

Audi SQ8 Sportback e-tron

Electrifying capability.

Absolute luxury and performance with all-electric power defines the Audi SQ8 Sportback e-tron. The practicality of a full-sized SUV with the elegant lines of a coupe, and cutting-edge engineering including progressive steering and sharpened suspension control systems is testament to how Audi is paving the road in e-mobility. It's what you would expect from an Audi.

Face the future.

The new Audi SQ8 Sportback e-tron is a vision for the future. The state-of-the-art design of the front bumper features optional lighting which projects and illuminates over the four rings adorning the unmistakable Audi Singleframe grille. Progressive looks with a powerful impact.

Why compromise?

Vorsprung durch Technik means innovative mobility, a promise that Audi delivers in the SQ8 Sportback e-tron. With double the motors on the rear axle delivering 370kW output (precisely the same power output as a combustion-powered SQ8), and boosted with an additional 200Nm of torque, it's easy to see why Audi inspires change.

Audi's optimised drive concept also includes higher charging performance and battery capacity, and an increased range of up to 513 kilometres. The future looks electric.

Technical specifications

Electric. And full of wonderful details. A singularly potent mix of progress and performance, the Audi SQ8 Sportback e-tron is truly a pioneer of all-electric quattro.
