

MONTERO

Perfectly Composed

At rest, yet brimming with life, Montero's poise reflects the exhilaration of the drive ahead. Awaken Montero and awaken your sense of adventure once again.

Absolute Power

They say that power corrupts, but that's because they want some too. What you decide to do with it is a question of character. If you're ready, seek out the new Montero and indulge the hunger from within.

Potential Energy

With a graceful elegance that only hints at the rugged power lurking beneath, Montero's beautifully crafted curves create an interplay of light and shadow.

Drive Your Senses Wild

With years of Dakar titles inspiring drivers to take to the open road, Montero turns up the excitement even further. Under the concept of greater power with greater control, a new higher-displacement 3.2-liter DOHC has been ideally matched with the intelligent Mitsubishi Active Stability Traction Control system. Employing a series of active sensors for each wheel and a new electronic throttle control, M-ASTC works

in perfect synch with the enhanced engine to peak driving performance in difficult conditions. So no matter what the road throws your way, now you'll be ready to take it all in stride while setting your senses aflame with the added performance.

The Beat of a Different Drum

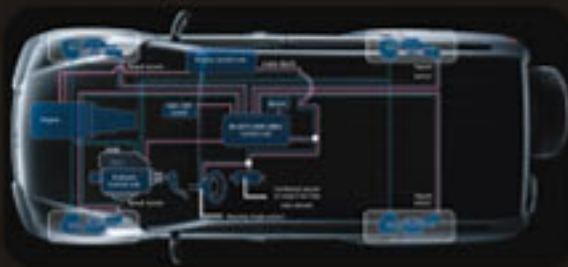

3.2-liter 16-valve DOHC Intercooled Turbocharged DI-D

Delivering high-torque performance in the low and mid ranges, this engine, equipped with an electronic Direct Injection Diesel System, gives a turbo-powered ride that skimps on neither excitement nor fuel economy.

Cyclone-type Pre-air Cleaner

To perform its best, an engine needs a continuous flow of clean air. The pre-air cleaner increase air draw, while keeping dust and water out of the intake. With the engine breathing easy you and your Montero will be able to handle any conditions.

M-ASTC's advanced sensor technology monitors vehicle and driver operation, and independently manages power and braking distribution for increased control.

M-ASTC

Mitsubishi Active Stability Traction Control

Utilising a comprehensive network of intelligent sensors to monitor each wheel, as well as engine speed, accelerator, steering and vehicle attitude in terms of yaw, M-ASTC precisely manages engine output, power distribution and braking force to deliver improved vehicle control, traction and tracking in all driving conditions. With a complete awareness of vehicle orientation and driver intention, M-ASTC allows driving enthusiasts to benefit from the full potential of the new 3.2-liter engine in complete confidence.

LSD and Differential Lock

Motors also offers a conventional Limited-Slip Differential (LSD) and Differential Lock for drivers who favour manual control to the computer-controlled M-ASTC. Delivering sure footing on slippery surfaces and improved escape ability in nasty terrain.

Super Select 4WD (SS4-II)

Letting you shift between 2H, 4H and 4HLc modes at speeds of up to 100km/h, Super Select 4WD gives you the choice of efficient highway power or sure-footed back-and off-road traction whenever you want.

2H (2WD high range)

For when you're cruising down the highway or just going across town, 2H mode shifts you into rear wheel drive for smooth, quiet, fuel-efficient performance.

4H (4WD high range)

When the weather turns bad and the roads get rough, switch to 4H mode for added traction. The dynamic front/rear torque split adjusts between 33:67 and 50:50 to give you greater control for high-speed driving.

4HLc (4WD high range with locked center differential)

Keeping you on track even in rugged or slippery conditions, the 4HLc mode distributes power equally to all four wheels for off-road excitement with a steady sense of control.

4LLc (4WD low range with locked center differential)

Switch to 4LLc when you need all the tractor-like crawling power Motors is capable of. Maximised low-end torque pulls you through even the roughest terrain, stickiest mud and deepest snow.

Suspension Travel

Montero holds the road better, regardless of terrain, thanks to increased wheel travel and added traction. It all starts with the monocoque body, coil springs and 4-wheel, independent suspension – a feature not found on conventional SUVs. But then, convention never really was your game.

Front double wishbone suspension

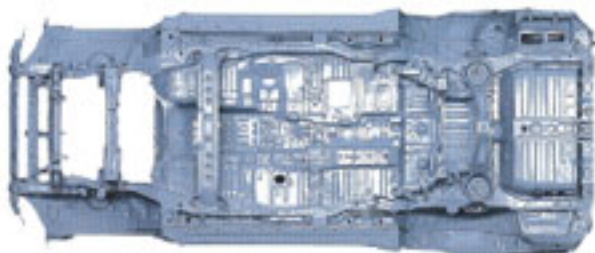

Rear multi-link suspension

**Independent Suspension**

Ironically enough, predictability increases with independence, at least when it comes to Montero's road handling ability. Response is natural, without any detectable lag, because the front double wishbone suspension and rear multi-link suspension systems use coil springs to add stability and enhance performance when cornering.

