

# Carnival

Movement that inspires

# Connecting Hub

## The beginning of a connected life

Carnival has evolved beyond being a mere mode for transportation into a medium that connects life. Advanced features turn the dreams of a connecting hub into reality. Every seat is ergonomically designed for work or relaxation on the go and the interior is optimized with well-thought-out convenience features.

Carnival is where a connected life that is made for you and centered around you begins.

A magnificent,  
voluminous design.  
Making a strong and lasting  
impression.

Carnival makes a bold and powerful statement that has never been seen before. The **radiator grille**, that is inspired by the image of a perfectly staged orchestra, conveys a refined 3-dimensional look, while rhythmic **headlamps** maximize dynamic beauty to convey a progressive feel. **Side character lines** add vitality and a sense of speed to the vehicle, while **chrome garnishes** instantly catch the eye.

A future-oriented interior,  
Adding refinement  
to daily life.

Carnival takes inspiration from large spaceships, offering sweeping views in a simple design. New, state-of-the-art technologies transmit a futuristic image, while a panoramic display that integrates a **12.3" cluster** and a **12.3" UVO navigation system** provides information on-demand with a minimalistic high-tech feel. Surrounding the driver altogether, these features connect the car and driver into one.

# The infotainment system, Responding to your new daily needs.

## Facilitates get-togethers

In addition to taking you to your destination, Carnival's navigation system makes it easy for others to join you. With a **destination-sharing function** that can automatically transmit your destination to someone else's smartphone, you can focus on your driving while minimizing interruptions.

Specifications may vary according to the trim, seating capacity, engine and options that are selected. / \* A virtual image has been used to help viewers' understanding.

## Cozy and refined

The 12.3" UVO navigation is not only good for listening to music and navigating roads, but also to control the **2nd-row power reclining seats\***. You can offer children and elderly passengers in the 2nd row greater comfort without having to leave the driver's seat.

## Even the rear-seat passengers can take command

Why should commands like "turn on the air conditioner" or "close the window" be restricted to the driver when rear-seat passengers can do the same? With **rear-seat voice recognition\*** that uses Kakao i, Kakao's AI platform, even rear-seat passengers' wishes can come true.

\* A UVO account is required for smooth operation.

Smart performance,  
Let the joyful ride  
begin.

### Even the little details are perfect

Have you ever had to flash the lamp of your smartphone on the ground to get off the car in the middle of the dark? Carnival automatically illuminates the pavement with a logo-shaped, **Get on/off puddle light** when the sliding door is opened so that all passengers can get on and off the car safely and conveniently.

### Gently and quietly on its own

Did you ever wish that your car door would open automatically in cumbersome circumstances, such as holding a child in your arms or assisting an elderly person? Carnival's **smart power sliding door\*** opens automatically when you approach the vehicle with the smart key, making Carnival an ideal family car.

### Sets your two hands free

Closing the tailgate with luggage in both hands can be a nuisance, so the **auto-close function of the smart power tailgate** comes in handy by shutting the tailgate automatically after you walk away without requiring you to press any buttons.

A cozy space,  
It feels even better  
the longer you stay.

### The perfect position in one touch

To crush the preconception that car seats are uncomfortable, Carnival installed **Premium relaxation seats in the 2nd row**. Backrest and cushion angles can be adjusted at a mere press of a button, helping you find the ultimate settings to relax and alleviate fatigue in total comfort.

Specifications may vary according to the trim, seating capacity, engine and options that are selected. / \*A virtual image has been used to help viewers' understanding.

### Pleasant no matter where you are seated

As concerns over micro dust have become a part of life, interest in air quality inside of cars has also increased. Carnival has an **auxiliary air conditioning filter in the rear compartment\*** that helps purify air as it is being circulated in the front and back of the vehicle, ensuring that every passenger enjoys a pleasant ride even on long trips.

### Better organization for greater comfort

Tired of a disorderly mess in the rear seats? Carnival's **expandable center console** provides abundant storage space to stow away items such as toys and documents. A built-in tray is great for placing books or snacks, offering diverse options to organize your possessions.

### Dual sunroof/Ambient light/KRELL premium sound

Take in the sights through the dual sunroof on a drizzly day and create a soothing atmosphere with ambient light, complemented by premium acoustic sounds by KRELL, the high-end, American power amplifier manufacturer.

### 2nd and 3rd row USB terminals (for charging)

Stop asking the driver to charge your smartphone. In Carnival, 2nd and 3rd-row seats come equipped with USB charging ports so all passengers can use mobile devices with peace in mind.

### Rear seat entertainment system **TUON**

Carnival comes equipped with a separate entertainment system in the 2nd row. Passengers can watch or listen to contents as they please, or watch DMB, search the internet, or see the news, which can come in handy in business.

### 3rd row 6:4 split sinking seats (7-seater only)

Stuck with a bunch of passengers and luggage? Don't worry. With **3rd row 6:4 split sinking seats**, 3rd-row seats can be stowed flatly under the floor to create a generous space that can even fit a stroller without having to fold it.

### 3rd row cushion tip-up & sliding seats\* (9-seater only)

If there isn't enough trunk space even with sinking seats in the 4th row, use the 3rd row cushion tip-up & sliding seat function. Simply pull a strap to tilt up the seat cushions and slide up the seats to create more space.

