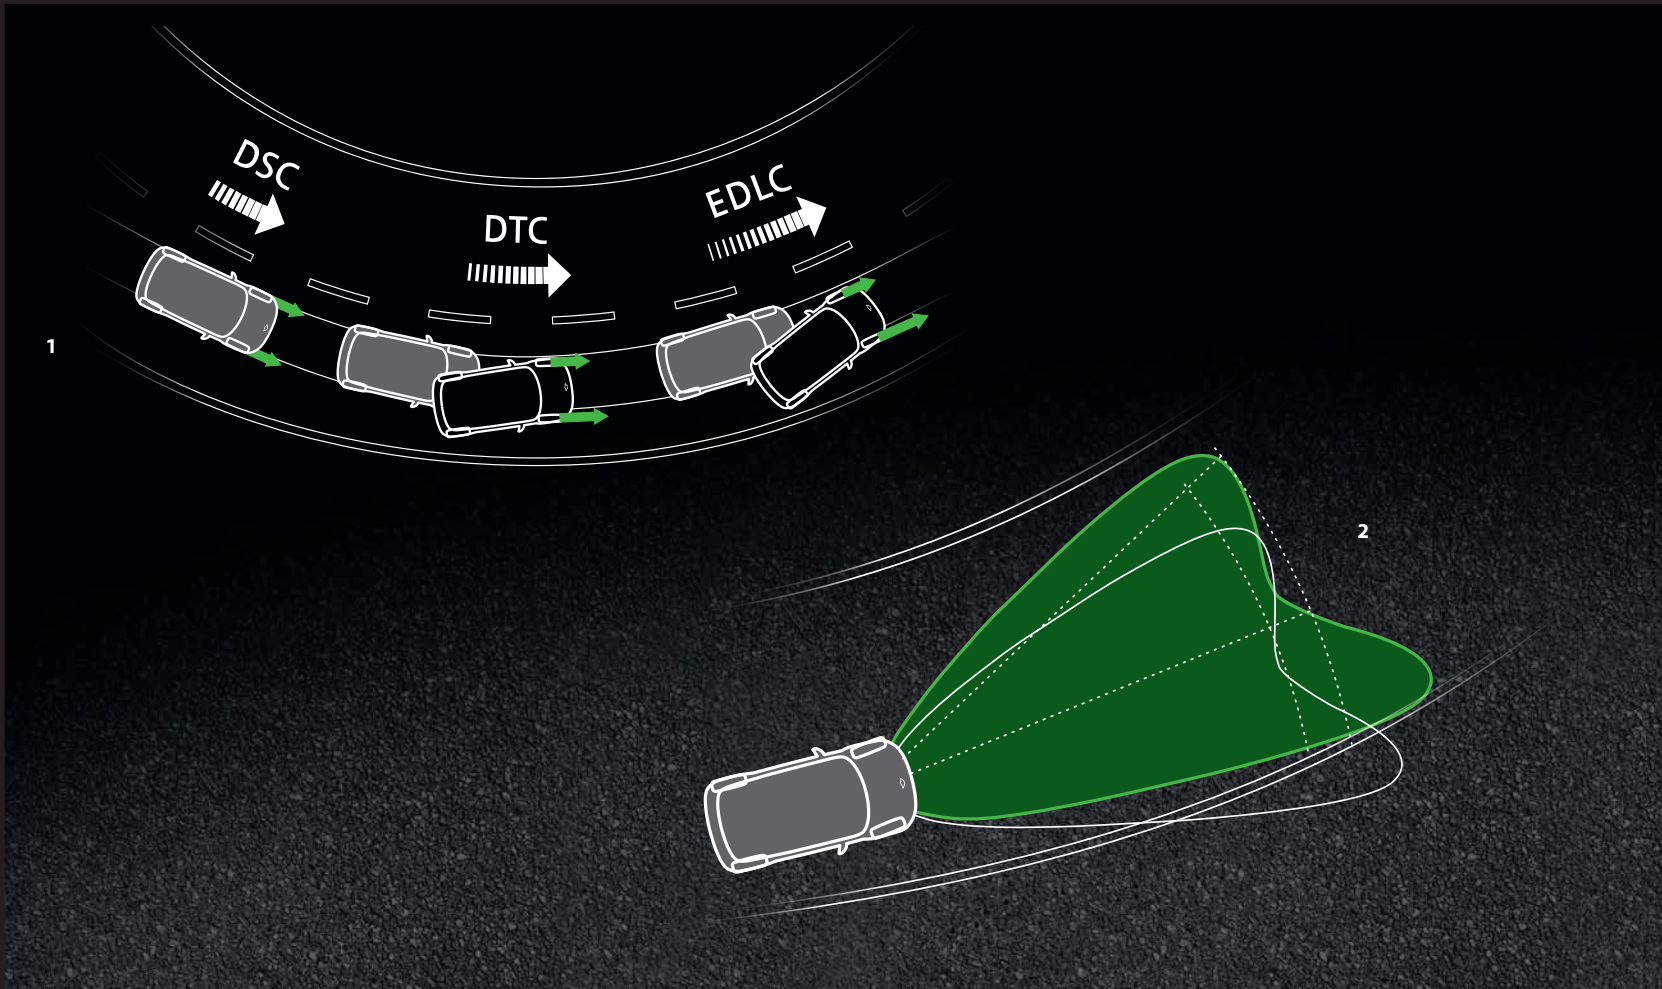

5 + 6. AIRBAGS. The MINI is fitted with six airbags as standard (four on the MINI Convertible). Driver and front passenger airbags protect the head and upper body in the event of a head-on collision, while side and head airbags are primarily designed to reduce the risk of injuries to the head, chest and abdominal areas from side impacts.

DYNAMIC BRAKING LIGHT. Alerts following drivers to dangerous situations faster. Under normal braking the light comes on in the conventional way, but when the MINI performs an emergency braking manoeuvre, it starts to flash. In this way, it enables the traffic behind to see immediately how hard the MINI is braking. Automatic activation of the hazard warning lights also lessens the risk of an impact from behind.

OVERBOOST FUNCTION. Performance can be a safety feature in itself. The MINI Cooper S can get a temporary boost in its maximum torque from 240 to 260 newton-metres, thanks to a system that momentarily increases the turbo pressure and the quantity of fuel injected in its 1.6-litre twin-scroll turbocharged engine. And more power means overtaking distances are shorter, and therefore safer.

