

**The most comfortable way
to transport a big load.**

OPEL
CarAvan

**We don't know how
much you want to transport.
Or how much value you place
on sedan-comfort. Or how much
you want to pay for it.
But we know one thing:
OPEL builds YOUR CarAVan.**

Because there's not just one OPEL CarAVan.

But seven. And one of them is the right one for you. Because we build each one according to your own desires and needs. YOU decide how much horse power you want and if you want to shift or not. YOU decide on the size of the car, the furnishings, the color, the upholstery combination.

To be sure, some things we've already built in. With the highest qualifications. Where they concern your safety. And the permanent value of your CarAVan. And its economy. On these points we're not easy-going. To us only the safest vehicle is safe enough. Only the most solid construction is durable enough. Only the toughest, most reliable engine is good enough.

For you.

REKORD CarAvan, 3-door

REKORD CarAvan, 5-door

REKORD Luxury-CarAvan, 5-door

They all belong to the cars which are built today for tomorrow. In each one we've built in a maximum of the most modern technological advances. Looking at it that way, it makes no difference on which of these seven you decide. Because they differ only in details: size, pep-piness, furnishings — not on the overall concept.

KADETT CarAVan. Do you see anything

except a comfortable sedan ?

So they've got seating comfort in the standard KADETT CarAVan. Seats with tough upholstery, resilient zig-zag springs. Body conformable. Your choice of fabric or leatherette coverings.

We don't see a single item of comfort you should deny yourself. Just because you need more space. So they've got comfortable, quickly adjustable seats up front. (Exactly like the KADETT Sedan.)

So they've got fresh-air-heating (optional) with infinitely variable control from refreshing-cool to cozy-warm. And a 2-step blower. (Exactly like the KADETT Sedan.)

So they've got: Smooth shifting and steering. Handy buttons and switches. Easy-to-see dashboard. And plenty of room to move arms, legs, hips, shoulders. And lots of light and visibility. For you and your guests.

KADETT Luxury-CarAVan, 5-door

They're for happy-driving.

REKORD CarAVan

Each and everyone should have a place in the sun. Should feel good. Shouldn't feel the length of the miles. Should get there fast. That's important to you and to us. For all CarAVan models.

The CarAVan cars of the REKORD series are a size bigger. And huskier. Your choice of three: 3-door, 5-door, 5-door Luxury. But with all of them only the loading makes them utility cars. Otherwise they're really sedans. Yes, like all REKORD models: Elegant. Convenient. Comfortable. Powerful. Safe. The Luxury-CarAVan has a right to its name: Thick-pile carpeting on all the flooring. Even in the luggage part. Select furnishings. You can be proud of it. Anywhere.

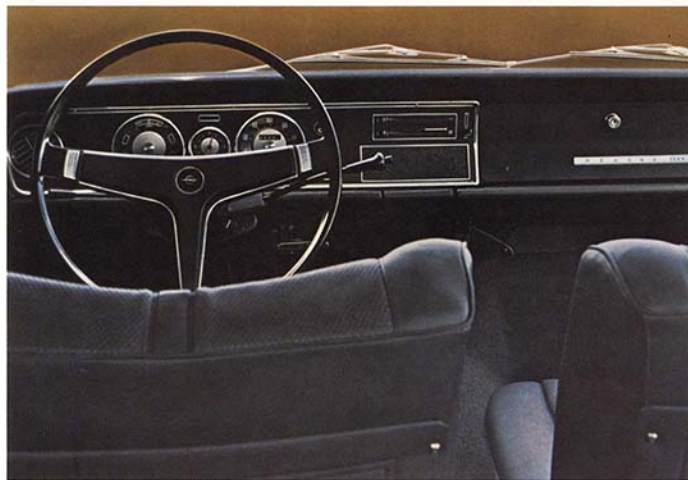

Interior: REKORD-Standard-CarAVan.

Leisure-Weekend-Vacation-Sedan.

Seating comfort in the Luxury CarAVan, 5-door.

That's how sporty plus easy handling looks.

Exclusive for REKORD Luxury-CarAVan drivers.

