

VOLVO V40

[www.volvocars.com](http://www.volvocars.com)

# V40

The all-new Volvo V40 doesn't follow the crowd. Instead, it's designed around the lives you live. It's a car that's less expected, more fun and more individual. Perhaps a bit more you?

You'll spend a lot of time here. So why not surround yourself with top class materials, distinctive Scandinavian design and a sporty cockpit feeling? Get inside the Volvo V40, your place to be, and enjoy uncomplicated style and functionality. Take a look and see for yourself.

Experience the innovative features in films and create the V40 that's really you.  
**Get your Volvo V40 app for iPhone or iPad on the App Store.**

## Scandinavian Design

A five-door hatchback can look like any ordinary five-door hatchback. Unless it's a Volvo V40. It's different with a reason – to be all yours. And who wants to be ordinary?

Explore the design of your all-new Volvo V40. Then imagine it on a street near you.

## Scandinavian Design

What will you feel the moment you enter this perfectly crafted interior? Is it excitement of the uncompromised Scandinavian design and the touch and feel of the high-class materials? Maybe it's amazed wonder of the clever details for your convenience and comfort, or how smoothly the interior adapts to the mood you're in. Some things you'll notice immediately, others you'll fully appreciate after spending hours in your V40. But don't be surprised if you get a relaxed feeling, perhaps like coming home. Once here, you'll love the idea of coming back.

### **Clean interior**

Well-being starts on the inside. All upholstery and interior textiles are allergy-tested, and the Interior Air Quality System keeps harmful airborne substances outside your cabin. Good for you, and for anyone who shares the ride.

### **Ergonomic seat design**

Have some quality time inside your Volvo V40. Wherever you're seated, you'll experience iconic Volvo comfort. Your body is relaxed, your senses are focused and you'll arrive at your destination with a smile on your face.

### **Panoramic glass roof**

Want more energy? The panoramic glass roof gives you a vitalising dose of light therapy every time you're inside your car. It also adds a luxurious touch to any journey – wherever you're seated. Prepare to get energised with the speed of light. And if there's too much light and sunshine, just close the sliding curtain with a press of a button.

### **Interior theatre light**

Why settle for just one standard interior light setting? In the Volvo V40, the interior theatre light instantly adjusts to your wishes with seven individual colour settings. So be it on your daily commute or dining out on the town – just pick the interior mood that's you. Or allow the interior light-colour to adapt to your temperature settings in the climate system.

### **Illuminated gear knob**

Want some extra drama inside your Volvo V40? The illuminated gear knob not only harmonises perfectly with the centre console illumination. It's also a delight and strongly addictive. Just like your V40.

## Dynamic Driving

Nothing challenges us like the task of creating the perfect driving experience. And no resources have been spared to achieve our most dynamic and personal car ever. Want control? Take your position in the lavish driver's seat, select your settings and go for it. This is having fun on your terms.

### **Speed-dependent steering wheel forces**

You're probably not in the same driving mood all the time. That's why you can select your personal steering characteristics. Select Low, Medium or High power assistance – the all-new Volvo V40 means driving on your terms without compromises.

### **Turbo engine**

How much power do you want? Each engine for your V40 – from the hyper-efficient D2 turbo diesel to the breathtaking T5 – features advanced turbo technology to maximise your driving experience without compromising on fuel efficiency. Volvo's smart Start/Stop technology saves even more fuel on your commute. You'll simply get more out of less. Which engine are you?

### **Torque Vectoring**

Want some fun? Torque Vectoring ensures traction is always on your side. It gives you faster acceleration out of corners and a dynamic driving experience. This will also have a profound effect on the direction of your mouth corners.

### **Chassis**

We fine-tuned every single detail of the chassis to act as one with you. The rigid body, the well-dimensioned state-of-the-art chassis components and the low centre of gravity promote a sporty driving experience without compromising ride comfort. Behind the wheel, you get both the connected response that makes a winding country road so much fun, as well as the precise, nimble moves it takes to stay on top of busy urban traffic. Do you want even more fun? Try the lowered sports chassis. With firmer shock absorbers, springs and anti-roll bars it will further improve your handling, traction and road control.

Does control make you feel good? We created the Driver Support Package to inform and assist you in all traffic situations. Advanced radar and camera technology help you keep an eye on vehicles in front and behind, road signs and pedestrians. It helps you keep a safe distance at all speeds and even brakes automatically if necessary. It can also alert you if you're tired or weave out of your lane.

