

SMALL CAR. BIG DELIGHT

SANTRO Xing

A New Shining Dawn. Here Comes the Sun Again.

Presenting the Next Generation Santro. All new Santro Xing.
A stunning example of modern automobile design and continuous customer feedback driven advancement.

Tall, wide and uniquely different, the new Santro Xing has a distinctly European styling. While its sleek lines and pleasing curves and contours will capture your heart. The compact outer dimensions, combined with its sporty stance, will ignite passion of driving into the sun and makes it stand out in a crowd of old hatchbacks & jelly bean shapes. So step into the Santro. Add sunshine to your life.

The new Santro Xing comes with all new looking feel exterior and interior styling. That, coupled with new advanced features, offers the best comfort & luxury in your favourite compact car. New bigger & brighter clear headlamps, smiling radiator grille, power operated rear windows with child lock and lots of other smart features like the seat under tray are the hallmarks of your Sunshine Car.

Engineering Excellence. Emotional Ecstasy. The Sun Shines Across the Globe.

Santro has proved to be the best compact car in India, thanks to its excellent design and extensive testing for over 100,000 kilometers in real Indian road and climate conditions. Now Xing with its new aerodynamic styling, power-assisted brakes, the advanced suspensions, the uniquely responsive technology is as much a magnificent creation of our drive to delight you as much as a benchmark in engineering excellence. Santro is being produced exclusively in India and the Indian Xing will now drive the World.

Genius at Work.

Most Modern Multi-Functionality.

MULTI FUNCTIONAL

• **Tall & Wide** : The height and width of the Santro makes it one of the most spacious compact cars on road, making not only entry & exit easy but also towering above everything else on the road. Massive glass area; both in front and rear, large wide opening doors, and many other features make this compact car big in usage.

• **Amazing Versatility** : You can create your own space in the Santro. With adjustable front seats and dual folding rear seats, the Santro can be converted from a highway cruiser to a shopping car in seconds. The hi-lift hydraulically damped rear tailgate makes loading and unloading easy.

ENGINEERING

Cutting-Edge Technology

Terrain-Blurring Power

The Hyundai Santro is powered by the advanced Hyundai Epsilon engine. Employing advanced cylinder head design with dual inlet valves, tumble ports and pentroof combustion chamber, this engine produces incredible power at a much lower rpm compared to any other car in its category. With its unique engine management computer continuously sensing what's happening inside the engine, to constantly monitoring the engine performance, makes it amazingly responsive to your touch and feel.

E-Epsilon

**12V SOHC | 63ps@5500rpm
9.1kgm of torque@4000rpm**

Distributorless Ignition System (DLI) Multi-point Fuel Injection System with Multi Valves

The amazingly high-powered sports car performance of the Santro Xing comes from its 12V SOHC Epsilon engine and its impressive power-to-weight ratio. Its in-line 4 cylinder, 1086cc engine is fired by a Distributorless Ignition System (DLI), developing 63ps @ 5500rpm and 9.1kgm of torque @ 4000rpm. The DLI System does away with a distributor that wears away and needs periodic replacement, thereby reducing maintenance cost. Also the DLI system allows for more precise control of spark timing resulting in improved fuel efficiency, reduced emission and increased power. The multi-point fuel injection system along with dual intake valves meters the exact amount of fuel that your engine needs. Coupled with Knock Sensor, taking care of the Indian fuel quality, gives you the level of fuel economy you could never imagine before. No wonder Santro also well exceeds the Euro-II norms.

• World Class McPherson Strut Suspension

The Santro offers McPherson Strut Suspension in the front with stabilizer bar. In the rear, you have the torsion beam axle, 3-link offset coil springs and hydraulic dampers. This helps to iron out the pot-holed Indian roads with a smile. Not only that, the wider tyres give you surefootedness even on slippery surfaces.

• Ventilated Disc Brakes

All Santro models come equipped with larger 'Ventilated' front disc brakes. These ventilated discs, with in-built air vents along the circumference, dissipate the heat generated by braking, much faster than the conventional solid discs. The ventilated brake disc cools down much faster, thus facilitating solid and dependable brake performance even under severe traffic conditions in cities and towns as well as enhancing the life of brake pads.

• Aerodynamic Styling

The much-improved low drag co-efficient of the wind tunnel developed shape of the Santro Xing ensures maximum fuel economy. The specially designed large radiator grille and massive bumper air dam maximises airflow into the radiator. Keeping it cool at all times.

COMFORT

Feelings, Thoughts & Dreams.

And a Lot of Science.

The new look & feel interiors of Santro Xing have been designed to please your senses and cradle you in comfort. New 3-spoke steering wheel with thicker grip, sporty instrument cluster, complete pillar trim, rich fabric upholstery and a host of other thoughtful additions not only add a touch of luxury but also give that superior driving feel. The Santro Xing is indeed a compact car packed with a lot of smart ideas. Actually, convergence of dreams & design. The incredibly roomy interiors of the Tall-Boy Santro is designed to maximize personal space. So you never feel cramped. The ample leg, head and elbowroom allows you to stretch even while sitting - A rare luxury for a car its size. The scientifically designed seats offer firm thigh and back support for comfortable and stress free driving experience while the head restraints in front and rear offer no-compromise safety to all occupants.

So get into your Santro now and enjoy the real pleasures of long drives with your loved ones. Something, you always wanted to do.

