

Cadillac

CADILLAC 2015
X T S

IT IS PERHAPS THE SMALLEST SPACE
KNOWN TO MAN.

THAT RAREFIED SLIVER BETWEEN THE GOOD AND THE TRULY GREAT.
THERE'S NO MAP TO HELP YOU FIND THIS ELUSIVE PLACE. THE ONLY WAY
TO GET THERE IS SIMPLY TO BELIEVE YOU CAN.

At Cadillac, we've set out to create our own uniquely
American breed of extraordinary. It's why we've created our own daring
school of design that bends steel way beyond its comfort zone. It's why
we've pushed technology two generations ahead by pioneering a bold
new way for drivers to intuitively access entertainment and information
with the flick of a finger. And why, in everything from safety
to performance, we're setting the standard.

BOLD. DARING. ORIGINAL. These are the kinds of luxury vehicles we
build. It takes tenacity, a refusal to leave well-enough alone. That is the
difference between good and great. That is the difference between
just making luxury vehicles, and making Cadillacs.

STATE OF THE ART
MEETS HIGH ART.

THE FUTURE IS HERE.
AND IT'S EFFORTLESS.

Its distinctive, sculpted lines hold immense visual energy and hint at something equally captivating: a newly available 410hp (net) Twin Turbo V6 that delivers a new level of invigorating performance. Inside the meticulously crafted cabin, technology steps to the forefront with the ingenious CUE¹ driver interface. And, thanks to its revolutionary dual-mode Magnetic Ride Control suspension and Brembo[®] front brakes, the XTS delivers the perfect balance between agility and composure. The intuitive, invigorating XTS. It's the return of life lived large.

1. Full functionality requires compatible Bluetooth[®] and smartphone. Some devices require USB connectivity.

INDIVIDUALLY,
ITS INNOVATIONS ARE INGENUOUS.
TOGETHER, THEY'RE UNPRECEDENTED.

LED SIGNATURE LIGHTING
WITH INTELLIBEAM

CUE

The XTS redefines the principles of what's possible, beginning with the groundbreaking CUE that brings the intuitive control of smartphones and tablets conveniently to the road. It's so advanced, it even senses your hand as it approaches, displaying relevant information and providing tactile feedback from its brilliant touch screen. The inspired thinking also extends to available XTS safety technologies like its perimeter warning that helps alert you to obstacles and hazards in your path. Under the artfully sculpted hood, the acclaimed 3.6L direct-injection V6 delivers a refined 304hp (net). For an extra measure of performance, a new Twin Turbo V6 is available and delivers a potent 410hp (net). Putting all this power where you need it, when you need it, are standard All-Wheel Drive and the rear electronic Limited-Slip Differential (eLSD).

Where is it written that head-turning presence and formidable performance be restricted only to two-door coupes? The chiseled, angular skin of the XTS was designed not only to turn heads, but also to slice through the wind, helping improve performance and mitigate noise. Its iconic Cadillac grille is available in three dramatic designs. In each case, the shape is integrated into the overall design so seamlessly, the final effect is nothing short of stunning. Of course, its assertive stance and striking vertical rear taillamps make a bold statement, but when you spot the massive front Brembo® brakes lurking behind the spoked alloys, it becomes clear this is a Cadillac to be reckoned with.

INSPIRING

DESCRIBES MORE THAN THE DRIVE.

WHEN IT COMES TO THE DETAILS,
WHERE DO YOU STOP?
YOU DON'T.

BRILLIANT HEADLAMP TECHNOLOGY

The High-Intensity Discharge (HID) headlamps are standard with Adaptive Forward Lighting that swivels the headlamps in the direction you're steering. The brilliance of IntelliBeam is also available. This technology automatically switches between low and high beams when oncoming headlamps are sensed, or when taillamps are detected in front of you.

DYNAMIC 20" WHEELS

Featuring a brilliant, polished finish and chrome inserts, these 20" Vsport Platinum Collection wheels are the ideal complement to the XTS.

BOLD, CONFIDENT GRILLE

The aerodynamic front is discerningly accentuated with chrome and balanced by a subtle piano-black finish, delivering a sleek and striking appearance. (Standard grille shown.)

ROOM WITH A VIEW

A third window was engineered behind each rear door. This design not only provides an overall feeling of even more space, but also gives rear seat passengers a clearer view.