Surrounded by all this supportive intelligence you can enjoy a more relaxed driving experience – more in touch with your senses and the world around you.

#### THE DRIVER SUPPORT PACKAGE INCLUDES:

##### **Adaptive Cruise Control (ACC) Queue Assist**

Enjoy smooth cruising at any speed. ACC automatically maintains your set speed and distance to the vehicle ahead of you – whether you're driving on the highway or in slow-moving stop-and-go traffic.

\*The stop and go function from 0 to 30 km/h requires an automatic gearbox.

##### **Collision Warning with Full Auto Brake**

Stay out of trouble. Collision Warning warns you if you approach a vehicle so fast that there's risk of a collision. If you don't react to the warning and a collision is imminent, full auto-braking is applied to help you avoid or mitigate a collision.

##### **Pedestrian Detection with Full Auto Brake**

Using radar and camera technology, your Volvo can detect pedestrians in front of your car. It can alert you if a pedestrian unexpectedly steps out and – if you don't react to the warning – brake automatically to help keep the pedestrian out of harm's way.

##### **Driver Alert Control (DAC)**

Stay alert and in control. The Driver Alert Control monitors your driving behaviour and alerts you if your behaviour shows signs of drowsiness or distraction and politely suggests a break.

##### **Lane Keeping Aid (LKA)**

Keep your position. If you begin to drift on the road, Lane Keeping Aid helps you stay in your lane by applying a gentle steering wheel torque. And should you unintentionally cross the lane markings you'll be alerted by haptic vibrations in the steering wheel.

##### **Active High Beam (AHB)**

Enjoy relaxed vision even when it's dark. With Active High Beam, your Volvo will recognise vehicles in front of you and automatically adapt your beam to give you maximum vision without dazzling other drivers.

##### **Road Sign Information (RSI)**

Ensure you're constantly updated. The Road Sign Information displays important road signs, such as speed limit and no overtaking signs, in the driver information module to help keep you informed about current limitations.

##### **Blind Spot Information System (BLIS)**

Reveal the blind spot. Using radar sensors in the rear bumper, BLIS helps you keep a lookout behind and on the sides of your car. If a vehicle enters your blind spot or approaches fast from behind, BLIS will alert you.

##### **Lane Change Merge Aid (LCMA)**

Watch your back. LCMA constantly scans the road 70 meters behind your V40 and alerts you of rapidly approaching vehicles.

##### **Cross Traffic Alert (CTA)**

Get eyes in the back. When you for example reverse out of a parking space with limited visibility, Cross Traffic Alert can alert you of oncoming traffic from the sides.

Less worries and more control. That's the idea behind the advanced safety technologies of your Volvo V40. It's all about expanding your senses and margins, and to help protect you, your passengers and even people outside your car in the event of a collision. This is legendary strength by Volvo, and never before has total control and peace of mind been so easy to achieve.

### **Pedestrian airbag technology**

Hopefully you'll never experience this Volvo safety world first in action. But should there ever be a frontal collision between your V40 and an unprotected road user, the pedestrian airbag will help reduce the severity of pedestrian injury. This innovation is an important step to reduce the consequences of frontal collisions between cars and pedestrians.

### **Park Assist Pilot**

Honestly, who likes to park? Park Assist Pilot makes parallel parking less of a hassle and can park your V40 by operating the steering automatically. You just control the speed and direction of the car while the technology takes care of the rest. It's like magic and dare we say, quite entertaining.

### **City Safety**

Always expect the unexpected. City Safety detects if you're about to run into a vehicle and brakes automatically to avoid a collision. Very smart and very courteous in slow moving city traffic – for you, your passengers, your insurance company and anyone in the car in front of you. City Safety is active up to 50 km/h.

### **Lighting**

Want to feel at ease in the dark? The front and rear lights both look great and optimise your vision in all conditions. For an even more relaxed driving experience, try the Active Bending Lights (ABL) with Dual Xenon technology that provides you with a very powerful low and full beam in all situations. And when cornering, the light beam automatically follows the road to optimise your vision throughout the bend.

Usually cars in this class offer just one set-up of driver information. But we believe you deserve more. With the digital instrument cluster you can easily adapt the instrument interface to your driving desires. You have three display themes to switch between – Elegance, Eco and Performance. Which mode are you in today?

## **Elegance**

This is your sophisticated and stylish display theme, with the speedometer in the centre dial and highlighted needle for easy reading. With manual transmission, a gearshift indicator helps you drive in the most energy-efficient way.

