## INCOMPARABLE

Professional life, private life, leisure... with the New Toyota C-HR Hybrid, take full advantage of every moment. We have designed an elegant and comfortable interior with enveloping seats and diamond-inspired design patterns that add to the prestige already present. The surfaces have a soft touch finish, they are combined with shiny black ornaments which bring a very contemporary atmosphere. As the day goes by, the atmosphere changes and you bathe in an incredibly soft bluish lighting. The New Toyota C-HR Hybrid will fill you up.

## THE CAR THAT CHALLENGES THE NORM. THE C-HR

Redefining style with the Dual-Tone. No other car on the road comes close to the striking lines and seamless curves that accentuate the unique diamond design of the C-HR. Challenging the very definition of traditional compact SUV style. Fun at your fingertips. The C-HR handles unlike any other compact SUV. The chief engineer's passion for racing can be felt in every responsive touch, making it a driving experience that is simply the most fun you can have on the road.

## NEW 2020 TOYOTA C-HR LUXURY/ DUAL TONE INTERIOR VIEW

Satisfy your senses.

Lining the cabin are soft-touch surfaces which are contrasted by glossy black inserts, and as day fades, the mood changes, and you're bathed in the soft blue glow of the ambient lighting. Comfort has never looked so good.

## NO NEED TO CONNECT THE VEHICLE, IT RECHARGES ONLY ON THE ROAD

The Toyota Hybrids recharge themselves during braking and deceleration phases. The kinetic energy produced by braking is recovered, converted into electricity and stored in the battery instead of being lost. Toyota Hybrids don't need to be plugged in to charge, so you don't have to worry about autonomy for more freedom.

### LISTEN TO SILENCE, A ZEN HYBRID DRIVING

The primary characteristic of Toyota Hybrid is the impressive operating silence and the absence of vibrations when driving in 100% electric mode. The transition from the electric motor to the petrol engine and vice versa is done automatically, very smoothly, without you even noticing.

### CITIZEN AND RESPONSIBLE BEHAVIOR

Toyota Hybrids help preserve the environment and air quality. In 100% electric mode, they emit no emissions, and in combined mode, the hybrid technology intelligently uses a petrol engine while consuming, and therefore emissions of carbon dioxide (CO<sub>2</sub>) and nitrogen oxide (NO<sub>x</sub>) as well as fine particles.

### MAINTENANCE AND OPERATION SAVINGS

The Toyota Hybrids do not use starter, alternator, clutch or timing belt. Parts that must be repaired or replaced depending on the mileage on traditional vehicles. And fewer parts mean fewer interventions!

### GUARANTEED ON THE BATTERY

In hybrid, you are quiet and for a long time. The hybrid system and the battery are guaranteed for 3 years/ 100 000 km. 100% ELECTRIC Equipped with 100% Hybrid technology, the New Toyota C-HR Hybrid can run on more than 50% of your journey time by electric. Check it daily thanks to the screen which displays the time spent in electric on each trip.

## NEW 2020 TOYOTA C-HR HYBRID INTERIOR VIEW

## DRIVE WITH SECURE CONFIDENCE

Daily excitement? It is so reassuring to know that the New Toyota C-HR is equipped with the most sophisticated safety technologies. Live with peace of mind, the Toyota C-HR takes care of your safety and well-being.

### PARKING ASSISTANCE SYSTEM WITH FRONT AND REAR PARKING RADAR.

This system allows you to perform the necessary manoeuvre to park your Toyota C-HR Hybrid.

The parking sensors at the front and rear of the vehicle help you to detect any object that will obstruct your way while parking.

### REAR VIEW CAMERA.

The rear view camera enables you to have a proper vision of your vehicle's rear. It will be displayed on your Multi-media screen in front of you as soon as you shift to reverse mode.

TNGA - Toyota New Global Architecture

TNGA is now the foundation for all Toyota’s future powertrain and vehicle development. It marks a revolution in the way Toyota designs, engineers and manufactures vehicles, streamlining the process by standardising the size and position of key components within standard new vehicle platforms. In this way it is integral to Toyota’s mission to build ever-better cars.

TNGA enable customers to enjoy more stylish cars that are safer and more enjoyable to drive through:

- Improved driving dynamics with a low center of gravity
- Styling freedom
- Improved safety performance
- Improved efficiency & core strength
