## **THE LEGACY OF LUXURY.**

In 1999, BMW introduced the Sports Activity Vehicle (SAV) category with the BMW X5. For the first time, a luxurious vehicle that offered superior comfort also demonstrated remarkable sporty characteristics. Since then, the BMW X5 has been setting benchmarks. It has been copied by many but matched by none. The BMW X5 continues the legacy of its predecessors. It is designed to take you around the city and beyond in exceptional luxury. It provides unparalleled comfort, offers extraordinary versatility and of course, continues to give you the ultimate driving pleasure. With the BMW X5, luxury will not be limited by location anymore. You will find exploring the world in it a joy like no other.

## DESIGNED TO OUTDO ITSELF YET AGAIN.

Since its launch, the BMW X5 has been setting milestones in its class - a class of which it was the founding member. And now it's back: The third generation BMW X5 has again surpassed its own benchmarks as a Sports Activity Vehicle (SAV) that delivers outstanding luxury and unparalleled comfort in every regard and never fails to exceed expectations.

It features a huge array of intelligent technologies that take efficiency and dynamism to a whole new level even when it goes off-road. The BMW X5's superiority is also evident in its new design world - Exterior Design Pure Experience. No matter whether you want to make a powerful impression, or prefer a look of understated sophistication, the BMW X5 expresses your own personal style through the exterior and luxurious interior. The striking curves on the BMW X5 signify a personality that never fails to announce its one overriding attribute: supremacy.

## SIT BACK IN LUXURY AND TAKE CONTROL.

### THE BMW X5 xDrive30d DESIGN PURE EXPERIENCE. INTERIOR.

In the BMW X5, perfection is the culmination of an unerring attention to detail. Prepare to be awed by the overall sense of spaciousness and the meticulously selected premium materials and excellent craftsmanship. Opulence has found a new home: where the aroma of exquisite leather meets the sensory pleasure of fine wood and elegant trims.

The capacious interior design features high-quality materials for a unique ambience. Lights package with **Ambient Light** including the "welcome" mode, as well as nine pre-set lighting designs feature tricolour LEDs.

For the first time, the BMW X5 features the newly developed **iDrive Touch Controller**. Its multi-touch surface with a diameter of 45 mm is positioned directly on the Controller and enables you to enter letters and digits with your finger. This way, some controls can be operated more intuitively, faster and with even greater ease. For example, searching your address book or music playlists, or navigating to destinations can all be done using the multi-touch surface.

**Luxurious ambience and superior functionality.** The cabin of the BMW X5 exudes premium appeal and the generous use of leather upholstery enhances the interior ambience.

## EXTERIOR DESIGN PURE EXPERIENCE.

### THE BMW X5 xDrive30d DESIGN PURE EXPERIENCE. EXTERIOR.

The BMW X5 is powerful, masculine and robust. Its visually distinctive underbody protection elements made of brushed stainless steel, air inlet trim elements, kidney grill slats and a rear trim strip in matt silver along with its individual exterior line in satinated aluminium makes it not just hard to miss but also hard to forget.

The very first moment you come face-to-face with the BMW X5, your eyes will be instinctively drawn to its compelling design. No matter when and where you encounter the BMW X5, one thing is certain - its exclusive appearance will take your breath away.

Wind turbulence at the front wheel arches is greatly reduced, thanks to the **Air Curtain** on the front apron and the **Air Breather** at the front wheel arches. Aerodynamically enhanced exterior mirrors and the aeroblade on the rear also play a role in delivering the lowest drag coefficient ( $C_d$  value) in its class.

**Panorama glass roof**, electric, with slide and lift functions, a wind deflector and a comfort opening function via the car's remote control.

## ENJOY THAT FRONT-ROW FEELING, NO MATTER WHERE YOU SIT.

When you take a seat in the BMW X5, one thing becomes instantly clear: perfection is the culmination of an unerring attention to detail. Combined with the striking atmosphere generated by the ambient lighting design, you'll enjoy an ambience of supreme exclusivity. And the standard Harman Kardon Surround Sound System takes perfection to a whole new level. The BMW X5 offers a feast for the senses, no matter where you decide to sit.

**Comfort seats in the rear** feature particularly comfortable upholstery and can be individually adjusted in numerous ways. The two outer seats can be reclined by ten degrees in six stages.

