

Cadillac

CADILLAC 2015

S R X

IT IS PERHAPS THE SMALLEST SPACE
KNOWN TO MAN.

THAT RAREFIED SLIVER BETWEEN THE GOOD AND THE TRULY GREAT.
THERE'S NO MAP TO HELP YOU FIND THIS ELUSIVE PLACE. THE ONLY WAY
TO GET THERE IS SIMPLY TO BELIEVE YOU CAN.

At Cadillac, we've set out to create our own uniquely
American breed of extraordinary. It's why we've created our own daring
school of design that bends steel way beyond its comfort zone. It's why
we've pushed technology two generations ahead by pioneering a bold
new way for drivers to intuitively access entertainment and information
with the flick of a finger. And why, in everything from safety
to performance, we're setting the standard.

BOLD. DARING. ORIGINAL. These are the kinds of luxury vehicles we
build. It takes tenacity, a refusal to leave well-enough alone. That is the
difference between good and great. That is the difference between
just making luxury vehicles, and making Cadillacs.

FEATURES AND OPTIONS 40

IT DOESN'T SIT ON THE FENCE.

In a world of look-alike crossovers, the captivating SRX stands deliberately, daringly apart. Its remarkably efficient¹ 308hp (net) 3.6L direct-injection V6 rewards you not only with instantaneous response. Plus, when you combine the standard advanced All-Wheel Drive system with the available Continuously Variable Realltime Damping suspension, the SRX quickly and confidently masters changing road conditions. Bold, refined and ingenious, the SRX is a crossover that steadfastly refuses to follow.

1. EPA-est. 15 city / 10 highway L/100Km for AWD.

IT SEATS FIVE.

YET STANDS ALONE.

CUE

Groundbreaking CUE¹—standard on every SRX—employs first-of-its-kind technology that brings the intuitive control of smartphones and tablets conveniently to the road. Its clean, uncluttered design features a vibrant 8" diagonal touch screen that pairs with effortless interaction.

INTERIOR LUXURY

Every detail has been thoughtfully considered, right down to the polished accents, available Sapele wood trim, and leather seating surfaces refined with French-stitched seams.

ULTRAVIEW SUNROOF

The available UltraView sunroof is a perfect example of the thoughtful design featured throughout the SRX. With its large glass area that spans both front and rear seats, it gives the vehicle an even more spacious feel. When the sun gets more intense, a convenient power sunshade blocks the light and helps keep things cool.

From its dramatic exterior design to the subtle elegance of its meticulously crafted, cut-and-sewn interior, the SRX is pure Cadillac. Perhaps even more remarkable is the intuitive technology it offers, like the innovative CUE¹—Cadillac User Experience. CUE connects you and your vehicle like never before, letting you tap, flick and swipe through its menu with ease using the vibrant touch screen. Equally as impressive are the available safety technologies like the radar-based perimeter warning that helps alert you to obstacles that may go unseen. Intelligent thinking extends to the flexible cargo area, where you'll find plenty of usable space. To help keep items in place, there's an available Cargo Management System that includes a U-Rail and an adjustable cargo fence. And outside, its strong lines and sharp creases are further enhanced with a bold yet refined grille, brilliant chrome side vents accented with subtle LED light pipes, and available 20" wheels.

1. Full functionality requires compatible Bluetooth® and smartphone. Some devices require USB connectivity.

SRX EXTERIOR

THE SIMPLE RECIPE FOR
EXTRAORDINARY.

INTELLIGENT HEADLAMPS

Available High-Intensity Discharge (HID) headlamps include headlamp washers and Adaptive Forward Lighting. This technology swivels the headlamps in the direction you're steering. Additionally, the Intellibeam is available. This technology automatically turns on the high beams when needed, switching back to the low beams when oncoming traffic is detected.

From the jeweled facets of its brilliant headlamps to its chiseled, angular sheet metal, the SRX makes a powerful statement. Even when viewed from the rear, its striking design is enhanced by advanced LED taillamps and day time running lamps. They react more quickly than traditional bulbs. And their light pipe technology forms a razor-thin blade that sparks instant Cadillac recognition. There's also an integrated rear spoiler that manages airflow to help keep the window free from dirt and moisture. Even the brightly polished dual-exhaust outlets are beautifully integrated into the fascia to complete the bold look.

