

The all-new Carnival

Movement that inspires

A companion for picturesque moments

From the futuristic headlamps embedded into the tiger-nose grille, to the broad dramatic stripe of the rear combination taillights, fresh details establish a luxurious new design vernacular among people mover. Sleek body lines serve an aerodynamic purpose, while the expansive windows complement the cabin's feeling of openness.

Rear combination taillights

18-inch alloy wheels

Dual LED front headlights with auto on / off function with auto leveling function

Individual comfort for every single seat

With welcoming seats, spacious headroom, and tasteful materials, the Carnival comfortably accommodates every individual occupant. From the ways the doors slide to how the seats can be adjusted and moved, the interior is engineered to make the ride a joy for everyone inside.

Smart Power Sliding Doors and Smart Power Tailgate

Smart power sliding doors offer easy entry and exit for rear occupants. Along with the Smart power tailgate, all doors can be closed and locked with one smart-key button as you walk away.

The versatility to handle whatever the future brings

With various seating configurations, it's hard to think of a more accommodating and flexible interior than this.

11 seats

2nd and 3rd row jump-seat folding

4th row pop-up sinking

3rd row seatback folding and sliding

Surrounded by screens that say just enough

Information technology has changed driving forever. But rather than being bombarded by a seemingly infinite amount of data, the Carnival presents driving information in a clear fashion. The cockpit is designed and engineered to help you focus on the key information while your mind stays on the road and what's around you.

12.3-inch capacitive touch-screen

View and select audio functions on the 12.3-inch capacitive touch-screen display with Apple CarPlay® and Android Auto™ connectivity. Choose audio sources, tune in to radio stations, and adjust audio quality to taste by using convenient controls mounted on the steering wheel.

Smartphone wireless charger

The charging pad in the wireless charging tray bin lets you charge compatible mobile phone wirelessly.

4.2-inch Supervision cluster

The Supervision cluster helps you stay focused and informed with key driving information.

Less vibration, less fuel and all the power you need

The Smartstream 2.2L Turbo diesel engine of the new Carnival offers significant fuel savings through advanced technologies such as improved cooling and reduced friction. The 8-speed automatic transmission offers smooth gear changes, with more gear ranges to achieve the perfect balance of economy and power.

Paddle shifters

We've thought of everything to keep you ready for anything.

Building on an integrated new platform, the Carnival uses technological advances such as improved body materials and chassis rigidity to better protect you in the event of a collision.

3rd generation platform

The new 3rd generation platform standardises the arrangement of steering, chassis, powertrain and cabin floor, resulting in a more spacious cabin and improved aerodynamics, handling, stability and collision safety performance. The Carnival benefits from advances made across the entire range of Kia vehicles.

Smarter body and chassis materials

New applications of stronger, more formable steel in crucial areas helps the body and chassis better disperse collision forces to improve occupant protection. Higher torsional rigidity delivers an impressive level of handling responsiveness and ride smoothness.

Image shown is for illustration purpose only. Actual specification and seat colour will vary.

Airbag system

To help protect occupants and potentially reduce injuries in the event of a collision, seven airbags are standard (driver, driver's knee, front passenger, two front-side, and two side-curtain).

Hill-Start Assist Control (HAC)

When you're at a standstill on an incline, HAC prevents you from rolling backward by gently applying the brakes for a short moment while you move your foot from the brake pedal to the accelerator.

Features and safety technologies

The Carnival offers a wide range of high-tech features for a comfortable ride in style, so that you feel at home while exploring the world that awaits you.

Blind-Spot Collision Warning (BCW)

If you start to change lanes and BCW detects a vehicle in the blind spot, it will warn you. It also alerts you to approaching vehicles when exiting a parallel parking space.

Rear Cross-Traffic Collision-Avoidance Assist (RCCA)

Rear corner radars detect the presence of cross traffic, from the right or left, in the lane the Carnival is backing into. If a vehicle is detected, the system will alert the driver.

Surround View Monitor (SVM)

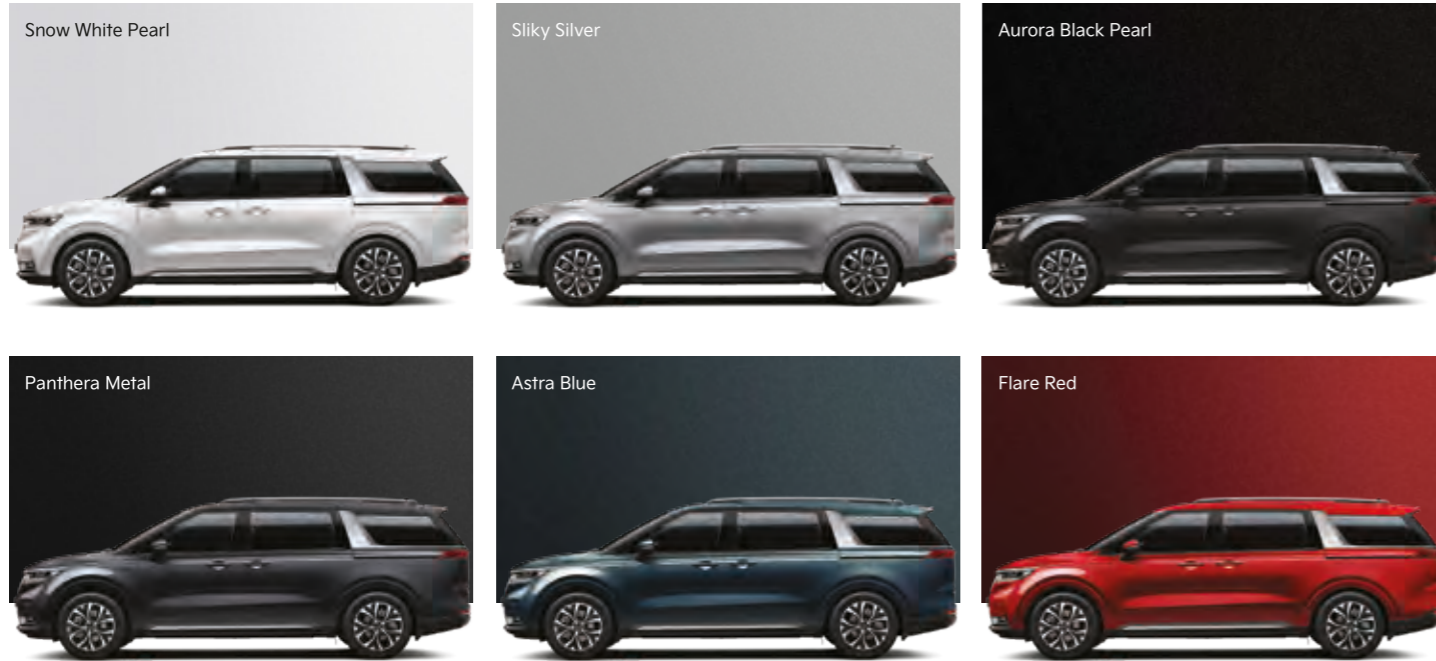

Manoeuvre easily when you park your car with the 360-degree surround view, high-resolution display and variable guidelines.

Leather steering wheel with audio & Bluetooth® hands-free switches

More comfort and safety to your everyday driving with the adjustable leather steering wheel and audio switches at your fingertips.