**Automatic air conditioning with 4-zone** control, features separate air volume and temperature controls for the driver and front passenger. Includes microfilter, fogging sensor, Automatic Air Recirculation (AAR), as well as the stationary cooling and residual heat functions plus additional air vents in the B-pillars and separate controls and screen in the rear for individual adjustment of the rear climate.

**Seat adjustment, electric**, with memory function enables the driver to save and retrieve their desired settings for the seat, steering wheel column and exterior mirror.

**Sunblinds** for the rear side windows that can be moved up and down manually for protection against intense sunlight, as well as increased privacy.

## THE VERSATILE SIDE OF LUXURY.

The BMW X5 offers the highest level of versatility in the entire segment. It provides a generous sense of space and ride comfort, efficiency and premium appeal. It is supremely sporty and offers effortless and agile driving experience.

**Tailgate**, two-part, for easy access to the luggage compartment. It provides easy access to smaller items of luggage and the lower section opens up to create a platform capable of supporting up to 250kg. The upper part can be opened and closed using the automatic tailgate operation control. When the lower part is open, it forms a platform that can be locked in line with the floor of the luggage compartment.

**Rear seat backrest** can be folded down in a 40:20:40 split for more transport options and a customisable seat and luggage compartment configuration, as well as a rear centre armrest with two cup holders.

**Third row of seats** enables the interior space to be used more flexibly. The third row of seats includes two individual fold-down seats facing the direction of travel. To facilitate entry, the second row of seats can be folded down using the Easy Entry Function.

## **THE BMW X5 WITH M SPORT PACKAGE.**

### **LEAVE YOUR MARK.**

It's imposing, dynamic and sporty. The BMW X5 with M Sport package is equipped with the adaptive M Suspension that emphasizes its overall dynamism. The M Suspension is also the reason behind its extremely sporty and athletic character. There's also the intelligent all-wheel drive system, the BMW xDrive that makes light work of any challenge. Plus, the M badge on the front wings, tailpipe cover in high-gloss chrome, door sill with M designation are features that give you an edge when you travel off the beaten path. Get behind the wheel of this high-performance luxury vehicle and dominate in style.

## M SPORT PACKAGE.

### THE BMW X5 xDrive 30d M SPORT.

The M Sport package is a must for those who wish to dominate in style. The revolutionary adaptive M suspension adds more zest to the overall driving pleasure.

The sporty look of the BMW X5 with M Sport package is rounded out by the BMW Individual High Gloss Shadow Line, the M badge on the front wings displays a spirit of adventure, whereas the door sill strip with M designation is more than enough to assert your stance wherever you go. All in all, a package that lets you look the part as you play it.

- ▶ M Aerodynamics Kit
- ▶ Door sill strip with M designation
- ▶ Tailpipe cover in high-gloss chrome
- ▶ 19-inch M light alloy wheels Double-spoke style 467
- ▶ BMW Individual high gloss shadow line exterior
- ▶ BMW Individual headliner in anthracite
- ▶ Head-Up display
- ▶ Adaptive M suspension with specifically tuned dynamic damper control and air suspension.
- ▶ M Leather steering wheel

M AERODYNAMIC PACKAGE

M LEATHER STEERING WHEEL

HEAD-UP DISPLAY

**BMW EFFICIENTDYNAMICS.**  
LESS EMISSIONS. MORE DRIVING PLEASURE.

## MAKING A LITTLE GO A LONG WAY.

BMW was one of the first manufacturers to pursue the goal of efficient driving technologies, as a part of its multiple award-winning sustainability strategy, BMW EfficientDynamics, included as standard, is a comprehensive technology package designed to reduce fuel consumption and emissions - while simultaneously enhancing dynamic performance.

## BMW X5 xDrive30d.

The BMW TwinPower Turbo six-cylinder in-line diesel engine with a capacity of 3.0 litres combines CommonRail direct injection and a turbocharger with variable turbine geometry. At engine speeds as low as 1500rpm, this 190kW (258hp) powerplant delivers an impressive 560Nm of torque and takes just 6.9 seconds to sprint from 0 to 100km.