## **Eco**

Switch to Eco, and green is what you get. The instrument layout is similar to the Elegance theme, but in addition to the fuel-saving gearshift indicator, you also get an Eco guide. Guiding you by showing real time fuel consumption and average consumption from the last minutes, the Eco guide supports you to drive in the most fuel-efficient way. And when driving really economical, you'll receive a symbolic reward in the display.

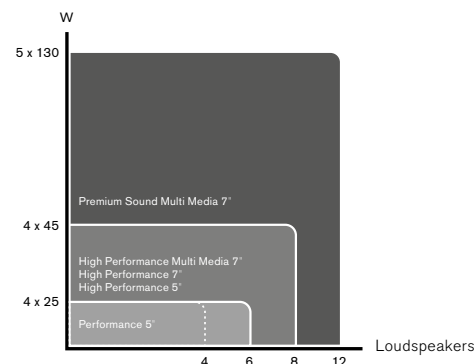

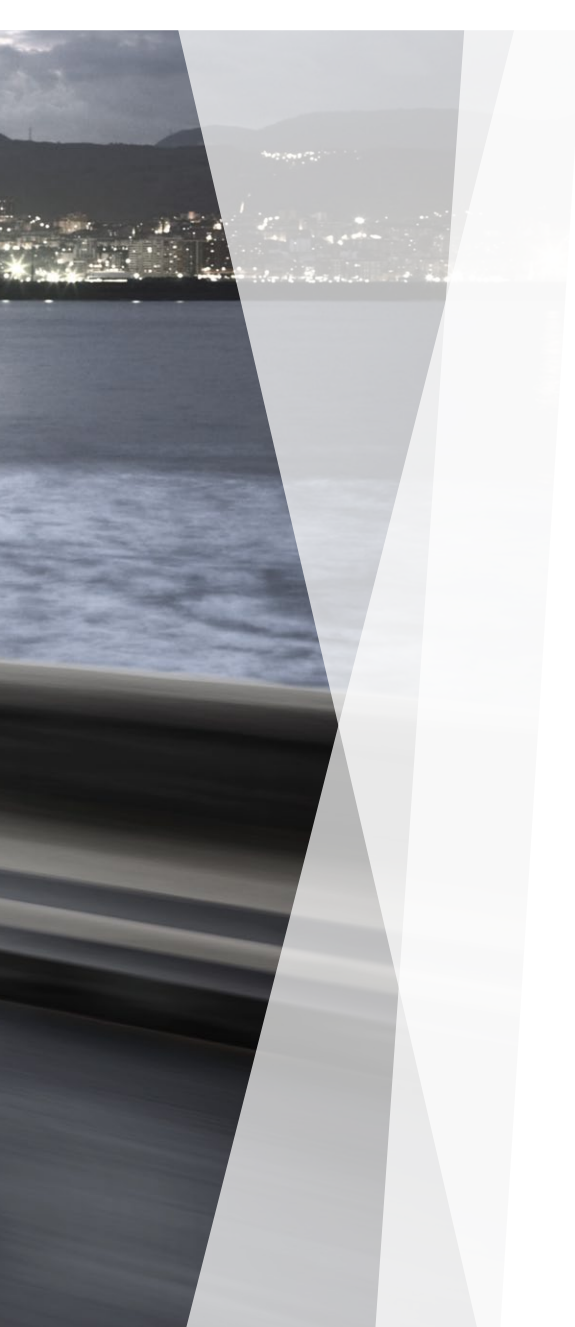

## **Performance**

Are you in the mood for active driving? Go for the Performance theme and enjoy an uncompromised sporty look with the centre dial rev counter and a digital speedometer that enhances your feeling of being in command. Not to mention the power meter that displays how much engine power you use and have at your disposal before overtaking.

**Sensus Media Centre**

The smartest technology is the one you operate intuitively. That's why you don't find zillions of complicated buttons inside your Volvo V40. Instead, the easy-to-use driver control interface Sensus Media Centre puts you in control of the advanced functions of your V40. While keeping your hands on the steering wheel, you conveniently operate the multimedia systems and select your personal car settings using the buttons and the smart scroll-wheel control integrated in the steering wheel. All the information you need is clearly displayed in the Sensus colour screen. Very intuitive, and very Volvo.

**Connectivity technology**

How about connecting your V40 with your mobile phone? Bluetooth technology instantly connects your mobile phone with the hands-free system in your Volvo. It also allows streaming of music from your phone to the car's audio system. And with Volvo On Call's smart-phone applications, you can control and monitor your V40 from anywhere at anytime just using your smart-phone.

