NEW
FORTUNER
New legend of the pride

Challenge...Every Journey

New legend of Interior

Redefining luxury for the superior lifestyle

Luxury that reflects refined taste, with interior design that gives attention to every detail.

Steering Wheel-Mounted Paddle Shift System

Cruise Control

Control the gear shift straight from the steering wheel, for your seamless driving experience.

Maintain a steady speed without having to control the accelerator, making long journeys a breeze.

7" Touch-Screen Display and DVD Player, with Bluetooth Connectivity

Indulge in the complete entertainment system while staying connected on the phone with the hands-free function.

Improved viewpoint for enhanced safety, giving you full confidence while reversing.

Accompany every journey with a range of entertainment options for every lifestyle.

Hassle-free ignition with just one push.

Automatically control air flow to maintain a pleasant cabin temperature.

Rear View Camera

USB and AUX Ports

Push Start System

Automatic Air Conditioning System with Heater

New legend of Utility

Redefining your lifestyle with the ultimate functionality

Air Conditioning (Rear)

Cool Box

Cup Holders

Air conditioning for second and third row seats, with climate control system.

Cool box storage in the front console.

Cup holders for the driver and front passenger.

Superior flexibility with foldable and adjustable seats for the ultimate utility, accommodating various sizes of luggage:

Seat

Rear Space Arrangement.

Second row seats are easily folded with one touch.

L-Space Arrangement.

Tumble & Space-Up Arrangement.

New legend of Exterior

Redefining design, a reflection of your superiority

Bi-Beam LED Headlights
with Follow Me Home Function

Echo your distinct identity with unsurpassed brilliance, equipped with the smart Follow Me Home Function. [Please refer to the user manual.]

Light Guiding LED Tail Lights

Another level of safety with powerful beams visible from a long distance.

Rear Spoiler with LED High Mount Stop Lamp

The perfect harmony of design and safety as drivers behind are distinctively warned of your stop.

Luxurious Front Grille and Bumper

Grille design perfectly complements the elegant profile, matching the front bumper.

Front Fog Lamp

Maximize your visibility for unparalleled road safety.

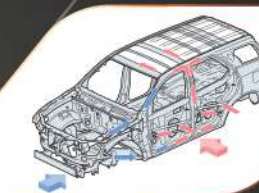

Stylish Shark Fin Radio Antenna

Fulfill your sport spirit with a reflection of superior taste.

New legend of Safety

Redefining your confidence with superior safety

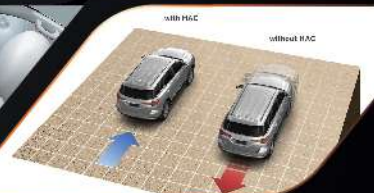

GOA-Body Structure

A technology that enhances the cabin structure's strength. Effectively reducing the risk of injury for the driver and passengers.

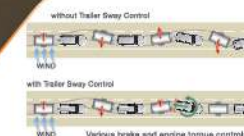

7 Airbags

Protect the driver and the passengers from collisions on all sides, with 2 airbags situated at front, 2 on the sides, 2 by the curtains, and 1 by the driver's knees.

Hill-start Assist Control (HAC)

Prevent backward rolling and slippage when taking off on a steep incline, for the ultimate confidence no matter the road condition.

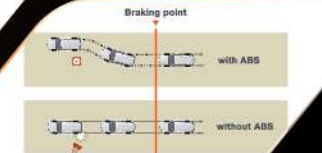

Trailer Sway Control (TSC)

When towing things, driving on bumpy roads or against strong winds, the sensors will adjust the brake force and acceleration to stabilize the vehicle, preventing undesired swaying and loss of control.

Vehicle Stability Control (VSC)

Automatically decelerate the engine while adjusting the brake force of each individual wheel to bring back control.

Anti-lock Braking System (ABS)

During a sudden brake, the ABS will prevent the wheels from locking up and reduce undesired skidding, putting you in control in unexpected situations.

GD EFFICIENT BOOST

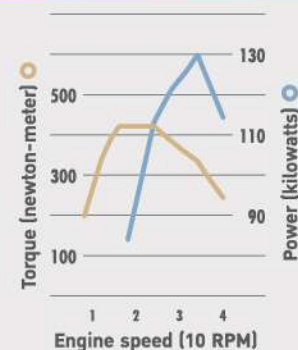

GD Efficient Boost Engine

The latest maximum power is ready to take you beyond limitations through the Efficient Boost concept. It reduces heat loss and friction in the engine, generating maximum torque and giving you the highest savings on every journey. More advanced with quiet engine operation and less vibration, it responds to all driving conditions with complete ability.