**Aerodynamics.** Air resistance is no match for the sophisticated aerodynamics of the BMW X5. Aerodynamically enhanced exterior mirrors and the aeroblade on the rear also play a role in delivering the lowest drag coefficient ( $C_d$  value) in its class.

The fuel-efficient **ECO PRO Mode** intelligently adapts the characteristics of the accelerator pedal and transmission, as well as the heating/air conditioning settings. ECO PRO tips encourage drivers to adopt a more efficient driving style, while the bonus mileage display keeps them informed about how many kilometres they have saved by driving in the ECO PRO Mode.

**Eight Speed Automatic Transmission** makes changing gears and driving significantly more convenient, thanks to fast engine speed transitions and shorter shift times. It unites outstanding comfort with palpable dynamics and increased fuel efficiency.

**The Auto Start/Stop function** switches off the engine when the vehicle comes to a temporary standstill (e.g. at traffic lights or in a traffic jam) to further reduce overall fuel consumption and emissions. When the driver takes his foot off the brake, the engine automatically starts up again in a fraction of a second.

## MORE AGILITY AND STABILITY WITH THE INTELLIGENT ALL-WHEEL DRIVE SYSTEM.

### BMW xDRIVE.

Optimised road holding is crucial for a truly dynamic driving experience. In the BMW X5, this is achieved by a weight distribution of almost 50:50 between the front and rear axles, as well as neutral steering behaviour, a high level of directional stability and fantastic traction courtesy of the intelligent xDrive four-wheel drive system.

Whenever road conditions change, **BMW xDrive** immediately recognises the need to shift power distribution and responds proactively by preventing wheel spin right from the start. Thus ensuring maximum directional stability and outstanding traction in every driving situation.

**Servotronic.** The standard Servotronic feature adjusts the power steering to suit the current speed and also ensures a direct, precise steering response at high speeds. It also provides superior comfort by minimising the physical effort required when steering, while increasing agility at high speeds, while parking, manoeuvring, or navigating narrow or twisting roads.

The **Comfort adaptive suspension package** combines Dynamic damper control with air cushioning on the rear axle for the ultimate in driving comfort. And whenever you want a sportier chassis set-up, you can use the driving experience control switch to activate one of the two more dynamic modes.

## THE CO-PILOT OF YOUR LUXURY TRIP.

BMW ConnectedDrive comprises a host of innovative functions for greater safety and convenience which makes every trip even more enjoyable. From helping you to reach your destination on time to keeping you entertained, the BMW X5 makes your life easy at every turn.

### Navigation System Professional

Navigation System Professional including, hands-free kit, with USB interface, fixed 26cm LCD colour display with split screen function (main and assistance windows), Radio Professional with DVD drive, 20 GB storage capacity for audio files. The unit is operated intuitively via the iDrive Controller with direct menu control buttons and eight functional bookmarks. Maps are displayed in 3D with satellite background images. Selected sights are shown as photo realistic images.

### iDrive Touch Controller

iDrive Touch Controller for intuitive and convenient operation of the iDrive system. You can easily enter destination addresses (for example) into the navigation system using your own handwriting via the touchpad integrated into the Controller.

### xDrive Status

xDrive Status provides information for off road driving on the instrument panel and the Control Display. In addition to the compass function, it also shows the car's angle of inclination both visually and in degrees.

### Rear View Camera

Rear View Camera enhances visibility when reversing at speeds below 20km/h, for example when parking. It shows the area behind the car on the Control Display.

### BMW Apps

You can now use Apps in your BMW. With the Apps option, an iPhone and the free BMW Connected App from the Apple App Store, your calendar is with you all the time and you are always in contact with your friends. And that's just the beginning, you can also use and experience 3rd party Apps like Tune in, Aupeo, glimpse.

### Harman Kardon Surround Sound

System includes a powerful 600 W digital amplifier, vehicle-specific equalizer central speaker and 16 loudspeakers for truly outstanding sound quality.

