

Volkswagen. Das Auto.

The Touareg

Start

Finish

**Designed to help you lose yourself.
Or in some cases, find yourself.**

Because you'll never find the best spots on a map.

Between Nariman Point and the Himalayas
lie a flick of the wrist and a car wash.

If you listen carefully, you'll hear
your right foot scream with joy.

4X4M MOTION

Between the Highway and Himalayas.

A 6-speed automatic gearbox transmits controlled engine power to the wheels. The automatic transmission with a built-in intelligent dynamic shift programme recognises your gearshift pattern and adapts itself accordingly.

On mountainous terrain.

You can easily handle extreme off-road situations.

You need a backbone to push the limits. Always.

The latest double wish-bones on the axle assure driving comfort and the precision of an upper range saloon.

Across tough terrain.

4XMOTION permanent all-wheel drive assures outstanding reliable traction and active safety on virtually every surface by distributing engine power to all four wheels as required, depending on the situation. 4XMOTION drive therefore significantly improves handling, agility and steering behaviour resulting in top level dynamics and driving enjoyment.

On the highway.

You can get to know the sporty side of the suspension on level asphalt and fast journeys. This not only reduces undulations but also improves road-holding. Precise suspension geometry further optimises cornering behaviour.

Degree of delight.

Rivers, mountains and deserts present the most arduous driving tests in the world. You need a vehicle with perfect off-road capabilities to cope with them – and a few practical tips.

Wading depth: up to 500 mm.
You can cross water safely and comfortably in the Touareg. Drive into the water in the direction of flow and then at a constant speed to the opposite bank.

Hill-climbing ability: 45°.
You can cope with even extremely steep slopes in the Touareg. Check what lies behind the crest beforehand – after all, when driving at very steep angles, you look directly into the sky.

Side slope angle: 35°.
The Touareg drives safely even on sloping roads. Should it slant too far, do not brake but steer the vehicle quickly into the fall line. In this way, it is possible to bring it safely under control.

