EXTERIOR & PERFORMANCE

PREMIUM CASUAL DESIGN CONCEPT

Sophisticated and refined, yet appropriate for the everyday drive.
The All-new LBX defies convention to appeal to your discerning
taste while fitting into your active lifestyle.

THE ALL-NEW LBX

MORE THAN ELECTRIC

EXTERIOR & PERFORMANCE

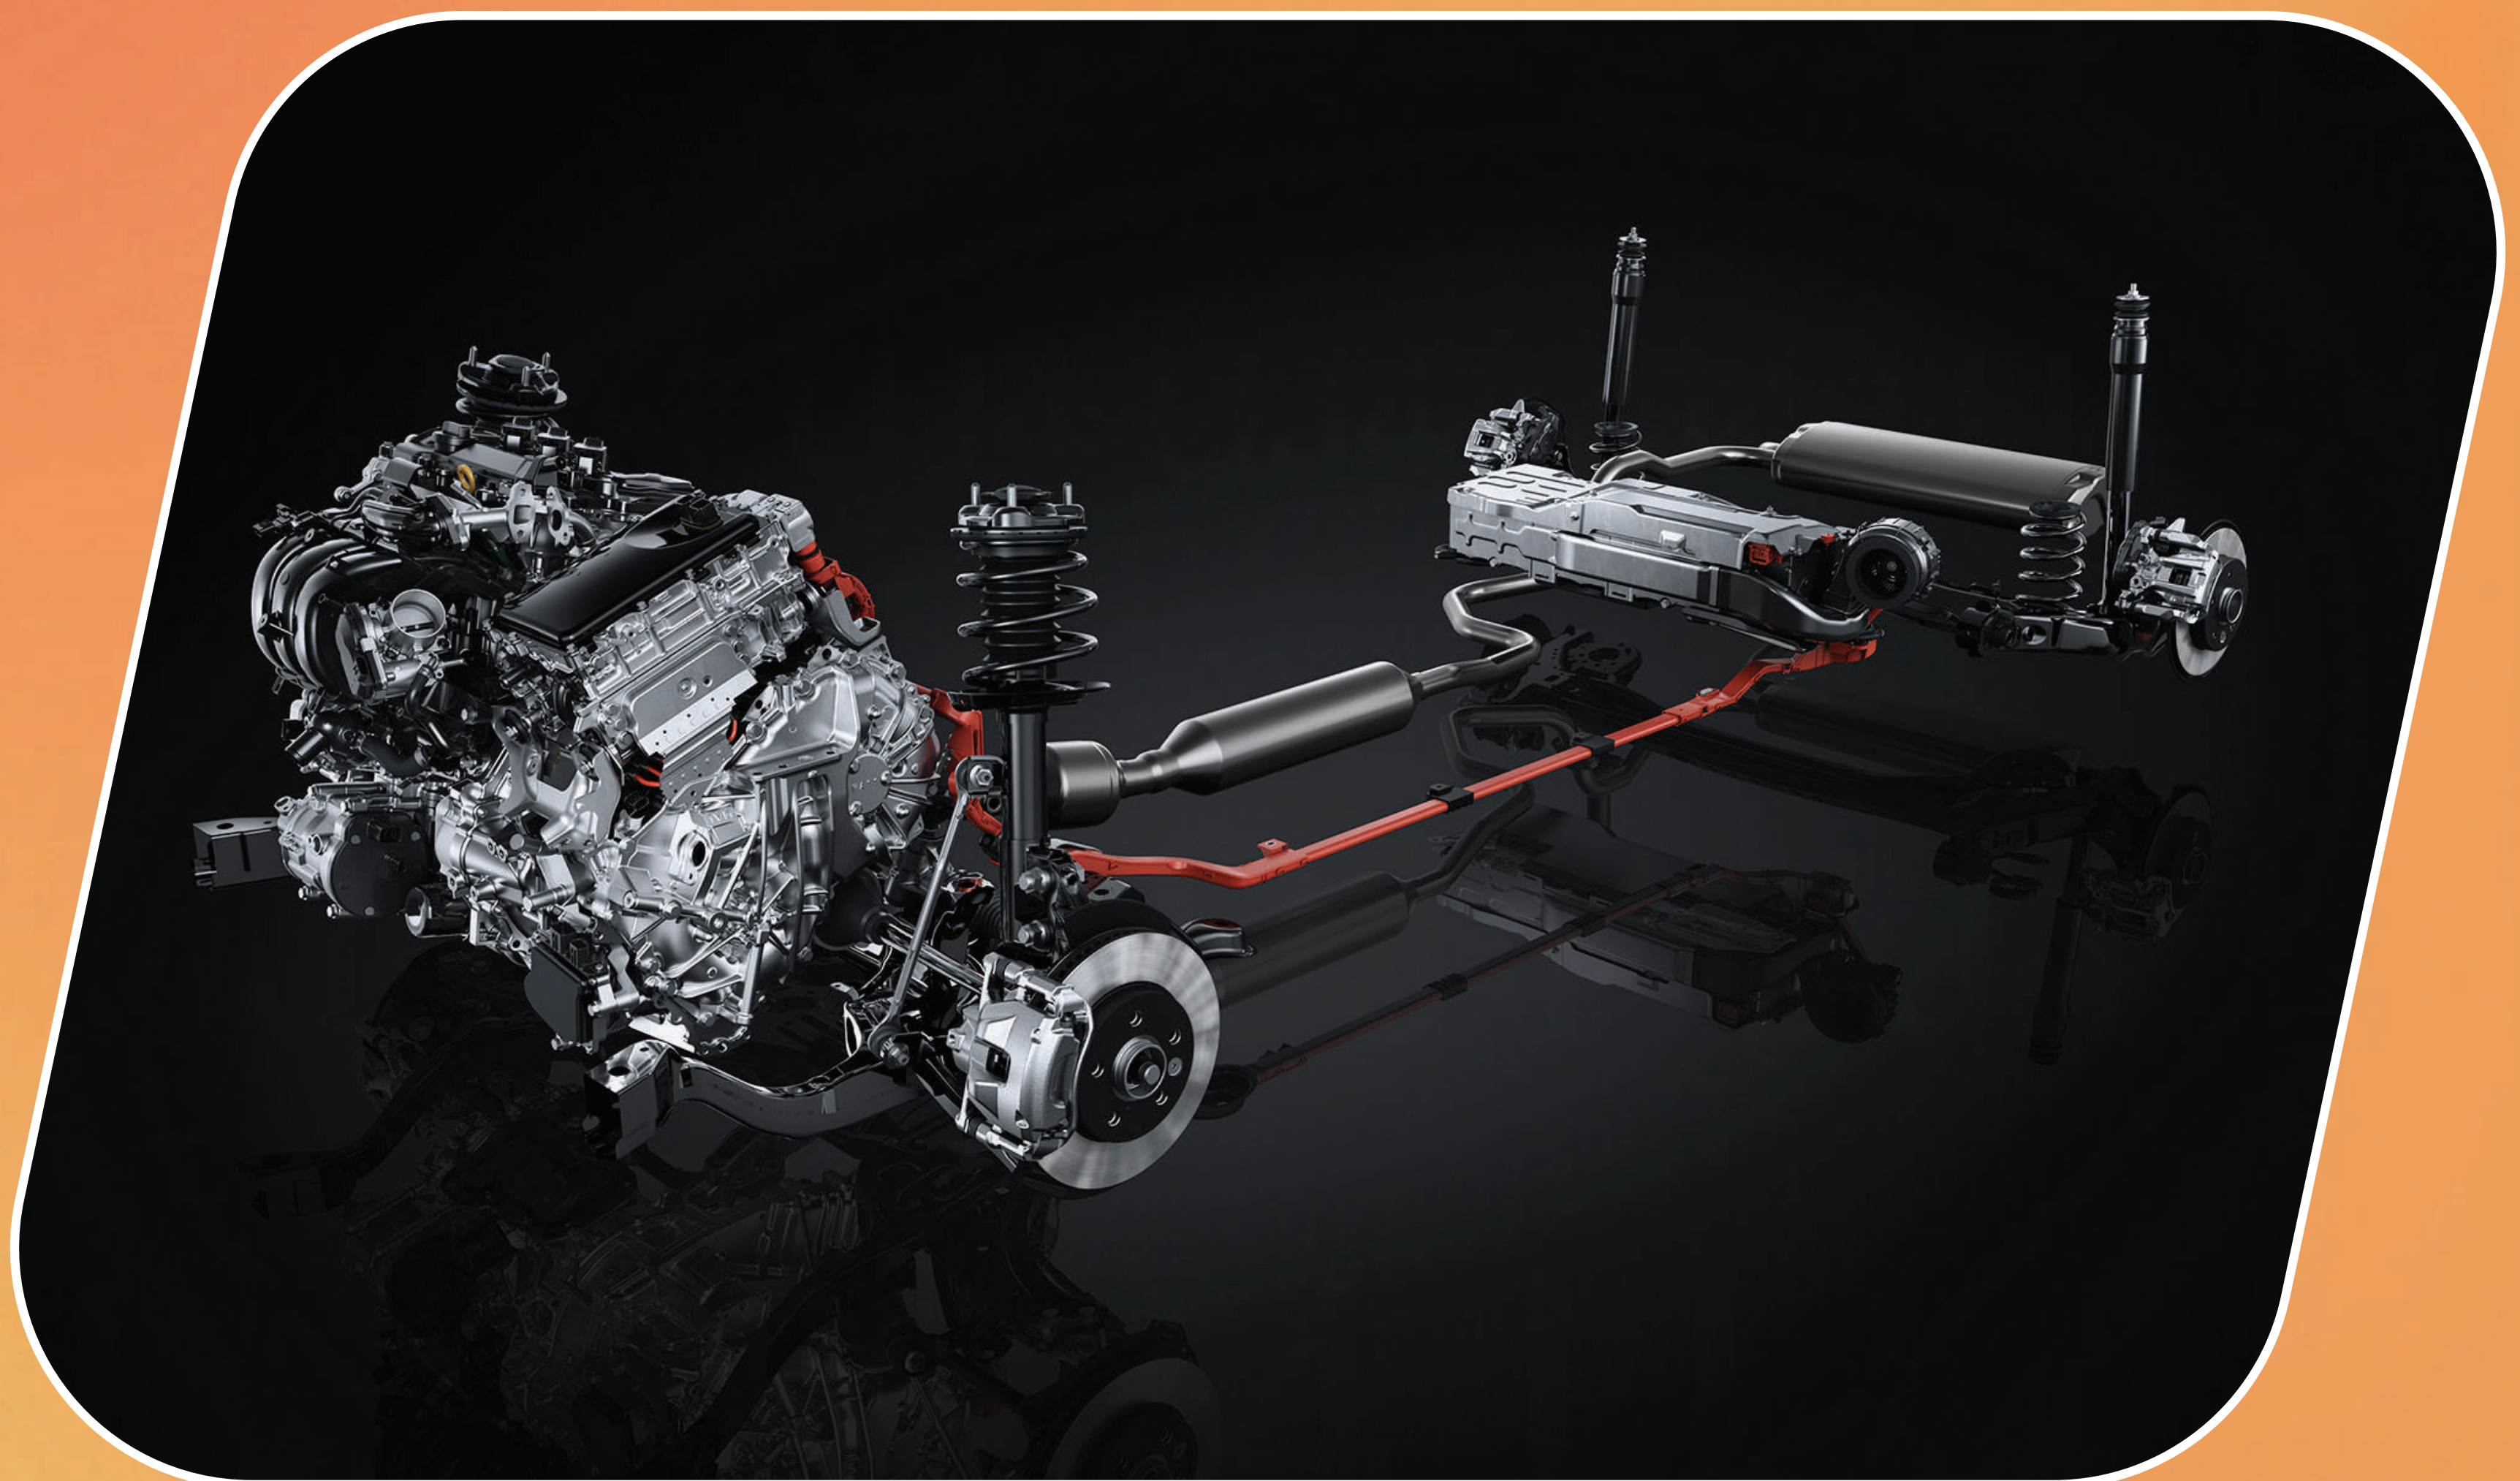

UNIFIED SPINDLE GRILLE

An iconic front design now comes with a chrome-plate moulding and a lower spindle grille positioning. The slit between the hood and bumper creates a seamless line connecting the frontal features of the vehicle. This gives the All-new LBX a bold, resolute impression.

THE ALL-NEW LBX

EXTERIOR & PERFORMANCE

LEXUS REFINED ELECTRIFICATION TECHNOLOGY

The Adopted Series Parallel Hybrid System was designed with excellent self-charging battery performance to keep fuel consumption to a minimum. At the same time, it provides a seamlessly responsive acceleration and exceptional handling so you move exactly the way you want to.