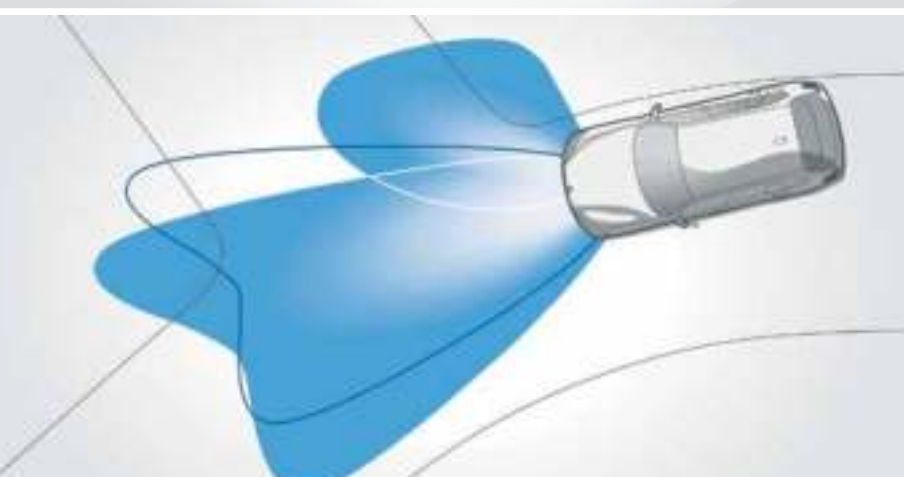

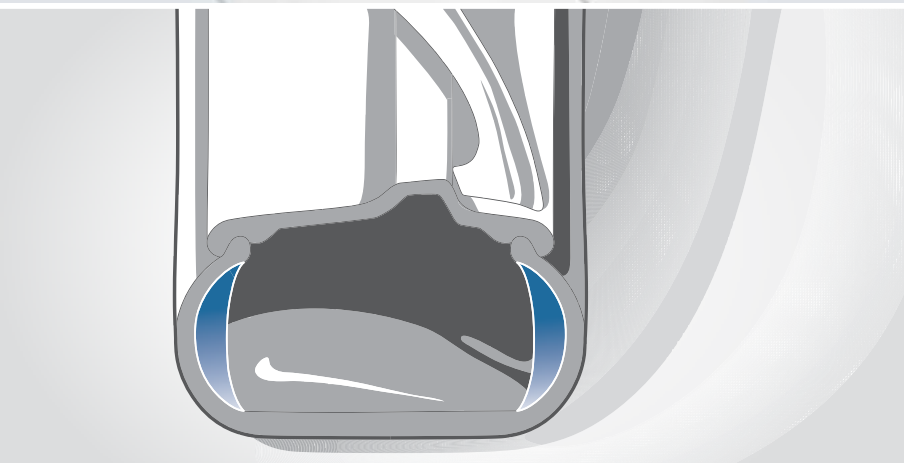

### Park Distance Control

PDC front and rear makes it easier to manoeuvre and park the vehicle in even the tighter spaces. The system is automatically activated and proximity of obstacle is indicated acoustically as well as visually on the Control Display.

## **UNPARALLELED SAFETY WITH THE LATEST BMW TECHNOLOGIES.**

The BMW X5 is equipped with cutting-edge technologies for every eventuality. Superb handling and innovative equipment come standard. Drivers benefit from the very latest technologies that provide optimal support at all times. You will feel safe and protected, no matter where your journey takes you.

**Dynamic Stability Control (DSC)** with extended functionality including Cornering Brake Control (CBC), the hill-start and braking assistant, brake drying and braking readiness. DSC recognises any slight skidding and stabilises your car within fractions of a second. Dynamic Traction Mode (DTC) is a subsidiary function of DSC. In certain driving conditions it allows increased wheel slip, which optimises acceleration and enables you to drive more dynamically.

