**JUST POPPING
OUT FOR A BIT
OF FRESH AIR.**

The MINI Countryman loves the city. But sometimes it needs a change of scenery. If you feel the same way, then this compact crossover was made for you.

**REACHES THE PARTS THAT
THE MAINSTREAM CAN'T.**

Unmistakable even when it's half invisible: the helmet roof is
the calling card of a vehicle that's truly outstanding in its field.

Expand your radius of action: with its powerful output and low fuel consumption, the MINI Countryman is not just eco-friendly, it's driver-friendly too.

**MORE (UNSURFACED) MILES
PER GALLON.**

**IF IT COMES OFF THE ROAD,
IT'S ONLY BECAUSE IT WANTS TO.**

It takes a lot to knock the MINI Countryman out of its stride. But if anything does happen, a battery of passive safety technologies intervene quicker than you can say "Oops".

Where the tarmac runs out, the fun is just getting started. With ALL4 all-wheel drive, the new MINI Countryman can take you places that surfaced roads can't.

**ONLY 0.2% OF THE EARTH'S SURFACE
IS TARMACKED. THERE IS A GOD.**

**OUTSTANDING ROADHOLDING.
EVEN WHEN THERE'S NO ROAD TO HOLD.**

Powerful engines, outstanding handling and the famous go-kart feeling turn every journey into an experience to savour. You'll want to test its cornering at every opportunity – even if there aren't actually any corners.

The interior of the MINI Countryman offers lots of space – and even more options. It's got all the features you can think of, and a wealth of design details you never would have thought of. So it's always exciting, even when it's not moving.

**STRIKINGLY
DIFFERENT.
INSTANTLY
FAMILIAR.
UNMISTAKABLY
MINI.**

Freedom of movement in all four seats, and a flexible layout for maximum luggage capacity mean there's room for all your big plans. And for the things you can't plan for.