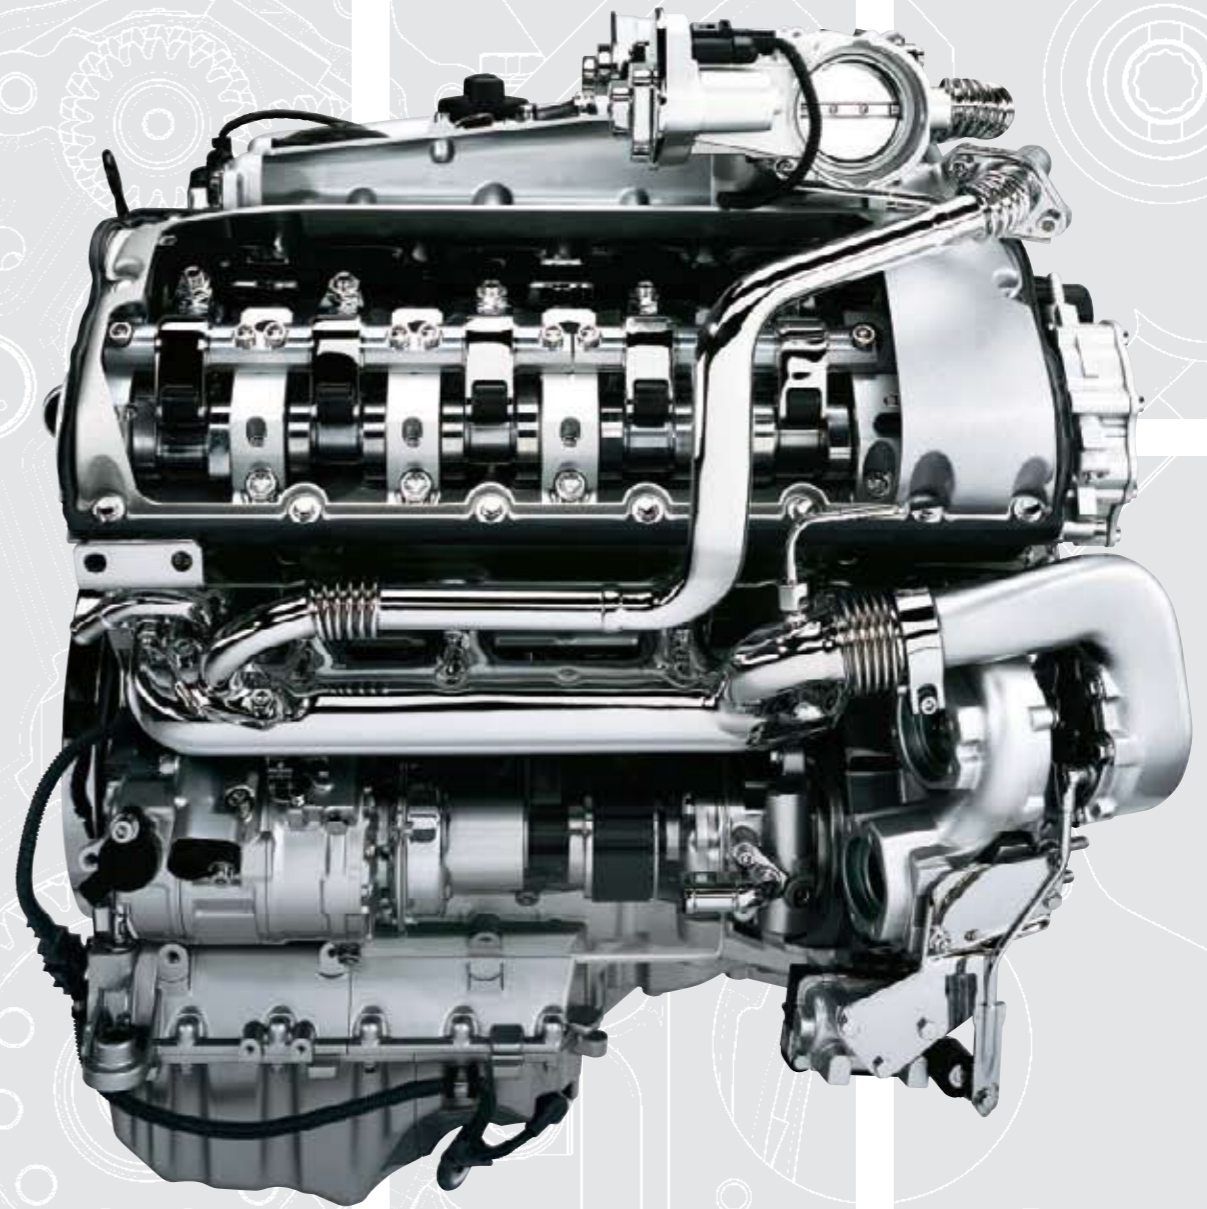

Ramp angle: 27°.
A Touareg overcomes large fallen tree trunks, rocks or hills without the under-body making contact with the ground. Watch out for recesses or soft subsoil behind obstacles that could influence ground clearance unfavourably.

**Satisfies all your
primal instincts.
Power. Power.
Power.**

If you want to get to know one of the greatest strengths of the Touareg, then step on the accelerator pedal. Going beyond the limits in the Touareg starts directly under the bonnet. The V6 TDI engine will convince you with the latest electronics and many ingeniously simple design solutions. This engine has been developed to give the Touareg a very individual, unmistakable character. The trailblazing combination of common rail and piezo in-line injectors facilitates five precisely metered injection processes per stroke. This improves the smooth running and exhaust qualities, and the even distribution of fuel converts every drop of diesel into superior performance.

239 PS (176KW)
550 Nm max. torque.

Exterior.

The Touareg can be easily identified by its shield-shaped radiator grill finished in a chrome look, which typifies the Volkswagen brand. The headlights casing and chrome trim further embodies the beauty of the machine. Steal a glance of the robust Touareg on the roads, or off it for that matter, to know what makes it the best in its class.

255/55 R18 tyres with "Valley" alloy wheel offers optimum comfort on Indian road conditions.

The Touareg has an electronically sliding/tilting glass roof. The sliding roof versions can be conveniently closed from outside via central locking.

The rear-mounted spare wheel makes room in the luggage compartment and underlines the off-road character of your Touareg. It matches the four alloy wheels fitted on the vehicle, has anti-theft protection, and is secured on a swivelling carrier.

Chrome package. A matte chrome frame for the radiator grill and chrome trim on the radiator grill, side windows, sills and rear bumper emphasize the body lines. These are complemented by high-gloss roof pillar trim and a chrome surround for the centre air intake.

Roof rails for bulky items.

Interior.

SUV meets luxury class saloon. The Touareg achieves this symbiosis to perfection. Its outstanding off-road characteristics are coupled with extraordinary elegance. Generous proportions, stylish design and carefully selected materials create an exclusive ambience. And travelling is even more fun on its comfortable seats, surrounded by sophisticated materials and high-quality wood trim.

Deluxe front seats with 'Genuine Napa' leather. Can be heated; centre and side panels of seats with elegant leather upholstery.

Two cup holders in the front centre console.

Glove compartment with cooling facility or snacks and beverages.

Leather-covered selector level with decorative insert in aluminium.