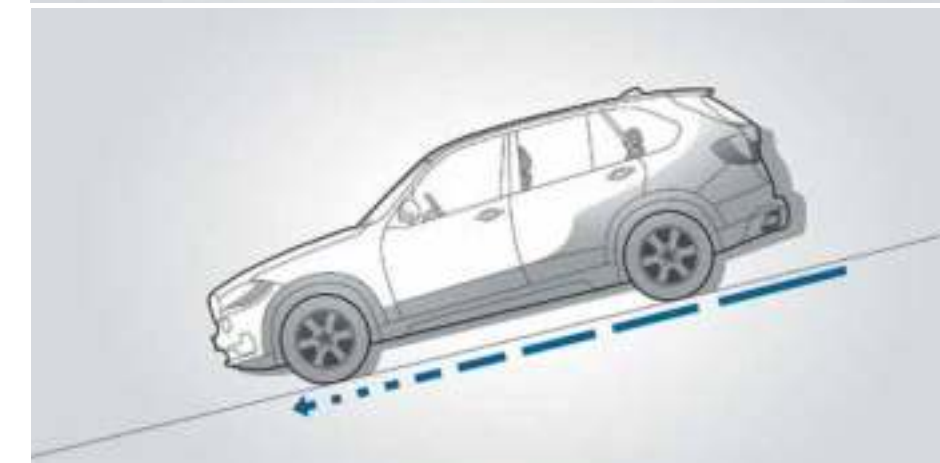

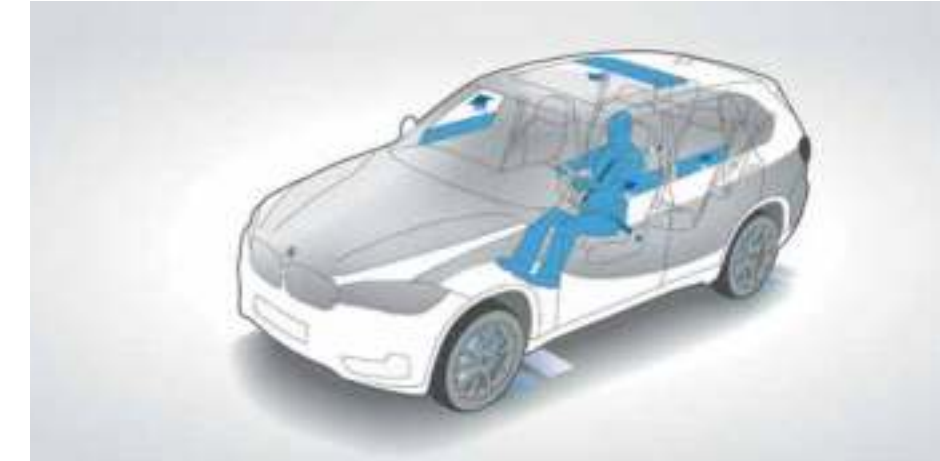

**Runflat Tyres with Runflat Indicator:** In the event of a puncture, reinforced sidewalls in the Runflat Tyres help you get to the nearest workshop. The Runflat Indicator (TDI) warns the driver with a light in the Control Display when there is a slight drop in tyre pressure. When there is a large pressure drop, there is an additional acoustic warning.

**The Adaptive Headlights** include variable light distribution for city and motorway driving, the anti-dazzle High-Beam Assistant (automatic operation of the high-beam lights), as well as Bi-Xenon headlight technology for excellent illumination of the road ahead. The included cornering lights are automatically activated when the indicator is switched on or when the steering wheel is turned, even when the car is at a standstill.

**Active Protection with Attentiveness Assistant** is the BMW ConnectedDrive preventive occupant protection system. If a critical situation arises on the road, the front seat belts are reversibly pretensioned, the electrically adjustable front passenger seat is brought into an upright position and the side windows are closed - as is the Panorama glass roof. A critical situation could include an emergency braking procedure that you have initiated, or if the car demonstrates excessive understeer or oversteer. In certain accident scenarios, the brakes are automatically applied as gently as possible to bring your car to a standstill. This helps to reduce the possibility of a second collision, or even prevent it altogether. Furthermore, the Attentiveness Assistant monitors your behaviour for signs of fatigue. The system analyses your steering response and reacts to irregular driving behaviour by issuing a notification on the Control Display suggesting you take a break.

**Hill Descent Control (HDC)** in the xDrive models is a system which, when activated, ensures that the vehicle can negotiate the steepest downhill runs automatically and safely at just above walking pace, without the driver having to brake.

**Passenger Cell:** BMW is dedicated to building extremely rigid passenger cells for every single model. This not only leads to increased precision steering and agility, but also provides greater safety for you and your passengers. The body only yields in precisely defined areas at the front and rear. Should an accident occur, these deformation zones are capable of absorbing a large amount of the impact, thereby minimising the severity of the collision as it happens.

