

ASX

A busy life demands a vehicle that's ready for anything. Whatever your day involves: shopping, relaxing, darting into a parking spot or just enjoying a pleasant drive, ASX is up for it. Wherever you go, you'll always arrive in style.

ASX perfectly suits an active life. There are the 4WD models which boast an efficient 2.2L Intercooled Turbo Diesel engine and the 2WD 2.0L MIVEC petrol models.

There's a raft of luxury features, all of which are standard. Inside and out you'll find smooth, sculpted surfaces. There are machine-finished 18" alloys and a 6.1" touch-screen audio system with Bluetooth™ and iPod connectivity, plus reversing camera. There's also cruise control, daytime running lights, plenty of airbags and the reassurance of a 5-Star ANCAP Safety rating.

Step up into the elegant ASX VRX for leather-faced seats, keyless start and high intensity headlamps. Now, every drive looks stunning thanks to the new panoramic roof, with electronic blind and mood lighting for a smart start to an evening drive.

Smart petrol on 2WD.

All 2WD ASX models feature the smooth power and welcome economy of the 2.0L MIVEC petrol engine. It'll drink just 7.4L/100km and produce only 172g/km of emissions. It'll also whisk a full load up a hill or make short work of a long drive.

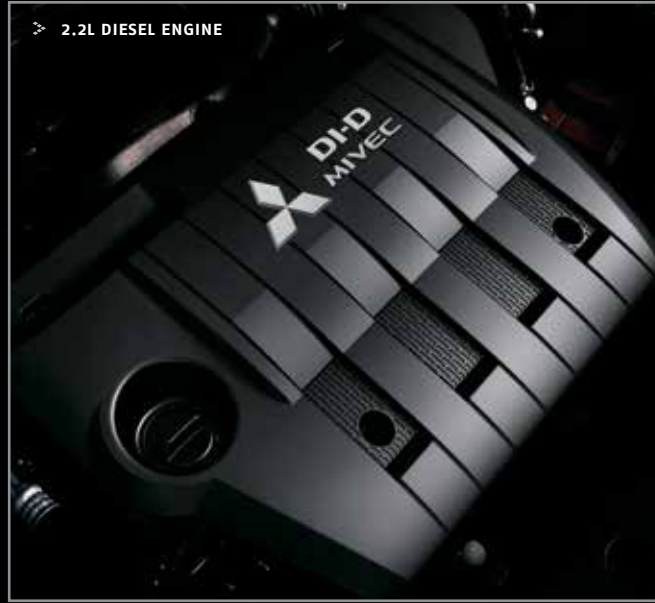

➤ 2.0L PETROL ENGINE

Powerful diesel on 4WD.

If 4WD is more your style, the 2.2L Intercooled Turbo Diesel is the engine you need. The economy figures are impressive: just 6.0L/100km. The torque is an eye-popping 366Nm, more than enough to take you off the beaten track and bring you back.