The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Volvo Car Corporation is under licence. Other trademarks and trade names are those of their respective owners.

**Audio and Multimedia technology**

This is for the music lover inside you. Whatever music there's on your playlist, Volvo's innovative audio technology will do it full justice. Especially if you choose the 5x130 W Premium Sound Multi Media – our top of the line sound system, specially-designed for the interior acoustics of your Volvo V40. You and your passengers can enjoy a supremely faithful, colourful and powerful sound – in all seats. In the integrated multimedia screen you can watch TV or a movie while having a full cinematic surround sound experience. Sounds like music? You bet.

**RTI Navigation**

You'll easily find your way in the Volvo V40. Just text or speak your command to the RTI navigation system and you'll be smoothly guided all the way to your destination. This intuitive system is elegantly integrated with your car and is easily operated without you having to lose attention on the traffic. And should there be traffic obstacles ahead, you'll be helped finding alternative routes.

Drive smartly and enjoy life in your all-new Volvo V40. We designed it to use fuel as efficiently as possible. It will take you longer, and sure it feels better that way.

**94 g CO<sub>2</sub>/km**

How about getting much more out of less? Satisfying itself with 3.6 litres/100 km and emitting only 94 g CO<sub>2</sub>/km, the 115 hp D2 turbo diesel is frugal with everything except performance and comfort. You'll experience the punchy 270 Nm of torque and enjoy a flexible and refined engine character. Finally, eco driving no longer means compromising the fun of driving.

Fuel consumption and CO<sub>2</sub> emission data apply for the standard version of your Volvo. The addition of extra equipment, such as wider tires, may result in somewhat higher figures.

**Aerodynamic design**

Great looks and excellent aerodynamic properties combine in one attractive package: your all-new Volvo V40. Its low stance, slim roofline and a sculpted rear section optimise the airflow around the car. Together with the smooth under body panels, this translates into lower CO<sub>2</sub> emissions and improved driving dynamics at higher speeds.

**Start/Stop technology**

Why have the engine emitting CO<sub>2</sub> at traffic lights? Your V40 is smarter than that. Instead of idling at standstill the engine shuts off automatically and you can enjoy the appreciating looks from pedestrians passing by. And when you need power again, the engine restarts automatically in milliseconds and you're on the go. Volvo's Start/Stop technology reduces your fuel consumption by up to 8% in city traffic and comes with all engine and transmission variants of your Volvo V40.

**Engine brake energy regeneration**

Take advantage of energy. Every time you engine brake your V40, the kinetic energy that otherwise would be wasted is fed back to the battery. Your fuel consumption is reduced by an extra 2–3% – a little contribution to fuel economy and lower CO<sub>2</sub> emissions.

**Electrical power assisted steering (EPAS)**

Have fun and save fuel. Volvo's electrical power assisted speed-dependent steering consumes less energy while responding to your commands precisely and intuitively. Comes with all engine variants.

The promise of fast approaching curves.  
This is the all-new Volvo V40 R-DESIGN.  
Inspired by the sportier you.

**R**DESIGN

T4, R-DESIGN, REBEL BLUE WITH IXION 18" WHEELS.

**R** DESIGN

### **R-DESIGN exterior details**

Are you ready for R-DESIGN? Celebrating sports and style in its own way, the Volvo V40 R-DESIGN is not for everybody. The unique front with LED spoiler lights, the silk metal finish design details, the rear diffuser, the dual end pipes and the 17-inch wheels (18-inch wheels are optional) – everything about R-DESIGN has one simple message: “Drive me”. And inspired by classic racing, Rebel Blue is a solid exterior colour that’s passionately sporty without asking for permission. Maybe just like you?

R DESIGN

V40

V40

## **R** DESIGN

### **R-DESIGN interior**

Looking for passion? Inside the Volvo V40 R-DESIGN, you're surrounded by racing inspired styling details in perforated leather and aluminium. The R-DESIGN seat featuring high-friction nubuck textile and perforated leather keeps you firmly in place. In front of you, there's the intuitive R-DESIGN blue digital driver information display. And above you, the black inner roof creates an intimate sporty ambience that puts you in the centre of the action.

### **R-DESIGN seats**

Inspired by racing seats, the R-DESIGN seats feature seating surfaces in high-friction durable nubuck textile. Together with the seat's side support, this keeps you firmly in place even during the high lateral g-forces that often come with inspired driving. Alternatively, the seating surfaces are in genuine nappa leather that have a genuine natural feel that is soft to the touch and which adds a luxurious touch to the interior. Contrasting stitching enhances the sculpted seat design. And for the uncompromised sporty touch, sections of the seats are upholstered in perforated leather that also are echoed in the handbrake lever, gearshift gaiter and front centre armrest.