# **ORIGINAL BMW ACCESSORIES.**

## **CARRY YOUR LUXURY WHEREVER YOU GO.**

As a proud BMW owner, accessories customised to your own individual taste are exclusively available to you at special prices. Now you can further enhance your driving pleasure with Original BMW Accessories.

Personalise your BMW X5 for a greater level of luxury. Choose from our wide range of accessories specially designed for the interior and exterior, entertainment and connectivity, travel and comfort to suit your individual needs.

## BRINGING STYLE TO EVERY ROAD.

### ORIGINAL BMW EXTERIOR ACCESSORIES.

Allow yourself to highlight the sporting character and elegance of your BMW X5 from a selection of functional and high-quality accessories.

#### 1. M Aerodynamics package

Tailored to the style and function of your BMW X5 Series, the M Aerodynamics package accentuates the aggressive and sporty character of your vehicle while optimising handling capabilities. The package includes front bumper, rear bumper, and side trim.

#### 2. Pure Experience exterior design

The perfect combination of athleticism, aesthetics and adventure. The optional Pure Experience design underscores the untamed spirit and sophisticated character of the BMW X5. Visible underbody protection, front and rear and for the side skirts, is made in brushed stainless steel. The front air intakes, with their contrasting black grills and matt silver clasps, also impress. Other elements in this design package include matt Silver exhaust pipe finishers and a rear bumper trim comes as standard in India.

#### 3. Aluminium running boards

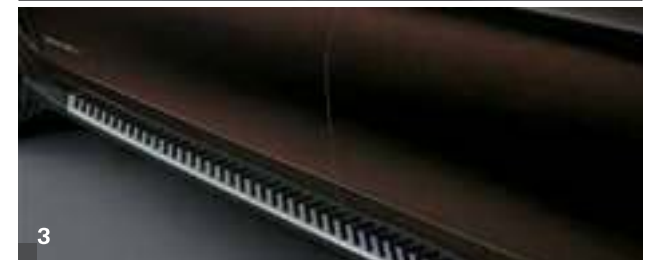

Broadened step surface made of brushed and anodized aluminium.

#### 4. Car cover (Not illustrated)

The car cover for the windscreen and front side windows is silver in colour, with a surface that is heatproof and water and dirt-repellent.

#### 5. Mud flaps (Not illustrated)

Protect your car and the vehicle behind you against dirt and loose chippings. Available for both front and rear wheels.

## ARRIVE IN STYLE.

### ORIGINAL BMW LIGHT ALLOY WHEELS.

BMW light alloy wheels emphasise the dynamic character and exclusive style of your BMW X5. Not only that, these lightweight cast wheels also help the suspension to smother surface imperfections and improve handling and braking. All wheel/tyre combinations undergo rigorous selection and testing processes, and every last detail is optimised for use to ensure they meet the highest standards of quality as per the Indian market driving condition specifications.

**1. Double-spoke 310 M, BMW M Performance, 21 inches.**

**2. Y-spoke 375, BMW M Performance, 21 inches.**

**3. Star-spoke style 491 tyres, 20 inches.**

**4. Y-spoke style 451 tyres, 20 inches.**

**5. W-spoke style 447 tyres, 19 inches.**

**6. Double-spoke 467 M, 19 inches.**

**7. Star-spoke style 490, 19 inches.**

## TAILOR-MADE FOR YOUR BMW.

### ORIGINAL BMW INTERIOR ACCESSORIES.

On a perfect day everything is as it should be. You are free to think about the essential things in life and simply enjoy Sheer Driving Pleasure in your BMW. Interior solutions by BMW give you tailor-made accessories that blend perfectly into your BMW X5. Be it child-seats that keep your loved ones safe or a simple sunglass holder that you can reach effortlessly while driving, on a perfect day these small things contribute to Sheer Driving Pleasure.

#### 1. BMW Junior Seat Group 1

The BMW Junior Seat Group 1 is suitable for children from about 12 months to 4 years (approx. 9 to 18 kg). The child seat consists of a seat shell with its own five-point belt system and the ISOFIX base. The seat can easily be adjusted forwards and backwards on the ISOFIX base, if this is available. The patented built-in air pads guarantee high safety in side collisions and are also comfortably soft in daily use.