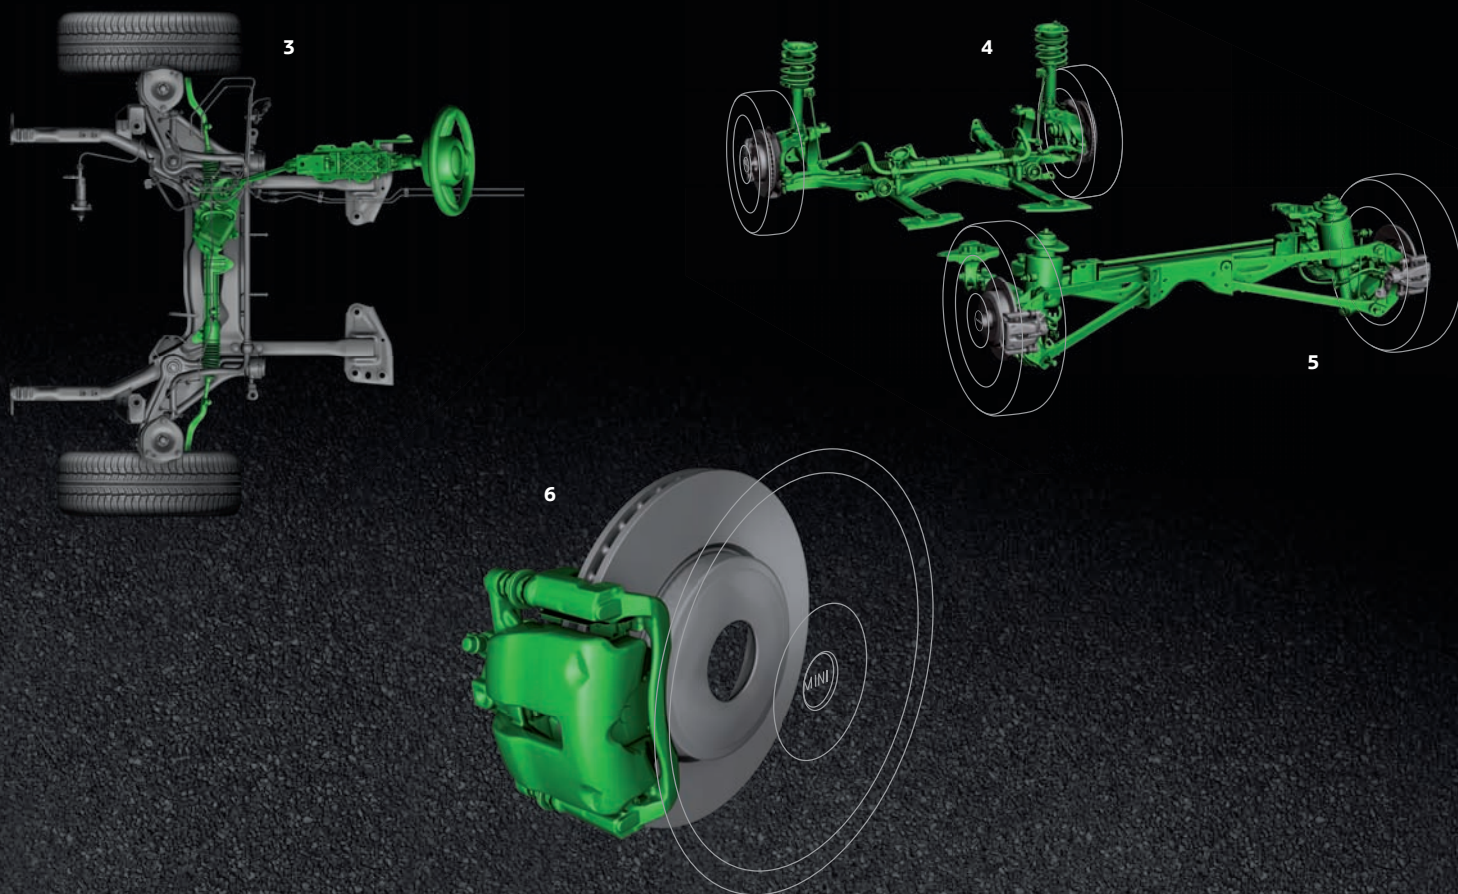

2. CONCEPT AND SAFETY.

1. **DSC.** Fitted as standard, **DYNAMIC STABILITY CONTROL** ensures optimum traction by intervening in the engine management and applying braking force to individual wheels as necessary. DSC also includes Hill Assist, which prevents the car from rolling backwards on slopes.

DTC. Only available as part of the MINI Sport Pack, **DYNAMIC TRACTION CONTROL** system raises the threshold before intervention in the engine management and braking system. It also includes **EDLC**, Electronic Differential Lock Control which helps to provide selective brake-force to either front wheel (e. g. to prevent the “inside” wheel from slipping during cornering).

2. **ADAPTIVE HEADLIGHTS.** This option improves illumination of the road ahead when cornering. Sensors measure the steering angle, rate of turn and vehicle speed, and electric motors then adjust the angle of the headlights accordingly (only available in conjunction with Vision Pack).

3. RACK-AND-PINION STEERING. A turn for the better. Electric power-assist ensures outstanding steering response, with the driver getting precise feedback. The weight of the steering adjusts to the speed of the car, for easier steering at low and high speeds alike. For maximum comfort it's only 2.4 turns lock to lock.

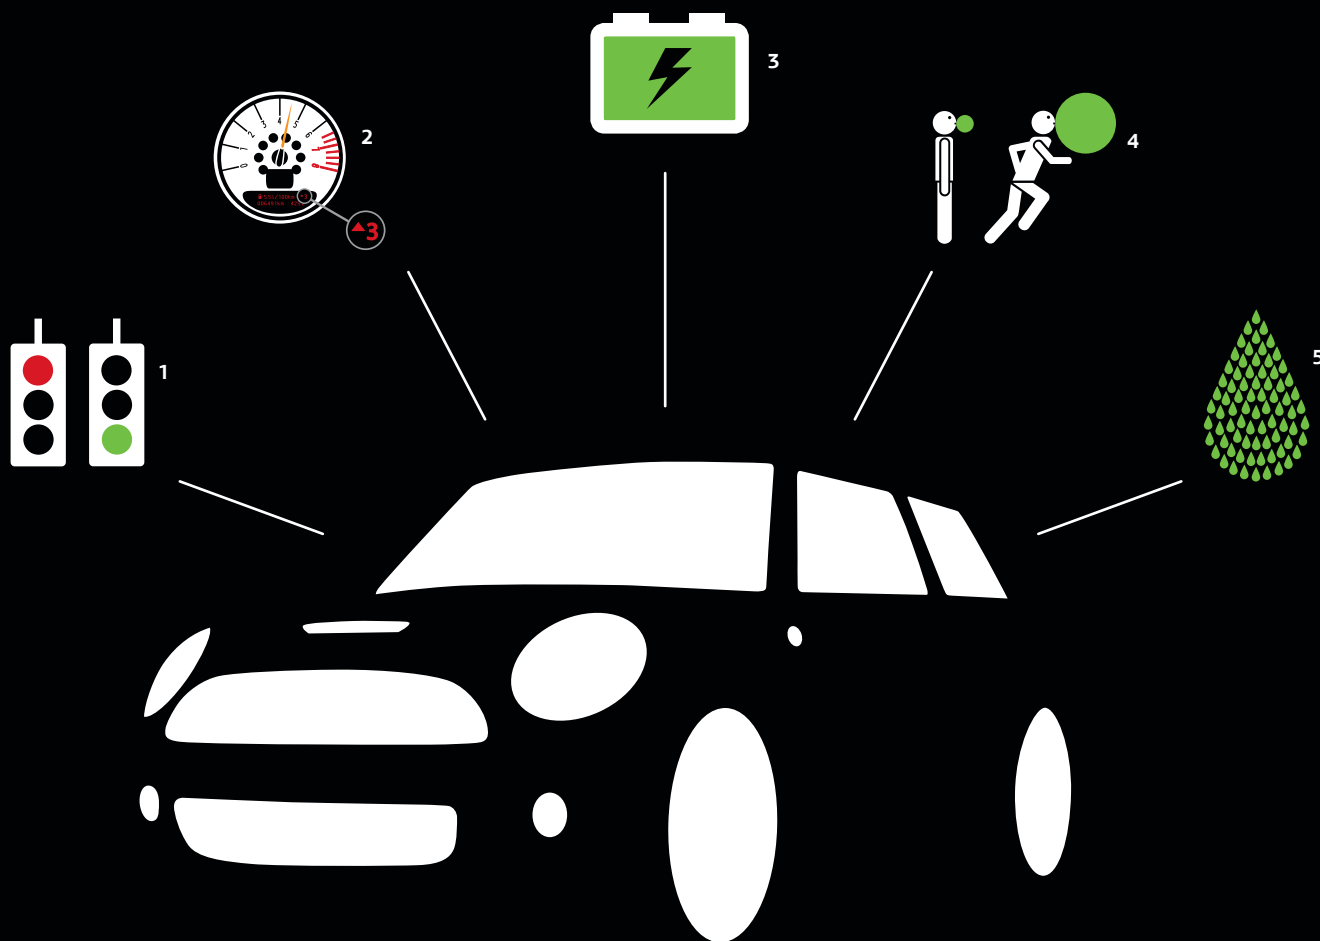

4. SINGLE-LINK SPRING-STRUT FRONT AXLE. Where the fun begins. Two drive shafts of equal length in the front suspension minimise the extent to which the drivetrain interferes with the steering, and optimise the car's cornering, acceleration and braking.