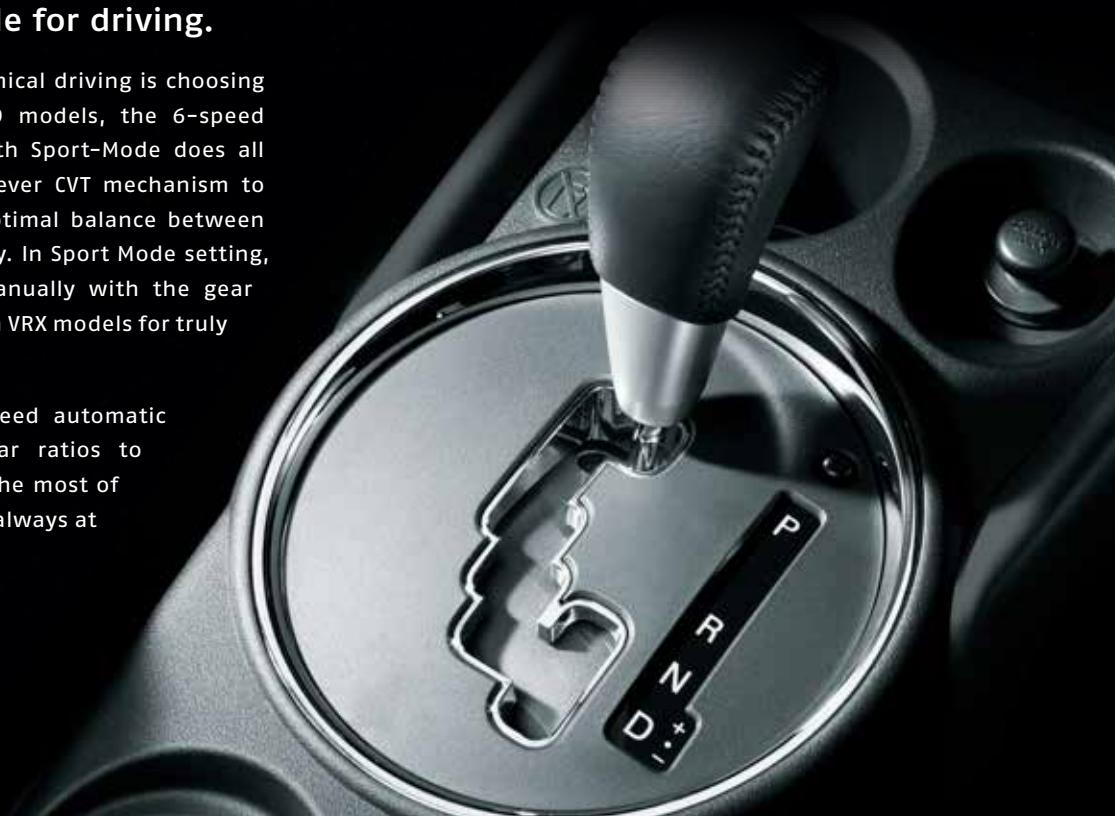

➤ 2.2L DIESEL ENGINE

Transmissions made for driving.

The key to smooth, economical driving is choosing the perfect gear. On 2WD models, the 6-speed INVECS III transmission with Sport-Mode does all that for you. It uses a clever CVT mechanism to keep the engine in the optimal balance between performance and efficiency. In Sport Mode setting, you can change gears manually with the gear stick, or the paddle shift on VRX models for truly dynamic driving.

In 4WD models, the 6 speed automatic transmission matches gear ratios to torque perfectly to make the most of the engine's power, so it's always at your command.

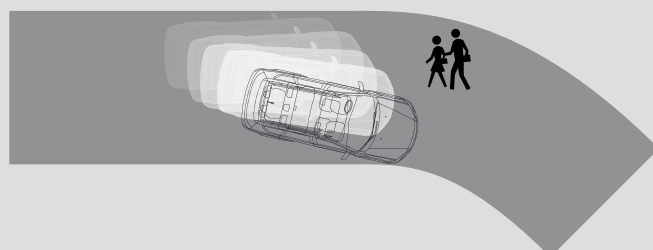

4WD VRX model shown

Peace of mind every time you sit behind the wheel. The ASX features several important safety innovations to protect you and your passengers.

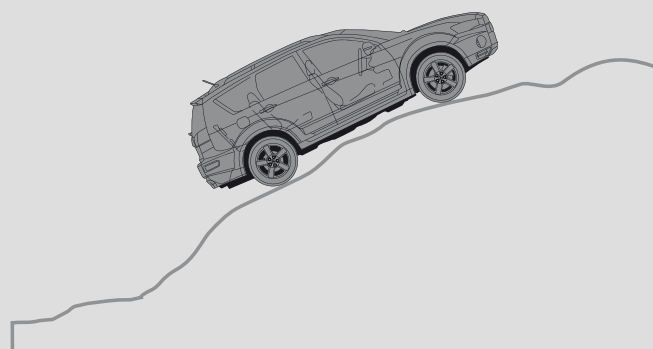

MULTI-MODE ANTI LOCK BRAKING SYSTEM (ABS) AND MECHANICAL BRAKE ASSIST

This allows you to manoeuvre around objects under heavy braking conditions. ASX's intelligent 4-channel, 4-sensor braking system works in conjunction with the drive mode to monitor different wheel speeds and activate brakes to individual wheels when required to deliver superior control. Mechanical Brake Assist increases the brake force during emergency braking situations to reduce the stopping distance.

ACTIVE TRACTION CONTROL - ATC

Helps you maintain traction on the most slippery or rugged of surfaces. This intelligent system automatically controls the engine output, so driving wheels are prevented from spinning. Sensing loss of traction in an independent wheel, it applies braking force to that wheel and sends extra power and torque to other wheels with traction to keep you moving.

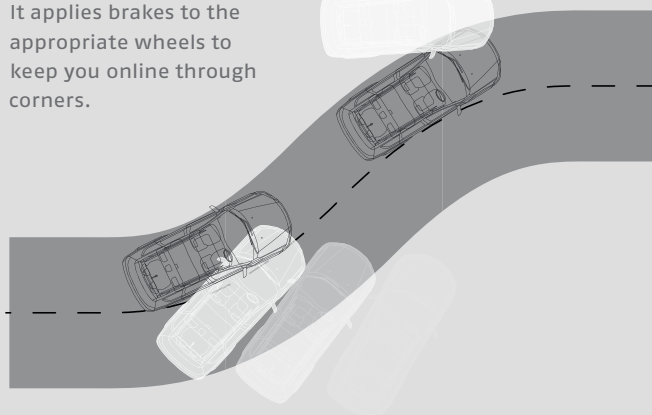

SMARTBRAKE

Here's another innovative feature that's there just in case. If you unintentionally hit your accelerator pedal as well as your brake in an emergency situation, the new SmartBrake system spots the error, cancels out the message from the gas pedal and puts full concentration on your braking.