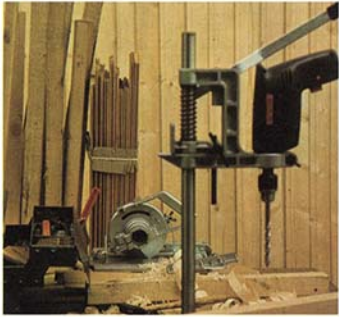

Don't worry, we remembered your weekends too.

**Any hobby you've got,
it fits in an OPEL CarAVan.
And with all this comfort
even your work becomes a hobby.**

It's up to you, if you need a lot or even more room. In the KADETT CarAVans you have a lot of room. In the REKORD CarAVans you have even more room. And all of them are economical, comfortable, sporty. And whatever you carry:
With all OPEL CarAVans you carry it carefully. The springs are big, for easy riding.

With OPEL CarAVans you solve all transport problems in one easy hand motion.

If bulky loads make the space suddenly seem small, you get more room quickly with one simple hand motion. Out of a 5-seater you get a 2-seater. And a big load area becomes huge. We figured it out for you. How you can get the most out of your load area. We made it high, wide and handsome. We put the side windows in outside curves. Transport problems don't exist for you. With an OPEL CarAVan. It will take anything — depending on model and furnishings — more than 1,000 lbs. Glance at the insert page with the technical details.

in the KADETT- and REKORD CarAVan with 1.7 ltr S- or 1.9 ltr S engine.

This point cannot be denied: The Full-Automatic shifts faster than the fastest sports driver can. And it always shifts at the right moment: When the torque of the engine is most favorable. Naturally this preserves your engine. And transmission.

But the new OPEL-FULL-AUTOMATIC offers many more advantages: It's truly fully automatic. It has three steps. And it has been thoroughly worked out. Down to the smallest gear tooth.

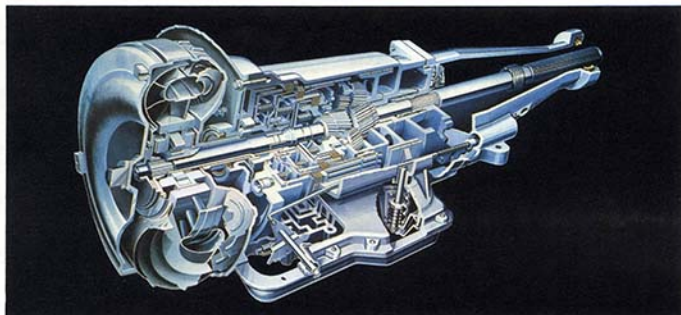

All the parts are compact. It's got a fast Kick-

Down: So you can pass the car in front more quickly. More safely. The oil is cooled by the cooling liquid. And needs changing only every 25,000 miles.

Try and find another Full-Automatic that offers all these benefits. That alone is worth a test

drive. The trend to automatic shifting cannot be stopped.

Find out for yourself how really enjoyable it is to drive with a Full-Automatic: No shifting. No clutching. No engine stalling. And both hands on the steering wheel.

AUTOMATIC selector: For REKORD CarAVan at steering wheel.
For L model against extra charge on the console.
For KADETT CarAVan on console only.