TAZUNA CONCEPT

The Tazuna Concept refers to how a Lexus vehicle is designed to be completely in tune with you. It draws from the relationship between a horse rider and a horse, where the connection between the two is so strong that the rider only has to make simple gestures for the horse to perform optimally.

The Tazuna Concept of the All-new LBX manifests itself in two ways:

INTERIOR DESIGN

Every feature was perfectly placed within easy reach of the driver, so the driver may access them with minimal distraction and maximum focus on the road ahead.

DRIVING TECHNOLOGY

New features in the All-new LBX grant it the power to anticipate the driving situation and react accordingly for an immensely responsive drive.

MORE THAN ELECTRIC

SAFETY SYSTEM +

LEXUS TEAMMATE ADVANCED PARK

The All-new LBX extends its connection to you through intelligent parking assist that supports perpendicular and parallel parking, as well automatic exit from a parking space. Through the use of four Panoramic View Monitor (PVM) cameras and 12 ultrasonic sensors, it identifies parking spaces and detects objects around the vehicle, allowing you to park with increased convenience and safety.

THE ALL-NEW LBX

MORE THAN ELECTRIC

SAFETY SYSTEM +

PRE-COLLISION SYSTEM (PCS) WITH PEDESTRIAN DETECTION

When PCS detects the possibility of a collision, it alerts the driver and activates brake assist to aid in avoiding a collision or reducing impact, so the driver has peace of mind. Now enhanced to better detect pedestrians as well.

THE ALL-NEW LBX

MORE THAN ELECTRIC

SAFETY SYSTEM +

DYNAMIC RADAR CRUISE CONTROL (DRCC) WITH STOP & GO FUNCTION

Besides maintaining a constant speed, DRCC uses a millimetre-wave radar and camera sensors to safely maintain a preset distance with the vehicle in front. This even functions in stop-and-go traffic, to effectively reduce driving fatigue.

THE ALL-NEW LBX

MORE THAN ELECTRIC

SAFETY SYSTEM +

LANE TRACING ASSIST (LTA)

On top of Lane Departure Alert (LDA) warning you when you unintentionally exit your lane, LTA helps keep the All-new Lexus LBX in the centre of the lane to maintain the driver's sense of safety.

THE ALL-NEW LBX

MORE THAN ELECTRIC

SAFETY SYSTEM +

E-LATCH WITH SAFE EXIT ASSIST

An electrically operated button unlatches the door when you press it, adding a subtle yet significant touch of sophistication so you may effortlessly enter and exit your car. It even enhances safety by preventing the doors from opening in the event that a potential hazard is approaching from behind.