Monocoque Body with Built-in Frame

Montero's record-breaking Dakar Rally performance didn't come through sacrificing off-road prowess for a smoother ride in the city. It just wouldn't be Montero. Instead, Mitsubishi's engineers did the impossible; by incorporating the highly rigid monocoque body and built-in straight frame with an advanced independent suspension system, Montero is able to handle the toughest off-road adventure and deliver a smooth, stable ride, worthy of any luxury sedan.

**Maximum Climbing Ability of 35°**

You didn't get where you are by shying away from difficult climbs, and neither did Montero. Generous low-torque power and low center of gravity get you over the top of any challenge.

Approach, Clearance and Departure Angles

Ample ground clearance and short front and rear overhangs let you easily maneuver over terrains most SUV's wouldn't dare park near.

Wading Depth of 600mm

We wouldn't go so far as to claim you can now explore the remaining two-thirds of the world, but rest assured you could safely travel through depths up to 600mm at speeds of up to 5km/h.

M-ASTC

Enjoy the Excitement of a Safer Drive

Using an array of sensors for real-time awareness of vehicle status, M-ASTC allows you to drive assertively and with the confidence of complete control. Automatically engaging to eliminate understeer and oversteer in corners, M-ASTC adjusts braking force to each tire independently via the ABS system, while managing engine output via the electronic throttle control. The enhanced control becomes particularly important when swerving to avoid an object or on less than ideal surfaces.

In understeer, M-ASTC determines appropriate speed and applies braking force to the inner rear wheel to prevent drift-out and ensure better trace control.

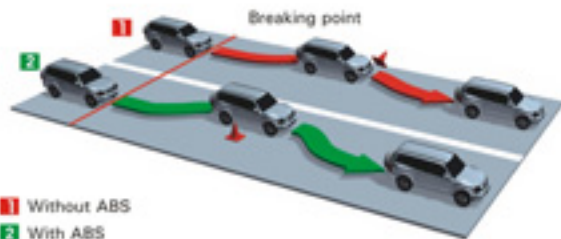

Controlled Braking for Improved Response

Managed by an advanced four-channel, multi-mode ABS computer incorporating an Electronic Brake-force Distribution system, Montero's front disc brakes and rear drum-in-disc brakes are designed to keep you safely in control on any driving surface.

Anti-lock Braking System

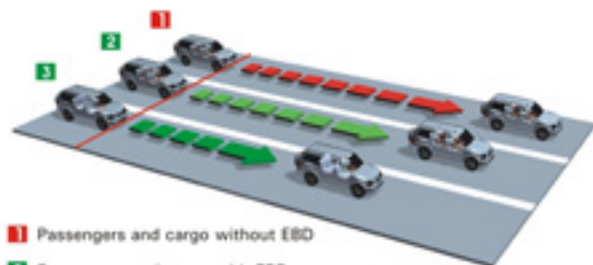

If the road throws you an unexpected curve, you'll be ready. ABS prevents tire-lock by activating the brakes thousands of times a second the moment you step on the pedal, letting you steer around obstacles as you reduce speed.

- 1 Without ABS
- 2 With ABS

Electronic Brake-force Distribution

Basic science teaches us that the heavier an object is, the more effort is required to bring it to a stop. EBD, by modulating each channel's braking force independently, makes sure you come to a quick, safe stop regardless of cargo load or road conditions.

- 1 Passengers and cargo without EBD
- 2 Passengers and cargo with EBD
- 3 Driver only with EBD

Dual SRS front airbags

Side airbag

Added Protection

Even if you have Montero's handling and braking to keep you out of emergencies, the other driver may not. For these situations, Montero complements the front 3-point ELR seatbelts with front SRS airbags for driver and front passenger, as well as side airbags that deploy exactly where needed regardless of seat adjustments. And of course, for total peace of mind, you should always wear your seatbelt.

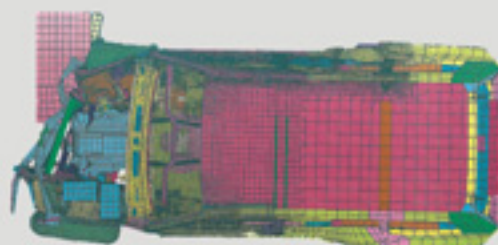

Collapsible Propeller Shaft

Made from Carbon Fiber-Reinforced Plastic, the propeller shaft is designed to collapse on impact, preventing it from entering the fuel tank or cabin.