**How much fun your vacation is.
How quickly you get your work done.
That's up to you.
With an OPEL CarAVan.**

KADETT

**1.1 ltr 54 hp
engine**

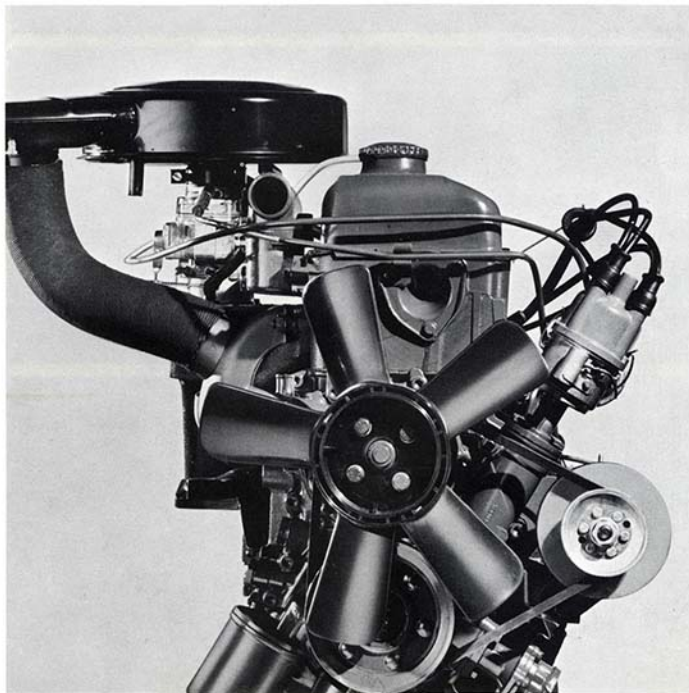

**1.1 ltr S 59 hp
engine**

**1.1 ltr SR 67 hp
engine**

**1.5 ltr S 76 hp
engine**

**1.7 ltr S 84 hp
engine**

**1.9 ltr S 102 hp
engine**

Well, that's the engine — 6 of them. More exactly: 6 reliable OPEL engines. And what that means, you know: Modern. Tough. Fast. For example: The standard zippy 1.1 ltr with 54 hp. Or the more energetic 1.1 ltr S with 59 strong horses. Want more? Okay: 67 horses whirl the wheels under the 1.1 ltr SR. With the 1.5 ltr S you have 76 horses spinning them around. The dynamic 1.7 ltr S has 84 horses pulling for you. And the 1.9 ltr S gives you 102 steeds for sensational speeds. Hard to make a choice? Well, let's put it this way:

Would you prefer we offered you only one engine? Without giving you any choice? Look, this was the idea we had in mind: To hand you a "custom built" engine. Because a choice of several engines turns a KADETT CarAVan into a custom-built-KADETT-CarAVan.

The temperament of a car depends on the temperament of the driver.
To each his own. The same with a CarAVan.

REKORD

**1.5 ltr 68 hp
engine**

**1.7 ltr 73 hp
engine**

**1.7 ltr S 84 hp
engine**

**1.9 ltr S 102 hp
engine**

REKORD engines have the camshaft in the head and a 5-bearing crankshaft. A modern design based on sports car principles for: High performance. Great toughness. Long life. Standard: The husky 68 hp 1.5 ltr engine. Or the 73 hp favorable torque 1.7 ltr engine. Both are happy with regular gasoline. Next, the big-muscled 84 hp 1.7 ltr S engine. Then, hold your hats, the exciting 102 hp 1.9 ltr S engine. For zooming speeds. An incomparable choice of performances.

It makes no difference which CarAVan, with which engine, you drive. OPEL engines are among the most modern in Europe. Their design principles mark them as truly advanced power plants. Classic OPEL dependability is combined with sparkling sports-car performance.

OPEL's big safety features.

1. Self-supporting all-steel body.
2. For safety you also need an all-round-advanced chassis.

KADETT: In front, independent wheel suspension with trapezoidal dual control arms. In back, a pole axle with two-link and central-joint suspension. Coil springs and stabilizer.

