AUGUST 2024

Overseas Model Shown

Introducing Kia EV3.

The city to city EV.

Sleek, futuristic and loaded with innovative design and technology, the new EV3 is the perfect urban SUV.

Kia's 4th generation, 81.4kWh* battery delivers up to 600km* of driving range to handle long trips with ease. With 10-80% DC fast charging in 31 minutes**.

*Preliminary Specifications. Subject to change without notice. The estimated range using the Worldwide Harmonised Light Vehicle Test Procedure (WLTP) should be used as a guide only.
**Approximately 31 minutes to charge from 10% to 80% on a 350kW DC ultra-fast charger. Charging times may increase if peak charging rates are not achieved. Charging times will also be dependent on the condition and durability of the high voltage battery, charger specifications, and ambient temperature at the point of use.

Simply a beautiful place to be.

With room for five, the spacious interior of the EV3 is a masterpiece of minimalist luxury, with an ultra-wide near 30" Panorama Display* and a premium sound system (GT-Line Exclusive) creating a truly immersive experience.

Exclusive to the GT-Line, the EV3 centre console incorporates a sliding table and storage area for drinks, snacks and even small backpacks. Slide the table forward to create a work surface for your laptops.

*Preliminary Specifications. Subject to change without notice.

Need a little power on the go? The EV3's Interior Vehicle-to-Load (V2L) system has you covered! Whether it's inflating an air mattress, or charging your computer on-the-go, the EV3 keeps you moving.

Flagship driving experience.

The EV3's assured driving experience comes from the same Advanced Driving Assistance Systems (ADAS) introduced in our flagship EV9, with ride safety specially tuned for New Zealand conditions.

Overseas model shown. NZ model may vary.

ADAS technology includes Forward Collision-Avoidance Assist, Lane Keeping Assist, Highway Driving Assist, and Reverse Parking Collision-Avoidance Assist*, providing additional support and reassurance on every journey.

Available on selected trim levels

*Available on Earth & GT-Line models.

An EV for everyone.

Inspiration comes in many forms. That's why at Kia, we are creating a whole family of advanced electric vehicles that answer different needs and fit different lifestyles.

Kia Connect™

The Kia Connect app is **your digital co-pilot.**

Use it to set a comfortable cabin temperature before you get in, lock or unlock your EV3 and locate nearby charging stations. There's even a Valet Mode that keeps an eye on your EV3 when you hand over the keys to someone else.

- Valet Parking Mode
- SOS Call
- PO Search & Weather Update
- Remote Climate Control
- EV Charging Locations & Status
- Remote Lock
- Destination Send to Vehicle
- Real-time Vehicle Tracking
- Vehicle Health Status

Over-the-Air (OTA) wireless software updates.

Kia Connect ensures your car always has the latest performance and safety software with Over-the-Air updates.

Receive OTA updates as you drive to improve key vehicle functions, such as powertrain, drivetrain, infotainment system, battery and the advanced driver assistance systems (ADAS).

With OTA Updates, you can be confident of having the latest safety and performance features without the need to visit a dealership or service centre.

Information contained herein is for comparative purposes only. Specifications at any given time may vary to the above.

* Driving range figures standards are calculated using the World Harmonised Light Vehicle Test Procedure (WLTP). Actual results achieved will differ according to operating conditions and driving style.

** Charging times of the high-voltage battery may vary according to the condition and durability of the high-voltage battery, charger specifications and ambient temperature.

*** Not all handsets may be compatible.

^ Charge time with 350kW DC ultra-fast charger. Actual charge will vary with options, driving conditions, driving habits, vehicle maintenance, charging practice, battery age, weather, temperature and your vehicle's condition.

∞ Apple CarPlay: Requires an iPhone 5 or later and it is recommended to always update your iPhone to the latest iOS release. Use the Apple Lightning cable provided with your phone, or Apple-certified Lightning cable.

† Android Auto: Requires an Android phone with Android 5.0 Lollipop or higher. It is recommended to always update your phone to the latest OS release. Use the USB cable provided with your phone.

Kia cannot guarantee continued compatibility. All technical data and technical specification are expected targets, pending further development and homologation. All figures are subject to change.

Static and moving imagery are used for illustration purposes only. Final product may show differences in comparison to the images employed. The models and specifications shown in this page may vary from the models available in NZ. Please contact your local Kia dealer for the most recent information.

Make EV3 part of your future.

The Kia EV3 arrives in New Zealand Q2 2025.
