

پژو پارس

PEUGEOT PARS

As one of the most prestigious, popular passenger cars sold in Iran, Peugeot Pars is the result of Iran Khodro engineers' effort to make an efficient, elegant executive saloon. Pars enjoys exemplary balance, as well as attractive dynamics and style.

Standard equipment include front and rear power windows, power steering, air conditioning, keyless entry, tinted glasses, tilt-adjustable steering wheel, rear armrest with trunk access, front and rear headrests, front and rear fog lights, and map reading lights.

The silky-smooth 1.8-litre engine meets Euro-II emission regulations and is powerful enough to give Pars a good performance.

Interior cabin and ergonomically designed dashboard provide pleasant atmosphere plus easy access to controls and buttons in a friendly space.