**SHOWS THE CITY STREETS
WHAT THEY'VE BEEN MISSING.**

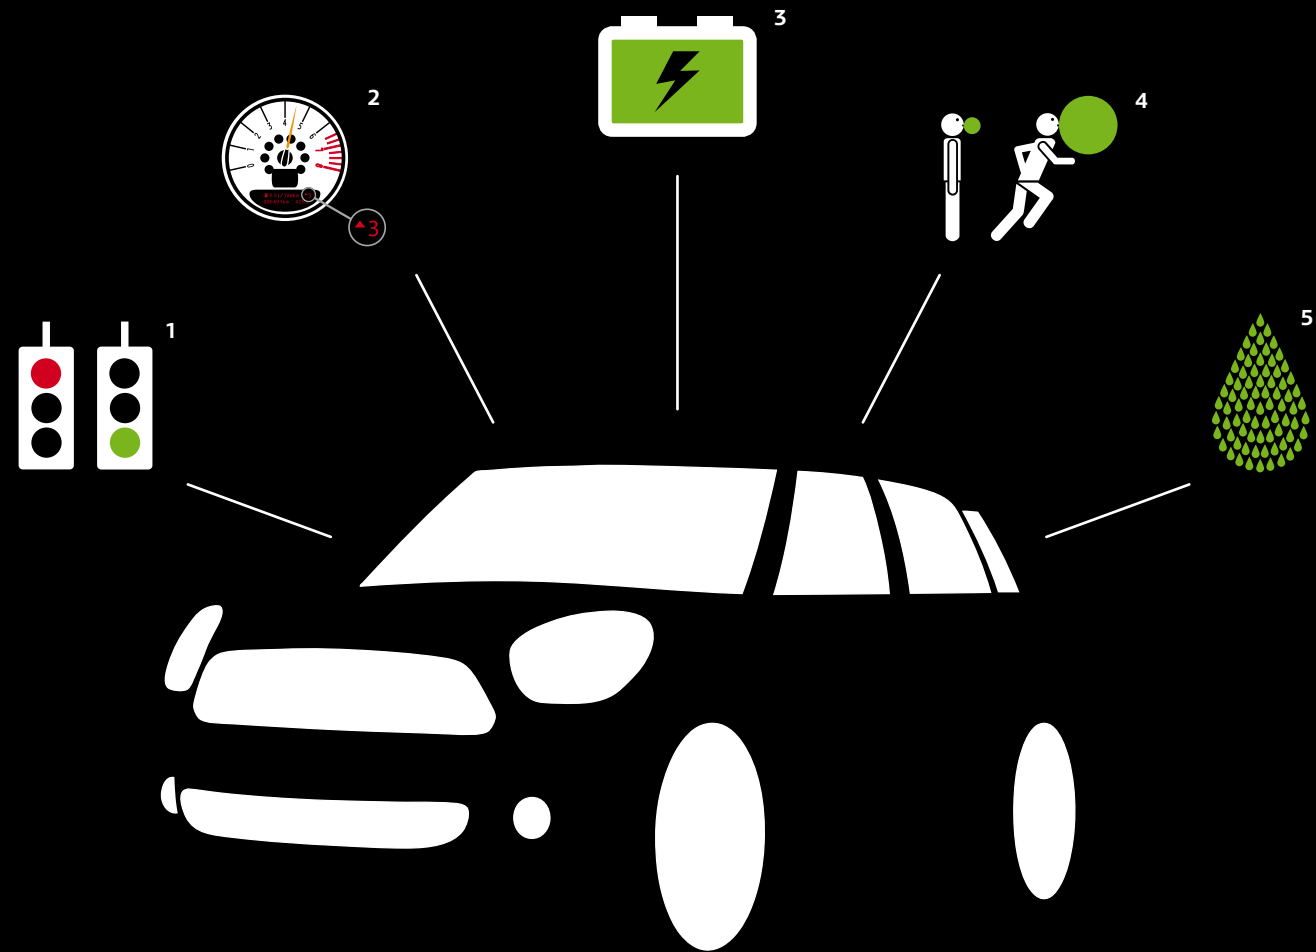

**AS MANY RIGHT ANSWERS
AS THERE ARE DRIVERS.**

However you like to roll, the Scene, Classic and Rallye design worlds¹ are combinations of optional equipment recommended by our designers that will make it easier for you to put together the MINI Countryman that's right for you.

MINIMALISM: LESS REALLY IS MORE.

MINIMALISM is all about getting more from less. A combination of technologies work together to minimize frictional inefficiencies while recapturing energy that would otherwise go to waste. You don't need to be an engineer to appreciate the benefits. Because all these complex energy management systems deliver one simple result: more fun from less fuel.

1. AUTOMATIC START/STOP FUNCTION.
When the MINI stops, so does the engine. Press the clutch, and it starts again. Simple but effective. For models with manual transmission.

2. FULLY VARIABLE VALVE TIMING.
The fully variable valve timing adjusts intake valve lift to the engine's current needs. You don't need to know why this saves you fuel, you just need to know that it does save you fuel.

4. SHIFT POINT DISPLAY.
Timing is everything. And with the Shift Point Display, you'll always time your gear changes to perfection. Making driving more fun and more economical. For models with manual transmission.

5. COMMON-RAIL TECHNOLOGY.
Consistent high-pressure injection and multiple pre-injections ensure the diesel enters the cylinder as a fine mist, which makes the engine run more quietly and improves both output and fuel economy.

3. BRAKE ENERGY REGENERATION.
Who brakes wins. Whenever you brake or take your foot off the gas, the kinetic energy of the MINI is converted into electricity and used to charge the battery.

MINIMALISM ANALYSER.¹

This new feature uses your iPhone (not supplied) to provide visual prompts while you are on the move to help you drive even more fuel-efficiently. At journey's end, you can use the MINI Connected app to carry out a detailed analysis of your driving style and identify ways of improving it. It's fun for you, and good news for the environment too. In other words, it's MINIMALISM to the max.

¹ Expected to be available from fourth quarter of 2010.

4 IS THE MAGIC NUMBER.

4 DOORS. Four generously sized doors make it easier than ever to get in to the new MINI Countryman. Getting out is a bit harder, but that's emotional rather than physical.

