

GRANDEUR

GRANDEUR: A new definition of success.

Preferring something new to the familiar.
Preferring to stay true to personal convictions rather than social convention.
Preferring to always take on new challenges than be satisfied with reality.

These are why this generation of leaders, which is breaking the rules to create
a new formula for success, chooses the GRANDEUR.

Fourteen shining lights to illuminate your path to success.

The diamond-patterned parametric jewels now sparkle on an even wider grille. They change multi-dimensionally based on the time of day, season, and angle of light, incorporating light as an element of the design. Inside the car, the high console and lower crash pad’s silver garnish, which appears to be “floating” when the lights are turned off, give the passenger a sense of comfort amid the elegance created by the 64-color ambient mood lamp.

Camel/Beige (Beige seats) / Calligraphy Full Option

Exterior

The futuristic front features a “Sensuous Sportiness” design. From the smooth and sporty sides to the wide rear lamps, the GRANDEUR embodies a new design vision.

Midnight Black Pearl / Calligraphy Full Option

Calligraphy-exclusive 19" sputtering alloy wheels

LED rear combination lamps (brake lights, tail lights and turn signal lamps applied)

Interior

The 12.3” cluster and navigation display offers cutting-edge smart technology and a level of convenience that only a high degree of IT optimization can provide. Passengers can recharge both physically and emotionally in the GRANDEUR’s comfortable interior space, which shares many attributes with a premium lounge.

Camel/Beige (Beige seats) / Calligraphy Full Option

Camel/Beige (Beige seats) / Calligraphy Full Option

* The screen layout/design of the infotainment system may change with the regular updates.

Black/Beige (Beige seats) / Le Blanc Smartstream Gasoline 2.5

Le Blanc

The Le Blanc is characterized by a sensuousness and gracefulness that have been meticulously crafted to mirror each passenger’s traits and lifestyle. The elegant Black/Beige interior and user-centric safety and convenience features, which come standard on Le Blanc trims, are pillars of the Le Blanc’s restrained beauty.

Le Blanc Performance package

Lightholic carbon fiber side mirror
(lightholic repeater + carbon fiber mirror cap)
Includes a curved LED turn signal repeater and an elegant door mirror cap made with real carbon fiber.

Alcantara interior package (steering wheel / center console armrest)
Alcantara, a high end Italian synthetic fabric that’s soft to the touch, wraps the steering wheel and the center console’s armrest for a sportier interior design.

Carbon fiber rear spoiler
A spoiler made with real carbon fiber adds a touch of sportiness to the exterior while making the Le Blanc more aerodynamic.

* In addition to the items listed above , the Le Blanc Performance package also includes a Gasoline 3.3 engine, the R-MDPS (Rack-Mounted Motor-Driven Power Steering), and michelin tires

* The Le Blanc is available in two interior styles: Black/Beige (Beige seats) and Black monotone. * The screen layout/design of the infotainment system may change with the regular updates.

Convenience & Technology

An air cleaning system that maintains a pleasant indoor atmosphere (via fine dust sensor) and a smart posture control system that promotes the driver's health during long drives provide enhanced driving satisfaction.

Air cleaning system (dual-zone full automatic air conditioning and touch-based air conditioning controller applied)
A fine dust sensor monitors the quality of the air inside the car in real time, offering constant updates on air quality on the screen. Once the fine dust concentration reaches a certain point, the air-cleaning function is activated automatically to ensure a clean and fresh environment inside the vehicle.

12.3" full LCD cluster
The color LCD cluster (1,920x720) offers high visibility and makes it easy to see various types of information. It provides a pleasant driving environment with a different style of graphic illustrations for each driving mode.

12.3" infotainment system
The infotainment system includes not only a road navigation function on the 12.3" monitor (1,920x720) but also a "Sounds of Nature" function with six themes, over-the-air navigation updates, and voice recognition vehicle control. This cutting-edge infotainment system guarantees superior smart driving experiences.

* The screen layout/design of the infotainment system may change with the regular updates.

Smart posture control II
This function not only recommends driving positions optimized for the driver's body type but also provides lumbar support for long drives. By suggesting information and movements designed to relieve spinal exhaustion, smart posture control provides a truly smart driving environment with a focus on the driver's health.

* The screen layout/design of the infotainment system may change with the regular updates.

Head-Up Display / Built-in cam (including spare battery)
The head-up display, which offers enhanced visibility, provides information related to driving and safety. The two built-in cameras are high-resolution video-recording devices, with one attached to the car's front and one to the back. Also connected to the infotainment system, the built-in cameras allow for the convenient playing and saving of high-resolution videos (including time-lapse recording and zoom-in functions).

Wireless phone charger
The wireless phone charging system, which is positioned on the tray above the center console, enables convenient charging of any smart phone.

The Remote Smart Parking Assist, which helps the driver park comfortably and safely, and back up guide lights address the needs of both the driver and pedestrians.