Leather-covered multi-function steering wheel with controls for cruise control and the multi-function display.

Double sun visors protect the driver and front passenger from bright sunlight from the front and the side.

Storage compartment in instrument panel.

The luggage compartment cover screens the load from the view and from sun rays.

Operating equipment.

Multi-function two-colour display in the driver's field of vision shows, for example, the time, consumption and outside temperature.

Control unit for electric door mirrors. Operates the adjustment, folding and heating functions.

The audio module with ten loudspeakers and an output of 4 x 20 watts supplies perfect stereo sound at the front and rear. In addition to FM and AM radio reception, all common audio file formats such as CD, MP3 and WMA can be played.

Electric door mirrors can be folded and adjusted from inside, and heated separately. Aspherical door mirror on driver's side for a better view.

Safety.

No matter what little surprises lie in store for you on the road, you can handle just about anything in the Volkswagen Touareg. Armed with extensive safety features to equip you for the unexpected, and designed to offer the highest levels of driving pleasure, the Touareg delivers new standards of performance with all the comforts of a luxury SUV.

The Electronic Stabilisation Programme (ESP) synchronises ABS plus, the Electronic Differential Lock (EDL) and Traction Control System (TCS) for improved behaviour when understeering or oversteering.

The completely new Anti-locking Brake System (ABS) improves steerability when full braking is applied on the road. If loose surfaces are registered, wheel lock is controlled.

Electronic Brake Pressure Distribution (EBD) prevents wheel lock on the rear wheels when the weight of the vehicle shifts towards the front wheels during braking.

The brake assist system with dual-rate function recognises the speed with which the brake pedal is operated. During emergency braking or when braking as a reflex action, the system builds up full brake pressure more quickly.