SRX INTERIOR

IN THE BIG PICTURE,
IT'S THE SMALL DETAILS
THAT MATTER MOST.

SRX PREMIUM COLLECTION / Light Titanium with Ebony Accents and Raven Sapele Wood Trim

The SRX interior is as luxurious as it is accommodating. Step inside, and your eye is drawn immediately toward precise cut-and-sewn accents, the available features like supple leather seating surfaces and rich grains of exotic Sapele wood. It's also apparent in the things you can't see. Bose® Active Noise Cancellation detects—then ingeniously cancels—powertrain noise within the cabin. Triple door seals, coupled with a laminated windshield and front-side

window glass, also contribute to a noticeably quiet vehicle. The SRX also offers clever practicality. Fold down the rear seats to reveal more than 1700 liters of usable space, complete with a storage compartment beneath the floor that lets you conceal items. There's also thoughtful storage in the front and rear doors and in the backs of the front seats.

FRENCH-STITCHED SEATS

Luxury extends to every detail. Glove-soft leather seating surfaces are available and stitched with French seams, adding a touch of sophistication and understated elegance.

REAR SEAT ENTERTAINMENT SYSTEM

With dual DVD players integrated into the back of the front seats, this available entertainment system lets rear passengers watch movies, attach a portable gaming console, and more. The system is Blu-ray® compatible and includes two sets of headphones and a remote control.

THE CUTTING EDGE OF TECHNOLOGY...

Advanced technology abounds inside the SRX, all aimed at improving the driver experience. With CUE,¹ innovative technology and highly intelligent design come together to create an experience that's as effortless as it is advanced. Simple and sleek, its stunning 8" diagonal LCD touch screen becomes active with a wave of your hand. It is standard on all models and collections, with features including new Text Message Alerts. With a compatible smartphone with Bluetooth® profile (M.A.P.), you can listen to important texts and respond with a preset message. It enables voice-controlled connectivity to help keep phones in pockets and hands on the wheel. CUE easily accesses every contact and song on up to 10 Bluetooth®²-enabled smartphones, and lets you preset up to 60 favorites, including points of interest, addresses, phone numbers, and more.

FINGERTIP CONTROLS

The steering wheel's elegant, multifunctional design incorporates intuitive controls for CUE, audio and cruise control.

1. Full functionality requires compatible Bluetooth® and smartphone. Some devices require USB connectivity.
2. Go to gmtotalconnect.com to find out which phones are compatible with the vehicle.

...NOW SHARPER THAN EVER.

With CUE,¹ control, convenience and connectivity in your SRX are simple and intuitive. Spread your fingers to zoom in closer on a map.² Swipe to breeze through your music. Use the steering wheel controls to effortlessly place a phone call or change your music.

Considering that CUE can even detect your hand as it approaches the touch screen, interacting with CUE couldn't be easier. And when an icon is touched, the screen pulses to acknowledge the command, letting you keep your eyes safely on the road. A tap enables the center control panel to cleverly glide open to reveal a

concealed storage area for your phone or other mobile device and includes an illuminated USB port.³ With CUE, the customization and content possibilities are not only endless, but also right at your fingertips.

1. Full functionality requires compatible Bluetooth® and smartphone. Some devices require USB connectivity. 2. Requires available navigation system. 3. Not compatible with all devices.

IT KEEPS A WATCHFUL EYE ON THE UNFORESEEABLE.

SRX offers the latest innovations in driver awareness and assistance to help inform you of potential hazards you may not even see. Using radar technology and strategically placed cameras, the SRX is ever-vigilant with standard features like Front and Rear Park Assist. The available Driver Awareness Package includes Forward Collision Alert, Lane Departure Warning, Front and Rear Park Assist, the patented Safety Alert

Seat and Intellibeam headlamps. Taking safety a step further, there's the available Driver Assistance Package¹ that includes Automatic Front and Rear Braking, and Adaptive Cruise Control² that uses radar to maintain a preset distance between you and the vehicle in front. This high-tech approach to safety is yet another example of Cadillac leading you confidently down the road ahead.