5. MULTI-LINK REAR AXLE. Unique in a car of this class, ensuring optimum contact between the wheels and the road, for the best possible traction. Aluminium construction keeps weight to a minimum and increases agility.

6. BRAKING SYSTEM. Four disc brakes with Anti-lock Braking System (ABS), Cornering Brake Control (CBC) and Electronic Brake Force Distribution (EBD) as standard ensure optimum braking performance. Brake Assist accelerates the delivery of braking force in an emergency situation to ensure the shortest possible distances.

2. CONCEPT AND SAFETY.

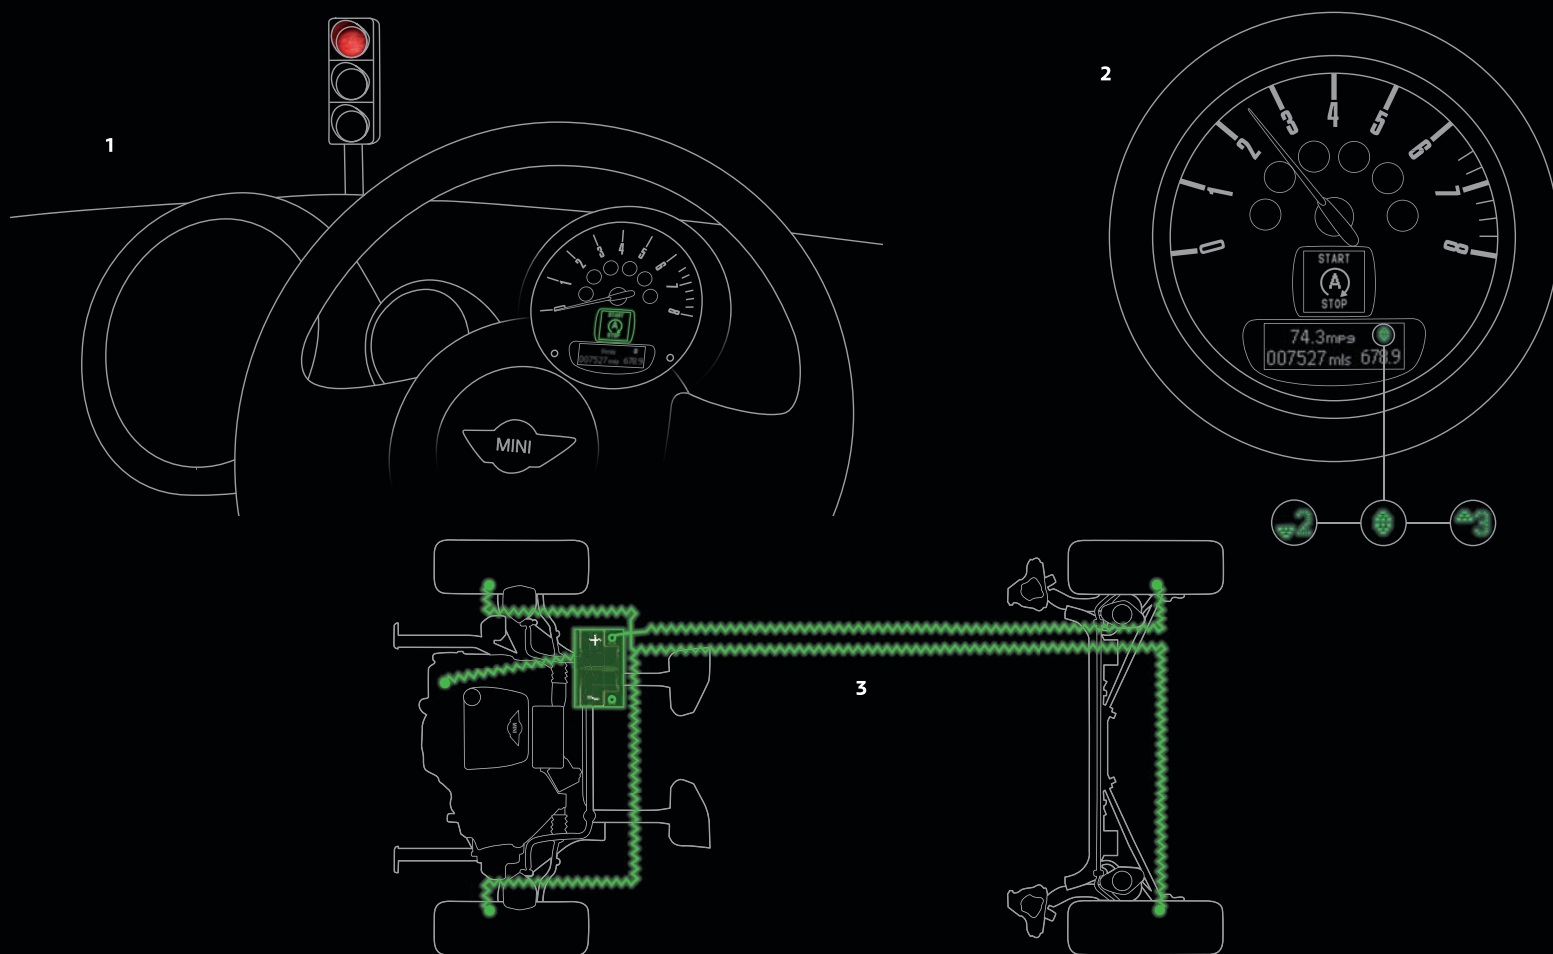

MINIMALISM. LESS IS MORE. Cutting out the fumes needn't mean cutting out the fun. This is made possible by a range of innovative MINIMALISM technologies fitted to the MINI One D, MINI Cooper, MINI Cooper D, MINI Cooper S and MINI Cooper SD.

1. AUTOMATIC START-STOP FUNCTION.¹ Manual gearbox only. With the car in neutral and the clutch disengaged, the engine is automatically switched off. As soon as the clutch pedal is depressed, the engine is restarted, giving you a unique fuel saving feature.

2. SHIFT POINT DISPLAY.¹ The Shift Point Display (manual gearbox only) informs you of the most economical gear for any given situation, helping to reduce your emissions and expenditure on fuel.

Full details of fuel consumption can be found in the Technical Data section. Figures quoted here do not apply to vehicles with automatic transmission.

3. BRAKE ENERGY REGENERATION.¹ Brake Energy Regeneration uses Intelligent Alternator Control to make the most of unused energy. When coasting or braking, the battery is charged, utilising energy that would otherwise be wasted.

4. FULLY VARIABLE VALVE TIMING. Cutting edge technology increases power output while simultaneously improving the efficiency of combustion.

5. COMMON-RAIL TECHNOLOGY. High-pressure injection and multiple pre-injections ensure the diesel enters the cylinder as a fine mist, which reduces engine noise and improves both power and fuel economy.

MINIMALISM ANALYSER.² An integral part of the optional MINI Connected infotainment system, the MINIMALISM Analyser examines and evaluates data from your journey to work out how efficiently you are driving. The MINIMALISM Analyser also provides drivers with detailed guidance on how they can save even more fuel. In addition, after every journey, the data can be analysed in an extremely user-friendly way using the MINI Connected application, which also allows drivers to compare their performance with others and develop an even more economical driving style over time.