A PERFORMANCE THIS IMPRESSIVE
DESERVES LIGHTING TO MATCH.

ILLUMINATED DOOR HANDLES
Refined details are everywhere, right down to the standard illuminated door handles. More than an accent, their soft glow makes them easier to locate. Once you are in the vehicle, they return to their nonilluminated state.

PUDDLE LAMPS
Subtle lamps located under the outside mirrors cast a light near the entrance of the car as part of the carefully choreographed lighting sequence, so your path is well lit.

ILLUMINATED SILL PLATES
In the XTS, every detail was considered. For example, upon opening either front door in the Vsport Platinum Collection, backlit sill plates are an inviting touch.

AMBIENT INTERIOR LIGHTING
Available ambient lighting complements the LED spotlights under the door pulls in front, in the foot wells and from the overhead console. Casting a soft glow under the wood trim on the dash and front door panels, it adds intrigue to the contemporary design of the cabin.

With the XTS setting the perfect stage for an exhilarating performance, it's fitting the lighting was designed as if it were a contemporary theater. Every piece of illumination was choreographed with a specific task in mind, whether it is to draw your eye to the meticulous details or to add illumination to key areas. Taken individually, each light is impressive in its own right, like the signature Cadillac light pipe technology integrated into the headlamps and taillamps. They form a razor-thin blade that is clearly evident at night—making your vehicle visible and distinctive from any angle. When backing up, there's a lower-mounted reverse lamp to improve your view. Even the standard illuminated exterior door handles add a purposeful touch at night.

The XTS acknowledges your presence even before you take a seat. As you approach, lighting elements in the headlamps, door handles and side mirrors are choreographed to illuminate your way.

EVEN THE FINE POINTS HAVE
FINER POINTS.

The first moments behind the wheel are, in many ways, the most inspiring—which is why we designed the XTS to feel more like a perfectly tailored garment. You wear it, feel it, think it. There's the wraparound instrument panel that blends seamlessly into the upper doors, creating an uninterrupted sense of spaciousness. To that, add fine leather seating surfaces, exotic woods and brushed metal that work in concert to further accentuate the cabin. Even the spacious backseat with unsurpassed-in-class rear legroom is slightly elevated so every passenger is afforded a seat with a view. Complementing rear-seat comfort is a new fold-down armrest with integrated controls for both the radio and available power sunshade. It may feel as if every interior detail was designed to meet your personal specifications. Perhaps that's because it was.

THE LINING OF A SUIT.
THE MOVEMENT OF A WATCH.
TRUE LUXURY CAN OFTEN BE FOUND
ON THE INSIDE.

The meticulous attention to detail continues into the striking cabin. Intuitive controls are complemented with impeccably detailed materials like lustrous exotic wood that trims the steering wheel and is carefully laid throughout the center console. Laminated front side glass and triple door seals work in tandem to help deflect noise before it enters the cabin. And to optimize seat comfort, pressure-mapping technology was used extensively to design the contoured front seats. Proof that in the XTS, technology definitely comes with a sophisticated side.

FULL-LEATHER SEATS

Semi-aniline full-leather seating is exclusive to Vsport Platinum Collection models. This unique, luxurious leather is renowned for its ultra-soft feel and refined appearance.

THE ART OF DETAIL

The closer you look, the better it gets. Leather surfaces, contrasting stitching, beautifully grained woods and brushed metal all come to life in the XTS.

INTELLIGENTLY DESIGNED STORAGE

From the smartly placed mobile device holder to the center control panel that opens, every millimeter of the XTS reveals yet another brilliantly engineered space.

THE SOUND DOESN'T SURROUND YOU.

IT IMMERSES YOU.

BOSE PERSONAL SURROUND SPEAKERS

14-SPEAKER BOSE STUDIO SURROUND SOUND SYSTEM

Your choice seats to a remarkable musical event are ready. Deep, powerful lows. A wide, spacious soundstage. All the emotion and dynamics of a live performance now rendered in a remarkable surround sound experience. And it's all brought to you by the 14-speaker Bose® Studio Surround® sound system in the Vsport Platinum Collection. Customized for the unique acoustic environment of the XTS, it uses two Personal® surround speakers on the top of each front seat to provide an immersive and individual sound experience. Of course, no matter where you are sitting, you'll enjoy rich, detailed sound that seems to extend well beyond the space. With its proprietary speakers, powerful amplifier and AudioPilot® noise compensation technology, this system puts you in the middle of the music.