## Accessories

Your Volvo V40 easily helps you deal with the more down-to-earth stuff of life. The smart two-level load floor gives you a flat load floor, a grocery bag holder and extra storage capacity. Combined with the load organiser mat including aluminium load dividers, you'll keep your stuff well organised under the floor. And to help you keep other small items easily accessible under the parcel shelf, we have created a special compartment net.

### **Parcel shelf net**

Mounted under the parcel shelf, this compartment net for loose items helps you maintain order in the load compartment while keeping your stuff easily accessible when you need it.

### **Load organiser mat**

This gives you both a durable load mat and a smart organiser. Three moveable aluminium dividers allow you to create storage areas exactly as you want them. This organiser perfectly complements the two-level load compartment floor as you can keep your stuff well organised under the floor. It's also available for cars with the standard load compartment floor.

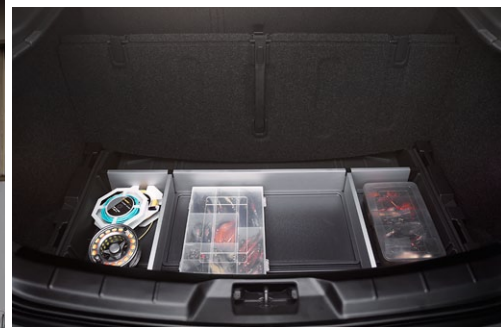

### **Load carriers**

To help you fully utilise the roof of your Volvo, we've developed a range of versatile load-carrying accessories. This system is designed to carry up to 75 kg. Various load accessories – such as roof boxes and different holders for bikes, skis, snowboards and kayaks – can be attached to the load carriers to meet your needs.

### **Steel grille**

This colour-coordinated steel protective grille helps protect the occupants from unsecured cargo during hard braking. It also creates a safe place for a dog travelling in the load compartment.

## Accessories

The design of your all-new V40 is all dynamic, with curvy muscular lines and a distinct road hugging appearance. And to further improve your relationship with natural forces such as the wind, we recommend this Exterior Styling Kit. It includes side deflectors, rear deflectors and a rear diffuser with double end pipes. Together with the roof spoiler and aerodynamic wheels, it allows the air to slip off the body more easily. But perhaps even more importantly: this will make your V40 even harder to resist. Sure you can live with that?

### Roof spoiler

A unique spoiler with aircraft inspired fins and winglets that enhances the sporty and aerodynamic stance of your V40. With integrated brake light and painted in the same colour as your car.

### Ailos 18-inch aluminium wheels, Aerodynamic Disc Concept

Truly innovative wheel design and unique aerodynamics make the all-new 18-inch Ailos a design statement beyond the ordinary. To lower the drag and match all body colours and the matt grey styling kit, the spokes are fitted with aero discs in grey. The wheels are available with printed graphics in three colour variants – red, white and lime – to perfectly match the striping of the side deflectors.

### Exterior Styling Kit

Comprising a rear diffuser with double end pipes and rear deflectors, the Exterior Styling kit enhances the aerodynamic and dynamic looks of your V40. The upper part of the diffuser is either painted in the same colour as your car or contrasting matt grey. The lower part is always in Charcoal. The oval end pipes in chromed stainless steel add an exclusive sporty feel to your V40. The deflectors are available in two variants: painted in the colour of your car or as contrasting matt grey. Further enhancing your personal style, a kit of complementary red, white or lime stripes is included.

## Your Volvo V40 starts here.

The engine you choose will define a major part of the experience ahead. Some engines favour high performance, while others favour high mileage, but all of these petrol and diesel engines deliver instant power and smooth running while state-of-the-art technology makes the most of every micro-drop of fuel. Which engine is going to start you up? Find out more about the engines at [www.volvocars.com](http://www.volvocars.com)

## T4

man: **129 g CO<sub>2</sub>/km | 5.5 l/100 km | 180 hp | 132 kW | 270 Nm**  
(including **30 Nm** overboost) | **Euro 5**

auto\*: **144 g CO<sub>2</sub>/km | 6.2 l/100 km | 180 hp | 132 kW | 270 Nm**  
(including **30 Nm** overboost) | **Euro 5**

With the turbocharged 180 hp sporty T4, you get more from less. The direct fuel-injection technology reduces CO<sub>2</sub> emissions and fuel consumption, while the turbocharger provides this 1.6 litre engine with the power and torque to deal with any driving situation. Low engine weight contributes to crisp handling on winding roads. The T4 is available with a six-speed manual gearbox or a dual-clutch six-speed Powershift automatic with sport mode.