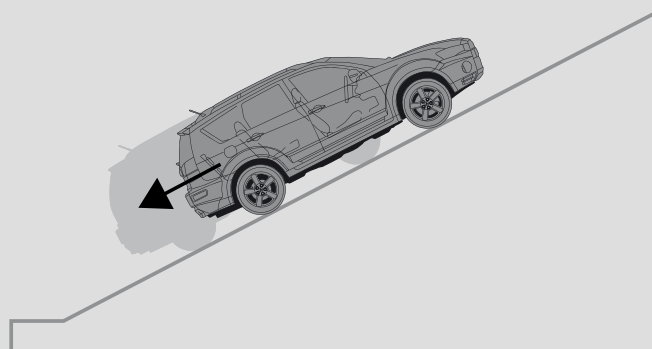

ACTIVE STABILITY CONTROL (ASC)

Maintains stability and control when cornering, by automatically recognising under-steer and over-steer. It applies brakes to the appropriate wheels to keep you online through corners.

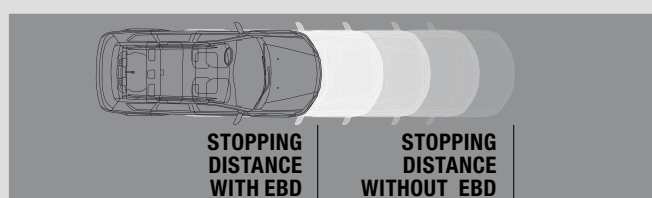

HILL START ASSIST (HSA)

This technology makes it easier to start off a steep uphill slope by preventing the vehicle from rolling backwards. It maintains the braking force for two seconds while you move your foot from the brake to the accelerator.

ELECTRONIC BRAKEFORCE DISTRIBUTION (EBD)

This technology reduces stopping distances by detecting passengers or heavier loads and automatically increases rear-braking force.

EMERGENCY STOP SIGNAL

All models come standard with an Emergency Stop Signal (ESS) which flashes the rear high-mount stop light under heavy braking to warn following drivers.

CARGO ROOM

With up to 393 litres of available cargo capacity inside ASX 2WD models (358 litres in 4WD models due to the raised cargo room floor to accommodate a large sized spare), ASX lets you carry whatever you need. The easy-opening tailgate is wide enough to provide ample space for even the bulkiest items, and the low floor height makes it convenient to move heavy cargo in and out.

HIGH RIDE HEIGHT

With SUV-like ride height, the ASX allows its driver superior visibility and ease of access in and out of the vehicle without the bulk of a traditional SUV.

AT YOUR CONVENIENCE

Enjoy the ease of the handsfree Bluetooth™ phone system, which is voice-activated. VRX makes life even easier with Mitsubishi's keyless operation which starts the car with one touch of a button.

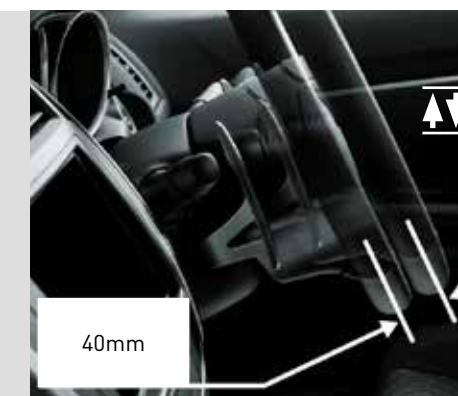

SUPER WIDE HID LAMPS & LED DRLS (DAYTIME RUNNING LIGHTS)

When activated, the headlamp cluster sends out a broader beam of light, illuminating a much wider section of the road ahead combined with the new safety feature of DRLs for increased visibility of your vehicle. HID on VRX only.

LIGHTWEIGHT IMPACT-RESISTANT FRONT GUARD

The new impact resistant outer panel reduces the overall vehicle weight and is specially designed to crumple on impact, reducing vehicle damage during a collision. Also great in locations like supermarket car parks, the new front guards minimise damage from small impact items like shopping trolleys.

TILT AND TELESCOPIC STEERING COLUMN & ELECTRONIC POWER STEERING

The tilt and telescopic steering column offers the driver the flexibility of adjusting the steering column to suit their favoured driving position. Electronic Power Steering takes the effort out of driving by providing steering assistance. At low speeds the EPS is light and easy, as speed increases steering becomes solid, delivering a more controlled driving experience.