VN TURBO

VN Turbo

Enjoy speed beyond restrictions from the new Variable Nozzle Turbo System. A smaller and more efficient design with an air pressure tail regulated by a highly accurate electric-motor control system enhances continuous power at every speed.

The 2.8 liter Diesel Engine (with 6-speed automatic transmission)

provides a maximum of 130 kilowatts (177 horsepower) at 3,400 RPM and a maximum 450 newton-meter torque at 1,600 -2,400 RPM.

New Legend of Performance

Beyond The Definition of Unlimited Power, Unveiling the Dignity to Challenge Every Goal

4WD System

Experience the new definition of driving systems with new advanced technology Allows you to choose driving mode as you wish including H2, H4 and L4 Integrated co-working between DAC and A-TRC that will overcome all challenges and defeat all obstacles on the journey.

H2 - The 2 Wheel Drive System

for normal road surfaces offers great fuel saving.

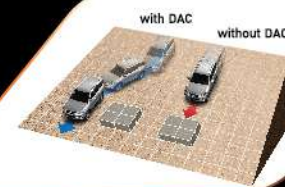

H4 - The 4 Wheel Drive System

for wet and slippery, and non-asphalt roads giving high driving performance, road holding and safety.

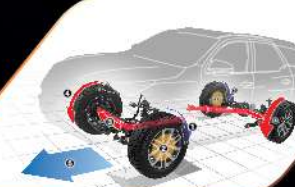

L4 - The 4 Wheel Drive System

for difficult roads and other journeys that need extreme driving power.

DAC System (Downhill Assist Control)

The Automatic Brake Pressure Control System prevents sliding without touching the break pedal while driving down high slope roads and keeps a steady speed.

A-TRC (Active Traction Control) Wheel Free Spin Prevention System

When the sensor detects any wheel losing traction while driving on slippery road surfaces, it will reduce power to that wheel for to prevent the wheel spinning freely while sending more power to the other wheels for smooth and easy handling.

Front

Rear

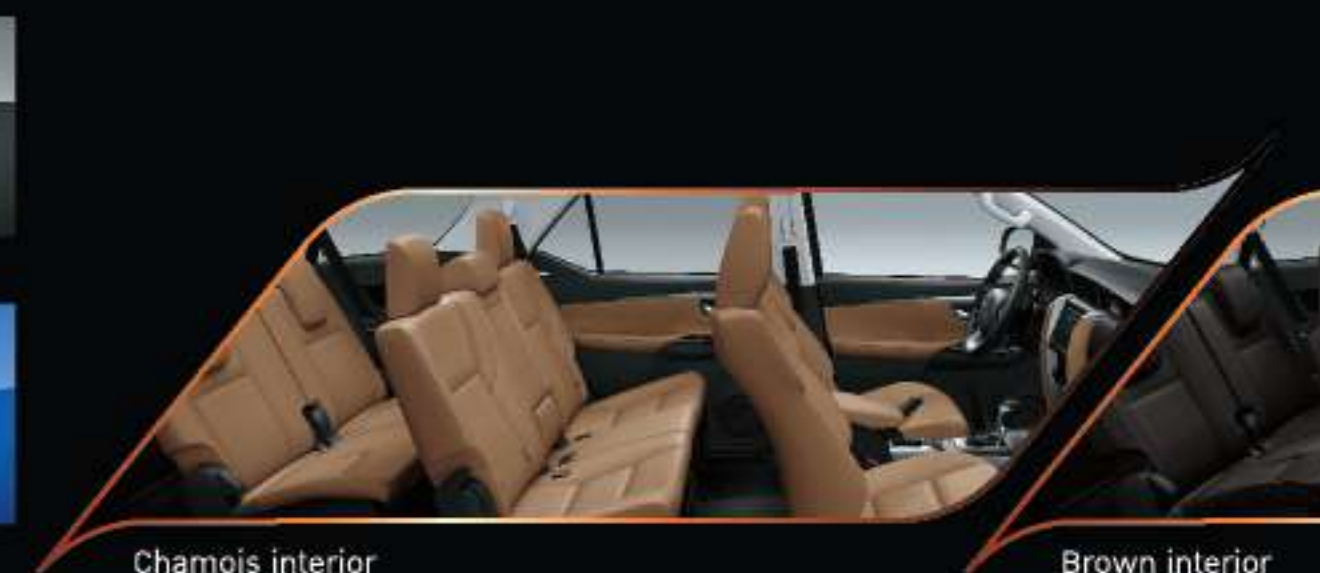

Front and Rear Suspension System

Front Independent Double Arm Suspension System plus coil spring and stabilizer bar
Rear Fourlink Coil Spring Suspension System and Stabilizer Bar for smooth handling, great balance and stability.
