

The Proton

SAGA

A nation had a dream. A dream to build a car they can call their own. And what started off as a source of national pride has gone on to be national rally champion, winner of international awards, and one that has travelled with more Malaysians than any other car in history.

The SAGA has come full circle.

A New SAGA Begins.

Meet the Proton SAGA. It is made for your every journey. Elegant design, fuel-saving next-generation engine, and many more innovative features make it the best in its class. Like the very first edition, the SAGA is built for the people.

Appreciate the quiet and drive (before your kids take the stage).

The SAGA's cabin is designed to be quieter and smoother. So you can enjoy the music better, be it Siti, Justin T. or your kids' singing to the latest high school musicals.

When you're behind the wheel, the real performance begins. Let the legendary Lotus Ride & Handling dynamics take your breath away. With greater road feel, superior vehicle control, improved stability and better shock absorption, you'll be singing in the rain, too.

Spacious enough for family trips and sumptuous picnic treats. (And perhaps a few durians, too.)

With a longer and wider body plus extended overall length, the SAGA is the perfect companion for your every roadtrip. It all adds up to offering you the best cabin space in its class, not to mention a grand boot capacity of 413-litre. With so much space available, handy storage compartments like CD holder, door pockets, glovebox, floor compartment (and more) will get you organised.

Sit back and enjoy the performance.

The CamPro 1.3 is enhanced with a new air intake management system - the Integrated Air Fuel Module (IAFM) technology. It helps the engine "breathe" better to offer you the best of both worlds - greater fuel efficiency at low speeds and better performance at high speeds. Be it a short one to the shops or a cross-state roadtrip, every drive will be one you'll enjoy.

Reserved, simple and always accommodating.
What a typical Malaysian.

The SAGA is a prime example of great design with careful restraint – resulting in a minimalist look that's sleek and beautiful to everyone's eye. The interior implements the same principles. Every dial and button on the all-new dashboard is intuitively designed, with simplicity in mind. So let your personality shine. The SAGA welcomes all.

A new era in *teh tarik* enjoyment.

Enjoy your favourite drinks on-the-go with convenient cup/bottle holders at every seat. But that's not all. You'll discover many more practical features like the standard tachometer, CD player, keyless entry*, electronic side mirrors** and reverse sensors**.

*Available for B-Line & M-Line only.

**Available for M-Line only.

Balik kampung with peace of mind.

Your safety shouldn't be a worry. Designed to fulfill international crash safety standards, the SAGA's strong, reinforced chassis and body structure plus driver's airbag** will always be there to protect you and your loved ones.

**Available for M-Line only.