4 SEATS. Four separately adjustable seats ensure everybody gets their personal space – something that's not always the case in other crossovers. A single rear seat bench is also available as an option, so a fifth person can join in the fun.

4 METRES. At just over four metres in length, the new MINI Countryman is big inside and out. Stretch out in the interior, and you'll know right away where every one of those extra centimetres has gone.

4-WHEEL DRIVE. The new MINI Countryman is also available with ALL4 permanent all-wheel drive. Fitting this option makes the car even more responsive, and equips it for short detours off-road.

**LEAVE BOREDOM BEHIND.
AND ADMIRING GLANCES IN YOUR WAKE.**

Light-alloy wheels blend seamlessly into the overall design, and are available in an 18-inch size and/or with striking flashes of paint as options.

The LED rear lights with their stylish Chrome edging contribute to the distinctive MINI look of the back end.

Vehicles fitted with ALL4 all-wheel drive also get these badges on the doors.

The distinctive helmet roof seems to float above the glass areas. Roof rails and roof-rack mounting points are fitted as standard.

The White direction indicator lights have an eye-catching new design.

UNCOMPROMISING FLEXIBILITY.

Why should the designers have all the fun? With the new MINI Countryman, everyone can get creative. The unique Center Rail lets you organize your storage so that all your stuff is right where you need it, right now.

The cockpit of the new MINI Countryman is a striking and highly ergonomic reinterpretation of a classic design, ensuring the interior delivers on the promise of the outside.

The characteristic elliptical ring now extends over two doors. Multi-adjustable seats ensure outstanding comfort on even the longest of journeys.

MINI CONNECTED¹: THE WEB IS YOUR OYSTER.

Welcome to the communication age. Now there's a new app packed with intelligent functions that connect you, your MINI and the wider world: MINI Connected brings the limitless possibilities of online infotainment direct to you in your MINI.

MINI Connected takes communications between the MINI Countryman and its driver into a whole new dimension. It also revolutionizes the way the MINI interacts with the Internet. It can be intuitively operated using the car's controls, with the monitor in the central instrument serving as a display for a user interface in the unmistakable MINI style.

Innovative features such as Dynamic Music, integrated Twitter support and Google Local Search really enhance your in-car experience. And then there is the Internet radio function, which lets you access a galaxy of online broadcasters via your iPhone (not supplied) while you're on the road. MINI Connected brings the digital revolution to the cockpit of your new MINI.

¹ Broadband mobile Internet access required. Costs resulting from this (e.g. data roaming) will be payable as specified in the contract with your network provider. App available free of charge from the device manufacturer's app store (subject to national restrictions). Full range of functionalities available from fourth quarter of 2010. Updates available at no cost, but expansion packs may require payment. For details of device compatibility and more information, visit MINI.com/connectivity.

KEEP IT MINI.

ORIGINAL MINI ACCESSORIES.¹

Original MINI Accessories offer an almost infinite variety of options, but the fun always stays the same. Every product was specifically designed and styled for use in the MINI Countryman, and every product has been rigorously tested to the strictest possible standards. For the exterior of your MINI Countryman, there are a wealth of stylish components such as the striking off-road styling package and cool designs for the exterior mirror caps, rear-view mirror housing and roof. Bonnet stripes are a

visual expression of the car's energetic personality. For the interior, there are practical solutions such as child seats that offer optimum safety for smaller passengers, the Rail-Box for the Center Rail and various different floor mats. And for longer trips or leisure pursuits, there is an array of smart luggage compartment solutions and transportation accessories. Whatever you're looking for, you'll find it here.

KEEP IT WILD.

JOHN COOPER WORKS TUNING.¹

John Cooper Works Tuning delivers a true racetrack experience. The striking aerodynamic package comprises front and rear aprons, and side skirts in body colour with racing-style ventilation openings. A diffuser in the rear apron increases downforce. The effect is completed by the large exhaust tailpipe finishers in Chrome. Exterior mirror caps and sport

stripes in Chili Red further enhance the racy look, and the 19-inch Double Spoke R129 light-alloy wheels with runflat tyres combine eye-catching design with racing character. In the interior too, John Cooper Works components create a genuine race-car ambience, with options such as additional instruments and a sports steering wheel in Alcantara or leather.