#### 2. Rear storage bag

A combination of exceptional design and intelligent functionality. Attached to the back seat with the centre seat belt, it can be packed with items at home and provides useful additional storage, including two exterior cupholders. It also comes with a detachable insulated inner bag with a handle. Made from hard-wearing material.

#### 3. All-weather floor mats

These floor mats are dirt-repellent and water resistant. Available in Anthracite.

#### 4. Velour floor mats

A perfect fit, dirt and water-resistant. Available in Anthracite, Oyster and Canberra Beige. Set of floor mats (4).

#### 5. Cool bag

CFC-free electrical cooling unit can maintain a temperature of up to 18° C below the exterior or surrounding atmosphere. Contents: 14 litres.

#### 6. Backrestbag

The perfectly fitted bag with variously sized compartments can be easily attached to the back side of the driver's or front passenger's seat. For storing small objects.

## TRAVEL AND COMFORT SYSTEM.

### 1. Coat hanger

The coat hanger allows clothes to be transported without creasing. It can also be detached from the mounting and used to carry clothes outside the vehicle.

### 2. Folding table

The table offers rear passengers a practical surface. Its height and incline can be adjusted.

### 3. Base attachment

The modular Travel and Comfort System utilises a basic carrier that can be easily mounted between the headrest pillars. This can then be used with a clothes hanger, a folding table, a universal hook or a holder for the Apple iPad™.

### 4. Universal hook

The universal hook can be used to hang items such as light bags or a garment bag.

### 5. Holder for Apple iPad™

The BMW cradle for the Apple iPad™ effortlessly fits to the Travel and Comfort System's base carrier with its modular plug connector, and flawlessly integrates the iPad™ into the car.

## TRANSPORTATION AND LUGGAGE SOLUTIONS.

### 1. Mobility set

The set consisting of pump, tyre gel, gloves and valve adapters. The combination of the powerful compressor and 750 ml tyre sealing gel outperforms other compressor kits and tyre repair sprays available in the market.

### 2. Driver utility set

Equally useful at home and on the move. Comprises a selection of tools branded with BMW lettering, including a screwdriver with a chrome-plated blade attachment and a set of 16 head attachments, a chrome-plated spanner and polished chrome-plated pliers, plus a high-quality pocket knife, torch and nylon gloves, all in a sturdy nylon bag with an embossed BMW wordmark.

### 3. Jump leads (Not illustrated)

High-quality copper jump leads. With a protective circuit for restricting voltage spikes. Two versions are available: 4.5 m x 35 mm<sup>2</sup> or 3.5 m x 25 mm<sup>2</sup>. For petrol engines with up to 7-litre capacity and diesel engines with up to 4-litre capacity.

### 4. Dog safety harness (Not illustrated)

It is available in three sizes. Designed to harness dogs on the rear seat in accordance with regulations, thereby helping to protect all occupants. The dog lead can also be attached to the safety harness when stretching one's legs during a break from driving.

### 5. Fitted luggage compartment mat

Luggage compartment system with a non-slip, precisely fitting mat in durable plastic. Oil and solvent resistant.

### 6. Loading sill protective mat

The upholstered mat is made of slip-proof material. It can be folded out over the loading sill to protect against damage. It can also be used to provide additional seating. It is made of waterproof material.

## WELL CONNECTED. COMMUNICATION AND INFORMATION.

Communication, navigation, entertainment - today's drivers expect more from their cars. With Original BMW Accessories, you can equip your BMW with the very latest in mobile communications. The BMW Bluetooth hands-free kit and snap-in adapter keep you in touch with the outside world. The DVD navigation systems with dynamic route planning keep you on course for your destination. And the iPod interface and BMW Portable DVD system keep you and your passengers entertained all the way there. Original BMW communications accessories offer the ideal solution for every requirement.

### 1. Dual USB charging adapter/quick charger (Not illustrated)

Conveniently charge mobile devices in the vehicle via the cigarette lighter. Charge up to two mobile devices at the same time. Higher charging current enables fast charging (Quick Charging). Suitable for the iPhone, iPod, iPad and many other mobile USB devices.

### 2. Single DVD tablet system

Includes a portable 7-inch screen in chrome as well as a holder that can be mounted to the headrest columns. The DVD system can be easily connected to the vehicle using the 12 V socket. The DVD player integrated into the screen can play video DVDs, image CDs and audio CDs (including mp3 format). JPEG images and music stored on USB sticks and other storage devices can also be accessed.