Blind-spot View Monitor
When using the turn signal, the camera installed at the base of the exterior mirror displays videos of the left/right posterolateral views on the cluster screen. In the case the posterolateral view is restricted (driving in the rain, blind spots, etc.), the GRANDEUR offers a clear and wide view to guarantee a safer driving experience.

Surround View Monitor / Remote 360° view (car monitoring system)
Four high-resolution cameras eliminate all blind spots (available options: front/rear top view, expanded top view, and limited view). The Surround-View Monitor makes driving safer and more comfortable by allowing the driver to monitor the surroundings of his/her vehicle in real-time using a smartphone

Hyundai CarPay
By registering a payment card on the Hyundai CarPay app, the driver can conveniently pay for fuel and parking fees, among others, via the touchscreen of the car's navigation screen, without having to use a physical card or cash.

* The screen layout/design of the infotainment system may change with the regular updates.

Remote Smart Parking Assist
Remote Smart Parking Assist is a technology that helps the driver park, or passengers exit from, the vehicle in small, restrictive parking spaces. The smart key can be used from outside the vehicle to remotely control the vehicle and control backward or forward movement to ensure ease of parking.

Back up guide lights
When the car is backing up, “guide lights” are projected onto the road behind the car to clearly show the driver's intention to back the car up to prevent accidents involving nearby vehicles or pedestrians.

Performance

The next-generation Smartstream engine and smooth but powerful 3.3 Gasoline engine are both equipped with an 8-speed automatic transmission to enhance effectiveness and offer dynamic driving performance.

Smartstream Gasoline 2.5 engine

198 Maximum power
ps/6,100rpm
25.3 Maximum torque
kgf·m/4,000rpm

Gasoline 3.3 engine

290 Maximum power
ps/6,400rpm
35.0 Maximum torque
kgf·m/5,200rpm

LPi 3.0 engine

235 Maximum power
ps/6,000rpm
28.6 Maximum torque
kgf·m/4,500rpm

Nocturne Gray Metallic / Calligraphy Full Option

Hyundai SmartSense

Rear Cross-Traffic Collision-Avoidance Assist

This function detects vehicles approaching from blind spots in the rear lateral end when the car is in reverse, after which a warning is conveyed to the driver. When necessary, brake control assists with rear collision avoidance.

Parking Collision-Avoidance Assist-Rear

This function detects vehicles approaching from blind spots in the rear lateral end when the car is in reverse, after which a warning is conveyed to the driver. When necessary, brake control assists with rear collision avoidance.

Safety Exit Assist

If a vehicle is perceived to be approaching from the side or rear of the car after the driver has parked/stopped, the child lock ensures that the rear doors remain locked. A warning is issued if all car doors are opened.

Forward Collision-avoidance Assist

After detecting a vehicle, pedestrian, or bicycle in front of the car (omnidirectional camera) or a car on the opposite side of an intersection and determining the risk of collision by analyzing the signals sent from the front camera and radar, the driver is notified of the potential risk with a warning. When necessary, the brake is activated to minimize damage.

* Driving assistance specification (Forward Collision-avoidance Assist, etc.) assists the driver in specific high-risk driving conditions. See the manual for details on operating conditions.

Lane Following Assist

The GRANDEUR uses an omnidirectional camera to detect the location of the road lane and ensure that the vehicle is driven in its center.

Navigation-based Smart Cruise Control

Guarantees driving convenience on highways and driveways by linking with the car's navigation system to automatically decrease speed in safety zones and curved lanes, after which the car is automatically returned to the pre-set speed.

Highway Driving Assist

Highway driving assist uses information, such as distance from the vehicle in front and road lane and navigational data, to control inter-vehicle distance and keep the vehicle inside the boundaries of the lane. It also minimizes driver fatigue during long-distance drives.

Blind-spot Collision-avoidance Assist

This function detects vehicles approaching from blind spots at the rear lateral end that are difficult to see in the exterior mirror, enhancing crash protection via warnings and brake controls.

* To ensure safety, be sure to hold the steering wheel at all times when using the Highway Driving Assist.

GRANDEUR Hybrid: Broadening the scope of success.

Pioneering one's own path rather than following the path set out by society.
This is why those who write their own rules for success choose the GRANDEUR Hybrid.

Nocturne Gray Metallic / Hybrid Calligraphy Full Option

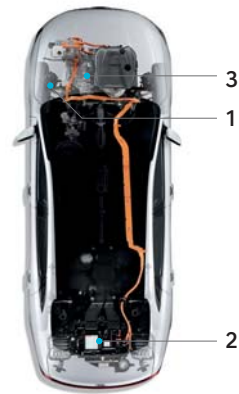

Creamy White Pearl / Hybrid Le Blanc

Khaki/Beige (Beige seats) / Hybrid Calligraphy Full Option

Hybrid technology

The GRANDEUR Hybrid, which is equipped with technology that increases fuel efficiency and offers silent and dynamic driving performance, is a leader of the eco-friendly smart driving era with its cutting-edge hybrid system that transcends generational boundaries. The revolutionary choice for a better future: GRANDEUR Hybrid

- 1. Regenerative braking system**
When the vehicle slows down, the regenerative braking system converts the car's kinetic energy into electric energy and uses that to recharge the battery, improving the vehicle's overall energy efficiency.
- 2. Hybrid high-voltage lithium-ion battery**
The vehicle's high-voltage battery has a capacity approximately 23% higher than existing products. The battery's recharge/discharge efficiency has also been improved by 2.6%, broadening the operational scope of the vehicle's EV mode, which operates solely by the gasoline engine.
- 3. High-efficiency, permanent-magnet electric motor**
The high-efficiency motor assists the gasoline engine and is capable of taking the vehicle to speeds of up to 120km/h in electric vehicle (EV) mode.