¹ As standard on MINI One D, and all MINI Cooper, MINI Cooper D, MINI Cooper S and MINI Cooper SD models.

² For more information on MINI Connected, please see pages 42–45.

3. MINI YOURS.

MINI YOURS

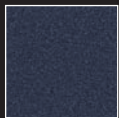

MAKE IT PERSONAL. MINI YOURS.

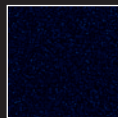

MINI Yours is pure differentiation by design, a vast catalogue of exclusive and design-led exterior paints, interior trims and upholsteries that are completely new to MINI. MINI Yours turns the fun of deciding how your car is finished into an art form by allowing you to select as much or as little as you like from an extensive range of exclusive options.

4. COLOURS AND UPHOLSTERY.

MINI HATCH ROOF COLOURS.

The roof of the MINI One/MINI One D is always painted in body colour, with exterior mirror caps in matt black as standard. On the MINI Cooper, MINI Cooper D, MINI Cooper S and MINI Cooper SD models, both the roof and the exterior mirror caps come as standard in body colour, but a contrast roof in either black or white, with matching exterior mirror caps, is also available as an option.

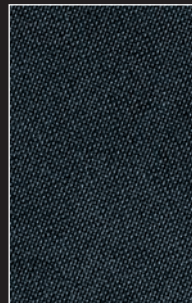

MINI CONVERTIBLE SOFT-TOP COLOURS.

The soft-top of the MINI Convertible opens and closes automatically in just 15 seconds, and incorporates a continuously variable sunroof function. There is a choice of two soft-top colours – Black or Denim Blue with silver effect. Whichever option you go for, the inside of the soft-top is always black.

Black

3YB Denim Blue with silver effect

MINI CLUBMAN COLOUR COMBINATIONS.

The MINI Clubman offers many different colour combinations for the roof, exterior mirror caps and C-pillar. On the MINI One Clubman/MINI One D Clubman, the roof is always in body colour and the exterior mirror caps come as standard in matt black, while the C-pillars can be either black or silver. On other MINI Clubman models, a contrast roof in silver or black comes as standard, with exterior mirror caps and C-pillars in the same colour. If you decide to have the roof in body colour, then you can choose whether you prefer black or silver for the C-pillars.

INTERIOR DESIGN ELEMENTS.

To create the look of the interior, different Colour Line colours are available for the knee roll and the armrests in the doors. You can also choose an interior trim for the dashboard and elliptical door rings, and a leather option for the top of the dashboard. The MINI Yours leather-upholstered dashboard in Black/Satellite Grey coordinates harmoniously with the MINI Yours Soda interior trim in Highclass Grey and the Satellite Grey Colour Line.

- 1 **Dashboard**
- 2 **Interior trim** (comprises dashboard and elliptical door rings)
- 3 **Colour Line** (comprises armrests in the doors and knee roll)

For more variety, there is also a MINI Yours leather-upholstered dashboard available in Black/Polar Beige. The stitching of the gearshift and handbrake gaiters is either Satellite Grey or Polar Beige, depending on the colour selected for the dashboard.

John Cooper Works racing passion in its ultimate form for all MINI Hatch, MINI Convertible and MINI Clubman models: the dashboard upholstered in fine leather and knee roll in Dinamica Anthracite make the perfect finishing touch.

5. EXTERIOR DESIGN AND WHEELS.

1. Bonnet stripes in white

2. Bonnet stripes in black

3. Bonnet stripes in silver

4. Exterior mirror caps in chrome

- 1 Bonnet stripes in white** are available as an option on MINI Hatch and MINI Convertible models (only in conjunction with a contrast roof in white on the MINI Hatch). They are separated from the body colour by a thin black border.
- 2 Bonnet stripes in black** are available on all MINI models with a black roof. They feature a border in white (on the MINI Hatch/MINI Convertible) or silver (on the MINI Clubman).
- 3** Only available in conjunction with a roof in silver and exclusive to the MINI Clubman, the **bonnet stripes in silver** feature a thin black border.

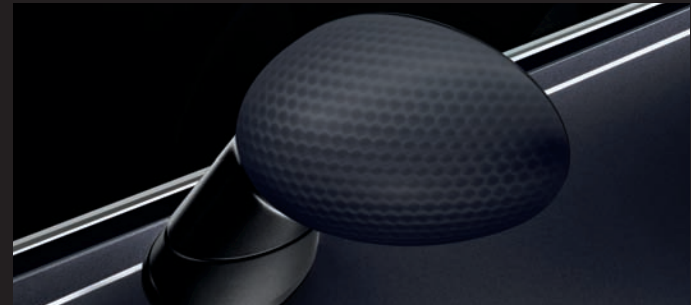

The exterior mirrors are electrically adjustable and can be folded away if required. An aspherical glass on the driver's side minimises the size of the blind spot. **Exterior mirror caps in matt black** come as standard on all MINI One/D models. When the roof of the MINI Cooper/D and MINI Cooper S/SD models is **black**, then the **exterior mirror caps** are painted **brilliant black**. For the Convertible models, the colour of the mirror caps and the colour of the roof can be chosen separately. On the MINI Cooper/D and MINI Cooper S/SD, the **exterior mirror caps** are also available in **white** in conjunction with a white contrast roof. On the MINI Cooper/D Convertible and MINI Cooper S/SD Convertible, the exterior mirror caps are also available in white in conjunction with the Infinite Stream Spoke alloy wheels in white.

As standard on ■ MINI One/D models

8. MINI Yours Tattoo Glorious

9. MINI Yours Tattoo Glorious

On the MINI Cooper/D Clubman and MINI Cooper S/SD Clubman, the **exterior mirror caps** are also available in **silver** in conjunction with a silver roof. The **exterior mirror caps** are available in **body colour** as an option when this colour is also specified for the roof.

■ **Exterior mirror caps** in **chrome** are available as an option in conjunction with any roof colour.

■ The **MINI Yours Soda exterior mirror caps** are covered with magnetic foil, for an arresting, almost three-dimensional effect that gives your MINI an avant-garde look.

■ **MINI Yours Tattoos.** Distinctively stylish, quintessentially British – and as individual as you are: the MINI Yours Tattoo Glorious and Tattoo Funky are two graphic packages that make your MINI even more reflective of your personality. The high-quality decals are car-wash-resistant, and can be removed when required without leaving behind any residue.

5. EXTERIOR DESIGN AND WHEELS.

1. Chrome Line Exterior

2. Chrome Line Exterior

3. Chrome Line Exterior

4. Chrome Line Exterior

1 2 Add some sparkle: the **Chrome Line Exterior** is a subtle way of making a big impact at the front of your MINI.

MINI One/D: includes chrome-plated radiator grille slats, chrome edging for the lower front grille, and chrome surrounds for the fog lights.

MINI Cooper/D: chrome edging for the lower front radiator grille, a horizontal chrome bar in the lower front bumper and chrome edgings for the fog lights.

MINI Cooper S/SD: chrome edging for the brake-cooling air ducts in the lower front bumper.

7. Chrome Line Exterior

**A GREAT VIEW
 FOR THOSE
 LEFT IN YOUR
 SLIPSTREAM.**

3-7 The Chrome Line Exterior helps the rear of your MINI to stand out, too:

MINI One/D: chrome edging for the central rear fog light, chrome-plated tailgate handle and chrome-plated exhaust tailpipe (as standard on MINI One D models). The MINI One Convertible also gets a chrome-plated roll-over bar with a Piano Black inlay.

MINI Cooper/D: chrome edging for the central rear fog light. The MINI Cooper/D Convertible also gets a chrome-plated roll-over bar with a Piano Black inlay.

