NEW SPORTIER

INTERIOR & EXTERIOR

*Ex-showroom price Delhi, applicable with effect from 23rd May 2023. All subsequent bookings prices will be applicable at the time of sale. *T&C Apply. Advanced Driver Assistance System (ADAS) is not a substitute for human eye and driver vigilance. It is a driver assist system that enhances driving experience and safety. The driver shall remain responsible for safe, vigilant and attentive driving. Images & depictions are for illustration & representation purposes only. Features and specifications as shown in the brochure are not standard for all variants. MG Motor India urges drivers to follow traffic rules which are meant to keep them safe on roads. The car is presented with accessories and it is to be purchased separately and is not inclusive in the car price.

OUR DNA OF ADVENTURE

The nomenclature of 'GLOSTER' was a tribute to the first British jet-engined aircraft prototype. The famed **ADVANCED GLOSTER** is now cloaked in the boldest, deepest hue: **BLACK**. Black is a statement of intent and an undeniable presence. The **Advanced GLOSTER BLACKSTORM** fuses formidable power with sporty aesthetics which complement your enigma. Every element is darkened, coupled with red accents that stand out along the bodywork. It's an automotive marvel built with latest technology to deliver an inimitable driving experience.

EXCEPTIONAL CHARACTER. INCREDIBLE PRESENCE.

INDIA'S FIRST AUTONOMOUS
LEVEL-1* PREMIUM SUV

ASSISTED AND INTUITIVE DRIVING

ADAS is a group of safety and convenience functions intended to improve comfort for drivers, road safety and preventing or reducing the severity of potential accidents. ADAS can do all this by alerting the driver, implementing possible safeguards in the vehicle & automating driving controls (based on the driving automation level of the vehicle).

Advanced Driver Assistance System (ADAS) is not a substitute for human eye and driver vigilance. It is a driver assist system that enhances driving experience and safety. The driver shall remain responsible for safe, vigilant, and attentive driving. [#]FCW alerts the driver of potential collision by detecting pedestrian, bicycle or vehicle in front through visual and acoustic signals. [~]AEB activates braking intervention to help in preventing collision at slow speed or reduce speed of collision by decreasing the vehicle speed by 40 km/h at most (braking intervention for 4 Wheelers only). ^{*}T&C Apply