The AVN system, which shows a diverse array of Hybrid-specific content (energy flow diagrams, ECO driving, fuel efficiency data, etc.), and 12.3" full LCD cluster guarantee a smart and enjoyable driving experience.

12.3" full LCD cluster

12.3" infotainment system

* The screen layout/design of the infotainment system may change with the regular updates.

Premium

Full LED headlamps (projection type)
4.2" color LCD cluster

LED rear combination lamps
Rear Occupant Alert

Solar glass / Double-glazed soundproof glass (windshield, front and rear doors)
12.3" navigation system (BlueLink, Phone projection, Hyundai CarPay)

Proximity key with push-button start (remote ignition)
Dual-zone full automatic air conditioning (with auto defog system, fine dust sensor, and air cleaning mode)

* For further information on specifications, please refer to the price chart for the respective month.

Le Blanc

12.3" color LCD cluster
Touch-based air conditioning controller

Maintain a constant speed to drive more efficiently.
-The fuel economy described above is based on the standard model and may differ during actual driving depending on road conditions, driving technique, cargo load, vehicle maintenance, and outdoor temperature. -Some of the images presented here include optional specifications, so their appearance may differ from the car you purchase. -The specifications, colors, and sources presented here may be modified to improve vehicle exterior and performance. -The engine performance described above is the "Net Number," a new measure reflecting exhaust resistance that complies with legislation enforced by Korea's Ministry of Land and Transport since 1997. It can be marginally lower than "Gross Output Number," the previous measurement. -Leather seats include some synthetic leather. -Vehicle colors presented here may differ from actual appearance. -Some specifications may vary for rented/handicap vehicles and regular vehicles. -All of the measurements in this brochure apply to the Gasoline/Hybrid models. Therefore, the specifications and the features of the LPI models might differ. -Hyundai Motor Company is committed to fair trade practices, with the same price and quality of vehicles nationwide. -Use of non-genuine parts (such as engine oil and transmission oil) or poor quality fuel may severely damage the vehicle. -For more information about the new technologies and specifications described in this brochure, please refer to a user's manual.

GRANDEUR Hybrid Warranties

Warranty for Hybrid parts	10-year/200,000-kilometer warranty - Electric motor, Hybrid high-voltage battery HPCU (Hybrid Power Control Unit)
Guaranteed vehicle trade-in rate program	Customers may choose to apply for this program upon purchasing a vehicle. It focuses on customer satisfaction by providing a high guaranteed vehicle trade-in rate for customers who purchase another vehicle from Hyundai Motor within three years of applying for program membership. - Eligibility: First-time purchasing customers (does not apply to: Hyundai Motor employees, customers who are not first-time purchasers, entrepreneurs, procurement-related purchasers, etc.) - Standard guaranteed trade-in rate: Under one year: 77%, Under two years: 70%, Under three years: 64%

※ The benefits offered through the warranties above may be subject to change.
※ Contact a branch or dealership for details.

The advanced technology of Hyundai’s BlueLink system helps keep both the driver and the vehicle safe in any situation. BlueLink is always there to keep you safe, regardless of the location or time of day. Experience the unique joy of safe and comfortable driving.

Remote control

In the extremely hot summer or cold winter months, you can link your smartphone to the air conditioner or heater to set and control the temperature inside the vehicle. Enjoy a pleasant driving experience with BlueLink.

Safety security

The BlueLink Center works 24 hours a day, 365 days a year. If an airbag opens due to an accident, the Center automatically detects your location and takes appropriate actions according to the situation, such as contacting the police, ambulance, insurance company, etc.

Vehicle management

Services include real-time trouble detection while the vehicle is running and regular vehicle inspections on pre-arranged dates. In the event of vehicle trouble, immediate professional consulting is available, and you may conveniently make reservations for repair at the time and location of your choice.

Navigation

This function enables the driver to conveniently search for destinations through voice command and suggests optimum routes based on an independent analysis of real-time traffic information. The driver can search a database of up-to-date information to find even newly created destinations.

*Free of charge for five years for customers who have purchased a vehicle and are applying for BlueLink membership for the first time: Remote control, Safety security, Vehicle management, Navigation.
* Inquiries: Blue Link Kakao Talk Customer Service Center (enter “Blue Link” in Kakao Talk search screen and add as friend)