1. Requires available Driver Awareness Package. 2. Adaptive Cruise Control is no substitute for the driver's personal responsibility to operate the vehicle in a safe manner. The driver needs to remain attentive to traffic and road conditions and provide the steering, braking or other inputs necessary to retain control of the vehicle. 3. Before making a lane change, always check the SBZA display and the side and inside mirrors, look over your shoulder for vehicles and hazards, and activate your turn signal.

SAFETY ALERT SEAT
The available patented Safety Alert Seat intuitively sends subtle pulses through the seat cushion, left or right or simultaneously, alerting you to a variety of potential hazards on the road.

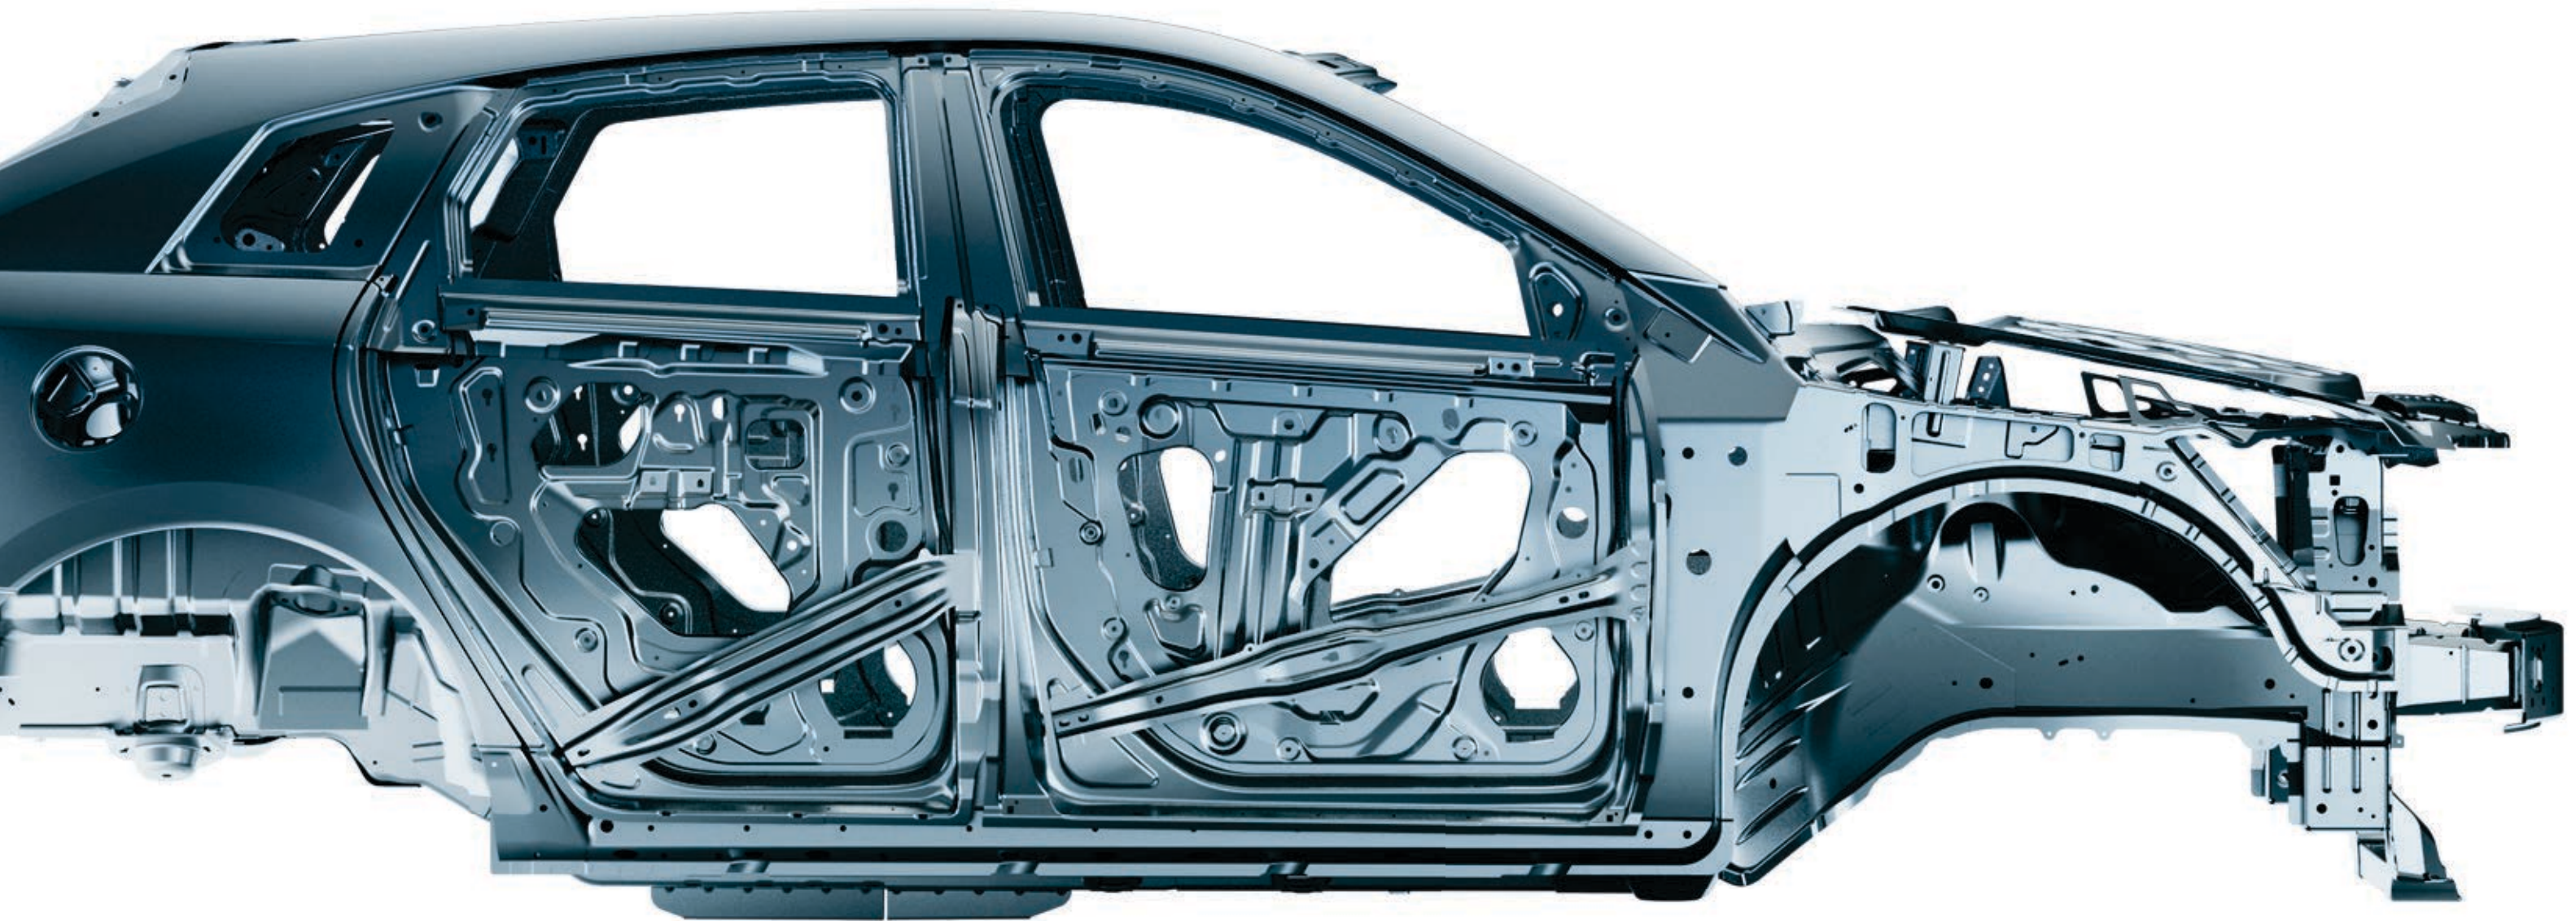

SIDE BLIND ZONE ALERT
Available Side Blind Zone Alert³ uses radar-equipped sensors that sweep the sides of the SRX. If your turn signal is activated and a vehicle enters one of your blind spots, an alert warns you of its presence. It's like having an extra set of eyes so you can more safely change lanes.

