

PALISADE

Always remarkable.

A random turn down a different road can lead to a wonderful discovery. For those with a sense of adventure and who want to explore for themselves, Hyundai presents its all-new Palisade, the ultimate getaway vehicle. With its bold design, Palisade is made for those who dare to be different, who want to break the daily routine and just get away from it all. From its innovative smart safety features to its class-leading spaciousness, Palisade delivers an endless stream of pleasant surprises.

Get it all done in style.

There's a busy day ahead: school runs, fitness club, lunch with friends and shopping. When there's so much to do and so little time to do it, Palisade helps you get it all done and in high style. Safety, comfort and convenience features are all well-thought-out and take much of the stress out of driving. Palisade lets you relax, focus on the important things and makes life a whole lot easier.

3rd row folded

Unfolded

Cargo, kids or adults, whatever you throw at it, the highly versatile Palisade can handle it. The cabin space can be easily configured in a variety of different ways to tackle the demands of the moment. And with the third row folded, Palisade offers a generous VDA-704-liters of cargo space.

For added convenience, the second-row seats include a smart one-touch walk-in button that instantly readjusts the second-row seat position for easier third-row entry/egress. Rear seat passengers will also appreciate the dual-wide sunroof that brightens up the interior.

Smart one-touch walk-in button

Smart power tailgate

All the power you need.

Palisade comes with a choice of powertrains, both mated to a shift-by-wire eight-speed automatic transmission. The highly efficient and eco-friendly Gen II 3.8 GDi gasoline and R-series diesel engines deliver best-in-class power output and are in full compliance with local emission regulations.

2.2 CRDi VGT Diesel Engine

200 Maximum power
PS/3,800rpm
440 Maximum torque
Nm/1,750~2,750rpm

3.8 GDi Gasoline Engine

295 Maximum power
PS/6,000rpm
355 Maximum torque
Nm/5,200rpm

HTRAC All-Wheel Drive*

8-speed shift-by-wire automatic transmission

*Only available on the 2.2 diesel variant.

Explore the limits.

Wherever your journey takes you on or off-road Palisade proves itself to be a highly capable performer thanks to the innovative H-TRAC 4-wheel-drive system and Multi-Terrain Control. Whether you're cruising along city streets or over the roughest terrain, Palisade handles the task with equal ease.

Multi Terrain Control*

When the going gets tough, SNOW, MUD and SAND modes assure optimal tire traction over different types of rough terrain. A quick glance at the center cluster or AVN will confirm terrain mode status.

*Only available on the 2.2 diesel variant.

SNOW

SNOW Mode

Simply select Snow Mode on the Multi-Terrain Control and H-TRAC's advanced AWD system employs variable power delivery to the rear wheels to optimize tire traction on slippery snow-covered roads.

MUD

MUD Mode

Ensures maximum traction even on muddy roads thanks to the new coupling unit provides electronically controlled torque distribution among the four wheels. On sensing individual wheel slip, the smart controller automatically compensates by increasing torque to the wheels with greater traction.

SAND

SAND Mode

The smart controller automatically adjusts the power distribution ratio between the front/rear axles and will automatically allocate the correct amount of torque and/or braking power to individual wheels to ensure the highest level of safety on sand covered surfaces.

Drive Mode

A simple push of the button switches between Drive and Terrain modes. Turn the knob to select the mode that suits you best: COMFORT for everyday driving, ECO for optimal fuel efficiency, SPORT for quicker acceleration or SMART which employs a learning algorithm that automatically adjusts gear shift intervals based on recent driving patterns.

A real handful.

It's time for that big family trip and you've got a lot on your hands. But with Palisade's smart safety features, you get peace of mind knowing that you and your loved ones are protected by a 6-airbag system and a range of smart safety features that are unprecedented in the Palisade segment.

6-airbag system

Palisade offers 6 airbags: the driver and front passenger get a pair of front airbags plus a pair of side airbags to protect the thorax and pelvic areas while left and right curtain airbags offer head protection for all cabin occupants.

Three-zone, Independent-control, fully automatic air conditioning

Palisade features independent heating and cooling systems for the second-row seats, dual fully automatic air conditioning system for the front seats, and adjustable overhead vents that work in tandem with floor vents to help ensure maximum comfort throughout the entire cabin.

Head-Up Display (HUD)

To minimize visual distractions and keep the driver's eyes fixed firmly on the road ahead, HUD projects the vehicle speed, current drive mode, navigation instructions and other key vehicle data directly onto the windshield.

Hyundai SmartSense™

With Hyundai SmartSense™, our cutting-edge Advanced Driver Assistance Systems, Palisade is equipped with the latest active safety technologies built to provide you with more safety and peace of mind.