INTELLIGENCE, IN ITS SIMPLEST FORM.

The intuitive CUE¹ driver interface blends innovative technology with highly intelligent design to create an experience that's as effortless as it is advanced. It is standard on all models and collections, with features including new Text Message Alerts. With a compatible smartphone with Bluetooth profile (M.A.P.), you can listen to important texts and respond with a preset message. It enables voice-

controlled connectivity to help keep phones in pockets and hands on the wheel. It easily accesses every contact and song on up to ten Bluetooth®-enabled smartphones. CUE lets you preset up to 60 favorites, including points of interest, addresses, phone numbers, and more. With CUE, the customization and content possibilities are not only endless, but right at your fingertips.

1. Full functionality requires compatible Bluetooth and smartphone. Some devices require USB connectivity.

CUE is as intuitive as it is advanced. Spread your fingers to zoom in closer on a map. Swipe to breeze through your music. Simply speak and let the Natural Voice Recognition help you effortlessly place a phone call or change your music.

Considering that it can even detect your hand as it approaches the vibrant 8-inch LCD touch screen, interacting with CUE couldn't be easier. And when an icon is touched, the screen pulses to acknowledge the command, letting you keep your eyes safely on the road. On select models, you can even configure the gauge cluster to find the layout of information that perfectly suits you. With CUE, the future has arrived, and it's better than you could have possibly imagined.

ONE PART DRIVER INTERFACE, ONE PART ENTERTAINMENT SYSTEM, CUE REIMAGINES THE CONNECTION BETWEEN CAR AND DRIVER.

PERFORMANCE GAUGE CLUSTER

ENHANCED GAUGE CLUSTER

BALANCED GAUGE CLUSTER

SIMPLE GAUGE CLUSTER

CONVENIENCE
A clean, uncluttered design pairs with Natural Voice Recognition for effortless interaction. CUE is as easy and intuitive to use as your smartphone or tablet.

CONTROL
Seemingly instinctive, CUE uses proximity-sensing technology to detect your hand as it nears the LCD touch screen. Once there, press an icon and the screen pulses to acknowledge your prompt, helping you to stay focused on the road.

CONNECTIVITY
Available 3-D GPS navigation, Bluetooth® connectivity, and more.

VISION, IN EVERY SENSE OF THE WORD.

The best safety features are those that help you avoid a collision in the first place. That's why the XTS offers the latest innovations in driver awareness and assistance to help inform you of potential hazards you may not even see. Using radar technology and strategically placed cameras, the XTS is ever-vigilant with its available Forward Collision Alert, Lane Departure Warning, Side Blind Zone Alert,¹ Rear Cross-Traffic Alert, and Front and Rear Park Assist. Even the available Adaptive Cruise Control² uses radar to maintain a preset

distance between you and other vehicles. And the available Automatic Front and Rear Braking detects large objects you may not see to help prevent certain low-speed collisions by applying the brakes for you. As an alternative to warning chimes, the XTS offers a Safety Alert Seat that pulses, giving you instant, tactile feedback to alert you of select dangers on the road. With all of this, it's no surprise that the 2015 XTS was awarded a 5-Star Overall Vehicle Score³ for safety.

1. Before making a lane change, always check the SBZA display and the side and inside mirrors, look over your shoulder for vehicles and hazards, and activate your turn signal. 2. Adaptive Cruise Control is no substitute for the driver's personal responsibility to operate the vehicle in a safe manner. The driver needs to remain attentive to traffic and road conditions and provide the steering, braking or other inputs necessary to retain control of the vehicle.

ADVANCED SAFETY

YOU'LL FEEL GOOD ABOUT.

With select models featuring ten ultrasonic motion detectors, six Doppler radar sensors and a high-definition Smart Camera taking twelve pictures every second, the XTS doesn't just watch the road. It analyzes it. Cross-references it. Writes a dissertation. And then leaves you with the condensed version. All through pulses in your driver's seat.

