CONCEPT

Crafted to inspire, the LC Convertible fuses the sensual beauty and exhilarating performance of the LC coupe with an open-air oneness with nature, enveloping and invigorating the senses in an exceptional driving experience unique to a Lexus convertible.

INTELLIGENCE

To the stunning beauty and dynamic performance of the LC, Lexus's performance flagship, the LC Convertible injects the unique sensations and exhilaration of open-air driving. The captivating convertible silhouette with its distinctive automated soft top gives fresh expression to the LC's 'Seduction & Technology' design concept, accentuating its unique identity. The seamless flow from the exterior into interior shapes an inviting and snug cockpit, its finely crafted comfort and detailing enhancing the experience of a limitless enjoyment

of nature in all seasons. The sharp response and linear characteristics that unify the driver and car were produced by the uncompromising pursuit of body rigidity and ongoing evolution of the platform architecture and packaging. It is realised through refined drive force control that optimises shifting and acceleration and a heart-stirring engine soundscape to provide an exhilarating drive, whether you prefer comfortable cruising or relish all-out sport driving excitement.

Note: Vehicles pictured and specifications detailed in this catalogue may vary from models and equipment available in your area. Please inquire at your local dealer for details on the availability of features.

Note: Vehicles pictured and specifications detailed in this catalogue may vary from models and equipment available in your area. Please inquire at your local dealer for details on the availability of features.

DESIGN

Innovative design and meticulous craftsmanship open up the beauty of the LC to create a bold and distinctive identity befitting a Lexus convertible, expressed in the sleek, flowing silhouette that accentuates the unique convertible character.

» INTELLIGENCE

EXTERIOR

Artfully blending the coupe's avant-garde roofline with the dynamic character of a convertible, it exudes a beautiful and bold presence with the soft top open or closed.

Note: Vehicles pictured and specifications detailed in this catalogue may vary from models and equipment available in your area. Please inquire at your local dealer for details on the availability of features.

INTERIOR

Designed to be viewed from the outside and experienced while cocooned inside, the cockpit blends the innovation and authentic craftsmanship synonymous with Lexus luxury comfort with the unrestricted enjoyment of nature.

Note: Vehicles pictured and specifications detailed in this catalogue may vary from models and equipment available in your area. Please inquire at your local dealer for details on the availability of features.

PERFORMANCE

The LC Convertible evolves the LC's 'Even Sharper, More Refined' driving performance, further honing the clear linear steering and exceptional driving rhythm that unify car and driver. Whether cruising the freeway or climbing a mountain road, you'll savour the exhilarating driving feel, boosted by the sensual engine sound and oneness with nature you can only fully experience with the top down.

3

» INTELLIGENCE

Front Engine, Rear-wheel Drive (FR) Platform

The structural integrity that forms the core of the LC's next generation driving dynamics focused on the vital contribution of the platform architecture to performance. To provide smooth manoeuvrability and stability, the moment of inertia was reduced and the centre of gravity lowered to realise excellent steering stability. It is reinforced by a wide stance with short overhangs, and balanced front-to-rear weight distribution, to realise responsive and natural vehicle behaviour. The result is a layout that realises driving close to the ideal, enhancing the convertible's responsiveness to driver inputs and giving a natural feel of the road. It also enables the beautiful body with its captivating silhouette, together with ample luggage space.

Aerodynamics

Building on the LC's meticulous approach to refining the flow of air both over and under the vehicle to enhance aerodynamics, further research into the changing aerodynamics when the roof is open helps maintain a pleasant air flow in the cabin, whether driving in the city or at high speed on the open road. The addition of a transparent rear deflector contributes to a pleasant airflow in the cabin.

Multi Material Body

To give the LC convertible with its soft-top roof the structural integrity at the heart of the LC's dynamic performance, it integrates several exclusive components to boost body rigidity. They include a rear suspension tower brace with V-brace, torsion box, underfloor braces, and gussets on the bottom of the front and centre pillars. The use of aluminium, hot-stamp, and high-tensile steel further contributes to the lightweight, high rigidity body structure, reinforced by the use of body adhesives, laser welding and laser screw welding. To further lighten weight and lower the centre of gravity, aluminium and Carbon Fibre Reinforced Plastics (CFRP) are used for a variety of components.