High Seating Position Commanding Visibility

• Rear Power Window with Child Lock

• 4-Speed Automatic Transmission

Now enjoy the freedom from stick gear shifting & frequent clutch pedalling with the new Santo Automatic. With electronically controlled 'intelligent' power train system, Santro Automatic offers the most relaxed way to busy city motoring. The 4-speed transmission features a compact ultra-light weight gear train, high performance torque converter and hydraulic-electronic control, offering four forward gear ratios to deliver a wide array of speed and power to surge ahead or retard as per your need.

• Maneuverability with Power Steering

With Power Steering lock to lock turn of the steering wheel is substantially lesser, the effort required to turn the wheel is minimal. Squeezing into difficult parking lots, negotiating the rush-hour traffic, is not just effortless but fun, as well. Ability to absorb jerks of pot-holed roads and much greater control of the steering wheel, not only help you to glide over the roads but also provide enhanced safety in case of accidents like bursting tyres.

• Air-Ventilation System

Comfort as a detail is to its depth when it comes to driving the Santro. Same is the reason why the Air Conditioning and the ventilation system inside the car is so designed to give all round comfort to the driver and passengers. The ventilation ducts, now redesigned, produce a circulatory effect inside the car providing total body comfort and absolutely relaxed driving feel, keeping you shielded from dust and uncomfortable weather conditions.

The Science of Complete Care.

Safest in a Santro.

SAFETY

The Santro Xing is not just about passion to give you the best but also about automotive science & technology for your complete care. No doubt then, that safety is not just a feature of the Santro Xing. It is an integral part of the total car design engineering. So every single system in the car contributes to making the Hyundai Santro one of the safest and strongest vehicles in India. In fact history repeats itself. Santro pioneered the world class safety standards in India and now with Xing, Hyundai raises the bar once again for the entire compact car segment.

Occupants are protected by safety cell
Tested for safety on one of the most gruelling test tracks in the world.

• Crumple zone safely absorbs impact force

Occupants are protected by safety, now further reinforced as per strictest of world safety norms. Tested for safety on one of the most gruelling test tracks in the world. Tested for frontal and offset impact.

• Safety Frame & Zone

A pair of ultra-high strength steel members is built into the doors for additional protection against side impact.

• Antilock Braking System (ABS)

Santro is the only compact car in India to offer world class Antilock Brakes as option on all trims. The importance of ABS is ever increasing with fast lane highways coming up in the country. The ABS is designed to help the driver remain in control of the vehicle while he brakes, no matter how slippery the surface. By preventing wheel lock, ABS helps you in preventing skids and allows maneuvering sudden obstacles while you brake.

Key Technical Specifications and Features

SANTRO XING

Dimension & Weight	Overall Length (mm)	3565
	Overall Width (mm)	1525
	Overall Height (mm)	1590
	Wheelbase (mm)	2380
	Front Track (mm)	1315
	Rear Track (mm)	1300
	Fuel Tank Capacity (L)	35
	Min. Turning Radius (m)	4.4
	Seating Capacity	5
	Kerb Weight (kg)	854 (M/T), 868 (A/T)
Engine	Model Designation	Hyundai Epsilon Engine
	Configuration	In-line 4-cylinder 12-Valve SOHC
	Fuel System	Multipoint fuel injection
	Displacement	1086 cc
	Ignition System	Distributorless
	Cylinder Head	Aluminium
	Emission Control System	3-way Catalytic Converter with Evaporative Gas Control Meeting Bharat Stage II Norms
Performance	Max. Horsepower	63/5500 ps/rpm
	Max. Torque	9.1/4000 kgm/rpm
Transmission	Manual	5 Speed Forward with Overdrive in 4th & 5th
	Automatic	Electronically Controlled 4 Speed Forward with Overdrive in 4th
Suspensions	Front Suspension	Mc Pherson Strut with Stabilizer Bar
	Rear Suspension	Torsion Beam Axle, 3-Link Offset Coil Springs & Hydraulic Dampers
Brakes	Front Brakes	Ventilated Discs
	Rear Brakes	Self-Adjusting Drums
	Pad Wear Warning Clip	Standard
	Booster(capacity)	Vacuum Assisted (8 inches)
Tyres	Size	155/70 R 13 Radial

Colour Guide

Networked for Customer Care.

The Hyundai Santro is backed by one of the largest service networks in India. To begin the car rolls out through a dedicated Pre-Shipment Quality check centre at our Chennai Plant. A web of over 300 and growing Dealer branches and Hyundai Authorized Service Centres (HASC's) each comprehensively equipped with state of the art workshop technology, equipment and customer oriented trained manpower ensure total peace of mind anywhere in India. Moreover all dealers are equipped with Emergency Road Service (ERS) cars to cater to any problems anywhere. Obviously the Hyundai Santro will never be too far away from help, if it needs any.

* The Hyundai Santro was the highest ranked small car in the J.D.Power Asia Pacific 2001-2002 India Initial Quality Study™ 2002 based on a total 3,131 consumer responses indicating owner reported problems during the first 3-5 months of ownership.

** J.D.Power Asia Pacific 2001-2002 India Automotive Performance, Execution and layout (APEAL) Study™ 2002 based on a total 3,131 consumer responses. www.jdpower.co.jp

Santro has had an enviable record-shattering life span. JD Power ranking for 'Best Initial Quality' and 'Most Appealing Car' 3-years in a row. No. 1 best-selling compact car 3-years in a row.