Safety-design Fuel Tank

Situated ahead of the rear axle for protection against leakage in the event of a collision, Montero's fuel tank is also guarded by a tough resin underprotector.

Body Designed for Safety

Trouble can come from any direction, but regardless of where it strikes, Mitsubishi's safety design body creates a solid line of defence to protect everyone on board. Crumple zones about the engine absorb impact energy while the incredibly rigid monocoque body and built-in frame create a protective guard so that all cabin occupants are safe, and more importantly, feel safe, in any driving situation.

Awaken Your Senses

Touch the soft leather upholstery.

Relax in luxurious seating that understands the human form.

Spacious and remarkably familiar, Montero creates a new perspective. From the outside, a stylish SUV, but on the inside, nothing short of pure luxury and a ride that is as quiet and exhilarating as daybreak.

Even with third-row seat in place, underfloor compartment offers extra cargo space.

Third-row seat can be removed or stored in underfloor compartment.

Removing the third-row seat provides complete access to the underfloor compartment.

Synthesis of Design & Function

Some say that life is a journey, but you've got a destination in mind and plans for when you get there. With enough cargo space for a large easel and canvas or four full-size golf bags, Montero can carry whatever you need, wherever you're planning to go.

Efficient spatial design translates into comfort for seven or a massive cargo room capacity of 1,700 liters (VDA measurement) with 3rd-row seat removed and 2nd-row folded up

Ample interior length of 2,530mm

A low floor height of 500mm makes access easy, despite the excellent ground clearance

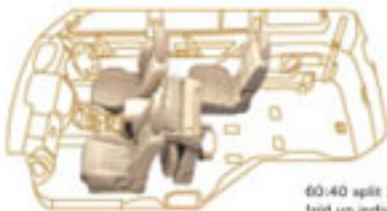

An underfloor compartment offers lots of extra storage

A Variety of Seating Arrangements

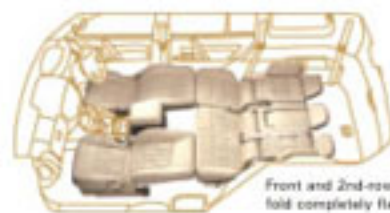

The versatility of Montero's design allows a surprising array of seating and space arrangements. Front and rear seats can be folded out to 180 degrees, giving you seating for seven, a pair of single beds, or an extra-spacious cargo area.

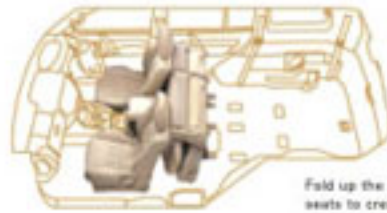

Spacious room for five with ample cargo space for luggage.

60:40 split 2nd-row seats fold up individually for extra-long cargo.

Front and 2nd-row seats fold completely flat.

Fold up the 2nd-row seats to create a huge cargo space.

Indulge Your Vision

View the product of human engineering.

Take the wheel and know that you are in total control.

Montero's intuitive layout is accented tastefully with leather and wood detailing. Inside the cockpit, a unique driving experience awaits your every move with anticipation, keeping you informed with ergonomically placed controls and gauges.

Freedom of Expression

Montero doesn't attempt to define who you are, it merely lets you state it in a universal language. Choose Montero and express the depth of your character.

Heart and Soul

The best part of your journey should always be the experience of the drive. To achieve this, every car that Mitsubishi Motors builds must adhere to a set of governing principles that go beyond offering innovative engineering and unique design. It's about achieving a more seamless symbiosis of soul and steel, and evolving a motoring character that's as distinctive in refinement and comfort as it is in exhilaration and confident handling.

