Ford

# When you're the best, it shows.

What auto experts are saying about the Next-Gen Ford Figo.

---

"It is the Ford Figo that emerges at the top being the jack of all trades. It looks good, has the most energetic engine, good features and a good ride-handling balance. The Ford Figo for us then is the new king of the segment." - **Zigwheels**

"The new Figo does impress on many counts. It's attractive to look at, is spacious and offers great ride comfort. Plus, Ford gives you three engine options, loads of features and more importantly, it has put in a lot of effort to make an Indian-made hatchback safer, and that's a great move." - **TopGear India**

"Ford has worked hard to take an already successful recipe forward in a great manner. The new Figo not only looks better than its predecessor but also has the presence to worry its rivals. The cabin is more spacious now and the car comes with considerably more equipment. It comes loaded with safety features and a few segment firsts in an attempt to trump its rivals. The car drives well and comes with a set of powertrains to appeal to a wide customer base." - **AutoX**

"The new Figo is smart-looking, comes with a roomy enough interior and also is loaded with plenty of features. To many, the impressive safety kit on board the Figo should be reason enough to be very interested in it." - **Autocar India**

"New Ford Figo builds up on its predecessor's proven formula of offering great value for money in addition to successfully addressing the power deficit and aesthetic shortcoming. It continues to be fun to drive, spacious, well equipped and very efficient while getting much more safer." - **RushLane**