Blind-Spot Collision-Avoidance Assist (BCA)* and Blind-Spot Collision Warning (BCW)**

Radar sensors in the rear bumper are used to warn the driver of approaching vehicles in the blind spot area.

Rear Cross-Traffic Collision-Avoidance Assist (RCCA)

Radar sensors in the rear bumper monitor cross traffic approaching from left and right side of the vehicle during reverse maneuvers, and if necessary the system will apply warning and emergency braking to prevent from collision (RCCA).

Safe Exit Alert (SEA)

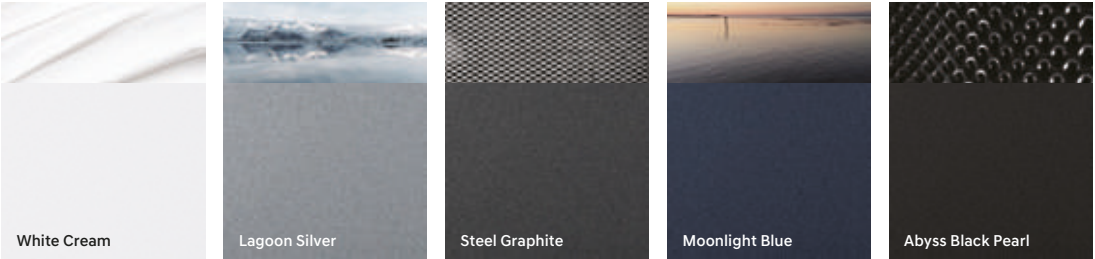

Keep your family safe with Hyundai Safe Exit Alert. Palisade senses other vehicles approaching from the rear and then alerts the passengers when they are stepping out of the vehicle.

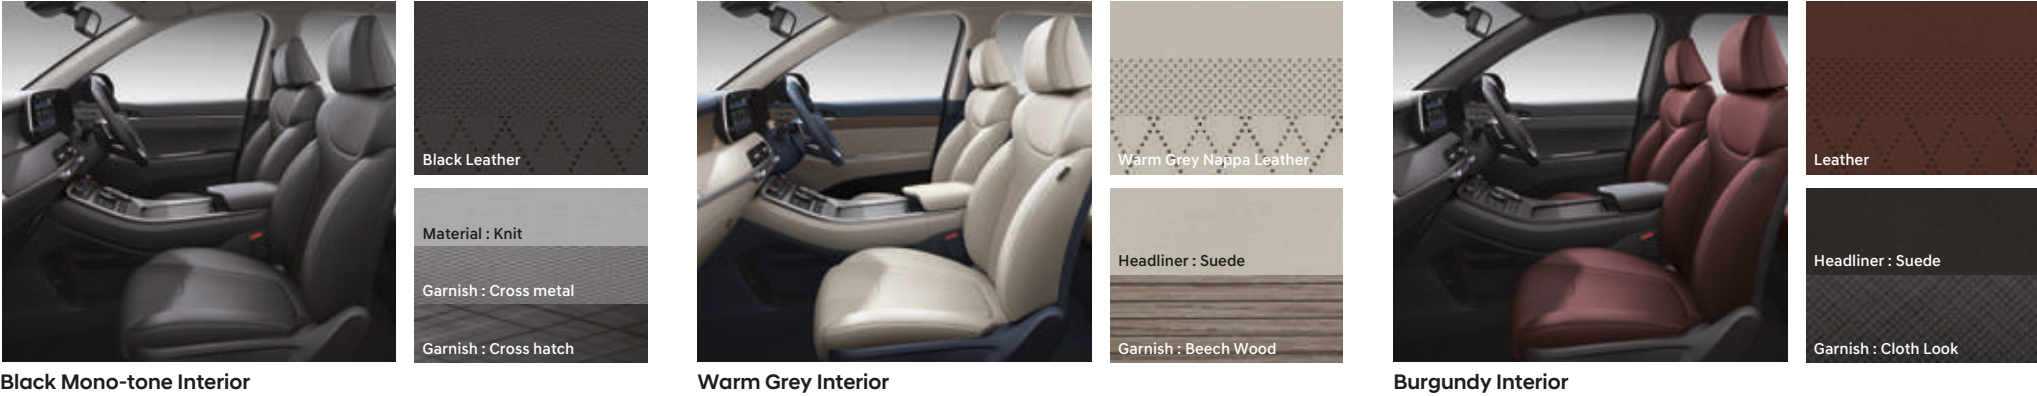

Lane Following Assist (LFA) with Lane Keeping Assist (LKA)*

Start drifting outside of your lane without signaling and this standard system is designed to inform you with haptic, audible and visual cues. If no action is taken, Lane Keeping Assist can apply corrective steering assistance to help keep the vehicle within the lane markings.