Braces

A blend of CAE analysis and emotional driving feel drove the pursuit of body rigidity, optimising the shape and positioning of the braces and use of lightweight materials to provide a strong platform for the enjoyment of open-air driving. The rear suspension tower brace and front, centre and rear underfloor braces reinforce the torsional and flexural rigidity of the body, contributing to the suppression of excess vibration.

Engine Sound

Advanced Lexus engineering creates a soundscape that combines the luxury of quiet open space with the emotional roar of sporting performance as you press the accelerator. A sound generator on the air intake and active sound-control valves in the exhaust create heart-stirring engine sounds when starting up and accelerating. They are complemented by Active Noise Control (ANC) that cancels out unpleasant engine noise using the audio system speakers, based on input from microphones in the cabin.

FEATURES

The LC Convertible applies the Lexus concept of luxury to create an unparalleled open-air driving experience, embedding innovative technologies, Japanese hospitality, authentic craftsmanship, and Lexus finesse into the quality details.

4

» INTELLIGENCE

Rear Deflector
The transparent rear deflector behind the rear seats contributes to comfort in the cabin while driving at speeds up to 60km/h. It controls the flow of air into the rear of cabin, and directs it down into the rear seat area to reduce airflow.

Lexus Climate Concierge
The Lexus Climate Concierge automatically controls the cabin temperature, seat heaters and Ventilated Seats for the front seats. It realises different control settings depending on whether the soft top is open or closed. When the soft top is open, in addition to the control settings for when the top is closed, the Concierge responds to the vehicle's speed, optimising the temperature to embrace occupants in a refined and relaxing environment.

Fully Automated Roof System
The fully automated roof system sets the LC Convertible apart. The compact soft top conveys a feeling of lightness, crafted to create a distinctive roofline when closed, and a beautiful silhouette when open and stored under the tonneau cover. It opens and closes quickly in a smooth graceful motion while driving at speeds below 50km/h, with the operational status shown by an animation and progress bar in the Multi-Info Display (MID). An insulation layer in the top's multi-layered structure contributes to the quiet cabin.

Roof Switch
In a subtle Lexus refinement, the soft top control switch is concealed under the palm rest, creating a special feeling of opening the lid that mimics opening/closing the soft top. For intuitive operation, the switch direction matches the movement of the roof. The switch features a non-slip Lexus L-shaped pattern, providing tactile feedback for confident operation.

Mark Levinson Audio System
The audiophile-quality Mark Levinson Reference Surround Sound System incorporates an 11-channel amplifier that drives 13 speakers, including speakers integrated into the rear seat headrests, to replicate a precise sound stage that reproduces the position and depth of each instrument. When the soft top is open, the system automatically complements and adjusts the sound architecture in real-time to deliver the audio quality you enjoy with the soft top closed in an open-air environment, and harmonise with the sound of the engine.

Luggage Space
The soft-top roof is surprisingly compact when stowed away, fitting snugly into a space under the tonneau cover. This not only contributes to the eye-catching side silhouette, but also enables a trunk large enough to stow a golf bag or suitcases.

Note: Vehicles pictured and specifications detailed in this catalogue may vary from models and equipment available in your area. Please inquire at your local dealer for details on the availability of features.

SAFETY

The LC Convertible's exhilarating performance is underpinned by active and passive safety measures that utilise advanced technologies to deepen your peace of mind.

» INTELLIGENCE

LEXUS SAFETY SYSTEM +

Pre-Collision System (PCS)

When the millimetre-wave radar and monocular camera sensors detect a collision with a vehicle ahead is likely, it alerts the driver and activates pre-collision brake assist when the driver depresses the brake pedal. If the driver cannot depress the brake pedal, it activates pre-collision braking.

Lane Keeping Assist (LKA)

The system alerts the driver with a buzzer and on the Multi-Info Display (MID) if the system judges the vehicle is about to cross the lane markings, and assists steering to help avoid lane departure.

