DRIVEN BY PASSION.

FIAT

Style of the future.

THE FIAT BRAVA

Driving into the future in style

FIAT moves into the next millennium with its all new Brava - designed and shaped to reflect the new aspirations of drivers today.

Few can look at the Brava and not recognise that it is a car of character. A car borne of passion, built on cutting edge technology and put together with uncompromising attention to details. Test it, feel it, study it, discover it. Whichever way you choose, you will find the Brava's spirited performance and outstanding design irresistibly refreshing and undeniably near perfection.

The Car of the Year 1996. The car without rival. The car made to suit the most enthusiastic driver. A solid investment. *That is the Brava.*

Ergonomically-designed dashboard.

YOUR PEACE OF MIND

FIAT ensures the safety of you and your loved ones with features that surpass even the most stringent safety standards.

A reinforced crushproof cabin incorporating crumple zones, Anti-Intrusion Beams in all doors, front fascia and rear seat back, Fire Prevention System, pretensioned seat belts and driver's airbag are all standard safety features. For added security for your investment when the car is parked, the Fiat CODE electronic engine immobiliser prevents unauthorised access to the car.

And of course, a 4-channel, 4-sensor ABS braking system that ensures your stops are quick and even.

An electronic 4-speed automatic transmission with torque converter and lock-up is also available. Automatic transmission reduces driving stress in town and lets you exploit the potential of the generous 1.6 16v engine in full. There is a choice of three functioning logics. "Normal", when you wish to enhance driving comfort and fuel economy; "Sport" when you want to put your foot down on demanding routes, and to exploit the car's performance in full; "Ice" when road conditions are poor, particularly on surfaces with poor grip.

Unique tail lights.

4-speed automatic transmission with 3 logic modes : sports, ice or normal

COCOONED IN COMFORT

Spacious, quiet cabin.

FIAT spares no effort to make the Brava the most comfortable place for driver and passengers. The soundproofed, spacious interior and generous luggage space caters to today's active family. From the attractive wave-like fascia to the anatomically contoured seats, a drive in the Brava will be an exhilarating experience.

LEADING EDGE TECHNOLOGY

FIAT'S newest offering features the latest in European technology.

Enjoy the power and refinement of its new 1.6 litre DOHC 16V engine fed with a multipoint injection system which meets all future EC exhaust emission standards. Experience control with the Brava's fully independent suspension system – a system engineered to provide roadholding and stability that will amaze you. And relax in the quiet and vibration-free environment of the car's cabin, made possible even on the roughest roads by the car's bodysell of immense torsional rigidity.

*Advanced 1.6l DOHC
16V engine.*

TECHNICAL SPECIFICATION

FIAT BRAVA 1.6ELX 1.6SX Automatic

ENGINE

No. of cylinders, arrangement	4 in line, front transverse	
Capacity (cc)	1581	1581
Compression ratio	10.15 : 1	10.15 : 1
Max. power output	103 (76)	103 (76)
bhp/EC (kW/EC) at rpm	5750	5750
Peak torque	14.7(144)	14.7(144)
kgm/EC (Nm/EC) at rpm	4000	4000

TRANSMISSION

Drive :	front	front
Gearbox :	5 speed	4 speed automatic with torque converter

STEERING

System	rack and pinion with power steering	
Turning circle (m)	10.4	10.4

BRAKES - D (disc) - T (drum)

Front : Ø mm	D257	D257 ventilated