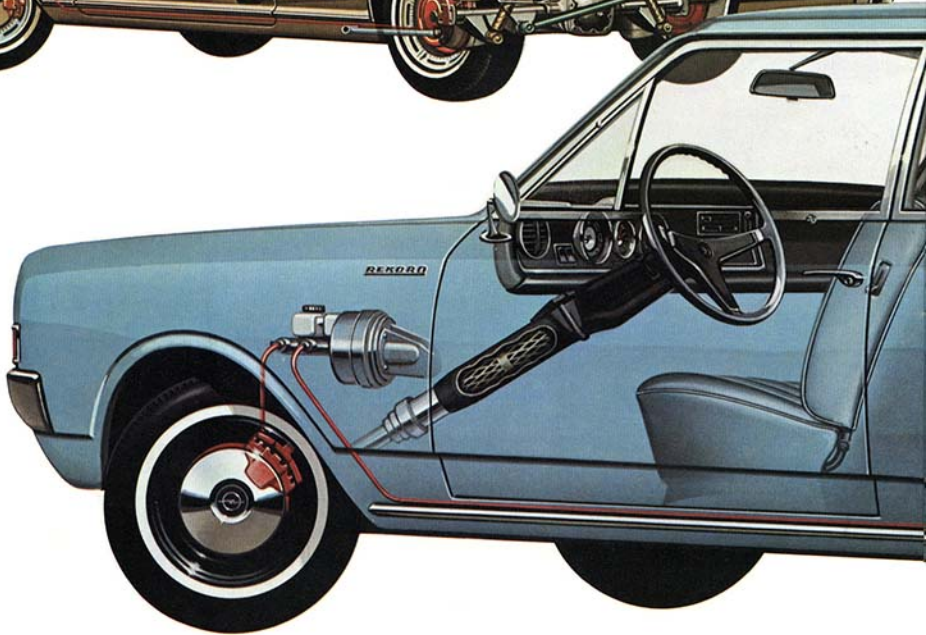

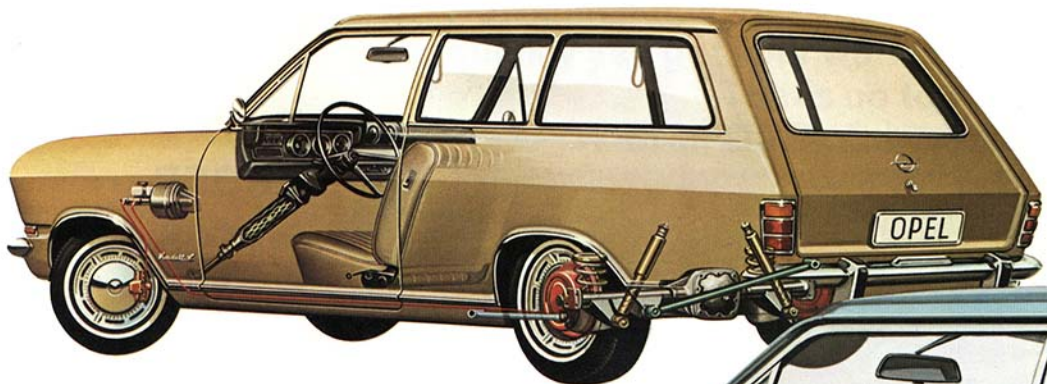

REKORD: In front, independent wheel suspension with strut rod. In back, an axle with longitudinal links and lateral track bar. Coil springs front and back.

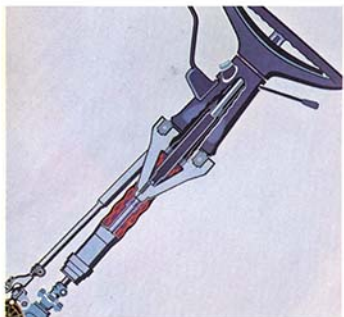

3. Dual-circuit brake system. Brake booster. Disc brakes in front (standard with 59 hp and more).

4. Safety steering: Wheel with recessed hub. Break-away instrument panel attachment. Toe panel with shock-absorbing mesh section. Telescopic steering shaft with flexible coupling.

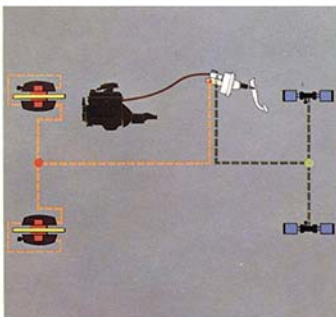

5. Interior safety features: Locking back rests on front seats. Instrument panel padded above and below. Soft plastic knobs and switches. Arm rests of yielding materials. Padded sunvisors. Ejectable safety rear view mirror. Reinforced mountings for 3-point safety belts front and back.