MINI Cooper S/SD: chrome edging for both rear fog lights, chrome-plated tailgate handle. On the MINI Cooper S Clubman, there is a chrome edging for the grille in the rear bumper.

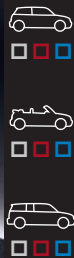

5. EXTERIOR DESIGN AND WHEELS.

1. White direction indicator lights

2. White direction indicator lights

3. MINI Yours Soda side scuttles

4. Roof rails

1 2 The **White direction indicator lights** option comprises transparent glass for the indicators in the front headlights, side scuttles and rear lights. White side direction indicator lights are standard for your MINI Cooper S and SD.

3 **MINI Yours Soda side scuttles** apply the perfect finishing touch to the look of your MINI, and are only available in conjunction with other MINI Yours options.

4 The **roof rails** allow drivers to mount a range of integrated multifunctional carrier systems on the roof. They blend harmoniously into the lines of the car, and are finished in matt black. Maximum load is 75 kg.

5. Exhaust tailpipe finishers

6. Double exhaust tailpipe finishers

7. MINI Cooper S/SD Clubman exhaust tailpipe finishers

5 The striking **exhaust tailpipe finisher** on MINI One D, MINI Cooper and MINI Cooper D models is chrome-plated with a rounded edge.

6 The chrome-plated **double exhaust tailpipe finishers** on MINI Cooper S/SD and MINI Cooper S/SD Convertible models are located in the middle of the rear apron.

7 The two chrome-plated **exhaust tailpipe finishers** on the MINI Cooper S/SD Clubman are located near the outside edges of the rear apron, adding emphasis to the powerful yet elegant look of the car's rear end.

The **tow bar** with removable ball head is available as an option on the MINI Cooper/D Clubman and the MINI Cooper SD Clubman models, and is suitable for towing loads of up to 750 kg.

Available as an option on all MINI Convertible models, the **rear-mounted rack preparation** for multifunctional carriers, such as bicycle carriers from the Genuine MINI Accessories range, is located in the rear apron, and concealed behind a cover in body colour.

Available as an option on all MINI Hatch and MINI Clubman models, **darkened rear glass** reduces the build-up of heat in the interior of the car caused by strong sunlight, making things more comfortable for the occupants. Where this option is specified, the glass is visibly darker from the B-pillars backwards (including the rear windscreen).

6. INTERIOR DESIGN.

1. Interior

2. 2-spoke leather steering wheel

3. 3-spoke sport leather steering wheel

1 Stylish, distinctive and unmistakably MINI, right down to the last detail: the instruments and controls are harmoniously designed and laid out for intuitive ease of use. The centre console with radio controls and its characteristic switch cluster is finished in a muted black, with the chrome elements in the steering wheel and around the instruments making a sporty and sophisticated contrast. The **2-spoke standard steering wheel** comes as standard on all MINI One and MINI Cooper models, and has a driver airbag built in. The horn is sounded by pressing the impact absorber with its chrome ring.

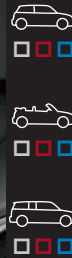

2 The **2-spoke leather steering wheel** has a driver airbag built in. The wide chrome ring is an eye-catching design detail.

3 The **3-spoke sport leather steering wheel** is available as an option on all MINI models. It sits comfortably in the hand, for even more agile handling. The **3-spoke sport leather steering wheels** are available with a multifunction option, allowing drivers to operate cruise control, radio and telephone functions without taking their hands off the wheel.

38
39

5. Headliner in Anthracite

6. Interior Lights Pack

4 Extravagant style: the two-tone multifunctional **MINI Yours Soda sport leather steering wheel** feels as good as it looks. Its Carbon Black/Satellite Grey colour combination goes perfectly with the MINI Yours Lounge leather seats in Satellite Grey.

5 A **headliner in Anthracite** is available for MINI Hatch and MINI Clubman models. Available as an option on all MINI models, the **Smoker's Pack** consists of a cigarette lighter and a removable ashtray.

6 In addition to the standard interior light in the headliner, the **Interior Lights Pack** includes handle-area illumination in the door trim, reading and footwell lights in the front, and illuminated vanity mirrors¹, front footwell lights and an additional new light in the storage compartment. Exquisite details: the Ambient Lighting for the door handles, door storage compartments, B-pillar trims and instrument panel downlight can cycle steplessly through all the colours of the spectrum. Available as an option on all MINI models, the **centre armrest** in the front folds up and down, and includes a storage compartment.

¹ Only available for MINI Hatch and MINI Clubman models.

6. INTERIOR DESIGN.

1. Chrome Line Interior – speedo surround

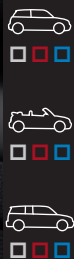

2. Chrome Line Interior – gear lever surround

3. Chrome Line Interior – cupholder

4. Chrome Line Interior – door handle surrounds

5. Chrome Line Interior – loudspeaker surrounds

6. Chrome Line Interior – seatbelt rings

1–6 The **Chrome Line Interior** includes chrome plating for the instruments, dashboard air vents and the ring around the gear lever gaiter on all MINI models. On MINI Cooper S/SD models, and on cars where an optional interior trim finish or upholstery in leather or cloth/leather is specified, a chrome trim is also applied to the centre cupholder in the rear, the door handles and the loudspeakers in the doors, while on MINI Convertible models, a chrome finish for the belt rings is also included.

Available as standard, **ISOFIX** is an industry-standard system whereby a baby or child seat fitted with two telescopic bars can be safely and securely mounted on either of the rear seats.

All MINI models are equipped as standard with an **easy entry function**. When the seat is folded forwards, it automatically glides towards the glove compartment to give easier access to the rear seats.

7. Separately folding rear seat backrests

8. Flat load floor

9. Storage Compartment Pack

10. Wind deflector

7 The **separately folding rear seat backrests** (50:50 split) can be put into the flat position from the luggage compartment, allowing the car to carry bulky objects and three people at the same time. When both rear seat backrests are folded down, depending on the model there is as much as 930 litres of luggage space.

On the MINI Clubman, a **three-seat rear seat bench** is available, with three headrests and space for two adults and one child (weighing up to 49 kg).

8 The rear seat backrests in MINI Clubman models fold down separately. The **flat load floor** makes for easier loading and unloading. Items can be secured to the four lashing eyelets.

9 The **Storage Compartment Pack** includes a storage compartment in the dashboard on the passenger side, and a storage net in the front passenger footwell, plus a floor net, a side separating net and a 12-volt power socket in the luggage compartment. It also enables the angle of the rear seat backs to be adjusted, so they can be moved into the cargo position.¹

10 The **wind deflector** lets you enjoy more comfortable open-top driving without irritating draughts around the neck and shoulders. When not in use, it folds down to a compact size for transportation in the luggage compartment.

¹ Included as part of Storage Compartment Pack on all MINI Hatch and MINI Clubman models.