### 3. BMW Car Hotspot LTE

The BMW Car Hotspot LTE is a mobile hotspot that can be used to access high-speed internet both inside and outside of the car with the power of LTE technology. It can be used with up to eight devices. The only other thing needed is an LTE or 3G capable SIM card that is inserted in the hotspot. Because it is connected via the car antenna, there are no electromagnetic waves inside the car. Smooth integration – no specialist installation necessary.

### 4. Snap-in adapter

The snap-in adapter is a safe and robust docking system with built-in rapid charging function suitable for Apple, Nokia, Motorola, Samsung, Sony and BlackBerry mobile phones. An external aerial ensures the best possible reception at all times, while reducing the amount of radiation in the vehicle interior, depending on the vehicle equipment, the mobile in question and the snap-in adapter smartphone application. The driver can also integrate smartphone applications from BMW.

# THE EXPRESSION OF FLAWLESS DYNAMICS.

## ORIGINAL BMW M Performance Accessories.

Whether in terms of aerodynamics, drive train, or cockpit, BMW M Performance Accessories make all the difference, with each component specifically designed to deliver the ultimate track experience. Give your BMW breathtaking racing feel with retrofitted adrenaline.

### 1. BMW M Performance Aerodynamics package

Sporty, high quality and perfectly adapted to the vehicle's design. The BMW M Performance Aerodynamics package with front splitter, rear diffuser and black side stripes makes an unmistakable impression and underlines the dynamic character of your BMW X5 Series (side sills indicated).

### 2. BMW M Performance carbon wing mirror caps

The carefully handcrafted mirror caps have a sporty design and are adapted to the BMW X5 Series to create a high-tech feel.

### 3. BMW M Performance front grille, black

The BMW M Performance black kidney grille emphasises the athletic and dynamic character of the vehicle. Its frame is high-gloss black.

**4. BMW M Performance transfer for the side sills**

The side skirt adhesive film in black with "M Performance" lettering and the three-coloured "M" logo is optimally suited to the design of the vehicle and puts additional emphasis on sportiness.

**5. BMW M Performance light alloy wheel Double-spoke 599 M Bicolour, Orbit Grey/burnished, 21 inches**

The BMW M Performance 21 inches light alloy wheels in Double-spoke style 599 M are bicolour matt Orbit Grey, gloss-lathed on the visible side, and feature the four-colour "M" logo.

**6. BMW M Performance light alloy wheels Double-spoke 310 M Bicolour, Ferric Grey/burnished, complete wheel set, 21 inches**

The BMW M Performance 21 inches light alloy wheels in Double-spoke style 310 M are bicolour Ferric Grey, gloss-lathed on the visible side, and feature the four-colour "M" logo.

**7. BMW M Performance 19 inches brake system (Not illustrated)**

The BMW M Performance 19 inches brake system's ventilated lightweight sport brake discs with aluminium fixed-calliper front brakes and floating-calliper rear brakes ensure fast deceleration even under high thermal stress.

**8. BMW M Performance exhaust pipe finishers in chrome**

This high-gloss chrome-plated stainless steel trim has an eight-cylinder styling and underlines the sporty character of your BMW.

**9. BMW M Performance Power Kit**

The BMW M Performance Power Kit further increases the already impressive performance of your BMW X5, thanks to perfectly matched software and hardware components. Peak engine torque varies according to the selected gear.

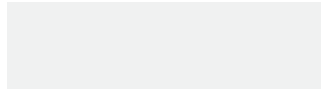

**10. Stainless steel pedal covers**

The BMW M Performance Stainless steel pedal covers are carefully crafted for a perfect fit. The high-quality, glossy metal adds a clean, high-tech appearance and enhances the look of the footwell. Asymmetrical and three-dimensional rubber profiles on the pedals and footrest ensure great traction.

**11. BMW M Performance steering wheel II Alcantara with carbon trim**

The BMW M Performance Alcantara steering wheel with carbon fibre trim and a 380 mm diameter features hand-stitched Silver Grey cross-stitching and emphasises sportiness with a red centre band made of leather. The steering wheel trim with the "M" logo is constructed with lacquered, highly polished carbon fibre.