Why pulses? Because on the road there are many visual and auditory signals vying for your attention. That's why we offer safety technology you can actually feel with the available Safety Alert Seat. By sending immediate pulses through the seat cushion, either right or left, or simultaneously, this patented technology quickly and intuitively warns you of the direction of a potential hazard, increasing your confidence as you continue on your way.

From where you sit, it is just another example of how innovative XTS safety technology leads you confidently down the road ahead.

IT'S AS DEFENSIVE
AS IT IS DYNAMIC.

CRASH-TEST TECHNOLOGY

Today's new "hyper-tech" dummies record and transmit crash data 10,000 times a second. More than 200 crash-test dummies of all shapes and sizes are wired with sensors that tell safety engineers how much and what kind of forces they endure during crash tests. This helps improve the safety of every Cadillac made.

AUTO-DRY BRAKES

It makes perfect sense—dry brakes stop faster than wet brakes. That's why we designed the XTS so that the available Rainsense wipers and Auto-Dry brakes work together. After the Rainsense wipers are activated, the brake pads are positioned closer to the rotor, sweeping away the moisture and helping to improve braking performance. Visit cadillac.com/autodry for further details.

It starts with a protective safety cage constructed with high-strength steel alloys for exceptional rigidity and strategically placed crumple zones. Then we add preventive safety features like the StabiliTrak Electronic Stability Control System and a sophisticated antilock braking system (ABS) with Electronic Braking Force Distribution that helps balance stopping power between the front and rear brakes. There's also the confidence that comes with ten standard airbags¹.

1. Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and child safety seat instructions for more safety information.

POWER THAT
APPEALS TO YOUR LEFT BRAIN
AND RIGHT FOOT
IN EQUAL MEASURES.

XTS VSPORT PLATINUM COLLECTION WITH TWIN TURBO V6 / Graphite Metallic

Its performance matches its dramatic presence. A 304hp (net) 3.6L direct-injection engine is standard on every XTS and is renowned for its smooth, refined power. Ignite the newly available 410hp (net) Twin Turbo V6, and you'll experience an entirely new level of exhilaration. At its heart is a refined turbocharging system that combines Variable Valve Timing

and precise direct-injection to deliver outstanding performance by any measure. Either engine you select is coupled to an advanced Gen-II automatic transmission that delivers crisp, smooth shifts in step with the engine's impressive output. When you call for power, the XTS answers immediately.

NEW TWIN TURBO V6 POWER

A technological masterpiece, twin turbochargers help the 3.6L direct-injection V6 engine deliver a potent 410 HP, setting a new standard in XTS performance.

DRIVER SHIFT CONTROL

The electronically controlled 6-speed automatic transmission incorporates steering wheel-mounted paddle shifters that enable clutchless manual shifting. A quick tap is all that's required for a smooth, crisp upshift or downshift.

THE ROAD MEANDERS.
THE XTS DOES NOT.

Any luxury sedan can hold its own on a long stretch of interstate. However, when the pavement twists, writhes and dips, the XTS quickly separates itself from everything else on the road. With its advanced suspension and precisely tuned steering, it delivers a perfectly connected and sophisticated ride. Torque-vectoring All-Wheel Drive is standard and features advanced software that manages torque front-to-rear, while the rear electronic Limited-Slip Differential (eLSD) controls torque side-to-side along the rear axle, putting power where you need it most for a surefooted grip on the pavement. The XTS also features revolutionary dual-mode Magnetic Ride Control that reacts in the blink of an eye to changing demands, while its advanced HiPer Strut technology helps the tires remain keyed to the surface. Combined with rear auto load-leveling suspension and speed-sensitive steering, the XTS handling is nothing short of a revelation.

MAGNETIC RIDE CONTROL

Revolutionary dual-mode Magnetic Ride Control reads the road up to 1,000 times per second and seamlessly adjusts damping for agile handling and a controlled ride.

THE VSPORT PLATINUM COLLECTION:
WE DON'T PLAY GAMES
WHEN IT COMES TO LUXURY.
UNLESS, OF COURSE, IT'S LEAPFROG.