PANORAMIC ROOF

Watch the city or countryside glide overhead through the new panoramic roof on ASX VRX. Includes electronic blind and mood lighting.

IN TOUCH WITH WHAT'S GOING ON

The 6.1" touch-screen audio system on all ASX models puts the audio controls at your fingertips. It's also your reversing camera and Bluetooth™ handsfree phone.

Everything you want and more, courtesy of VRX.

The VRX models are the perfect measure of sophistication, power and economy.

Choose from the super smooth 2.0L MIVEC petrol engine, or the 2.2L intercooled Turbo Diesel, which accompanies a powerful 4WD system. Both offer genuine economy and the power to please.

Everything else comes as standard, like luxury for example. There are heated seats, Bluetooth™, one-touch start, keyless operation, smart new 18" alloys, electronic power steering and cruise control. The controls for the iPod compatible audio system are on the steering wheel, along with the paddle shifts. Everything else is controlled by the 6.1" touch screen, which also houses the reversing camera. Above your head is a breathtaking new panoramic roof, with electronically controlled blind. For the final word in refinement, the new roof also features mood lighting.

Safety is well and truly catered to by Active Stability Control, Electronic Brakeforce Distribution and an array of airbags. Increased ride height also brings a sense of safety. The 5-Star ANCAP Safety rating is, therefore, somewhat expected.

VRX is also eminently suited to city living, with impact-resistant front guards and a serious appetite for cargo or shopping, thanks to a spacious boot and roof rails on both petrol or diesel models.

2WD XLS model shown

Live comfortably.

Whatever you're up to around town, ASX 2WD XLS accommodates you and everything you need.

The 2.0L MIVEC petrol engine lets you slip smoothly through the city. The many safety features, like 7 airbags, Active Stability Control, ABS with Electronic Brakeforce Distribution and the reassuring 5-Star ANCAP Safety rating ensure you're always protected.

It's as nimble as a hatch so it's perfect for parking and loading up. It's higher, which is great for visibility. The front guards are impact-resistant, very handy in places where trolleys live.

There are also plenty of luxury features. The leather steering wheel has 4-way telescopic adjustment and houses the buttons for audio, cruise control and the Bluetooth™ handsfree phone system. There are also new 18" alloys, 60:40 split folding rear seats, halogen fog lamps, LED daytime running lights, 6.1" touch screen audio system with iPod connectivity and reversing camera.

The 4WD XLS Diesel adds to this impressive list with a 2.2L Turbo Diesel engine and 6-speed Auto. Additional features are roof rails and auto air conditioning. However you decide, you're spoilt for choice.

Warranty on Outlander Plug-In Hybrid Electric Vehicle is 5 years/100,000 km.

Our vehicles are designed for the way Kiwis live. So is our unbeatable Diamond Advantage Warranty – New Zealand's best new car warranty and customer care.

It means you get more life in your Mitsubishi. More Sunday drives, more weekends away, more work, more of whatever it is you like to do in the car.

Whether you're a Lancer kind of person, or you fancy yourself in a Triton, our Diamond Advantage Warranty means absolute peace of mind, every time you get in and turn the key. The only way to get this much from a warranty is to talk to your Mitsubishi dealer, who'll be happy to answer your questions.

10 Year / 160,000Km Powertrain Warranty

The best available cover for the powertrain of your Mitsubishi. Covers your engine, transmission, 4WD transfer case, shafts, axles and differential.*

5 Year / 130,000Km

This is your bumper-to-bumper Factory Warranty and covers all new passenger and light commercial vehicles.†

5 Years Premium Roadside Assist

In the event of a roadside breakdown or if you've just locked your keys in the car, this feature of the Diamond Advantage Warranty comes to your rescue.

VISIT WWW.MMNZ.CO.NZ FOR FULL TERMS AND CONDITIONS

* Subject to free evaluation at your Mitsubishi Motors Dealer prior to 60 months of ownership

† Subject to free evaluation at your Mitsubishi Motors Dealer prior to 36 months of ownership

FINANCE

Paying cash is just one of the ways to purchase a Mitsubishi. There is a range of finance options that make ownership easier – you should explore them with your Mitsubishi Motors dealer.

For example, leasing helps spread the impact of a big capital purchase and provides protection against depreciation costs.

The ways Mitsubishi lease packages can be tailored are virtually limitless. You can spread or delay payments to suit your situation.

One option is the Operating Lease, particularly suitable for businesses, where your rental is effectively the monthly payment.

Leasing means you don't have a depreciating asset and you can keep upgrading regularly without having to worry about selling used vehicles. Visit www.financemitsubishi.co.nz for a full range of finance calculators and plans.