Automatic High Beam (AHB)

AHB helps safe driving at night by instantly switching from high to low beam when the lights of an oncoming vehicle, or the tail lights of a vehicle in front, are detected.

Dynamic Radar Cruise Control (DRCC)

In addition to maintaining a constant speed, Dynamic Radar Cruise Control (DRCC) uses the millimetre-wave radar and monocular camera sensors to detect a vehicle driving ahead and maintain an appropriate distance between vehicles.

Blind Spot Monitor (BSM) System

When the quasi-millimetre-wave radars in the rear bumper detect vehicles in adjacent lanes that aren't visible in the door mirrors, the system activates an LED warning indicator in the relevant door mirror the moment a vehicle enters this blind spot.

Rear Cross Traffic Alert (RCTA)

To assist safe reversing, RCTA uses quasi-millimetre-wave radars in the rear bumper to detect approaching vehicles in difficult-to-see areas behind the vehicle. When an approaching vehicle is detected, RCTA alerts the driver using a buzzer and an LED indicator in the relevant door mirror.

Active Roll Bars

Innovative active roll bars integrated inside the package tray help realise the beautiful silhouette when the top is open. They automatically deploy upward when a collision or rollover is detected, helping contribute to dispersing the load on the vehicle body.

Supplemental Restraint System (SRS) Airbags

The LC Convertible features dual-stage SRS airbags (Front seats), SRS knee airbags (Front seats), and large SRS side airbags (Front seats) that expand to help protect the occupants' heads.*1

*1 The SRS airbags are supplemental devices to be used with the seatbelts. The driver and all passengers in the vehicle must wear their seatbelts properly at all times. Never install a rear-facing CRS (Child Restraint System) on the front passenger's seat. For a forward-facing CRS, it is recommended you use it in the rear seats. Please do not use accessories for the seats which cover the parts where the SRS side airbags should inflate. Such accessories may prevent the SRS side airbags from activating correctly, causing serious injury (Lexus genuine seat covers are specifically designed for models equipped with the SRS side airbags. To find out about availability in your area, please inquire at your local dealer). The photo shows all the SRS airbags activated for display purposes only (the SRS side and curtain shield airbags only inflate on the side of the collision in an actual accident). For details on these and other important safety features, be sure to read the Owner's Manual carefully.

Note: The systems functions may not operate properly depending on the weather, road and vehicle conditions or other factors. Be sure to read the Owner's Manual carefully. Do not overly rely on these systems, as there is a limit to the performance they can provide. The driver is always responsible for paying attention to the vehicle's surroundings and driving safely. Vehicles pictured and specifications detailed in this catalogue may vary from models and equipment available in your area. Please inquire at your local dealer for details on the availability of features.

TAKUMI

Our Takumi craftsmen strive for perfection in every aspect of their work, actively seeking enhancements by applying constant care and dedication to their craftsmanship, blending their craftsmen's skills with the power of technology to better anticipate the future.

OWNING A LEXUS IS A JOURNEY
IN ITSELF, ONE THAT IS JUDGED
NOT BY MILEAGE BUT BY THE
COUNTLESS PRICELESS MOMENTS.

BEGIN YOUR JOURNEY THE RIGHT WAY WITH QUALITY SERVICES DESIGNED TO ENHANCE YOUR LEXUS EXPERIENCE.

LEXUS believes that perfection lies in the details. When you purchase a LEXUS, you will experience service like no other. LEXUS CAPITAL offers you flexible financial services that enable you to be in full control of your finances, as always. Applying for financing can be handled quickly and conveniently at all LEXUS showrooms.

LEXUS ASSIST is a 24-hour roadside assistance service provided by LEXUS. You're assured of reliable assistance via this exclusive programme aimed at creating a hassle-free driving experience.

LEXUS INSURANCE is a comprehensive motor insurance packaged by LEXUS to provide LEXUS owners with tailored insurance coverage for damages to the owner's vehicle as well as any liabilities incurred by the third party.

LEXUS ACCESS is a comprehensive vehicle leasing programme designed to bring you even closer to driving a LEXUS. Complementing our Flexi Plan and Islamic Financing Plan, LEXUS ACCESS offers you yet another option to experience the perfection embodied by a LEXUS.