7. MUSIC, COMMUNICATIONS AND TECHNOLOGY.

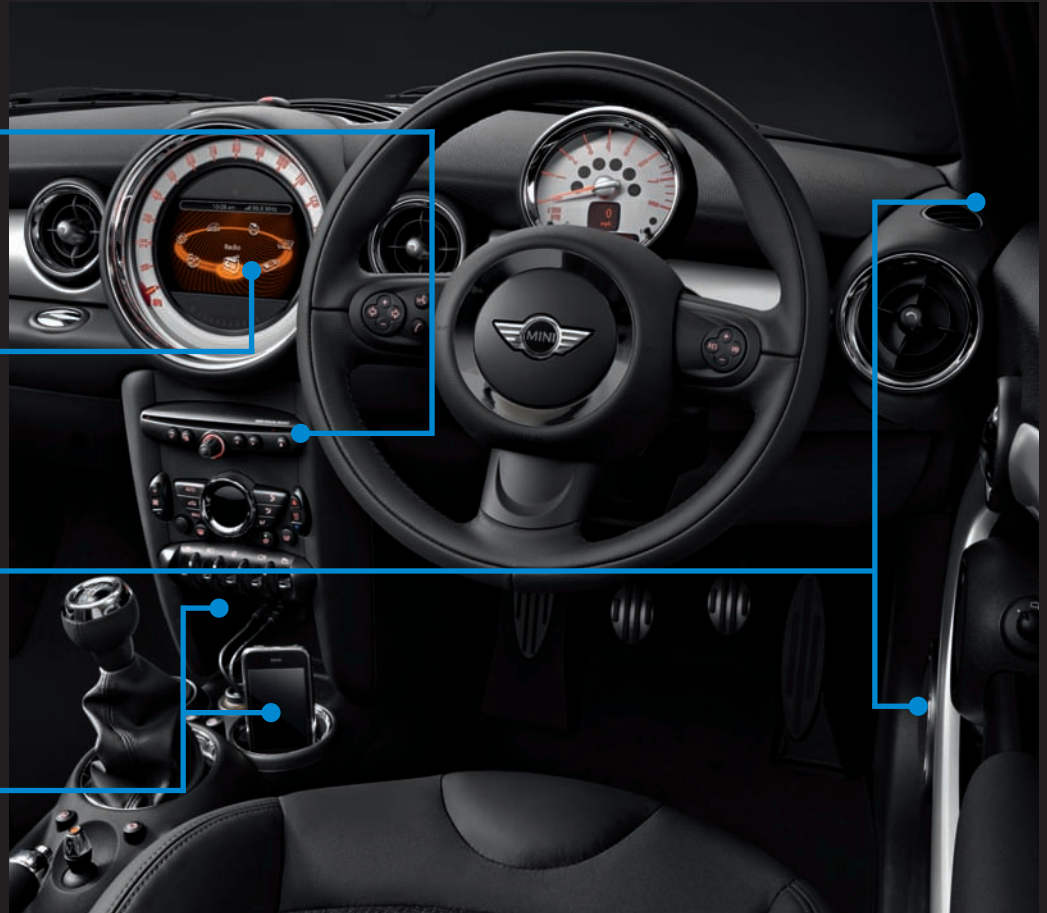

JUST FOUR STEPS TO A WHOLE NEW WORLD.

HEAD UNITS. ①

SERVICES. ②

MUSIC. ③

BLUETOOTH/USB. ④

Tailor information, communication and entertainment functions to your personal preferences in four easy steps. First you have to choose a head unit – with its large display, the Radio MINI Visual Boost in particular opens up a whole new world of interactive possibilities. You can then choose the services, music and Bluetooth/

USB options that are right for you: from MINI Connected to the MINI Navigation system. (The brochure shows a selection of these.) Whether you want technology that keeps you connected or navigation that keeps you on the straight and narrow (or even both), you're sure to find a solution that meets your requirements.

 □ MINI Cooper/D models
 □ MINI Cooper S/SD models

MINI Hatch
 MINI Convertible
 MINI Clubman

① HEAD UNITS.

1. MINI Radio BOOST CD

2. MINI Radio Visual BOOST

② SERVICES.

3. MINI Navigation system: map view

1 The **MINI Radio BOOST CD** (standard on all models except MINI First) has a two column display, antenna diversity for optimum reception, DAB radio tuner, and controls for external audio players.

2 The **MINI Radio Visual BOOST** has all the features of the MINI Radio BOOST CD, and then some: a high-resolution 6.5-inch display with comfortable intuitive control system and a distinctive MINI look and feel, a Bluetooth hands-free kit with USB audio interface, an on-board computer and an audio/video adapter for the Apple iPod/iPhone². The built-in video function (in conjunction with compatible video-capable Apple devices) allows videos to be watched on the display when the car

is stationary. The MINI Radio Visual BOOST is "MINI Connected ready", meaning that for a fee it can be upgraded with the MINI Connected option.²

3 The optional **MINI Navigation system** turns the MINI Radio Visual BOOST into a powerful navigation solution, with navigation instructions given via voice prompts and on-screen arrows and maps. It also includes day and night modes, a search function for points of interest, TMC reception via a double tuner, a GPS aerial and support for updates via the USB interface.²

¹ iPod is a trademark of Apple Computer, Inc.

7. MUSIC, COMMUNICATIONS AND TECHNOLOGY.

② SERVICES.

1. MINI Connected (list of functions)

2. MINI Connected (Driving Excitement function)

3. MINI Connected (Web radio)

1–3 Full speed ahead on the information super-highway: **MINI Connected** revolutionises the world of in-car infotainment, seamlessly linking car and driver with the online world. An all-new USB interface integrates the sophisticated features of your iPhone (not supplied) seamlessly into the audio and infotainment system of your MINI. Information and contents appear on the central display in typical MINI style and are controlled via either the MINI joystick or the multi-function controls on the steering wheel. “MINI Connected ready” apps like the MINI Connected iPhone app allow you to play back web radio stations, connect to Facebook and Twitter or get the latest news via RSS feeds. Another highlight is the Driving Excitement function, which includes a digital sport display and analyses how sporty and accurate your driving style is. The best thing, however, is that from now on you’ll be able to view and operate iPod functions

in the familiar and intuitive Apple menu system in your MINI, all thanks to the revolutionary MINI Connected PlugIn.^{1,2}

¹ Additional optional equipment required.

² Availability and range of features are dependent on the other equipment fitted, and may vary from country to country. Range and design of MINI Connected features subject to change without notice. Broadband mobile internet access required. Costs resulting from this (e.g. data roaming) will be payable as specified in the contract with your network provider. MINI Connected app available free of charge from the device manufacturer’s app store (subject to national restrictions). Updates are available free of charge, but version upgrades may be chargeable. If further MINI Connected-compatible apps become available, these will be identified/promoted accordingly. For more information about device compatibility and the functions contained in MINI Connected, visit MINI.com/connectivity

3 MUSIC.

4. Harman Kardon hi-fi loudspeaker system

4 BLUETOOTH/USB.

6. Basic Bluetooth telephone preparation with USB audio interface

5. Harman Kardon hi-fi loudspeaker system

7. Full Bluetooth telephone preparation with USB audio interface

4 5 Harman Kardon hi-fi loudspeaker system: a digital multichannel amplifier, and a total of ten high-performance speakers seamlessly integrated into the vehicle interior deliver a unique sound experience, thanks to a total output of up to 480 watts, with powerful bass and brilliant treble.

6 The optional **basic Bluetooth telephone preparation with USB audio interface** connects wirelessly to Bluetooth-enabled mobile phones. The USB audio interface supports the connection of a device such as an iPod, USB memory stick or MP3 player. Users can select tracks stored on the device by album, artist, genre etc. via the radio or central display.³

7 The **full Bluetooth telephone preparation with USB audio interface** option also includes a centre armrest and a 3-spoke sports leather steering wheel with multi-function controls and cruise control. With a snap-in adapter, available for a fee, a Bluetooth-enabled mobile phone can be plugged in to a slot in the armrest, which charges its battery, and connects it to the vehicle aerial for improved reception. In conjunction with the optional MINI Radio Visual BOOST you can also use many of the functions on your smartphone, such as Bluetooth audio streaming and album cover artwork display, easily and safely on the radio display.^{3,4}

³ For information on the compatibility of devices for audio, video and telephone functions, visit: MINI.com/connectivity

⁴ Subject to availability of device-specific snap-in adapters.

7. MUSIC, COMMUNICATIONS AND TECHNOLOGY.

1. Speedo

2. Speedo

1 The large **speedo** is positioned in the middle of the instrument panel, and incorporates various warning lights and the fuel gauge.

2 If the MINI Navigation system or MINI Radio Visual BOOST is fitted, then the **speedo** runs round the outside of the central round instrument.

