# BEYOND STABILITY

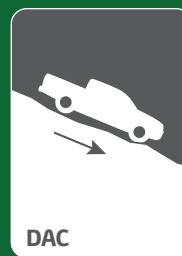

### Active Traction Control (A-TRC) [L-Edition & G variants only]

When sensors detect a wheel losing traction in L4 mode, the system will individually brake that wheel and transfer power to the opposite wheel on the same axle. This helps the Hilux maintain forward momentum and drive through tough situations easily.

### 4WD Transfer Dial

Easily switch from 2WD to 4WD with just a twist of a knob.

DAC

### Downhill Assist Control (DAC) [2.8 L-Edition only]

Controls the brakes independently and prevents the Hilux from slipping when descending steep slopes.

### Rear Differential Lock

Improves traction on undesirable road conditions by providing equal amounts of torque to both rear wheels.

### Greatly Enhanced Suspension

Aside from larger shock absorbers that significantly increase ride comfort and stability, the overall suspension of the Hilux has been greatly enhanced to provide improved roll stiffness, off-road traction and wheel articulation.

**All-terrain Tyres**  
[17" all-terrain tyres are for 2.4G & STD variants only]

### Power-adjustable and Retractable Wing Mirrors

[L-Edition & G variants only]

An aerodynamic design complements the adjustable and retractable wing mirrors.

### Large Cargo Space

The Hilux boasts the longest deck space in its class, which allows ample space for load and luggage. It also has a protective bedliner\* to shield the deck from scratches.

[\*Double Cab variants only]

# BEYOND STYLE

### LED Daytime Running Lights (DRL)

[2.8 L-Edition only]

The stylish DRL makes you more visible during the day.

### LED Fog Lamps

[2.8 L-Edition only]

[2.8 L-Edition only]

The Digital Video Recorder is redesigned to allow easy navigation of features and a sleek new look for better driver visibility.

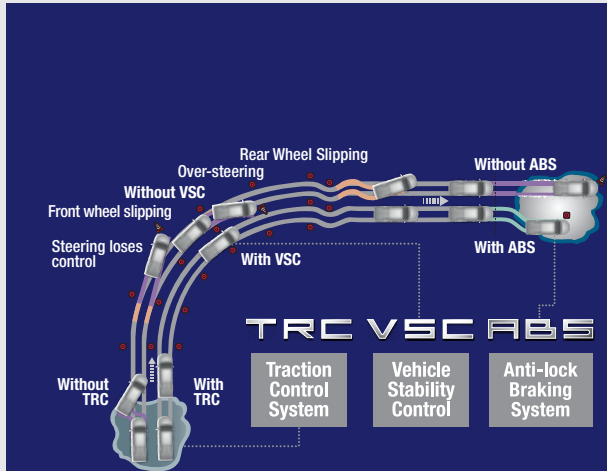

**Cruise Control**

Automatically controls and maintains a constant speed for the Hilux.

*Image(s) shown may vary for different variants.*

**7 SRS Airbags**  
[7 for AT variants, 3 for MT variants]

**Traction Control System (TRC) and Vehicle Stability Control (VSC)**  
[L-Edition & G variants only]

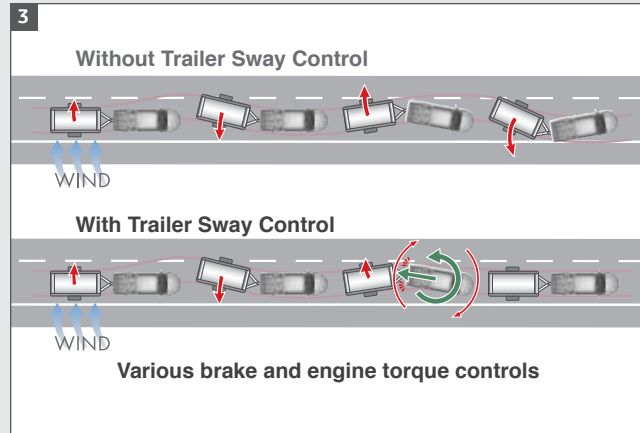

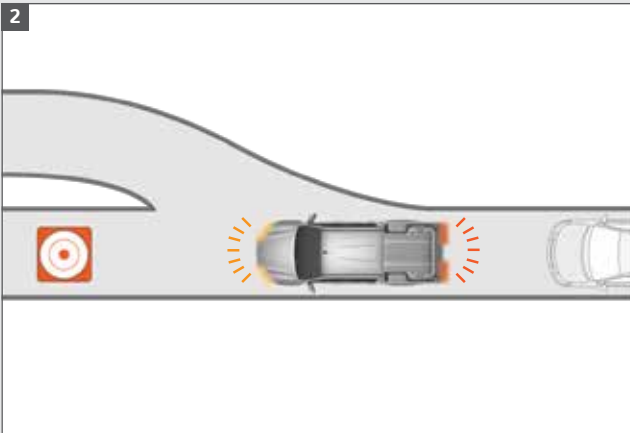

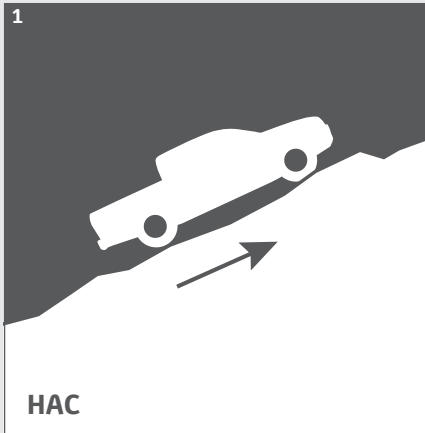

TRC improves traction when moving off/accelerating on slippery surfaces, while VSC prevents the Hilux from spinning when sudden manoeuvres are needed.

**Anti-lock Braking System (ABS) with Electronic Brake Force Distribution (EBD)**

ABS prevents wheel lock-up during braking while EBD optimally distributes braking power to each wheel according to the current load and weight.

**Hilux (L-Edition & G variants only)** has been awarded a 5-star rating in the Adult Occupant Protection category.

# BEYOND SAFETY

**1. Hill-start Assist Control (HAC)**  
[L-Edition & G variants only]

Prevents the Hilux from rolling back when moving off up a steep slope, ensuring greater driving safety.

**2. Emergency Stop Signal (ESS) and Brake Assist (BA)**  
[L-Edition & G variants only]

Sudden braking will cause the emergency signals of the Hilux to flash, to warn vehicles behind it, while Brake Assist ensures that maximum braking force is applied when an emergency is detected.

**3. Trailer Sway Control (TSC)**  
[L-Edition & G variants only]

When crosswinds, irregular road surfaces or sudden steering affects a towed trailer, the movement of the trailer is lessened so that it doesn't go out of control.

**4. Security System**  
[L-Edition & G variants only]

Comprises a full range of security features such as an immobiliser, siren with back-up battery, an intrusion sensor, double locking and speed auto door lock.
