>>smart EQfortwo coupé.

2.69 m forward thinking: the original for the city. Just as short, but electric through and through – with intelligent connectivity, even greater agility, and always with full torque thanks to seamless acceleration.

>>smart EQfortwo cabrio.

Open for new energy: the urban convertible. Open sky, empty road and virtually no driving noise – the smart EQfortwo cabrio is a fresh breeze in the city with new design and intelligent ideas.

Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification.

>>smart EQforfour.

Intelligent charging and plenty of storage space:the electric four-seater for the city. 100%electric. The smart EQforfour is the perfect city car for four people or lots of luggage.

>>Compact luxury.

Specified with you in mind. Heated seats are just the start. With touchscreen infotainment through to a heated steering wheel, the smart range offers everything you need.

>>Charging your smart.

Simple steps to effortless charging.

There's never been a better time to get a new smart EQ fortwo or forfour. A Home charge wallbox will be given free of charge. The smart Wallbox provides a fast and safe way to charge your smart.

Rapid charging cable:

smart is equipped with a mode-3 cable. This allows super-fast charging at your small Wallbox or public charging stations. A mode-2 cable for connection to any household socket is also available.

Charging on the go:

Get access to the Malta's public charging infrastructure with a network card - with over 50 charging points.

smart  fortwo & forfour

We will be happy to take back your smart for environmentally friendly disposal in accordance with the European Union (EU) Directive on End-of-Life Vehicles – but that day lies a long way off. To make it as easy as possible for you to return the vehicle, there is a network of companies which will take back your old car and dismantle and recycle it. You can return your vehicle to one of these companies free of charge. In doing so, you will be making a valuable contribution to closing the recycling loop and to saving resources.