\*The T4 auto is available late 2012.

## T3

man: **125 g CO<sub>2</sub>/km | 5.4 l/100 km | 150 hp | 110 kW | 270 Nm**  
(including **30 Nm** overboost) | **Euro 5**

This high-efficient 150 hp 1.6-litre petrol turbo engine with direct fuel-injection technology combines an agile engine character with superior fuel efficiency. Innovative Start/Stop technology and engine brake energy regeneration help you save even more fuel. This is downsizing everything except the fun of driving. The T3 comes with a six-speed manual gearbox.

## T5\*

auto: **185 g CO<sub>2</sub>/km | 7.9 l/100 km | 254 hp | 187 kW | 400 Nm**  
(including **40 Nm** overboost) | **Euro 5**

Looking for a truly sporty driving experience? Go for the high-performance 254 hp five-cylinder T5. This smooth source of energy delivers an exceptionally quick and powerful response throughout the entire rev range. Start/Stop technology and engine brake energy regeneration contribute to excellent fuel economy and reduced CO<sub>2</sub> emissions. The T5 comes with a six-speed Geartronic automatic with sports mode.

\*The T5 is available late 2012.

## D2

man: **94** g CO<sub>2</sub>/km | **3.6** l/100 km | **115** hp | **84** kW | **270** Nm | **Euro 5**

Take advantage of the benefits of supreme fuel economy and ultra-low CO<sub>2</sub> emissions without any trade-offs in comfort, safety or performance. This all-aluminium four-cylinder 1.6 litre D2 turbo diesel features Start/Stop technology and engine brake energy regeneration. Advanced diesel engine technology provides high torque across the rev range to assure a rewarding driving experience in all conditions. The D2 comes with a manual six-speed gearbox.

## D3

man: **114** g CO<sub>2</sub>/km | **4.3** l/100 km | **150** hp | **110** kW | **350** Nm | **Euro 5**

auto: **136** g CO<sub>2</sub>/km | **5.2** l/100 km | **150** hp | **110** kW | **350** Nm | **Euro 5**

The relaxed character and flexibility of this 2.0-litre five-cylinder turbo diesel will infuse your drive with the composed feeling of being in control in all situations without compromising on the fun of driving. And superior mileage and low CO<sub>2</sub> emissions are there for you to enjoy. Further enhancing fuel efficiency, the D3 also features engine brake energy regeneration and Volvo's Start/Stop technology. This engine comes with a six-speed manual gearbox or a six-speed Geartronic automatic with sport mode.

## D4

man: **114** g CO<sub>2</sub>/km | **4.3** l/100 km | **177** hp | **130** kW | **400** Nm | **Euro 5**

auto: **136** g CO<sub>2</sub>/km | **5.2** l/100 km | **177** hp | **130** kW | **400** Nm | **Euro 5**

This inspiring five-cylinder 2.0 litre turbo diesel takes performance, fuel efficiency and refinement to new levels. State-of-the-art engine technology and low interior friction add to responsive, sporty engine characteristics and low CO<sub>2</sub> emissions. Start/Stop and engine brake energy regeneration technology further optimise fuel efficiency in all conditions. Choose between a six-speed manual gearbox and a six-speed Geartronic automatic that also allows manual gearshifts with sport mode.

### Leather

This fine embossed leather creates an unrivalled feeling of natural quality that attracts the senses immensely. With its unique look and meticulous craftsmanship into the smallest seam, these leather-faced sculpted seats have a refined touch and feel that's a joy to live with for many years to come. Like all Volvo leather, this is allergy-tested and chrome-free for your ultimate well-being.

### Linné T-Tec/textile

This sporty upholstery really enhances the sculpted character of the seats in your V40. The seat surfaces are divided in sections of stylish textile and contemporary T-Tec – a synthetic skin inspired by wet suits and durable outdoor gear. Contrasting seams (in the Charcoal variants) and leather detailing further enhances the impression of dynamic elegance.

### Lorensberg textile

Already this base full textile upholstery affords your Volvo an ambience of sporty elegance. The Charcoal colour is deeply black for a confidently stylish impression, and the accent stitching further enhances the seats' sculpted design. And choosing this upholstery, you also get textile in the door panels.