### Kia pay

Don't fuss if you don't have your wallet on hand to make a payment at a gas station or parking lot. With Kia Pay, you don't need to get your credit card or get off the vehicle to make a payment. Just tap the navigation screen and confirm the amount to be paid.

※ The list of affiliates is continuously expanding. For a real-time, updated list, please consult the navigation system or the Kia Pay app.

### Kia digital key

Wouldn't it be convenient if you could unlock the car doors and start the engine without having to carry the car keys? You can with a Kia digital key stored in your smartphone that can operate your car using short-range wireless communication.

※ The list of affiliates is continuously expanding. For a real-time, updated list, please consult the navigation system or the KIA PAY app.

### Home IoT System (Car-to-Home)

Smart IoT devices at home, such as lighting and temperature, can be controlled from the car by voice or the touch screen. It's an ideal system for a hyper-connected era that makes life more convenient.

### Built-in camera

Carnival has built-in high-definition cameras in the front and back of the car that can record images while driving. Files can be easily transferred to a smartphone using an app.

※ The continuous, driving/parking event recording function has not been activated when the product is shipped from the factory. Set-up is required initially, as well as when a new user profile is registered for the first time.

### Electronic Shift-By-Wire (SBW) / Smart key

A convenient electronic shifting dial promotes stable driving and increases space utilization of the center console. The smart key, designed to improve ease of operation, can be used to start the engine and to automatically open the Smart Power Sliding Door.

## Rear Occupant Alert

**Rear Occupant Alert** warns the driver if a family member has been left behind in the rear seats of the vehicle. Warning signs flash on the cluster after the ignition is turned off and doors are opened. The horn sounds if motion is detected after the driver gets off the car and locks the doors. In addition, a text message is sent to a registered smartphone to ensure family members' safety.

※ Smartphone text transmission requires a UVO account.

## Power sliding door safety block

Power sliding doors do not open even if the opening button is pressed if a vehicle is detected in the back in an adjacent lane to help prevent accidents. ※ Limited only to the first attempt to open the door.

## Blind-spot View Monitor

A rear image of the turning side appears on the cluster when the turn signal is activated, offering a wider view compared to conventional outside mirrors.

## 7-airbag system (including a driver's knee airbag)\*

Safety is a key concern in everyone's mind when it comes to automobiles and airbags are fundamental to ensuring passengers' safety in a collision. Carnival protects the driver and passengers with **7 airbags**, including a driver's knee airbag, driver and front airbags, side airbags, and curtain airbags.

### Forward Collision-avoidance Assist

Alerts the driver when there is a danger of colliding with a car, pedestrian, or cyclist in front, and applies the brakes automatically if the risk of a collision continues to increase. Also applies the brakes automatically while making a left turn in an intersection if there is a risk of colliding with an oncoming vehicle in the opposite lane.

### Blind-spot Collision-avoidance Assist

Warns the driver against the risks of a collision while changing lanes if the turn signal is activated and a vehicle is detected in the back in an adjacent lane. Automatically helps to control the vehicle if the risk of a collision continues to increase. Helps to apply the brakes automatically if a risk of colliding with a vehicle approaching from the back in an adjacent lane is detected while getting on the road after parallel parking.

### Rear Cross-traffic Collision-avoidance Assist

Warns the driver against risks of colliding with vehicles approaching from the left or right while pulling out in reverse. Applies the brakes automatically if the risk of colliding continues to increase.

### Highway Driving Assist

Automatically helps to keep the vehicle in the lane and control speed to maintain a safe distance from the car in front and obey speed limits while driving on a highway.

### Lane Keeping Assist

Recognizes lanes and helps the driver keep the center of the lane.

# Engine technology, Achieving optimal performance

Smartstream 3.5 gasoline engine <small>* 9-seater basis</small>			Smartstream 2.2 diesel engine <small>* 9-seater basis</small>		
294	36.2	9.1	202	45.0	13.1

# 9-seater

## Travel long-distances comfortably and economically

If you travel long distances often with groups of people, the 9-seater may be your answer. Every seat is spacious and comfortable, ensuring that both the driver and passengers feel comfortable even on long trips. In addition, if you travel with 6 or more people on board, you can drive on the bus lane, reaching your destination faster.

# 11-seater

## Get cozy, all together

Different seating arrangements are possible to suit different mixes of passengers, making Carnival ideal for transporting a large number of employees to a company meeting or workshop or to pick up business clients. Thanks to a premium space that is conducive to conversation as well as relaxation, everyone can remain comfortable even in long drives.

**Smart ITself**  
**UVO**

UVO makes life more safe and comfortable with advanced technologies that protect the driver and vehicle under all circumstances. UVO offers SOS emergency dispatch, automatic airbag deployment notification, and theft alarm services anytime, anywhere. Discover the priceless value of safe and comfortable driving.

- Remote control**  
Cool or heat the interior of the car remotely in advance using a smart phone.
- Safety and security**  
Emergency assistance through the UVO center in the event of an airbag deployment or roadside emergency (24/7, 365 days).
- Maintenance**  
One-stop service ranging from automatic diagnosis of breakdowns to scheduling of maintenance appointments.
- Navigation**  
Optimal route guidance using real-time traffic information.

\* Complimentary 5-year subscription to UVO with initial enrollment after purchasing the vehicle: remote control, safety and security, maintenance and navigation.  
\* Inquiries: UVO's Kakao Talk service center (type "UVO" in the Kakao Talk search window and befriend).

Specifications may vary according to the trim, seating capacity, engine and options that are selected.
