

THE NEW ŠKODA

KODIAQ

LAURIN & KLEMENT

ŠKODA
SIMPLY CLEVER

TAKE A STEP UP

The ŠKODA KODIAQ is our flagship SUV, and its most refined iteration is named after our founders, LAURIN & KLEMENT.

Because it bears their name, nothing has been spared – a chrome grille, exclusive Laurin & Klement badges, unique R(18) Trinity Alloy wheels and interior trims allow you to conquer new ground in style. And being a ŠKODA at heart, the elegance of the KODIAQ LAURIN & KLEMENT is matched with Simply Clever solutions, generous space and modern connectivity features.

The KODIAQ LAURIN & KLEMENT is yet another example of our philosophy of making beautifully designed cars that are as much a joy to drive now as they were back when we started.

That's Simply Clever.
That's ŠKODA.

Laurin & Klement

A close-up, artistic shot of a car's body panel, showing smooth curves and a metallic finish. A bright sun flare is visible in the upper right background, creating a soft glow. The overall tone is dark and sophisticated.

A SIGNED PIECE OF ART

The original LAURIN & KLEMENT badge is a reminder of ŠKODA's founding fathers. Their focus was on the highest level of craftsmanship, revolutionary technical design and a personal approach to customers.

So we continue that tradition. And it's fitting that the most luxurious ŠKODA vehicles carry the name LAURIN & KLEMENT, a perfect testament to our predecessors' legacy.

The image shows the interior of a car, specifically the dashboard area. The dashboard is dark-colored with two large air vents on either side of the center. The Laurin & Klement logo is visible on the dashboard. The steering wheel is partially visible on the left side. The background shows a view of a road or landscape through the windshield.

THE DRIVING IS EASY

Both drivers and passengers can expect maximum comfort inside the KODIAQ LAURIN & KLEMENT. The interior is characterised by high-quality materials and original design features. Driving pleasure is enhanced by exclusive equipment including, among other things, the multifunctional leather steering wheel and LED ambient lighting, which runs along the inside of the car.

BESPOKE, FROM EVERY ANGLE

Luxurious details and styling accents are found throughout the car. This elegance is suitably accompanied by impressive performance. Add to this the 4x4 drive, and driving becomes a much more enjoyable and safer experience.

STYLISH DETAIL

A decorative strip in Piano Black carries the Laurin & Klement badge.

INTERIOR DESIGN

The interior features black or beige leather upholstery with the LAURIN & KLEMENT logo embroidered on the seat backrests. Naturally, the electrically-adjustable driver seat with built-in memory also comes as standard.

INFOTAINMENT ON THE GO

Infotainment has moved on in leaps and bounds. You can look forward to an attractive design and plenty of amazing functions, while the KODIAQ LAURIN & KLEMENT seamlessly syncs with your external devices. Better still, your kids will never get bored on a journey.

MEDIA COMMAND APP WITH BOSSCONNECT

The new ŠKODA Media Command App with BossConnect allows you to control the infotainment system on your phone. This feature is integrated into the Amundsen infotainment system and the new ŠKODA App, even allowing people in the back to operate the functions using their smart device.

ŠKODA ONE APP

OneApp is a versatile application grouping together an array of useful assists. OneApp not only helps you to stay on top of the vehicle status and current driving data, but can also be used as a multimedia tool, for navigation, or to check the weather forecast. Smart widgets let you customise the application to reflect your personal preferences.

SMARTLINK+

With the SmartLink+ system (ŠKODA Connectivity bundle supporting MirrorLink®, Apple CarPlay, Android Auto) the car's infotainment system enables the driver to safely use the phone while driving. Plus, all installed applications that are certified as safe for vehicles are compatible with MirrorLink®, Apple CarPlay or Android Auto. The SmartLink+ system also includes the SmartGate function. It enables you to connect your smartphone to the car via cable to access interesting data about your drive, like driving economy, driving dynamics or service information. (Visit our website for usage terms and compatibility information for SmartLink+.)

DECORATIVE DOOR SILL COVER WITH STAINLESS STEEL INSERTS

The style quotient of the car is underlined by the decorative door sill strips with the KODIAQ inscription. A clear nod to the car's overall blend of form and function.

EVERY ANGLE COVERED

Obstacles come from every direction and in all shapes and sizes. Once Area View is activated, four wide-angled cameras make you aware of the challenges immediately surrounding you, enabling you to react quickly to whatever comes your way.

PEDAL COVERS

The chrome foot pedal covers are stylish. They also enhance the driver's comfort.

VIRTUAL COCKPIT

A perfect overview is provided by the Digital Instrument Panel which can display on-board computer specifications in combination with other information such as navigation for example.