² All MINI Countryman models comply with the EU5 exhaust emissions standard. Fuel consumption is determined in accordance with the ECE driving cycle (as defined in Directive 80/1268/EEC), made up of approximately one third urban and two thirds extra-urban driving (based on the distance covered).

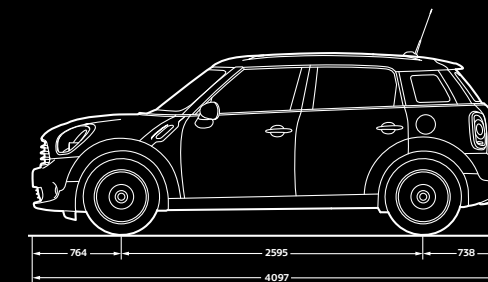

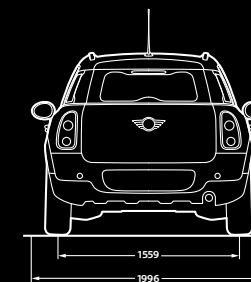

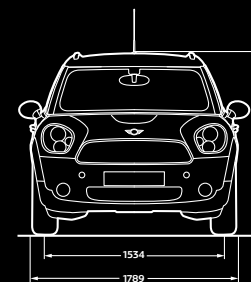

CO₂ emissions are measured separately from fuel consumption. Figures relate to standard-specification vehicles, and may vary significantly where optional equipment (including wider tyres) is fitted.

³ With overboost function.

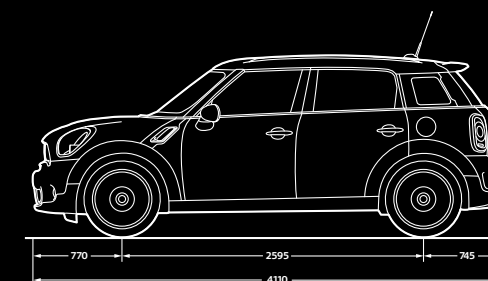

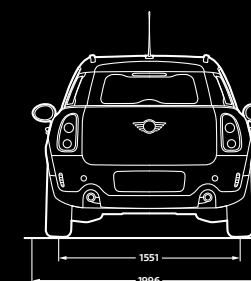

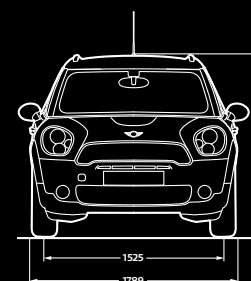

⁴ For technical reasons, engine performance will reduce when it is tuned to avoid carbon deposits.

WARRANTY. RECYCLING.

WARRANTY.

Every MINI is supplied with a 2-year unlimited mileage dealer warranty. (This excludes wear-and-tear parts.) Every MINI also comes with a 12-year anticorrosion warranty, which covers the vehicle against rusting of the body panels. This warranty is dependent on any previous damage to the vehicle body or under-body (e.g. stone impact damage, scratches, dents, accident damage or other damage caused by environmental factors) having been correctly repaired in accordance with current MINI guidelines. The painted surfaces of the car are covered by a 3-year warranty. This excludes any damage to painted surfaces caused by external or environmental factors.

RECYCLING.

At every stage, from design to disassembly, recycling is central to the MINI philosophy. For example, all the materials used in its manufacture were selected because they can be used in a sustainable and environmentally friendly way. And every MINI is built to be easily and economically recycled when its driving days are finally done. We have been working on this approach since 1994 at the BMW Group Recycling and Disassembly Centre in Munich, the only facility of its kind. Your MINI dealer will also be pleased to advise you on the disposal of your old vehicle.

The models, standard and optional equipment and combinability of options in this brochure relate to cars supplied by BMW AG for the German market. The availability of standard and optional equipment, and the combinability of options, may vary from country to country within the European Union for all models. For detailed information about the situation in your country, please contact your authorized MINI dealer. Subject to change in design and equipment.