LANE DEPARTURE WARNING
Offering the latest innovation in driver awareness, available Lane Departure Warning issues visual and audible warnings as well as subtle pulses through the seat cushion if the vehicle begins to drift out of its lane without the driver first activating the turn signal.

PROTECTIVE
TO ITS CORE.

It starts with a protective safety cage constructed with ultra-high-strength steel alloys for exceptional rigidity. Then, crumple zones are engineered and strategically positioned. From there, advanced technology is added, like the StabiliTrak Electronic Stability Control System and sophisticated antilock braking system (ABS) with Electronic Braking Force Distribution. There's also the confidence that comes with rollover mitigation sensors, front safety belt pretensioners and load limiters, and six standard airbags including the protection of first- and second-row outboard head-curtain side-impact airbags.¹

1. Always use safety belts and child restraints. Children are safer when properly secured in a rear seat in the appropriate child restraint. See the Owner's Manual for more information.

PROACTIVE? REACTIVE? YES.

SRX has the ability to instill unwavering driving confidence, thanks to its precisely tuned suspension that strikes the perfect balance of refinement and composure. Torque vectoring Haldex All-Wheel Drive monitors road conditions to intuitively put power where it is most effective. The AWD system and rear electronic Limited-Slip Differential (eLSD) work in tandem to provide enhanced control while

cornering. There's also the agile responsiveness of available Continuously Variable Real-time Damping suspension. It seamlessly adjusts to road conditions, reading the road and adjusting damping forces every two milliseconds. Combined with AWD, the result is a refined ride, agile cornering and enhanced acceleration, whether it's raining or sunny.

AUTO-DRY BRAKES

Wet roads mean longer stopping distances. Auto-Dry brake¹ technology—activated after rain is detected—helps sweep moisture away from the rotors, helping to improve braking performance.

1. Go to cadillac.com/autodry for limitations and details.

Effortless power, impeccably delivered—that's the 308hp (net), direct-injection V6 engine in the SRX. Whether it's a soaring mountain pass, the harried highway on-ramp or the instant allure of a winding curve, you'll appreciate the 3.6L of superior motivation. And, because torque is what matters most in day-to-day driving, you'll feel its exceptionally wide torque band every time you press the accelerator. Yet, despite its brawn, this sophisticated power plant is remarkably efficient¹ and requires only regular fuel, making it as responsible as it is exhilarating.

GIVE IT AN OPPORTUNITY TO
DEMONSTRATE ITS POWER, AND
IT DOESN'T HESITATE.

SRX / Crystal Red Tintcoat

1. EPA-est. 14 city / 10 highway L/100Km for FWD, 15 city / 10 highway L/100Km for AWD.

COLLECTIONS

SRX PREMIUM COLLECTION / Light Titanium with Ebony Accents and Raven Sapele Wood Trim

THE PREMIUM COLLECTION:

FINELY TAILORED LUXURY,
BY ANY MEASURE.

VENTILATED FRONT SEATS

Along with soothing heat, the front seats are also ventilated with refreshing air that gently circulates throughout the leather seating surfaces. It's a welcome rejuvenation on hot days and during extended journeys.

Because everyone has their own personal idea of comfort, the SRX offers three distinct climate zones. The driver, front passenger, and rear passengers enjoy their own climate controls (rear automatic climate controls shown). The system also senses humidity in the air and automatically adjusts to provide optimal air quality.

NEW INTELLIBEAM HEADLAMPS

The brilliant technology of Intellibeam headlamps comes to the SRX. This feature, standard on Premium Collection and available on Performance and Luxury Collections, automatically turns on the high beams when needed, switching back to the low beams when oncoming traffic is detected.