As standard on ■ MINI One/D models

□ MINI Cooper S/SD models

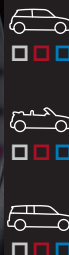

MINI Hatch
MINI Convertible
MINI Clubman

3. Start/Stop button

4. Rev counter

5. On-board computer

6. Rain sensor

3 Once the key is in the ignition, the **Start/Stop button** can be used to switch the engine on or off.

4 The **rev counter** is mounted on the middle of the steering column. The upper display shows the current speed, while the lower display shows such information as the trip distance or seat belt warning for the rear seats. For MINI One D/MINI Cooper/Cooper D/Cooper S and Cooper SD models it also includes the Shift Point Display, telling you which gear is the most economical at any given moment.

5 The **on-board computer** tells you your range, current and average fuel consumption, and average speed at the touch of a button.

The **Condition Based Service (CBS)** system comes as standard on all MINI models, and warns you when the next oil change or service is due, with a digital countdown of the distance to the next service appearing in the lower display of the rev counter.

6 When the **rain sensor** is activated, it automatically switches on the windscreen wipers when necessary, and adjusts their speed to how hard it is raining. The built-in light sensor automatically switches on the driving lights when needed in dark or twilight conditions.

7. MUSIC, COMMUNICATIONS AND TECHNOLOGY.

1. Air conditioning

2. Automatic air conditioning

3. Heated front windscreen

4. Seat heating

1 The **air conditioning** system with microfilter means passengers can enjoy their ideal interior temperature, whatever the conditions outside. The amount and distribution of conditioned air can be individually adjusted. Standard on all MINI models except MINI One D and Cooper D Hatch.

2 **Automatic air conditioning** rapidly adjusts the interior temperature to the desired level, and then keeps it constant. An integrated active carbon filter protects passengers against unpleasant odours from outside.

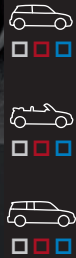

3 The **heated front windscreen** ensures drivers can always see clearly. It includes a heated windscreen, a rain sensor and automatic driving light control.

4 The **seat heating** option allows both the driver and front-seat passenger to choose between three seat temperature settings.

As standard on ■ MINI One/D models

5. Auto-dimming exterior mirrors and interior rear view mirror

6. Rear view mirror with compass function

SO YOU CAN ALWAYS
 SEE WHAT'S GOING ON
 AROUND YOU.

7. Folding exterior mirrors

5 The **auto-dimming exterior mirrors and interior rear view mirror** dim the light from the headlights of following vehicles if this reaches a certain level of intensity.
 6 With the **rear view mirror with compass function**, a digital display is built into the mirror, showing which direction the car is heading in.

7 With the option of **folding exterior mirrors** it's possible to fold the mirrors away electrically and safely.

7. MUSIC, COMMUNICATIONS AND TECHNOLOGY.

1. Comfort access system

2. Comfort access system

3. Park Distance Control (PDC)

4. Panoramic glass sunroof – electric

5. Built-in sunroof function

1 2 The **comfort access system** allows you to lock and unlock the car without even having to touch the key. Simply having one of the two keys in your pocket or handbag is enough. You can also switch the ignition on and off keylessly, simply by pressing the Start/Stop button.

3 **Park Distance Control (PDC)** at the rear makes it easier to park and manoeuvre in tight spaces. An acoustic signal (and a visual display, if the MINI navigation system or Radio MINI Visual Boost is also fitted) informs the driver of the distance between the car and any obstacle.

4 The large opening of the **panoramic glass sunroof** lets in plenty of fresh air. Electronic controls operate the front/rear vent function, and there is also a remote-control convenient opening function. Tinted glass or two detachable roller sunblinds built into the central section of the roof protect the occupants from bright sunlight.

5 The **continuously variable built-in sunroof function** allows a gap of up to 40 cm to be opened in the soft-top. It can be operated even while the car is on the move, at speeds of up to 70 mph.

SEE JUST HOW SUNNY LIFE CAN BE.

6. Openometer

50
51

6 The **Openometer** keeps track of every minute you spend with the top down. It starts running as soon as the soft-top is fully open and the engine is on.

The trip counter goes up to seven hours, and the total time spent with the top down is logged by the on-board computer.

7. MUSIC, COMMUNICATIONS AND TECHNOLOGY.

1. Bi-xenon headlights

2. Adaptive Headlights

3. Fog lights

1 The optional **Bi-xenon headlights** for low and full-beam settings, with headlight beam-throw control and headlight washer system, offer particularly powerful illumination.

2 The **Adaptive Headlights**, featuring automatic headlight beam-throw control, ensure optimum illumination whether driving in city or country, and allow drivers to see further ahead on the motorway. Sensors measure the steering angle, rate of turn and vehicle speed, and electric motors then adjust the position of the light beam accordingly to suit the speed and direction of the car.

3 The **fog lights** are built into the front apron, and offer improved safety when visibility is poor.

 MINI Convertible
 MINI Clubman

4. LED rear lights

5. LED rear lights with built-in rear fog light

6. Rear fog light

7. Rear fog light

4 5 The **rear lights** incorporate **LED technology**. The direction indicator light is positioned in the centre of the unit as a ring around the tail light, with the brake light split into two sections, one above and one below. The distinctive LED light ring makes the MINI easily identifiable from a distance, even at night. On MINI Clubman models, the rear fog light is built into the driver's-side rear light unit and the reversing light is built into the passenger-side rear light unit.

6 The **rear fog light** in the centre of the bumper also incorporates the reversing lights to the right and left, which light up in white when reverse gear is engaged.

7 The **rear fog lights** built into the grille of the bumper at left and right likewise incorporate the reversing lights, which light up in white when reverse gear is engaged.

8. PERFORMANCE.

ONE MORE THING,
JUST FOR YOU.

1. Rear spoiler

2. Rear spoiler

3. Rear spoiler

1–3 There are different designs of **rear spoiler** for different models, all of them perfectly matched both aerodynamically and aesthetically to the MINI in question. Painted in the same colour as the roof, they blend seamlessly into its lines.

□ MINI Cooper S/SD models

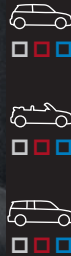

MINI Hatch
MINI Convertible
MINI Clubman

4. Shift paddles on three-spoke sport leather steering wheel

5. 6-speed automatic gearbox

6. Sport button

4 5 The **6-speed automatic gearbox** makes gear changes easy and, in Step-tronic mode, decidedly sporty. In addition to the selector lever, in conjunction with the multifunction steering wheel the 6-speed automatic gearbox has two optional shift paddles on the three-spoke sport leather steering wheel. As both hands can stay on the wheel, the optional shift paddles make for quicker and safer gear changes in manumatic.

6 Pressing the **Sport button** further improves the car's responses to throttle and steering inputs, for an even more involving drive. On vehicles with automatic transmission, it makes gearshift times faster too.

8. PERFORMANCE.

ADRELINE TO GO. THE MINI SPORT PACK.

1. MINI Sport Pack – front apron and side skirts (aerodynamic kit)

2. MINI Sport Pack – rear apron (aerodynamic kit)

5. MINI Sport Pack – Interior

6. MINI Sport Pack – door sill finishers

7. Cross Spoke CHALLENGE alloy wheels

1–7 The **MINI Sport Pack** includes the John Cooper Works aerodynamic kit, made up of a front apron with built-in air ducts to cool the brakes, side skirts with track-style air intakes and a striking rear bumper. For a real racetrack feel, the 17-inch Cross Spoke CHALLENGE alloy wheels in silver and the Dynamic Traction Control (DTC) allow optimum use to be made of natural over and understeer.