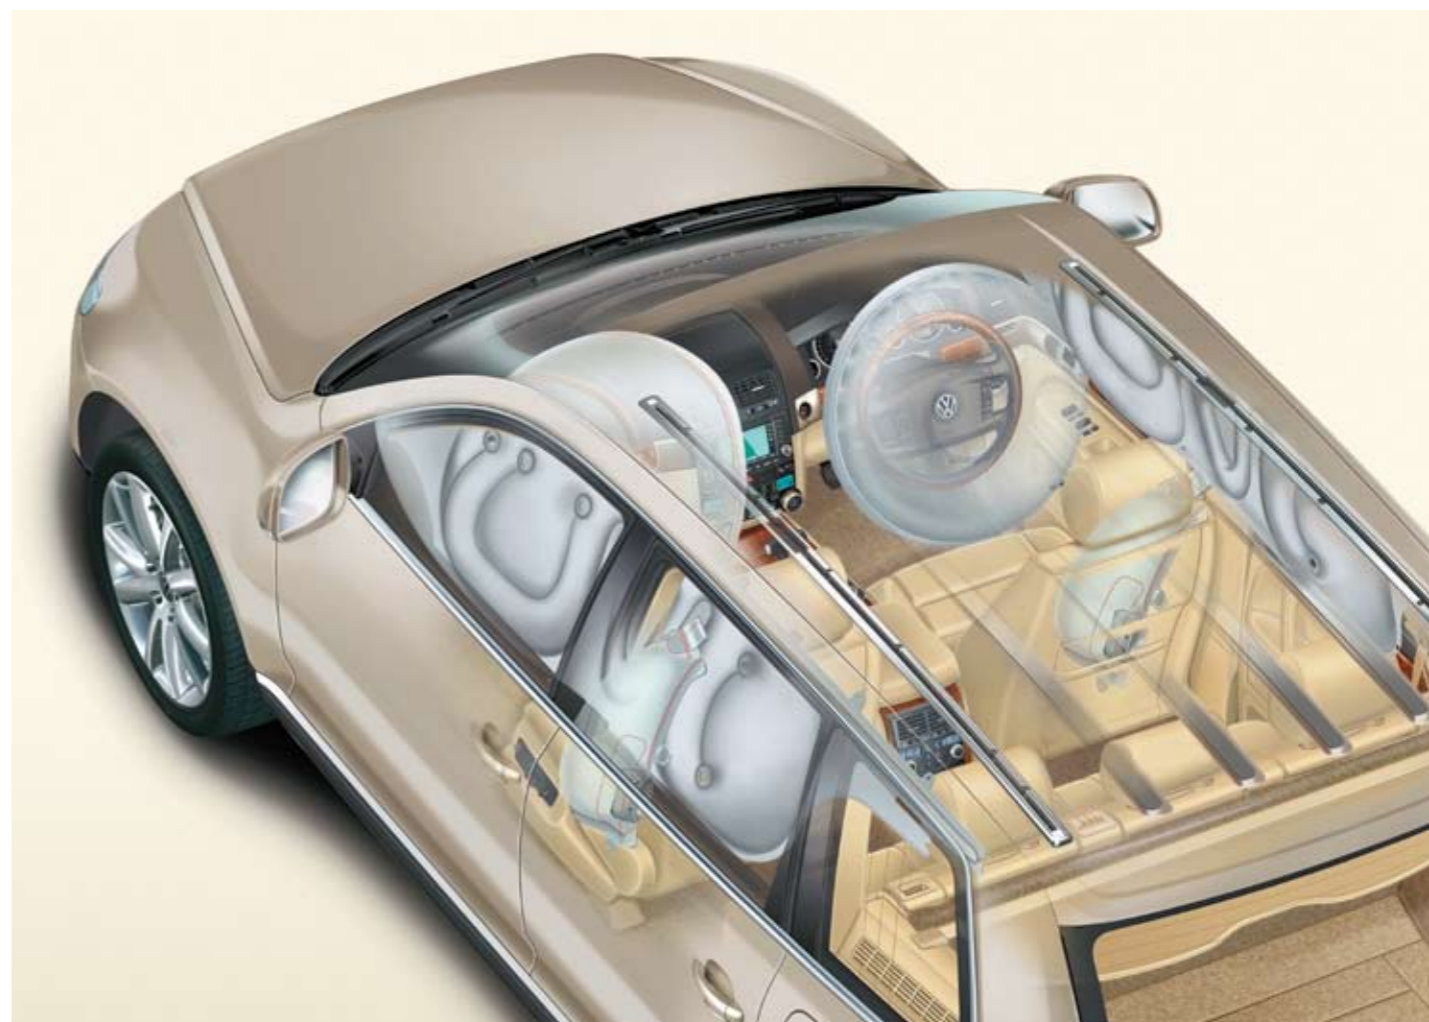

Warning and tone lamp indicate if the front seat belts are not fastened.

Park distance control gives the driver an acoustic and visual warning to indicate how much space remains to manoeuvre at the front and rear.

Bi-xenon headlights with cornering lights, for high and low beams, dynamic and static cornering lights. Built-in motors move the powerful headlights in the direction of travel, thus improving illumination on bends and when turning off.

Airbags for the driver and front passenger including curtain airbags assure comprehensive protection on all seats. Available with deactivation facility in glove compartment for front passenger's airbags.

Technical Specifications.

Version available		Touareg V6.TDI (Diesel)
Engine	Engine Type	6-cylinder diesel engine
	Capacity	3.0L / 2967 cc
	Power	239 PS(176 KW) @ 4000-4400rpm
	Torque	550 Nm @ 2000-2500 rpm
Transmission	Gearbox	6-speed automatic tiptronic
Dimensions	Length	4754 mm
	Width	1928 mm
	Height	1724 mm
	Wheelbase	2855 mm
	Wheel track front	1645 mm
	Wheel track rear	1657 mm
	Ground Clearance	236 mm
	Tyre Size	255/55 R18 "Valley" Alloy Wheels

Features.

	Touareg
Safety	
All disc brakes with ventilated disc brakes at front	•
ABS with ESP	•
8 Airbags (including head & side airbags)	•
ISOFIX	•
Safety headrest system	•
Bi-Xenon with cornering lights	•
Security	
Engine immobiliser	•
Alarm with interior protection & remote central locking	•
Wheel locks	•
Comfort	
Climatronic AC	•
Electrically adjustable front seats	•
Light & Sight package	•
Mirror package	•
Electric sunroof	•
KESY	•
Dust & Pollen filter	•
Electrically adjustable and foldable door mirrors	•
Electric windows with comfort operation and circuit breaker	•
Leather wrapped steering wheel	•
Rake & reach adjustable steering wheel	•
Front centre armrest with storage compartment	•
Illuminated vanity mirrors with cover and pocket	•
Heat insulating tinted glass	•
Audio System	
RNS 510 with MP3 player function	•
6 CD changer	•
Premium audio system	•
Exterior	
Body-coloured exterior mirror housings and door handles	•
Side turn signal lights in exterior mirrors	•
Rear fog light	•
Interior	
Reflectors on doors	•
"Burr-walnut" wood insert	•
Leather wrapped gearshift knob	•
Rear reading lights	•
Napa leather upholstery	•

Paint Finishes.

Seat Upholstery.

Pure Beige
Genuine Napa
QN

Decorative Insert.

Burr Walnut
PN5

Available in selected colour/upholstery combinations. Visuals in this brochure may show options not available in India.