Amenities and Equipment for Driving Comfort

RV Meter

Discharge headlamps

Front fog lamps

Illuminated side steps

Color-keyed power door mirrors with folding function

Illuminated key cylinder

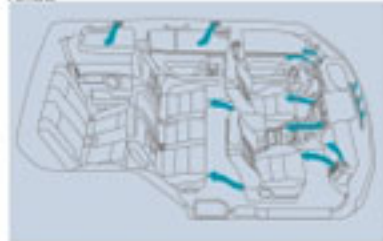

Center armrest console box with upper and lower compartments

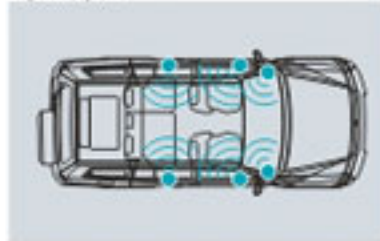

Leather seats with driver's 4-way power seat

SPECIFICATIONS MONTERO 3.2 L DI-D

DIMENSIONS & WEIGHTS	L X W X H	mm	4830 X 1895 X 1855
	Wheelbase	mm	2780
	Ground clearance	mm	225
	Kerb weight	Kg	2195
	Gross vehicle weight	Kg	2810
	Seating capacity		7
PERFORMANCE	Max. speed*	Km/hr	170
	Max. climbing ability	4WD/2WD	35.0° / 15.0°
	Approach angle		39.0°
	Ramp break-over angle		24.5°
	Departure angle		24.0°
	Min. turning radius	m	5.7
ENGINE	Type		DOHC 16-valve, In-line, 4- cylinder, Diesel, Intercooled Turbocharger
	Displacement	cc	3200
	Max. output	kW(PS)/rpm	123 (167.2)/3800
	Max. torque	N-m(kg-m)/rpm	405 (41.3)/2000
FUEL SYSTEM	Fuel supply equipment		DI-D (Direct Injection Diesel)
	Fuel tank capacity	lit.	90
DRIVE SYSTEM	Type		Super Select 4WD (SS4-II)
TRANSMISSION	Type		5-speed manual
SUSPENSIONS	Front		Double wishbone coil springs with stabiliser bar
	Rear		Multi-link coil springs with stabiliser bar
BRAKES	Front		16" Ventilated discs (2-pot)
	Rear		16" Ventilated drum-in-discs Multi mode ABS, EBD and hydraulic brake booster
TIRES & WHEELS	Front and rear		265/65 R17 17" X 7.5JJ Alloy wheels.

STANDARD EQUIPMENT & FEATURES

Exterior	Front grill - Color-keyed with chrome accent	Seats	4 Way Power Front Seats	
	Discharge type headlamp with washers		\$0-40 Split 2nd- Recline adjusters	
	Front & rear fog lamps		Rear seats	Tumble-type fold-up function
	Color-keyed bumpers			Height and tilt adjustable see-through type headrests
	Front and rear mudguards			Height adjustable center headrest
	Windshield shade band		3rd row seats	Bench x 2 with fold-up function
	Rear window defogger with timer			Front-facing removable with storage function
	Butterfly type rear quarter windows			Height and tilt adjustable see-through type headrests
	Front 2 speed variable intermittent wiper and washer		Cock pit	Steering wheel - 4 spoke wood and leather-wrapped
	Rear intermittent wiper and washer			Gearshift knob - Leather-wrapped
Color-keyed wheelhouse moldings	Leather-wrapped transfer and parking brake levers			
Color-keyed side sills and door garnishes	Illuminated key cylinder			
Illuminated side steps	Display - Tachometer, 4WD Mode Indicator, Digital Trip Meter, Door Ajar			
Door mirrors - Chrome-plated, powered, with defoggers and folding	Rheostat			
Rear towing hook	Lighting monitor			
Spare tire cover	Digital quartz clock			
Glass antenna	RV meter (fuel-tone display showing time, date, compass, barometer, altimeter, A/C settings, internal & external temperature)			
Rear license plate garnish	Multi-mode ABS with EBD			
Interior	Wood-grain center and air outlet panels	Safety	M-ASTC	
	Titanium-accent power window panels		SRS airbags	Driver's front
	Titanium-accent inner door handles			Front passenger's front
	Illuminated cigarette lighter			Driver's and passenger's side airbags
	Coin box		Seat belts	Front 3-point ELR with force limiter and pre-tensioner x 2
	Adjustable center armrest with console box			Height-adjustable front seatbelt anchors
	Front cup holders			2nd-row 3-point ELR/ALR x 3
	Rear center armrest with cup holders			Tether anchors for ISO FIX child seat
	Accessory socket inside floor console box			2nd-row 3-point ELR x 2
				High-mount stop lamp
Ashtrays	Front (Illuminated)	Functional	Child-protection rear door locks	
	2nd-row passenger's behind floor console box		Super Select 4WD (SS4-II)	
	3rd-row passenger's on tailgate		Power steering with tilt adjustable steering column	
Front door pockets			Heavy-duty shock absorbers	
Driver's footrest			Pre-air cleaner	
Driver's and front passenger's seat back pockets			Central door locking with Keyless entry system (includes tailgate lock)	
Survivars	Driver's and front passenger's side extendable glib survivor with vanity mirror, ticket holder and illumination.		Anti-trapping power windows	
Large-sized retractable assist grips x 5			Cargo room accessory socket	
Coat hanger x 2			Rear heater control	
Day/night rearview mirror			Air conditioner	Dual climate front and rear fully automatic
Tailgate pocket			Front room and map lamps	
Cargo room underfloor compartment			Front door courtesy lamps	
Cargo room side compartment			Rear door courtesy lamps	
Cargo room hook x 4			Interior lighting	Rear door courtesy lamps
Upper glove box				2nd-row passenger's personal lamps
Illuminated lower glove box				Cargo room lamp

The Journey of Life

Often, the simplest moments in life offer the deepest pleasure. As silence is to music, reflection is to vision. Collect your thoughts and enjoy the ride ahead.