The exceptional comfort of the SRX is elevated to an even higher level with the available Premium Collection. Front seats with leather seating surfaces are soft to the touch, as well as heated and ventilated for year-round comfort. We've also given considerable thought to your passengers and provided heated outboard rear seats along with the convenience of separate rear climate controls. This collection also includes the advanced safety technology of Forward Collision Alert, Lane Departure Warning and the patented Safety Alert Seat. And this collection is the brilliance of Intellibeam headlamps. This technology turns the high beams on automatically and switches to low beams when oncoming headlamp are sensed, or when taillamps are detected in front of you. The Premium Collection SRX delivers an extraordinary blend of luxury and technology.

THE LUXURY COLLECTION:

FOR THOSE WHO
SETTLE FOR MORE.

**ULTRAVIEW SUNROOF**

The available UltraView sunroof is a perfect example of the thoughtful design featured throughout the SRX. With its large glass area that spans both front and rear seats, it gives the vehicle an even more spacious feel. When the sun gets more intense, a convenient power sunshade blocks the light and helps keep things cool.

**THE ART OF DETAIL**

The striking cabin is complemented by impeccably detailed materials like Choco Sapele (shown above) or available in darker Raven Sapele wood trim carefully placed throughout. These lustrous woods further enhance the inviting interior.

**POWER LIFTGATE**

In addition to convenient power operation, it also features programmable memory height that can be set for easy reach or to clear overhead obstacles (optional wheels shown).

The allure of the available Luxury Collection begins the moment you approach. Recognizing the key fob in your pocket or purse, the keyless access automatically unlocks the vehicle's doors and liftgate for you. Adaptive Remote Start does more than just conveniently turn on your ignition from up to 61 meters away; it also activates interior climate controls so the cabin is at the perfect temperature. Once inside, you're greeted with exceptional details like soft leather seating surfaces and Sapele wood trim. For someone else fortunate enough to share in the driving of the SRX, a memory function can recall settings for two drivers, including driver's seat position, adjustable pedals and outside mirrors. Technology like a Rear Vision Camera helps safely guide you when the vehicle is in reverse, while Rainsense windshield wipers automatically vary wiper speed depending on rainfall. To top it off, standard 18" chrome wheels lend added presence to an already impressive stance. With the SRX Luxury Collection, it's readily apparent that technology definitely comes with a sophisticated side.

PAINT FINISHES

TINTCOAT

A premium 2-layer paint application with the addition of a tinted clearcoat, lending the finish an extra depth and brightness.

PREMIUM CARE PROGRAM

INTRODUCING THE NEW STANDARD OF LUXURY OWNERSHIP

COMPLIMENTARY SERVICE AND MAINTENANCE FOR 4 YEARS / 100,000 KM

Standard on all Cadillac vehicles, our complimentary service & maintenance is a fully transferrable program covering all requirements as per the scheduled maintenance program, detailed in the owner's guide.

RESALE VALUE GUARANTEE

When you buy a Cadillac, we guarantee the resale value at a competitive market rate.*

REGIONAL ROADSIDE ASSISTANCE FOR 4 YEARS

Our roadside service ensures that, whatever happens, you always get back on your way as quickly as possible. In the event you're outside your country of residence and repairs can't be carried out on location, we'll arrange all accommodation and flights to ensure you reach your destination safely and with the utmost convenience.*

WARRANTY FOR 4 YEARS / 100,000 KM

Your Cadillac warranty ensures that your post-purchase experience is just as pleasurable and worry-free as the Cadillac you buy.

COURTESY TRANSPORTATION

When bringing your Cadillac for warranty repairs you'll be offered a courtesy vehicle for your convenience. We're also pleased to offer you a drive-back when bringing your Cadillac for scheduled maintenance.*

* Terms and conditions apply.

We have tried to make this catalogue comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalogue and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings, prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Cadillac dealer for complete details. Any variations in colors shown are due to reproduction variation in the printing process. Cadillac reserves the right to lengthen or shorten the model year for any product for any reason, or start and end model years at different times. Note: Some photographs in this catalogue show vehicles with optional equipment.