6. Two back-up lights.

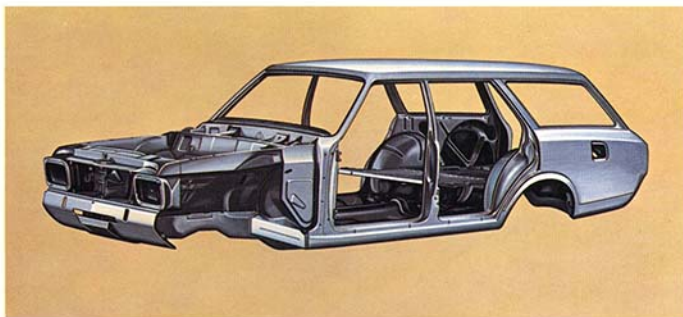

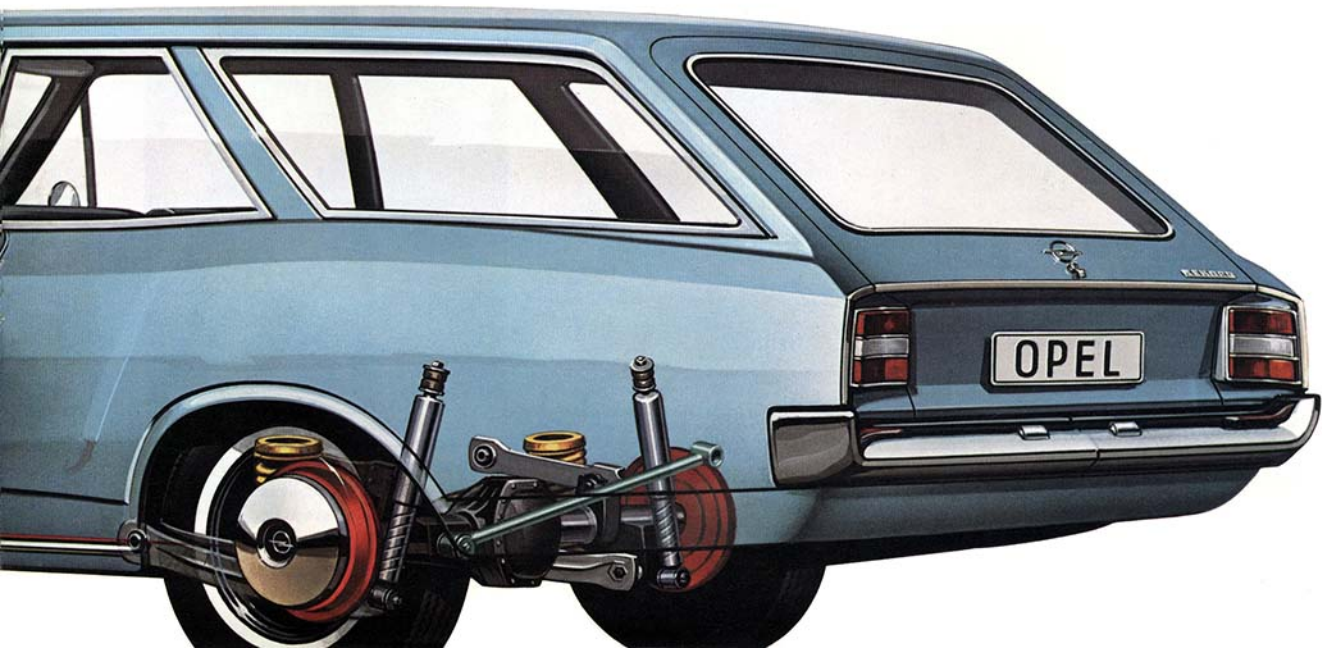

Safety steering.

Dual-circuit brake system with brake booster.

All-steel body

Distribution and service available through the General Motors Overseas Organization. Tourists visiting Continental Europe and the Scandinavian countries will find adequate service through the excellent network of OPEL service stations.

**Bring your family
along for the test drive.**
Your CarAVan is worthy of it.

Rust protection

Something you don't see right away. We declared war on rust. We use several special processes with anti-corrosion paints in recessed spaces, seams, posts and welded points. Wherever this pest likes to attack. At OPEL, rust has nothing to laugh about.