The John Cooper Works door sill finishers offer a stylish entrance to the vehicle. And in the interior, the eye is drawn to the three-spoke sport leather steering wheel with contrast stitching in Chili Red, the gear lever knob with Red gearshift emblem and the gearshift and handbrake gaiters with contrast stitching in Chili Red, which add sporty notes. (Where the Automatic Transmission and sport leather steering wheel with shift paddles are specified, the steering wheel does not feature the Red contrast stitching.)

3. MINI Sport Pack – MINI Convertible

4. MINI Sport Pack – MINI Clubman

8. Recaro sports seats

9. John Cooper Works leather dashboard

8 The optional Recaro sports seats with Dinamica leather combination upholstery in Carbon Black, improved lateral support, longer seat base, built-in headrests and embossed logo are the perfect addition. Recaro seats are only available for Hatch and Clubman models.

9 There is also the option of high-quality leather upholstery for the instrument panel with a knee roll in Dinamica Anthracite – the perfect finishing touch to your MINI John Cooper Works.

¹ The John Cooper Works package is only available in selected exterior colours. Please see pages 20/21 for more information.

9. ACCESSORIES.

MINI Hatch, MINI Clubman and MINI Convertible with Genuine MINI Accessories

Side scuttles with Union Jack and Black Line side indicators

Holder for MINI Portable Navigation System

Touring cycle holder²

More MINI feeling, more individuality. With **Genuine MINI Accessories**¹ you can give your MINI a look that is all your own – outside, inside, on top, underneath, back and front. The array of choices starts with the exterior, for example stylish components such as fashionable light-alloy wheels, born of various development processes and design stages. The striking side scuttles are another eye-catcher and are available in a choice of stylish designs and vibrant colours. One of the key interior features is the holder for the MINI Portable Navigation System, because when you know where you're

going, you can look where you're going. The rotatable holder does not obscure the driver's view and is designed so that there are no trailing wires. We wouldn't have it any other way when it comes to Genuine MINI Accessories – we just keep on adding. For example with the lockable touring cycle holder² for transporting a bicycle or mountain bike and the roof box² with central locking (approx. 350-litre capacity). One thing is for certain: Genuine MINI Accessories always has smart solutions for pure driving fun.

JOHN COOPER WORKS TUNING.

MINI Hatch, MINI Clubman and MINI Convertible with John Cooper Works Tuning

Tuning kit: sports silencer, tailpipes in chrome

Sport steering wheel in Alcantara and additional instruments

Cross Spoke R113 alloy wheels with Red Stripe

John Cooper Works Tuning¹ delivers a true racetrack experience. Take the John Cooper Works Tuning Kit, which offers the ideal balance between breathtaking performance and safety. For example, the kit boosts the output of the TwinScroll turbocharger in the MINI Cooper S with manual transmission to an incredible 200 hp³, thanks to a special air filter and reprogrammed engine management software. Even the light-alloy wheels offer the perfect blend of driving enjoyment and safety. All are weight-optimized and fitted with runflat tyres, and you can choose between Burnished Black, Brilliant Black or a Red Stripe. Whichever you opt for, you can be sure that the striking MINI design will make a real impact on the tarmac. The next decision is which of the John Cooper Works Tuning components to select for the interior. The additional

instruments (such as displays showing the cooling water temperature, relative torque and lateral acceleration) are the finishing touches that ensure you'll soon be securing pole position in your John Cooper Works-tuned MINI.

¹ For more information, visit MINI.co.uk/accessories.

² Not available on MINI Convertible

³ The fuel consumption and emissions figures recorded with the John Cooper Works Tuning Kit are identical to the MINI Cooper S figures given on pages 62/63.

MINI SERVICE.

WE'VE GOT EVERYTHING COVERED.

SERVICING. But won't a MINI be expensive to service you ask? Nope. We've made sure of that by offering every new MINI owner their first 5 years servicing (or 50,000 miles whichever is sooner) for a one off payment. We call this MINI tlc. And for even more peace of mind, with MINI tlc XL you can get 3 more years or 30,000 miles of servicing, again for a one off fixed cost. For further information including full pricing, terms and conditions visit www.mini.co.uk/aftersales or contact your MINI Dealer.

UNSTOPPABLE. Interested in buying a MINI? Then you'll also be interested to know that every day, we put all our passion, effort and combined expertise into ensuring you can enjoy uninterrupted driving fun. "Can't" just isn't in our vocabulary. Because with MINI Service, anything is possible.

A BREAKDOWN OR AN ACCIDENT? It's unlikely, we know. But working on the basis that anything can happen, MINI Emergency Service is never more than a phone call away, 24 hours a day, 365 days a year. Specially trained MINI technicians will leave no stone unturned to get your MINI moving again, either over the phone or by coming to you at the roadside. In addition, there is a range of other breakdown assistance services to help you complete your journey (details vary from country to country), and MINI also offers car insurance.

MINI FINANCIAL SERVICES. WARRANTY. RECYCLING.

MINI FINANCIAL SERVICES.

DON'T DREAM IT, DRIVE IT. MAKE IT HAPPEN, WITH MINI FINANCIAL SERVICES.

Admittedly, daydreaming about a MINI can be fun. Just not compared to actually driving one. And the right finance solution from MINI Financial Services can help you find the shortest route from dream to reality, in a way that is tailored to your lifestyle, your budget and the MINI model that you choose.

MINI Leasing, MINI Finance and MINI Select are three roads that all lead to the same destination – namely, making your dream of driving a MINI come true. All of them offer their own unique advantages, and speaking to your MINI dealer will help you decide which one is right for you.

Once you've chosen the car and the finance deal, you'll be asking yourself if there's any way you can make the MINI experience even more exciting. Answer: no, of course not. But what you can do is protect against surprises of the wrong sort, by choosing an insurance solution that was made for MINI drivers. Because as well as finance, MINI Financial Services also offers a range of insurance products that are tailored to your exact needs and preferences.

Your next move? The best thing to do is to make an appointment at your local MINI dealership. The sales advisors there know every MINI Financial Services product inside out, and it's their job to help you make your MINI dream come true.

WARRANTY. RECYCLING.

WARRANTY.

Every MINI is supplied with a three-year unlimited mileage dealer warranty. (This excludes wear-and-tear parts, for example brake pads.) Every MINI also comes with a 12-year anti-corrosion warranty, which covers the vehicle against rusting of the body panels. This warranty is dependent on any previous damage to the vehicle body or under-body (e.g. stone impact damage, scratches, dents, accident damage or other damage caused by environmental factors) having been correctly repaired in accordance with current MINI guidelines. The painted surfaces of the car are covered by a three-year warranty. This excludes any damage to painted surfaces caused by improper treatment or unforeseen environmental factors. The statutory rights of the consumer are unaffected.

RECYCLING.

At every stage, from design to disassembly, recycling is central to the MINI philosophy. For example, all the materials used in its manufacture were selected because they can be used in the most sustainable and environmentally friendly way possible. That way, every MINI can be efficiently and ecologically recycled when its driving days are finally done. We have been working on this approach since 1994 at the BMW Group Recycling and Disassembly Centre in Munich, the only facility of its kind. Your MINI Dealer will be pleased to advise you on the disposal of your old vehicle. Alternatively, more information on this subject can also be found at www.MINI.co.uk

¹ All figures relate to vehicles with the standard 6-speed manual transmission. Figures in square brackets relate to vehicles with 6-speed Automatic Transmission Steptronic.

² All MINI models comply with the EU5 exhaust emissions standard. Fuel consumption is determined in accordance with the ECE driving cycle (as defined in Directive 80/1268/EEC), made up of approximately one third urban and two thirds extra-urban driving (based on the distance covered). CO₂ emissions are measured separately from fuel consumption. Figures relate to standard-specification vehicles, and may vary significantly where optional equipment (including wider tyres) is fitted.