The XTS Vsport Platinum Collection takes all the innovation, design and especially the luxury of the XTS to an even higher level. Leather and exotic wood accent the instrument panel, floor console, and even the doors. Semi-aniline full-leather seats are not only exceptionally supple, but meticulously detailed with subtle hints of contrasting¹ color. But luxury is just one of the many ways the XTS Vsport Platinum goes above and beyond to deliver an exhilarating driving experience. Newly standard with this collection is the Twin Turbo V6 engine. A technological masterpiece, this engine delivers 410hp (net)—a phenomenal figure that ensures that whatever situation you find yourself in, vast reserves of power and acceleration are available whenever you need them.

ULTRAVIEW SUNROOF
Spanning both rows of seats and giving the XTS an even more spacious feel, this sunroof doesn't so much open as unveil.

LEATHER-WRAPPED INTERIOR
Leather wraps virtually every surface you touch and feel in the XTS, enhancing the experience before you even start the engine.

ADAPTIVE CRUISE CONTROL
Progressive technology in the XTS affords an assured and comfortable journey with available Adaptive Cruise Control² as well as Automatic Front and Rear Braking.

EXCLUSIVE GRILLE
The strong lines and refined mesh combine to make a statement that is found only on the Platinum Collection.

1. Jet Black with Light Wheat accents interior only. 2. Adaptive Cruise Control is no substitute for the driver's personal responsibility to operate the vehicle in a safe manner. The driver needs to remain attentive to traffic and road conditions and provide the steering, braking or other inputs necessary to retain control of the vehicle.

THE LUXURY COLLECTION:
HOW CLOSE DID WE COME TO THE ONE IN
YOUR IMAGINATION?

Step inside, and you'll find premium wood accents highlighting the instrument panel, door and shifter. With a Memory Package for two drivers that recalls presets for the power driver seat, passenger seat, outside mirrors and the steering column, the XTS stands ready no matter who holds the key. Heated, ventilated front seats with cushion-length adjusters and heated outboard rear seats mean everybody in the cabin is comfortable, no matter how long the drive or what the temperature is outside. Of course, it's all complemented by dramatic ambient lighting. Even the dual-exhaust outlets are beautifully integrated into the fascia to complete the modern and refined look. Proof that luxury and advanced design can coexist in perfect harmony.

PREMIUM WOOD TRIM
Eye-catching wood sets the tone for the interior of the XTS with its deep, rich color. The beautiful grain appears to change with the lighting, adding an extra touch of allure.

INTEGRATED EXHAUST
The dual-exhaust outlets are integrated into the rear fascia to ensure the impeccable lines of the XTS remain unbroken.

EXCEPTIONAL SEAT COMFORT
Ventilated front seats with cushion-length adjusters are a welcome rejuvenation on hot days and during extended journeys.

QUALITY SURROUND SOUND
Bose® Studio Surround Sound 14-speaker system with surround amplifier.

PREMIUM CARE PROGRAM

INTRODUCING THE NEW STANDARD OF LUXURY OWNERSHIP

COMPLIMENTARY SERVICE AND MAINTENANCE FOR 4 YEARS / 100,000 KM

Standard on all Cadillac vehicles, our complimentary service & maintenance is a fully transferrable program covering all requirements as per the scheduled maintenance program, detailed in the owner’s guide.

RESALE VALUE GUARANTEE

When you buy a Cadillac, we guarantee the resale value at a competitive market rate.*

REGIONAL ROADSIDE ASSISTANCE FOR 4 YEARS

Our roadside service ensures that, whatever happens, you always get back on your way as quickly as possible. In the event you’re outside your country of residence and repairs can’t be carried out on location, we’ll arrange all accommodation and flights to ensure you reach your destination safely and with the utmost convenience.*

WARRANTY FOR 4 YEARS / 100,000 KM

Your Cadillac warranty ensures that your post-purchase experience is just as pleasurable and worry-free as the Cadillac you buy.

COURTESY TRANSPORTATION

When bringing your Cadillac for warranty repairs you’ll be offered a courtesy vehicle for your convenience. We’re also pleased to offer you a drive-back when bringing your Cadillac for scheduled maintenance.*

* Terms and conditions apply.

We have tried to make this catalogue comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalogue and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings, prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Cadillac dealer for complete details. Any variations in colors shown are due to reproduction variation in the printing process. Cadillac reserves the right to lengthen or shorten the model year for any product for any reason, or start and end model years at different times. Note: Some photographs in this catalogue show vehicles with optional equipment.
