

COLT PLUS

Inspire, Excel, Together.™

mitsubishi
MOTORS
brilliant

**WHEN THERE'S
LOADS
TO PACK INTO
LIFE**

The most individual small hatch is now the most versatile. It comes with a power tailgate for easy access, sporty floor-mounted automatic transmission, adjustable luggage floor and one-touch folding rear seats. When there's loads to pack into life, the solution that combines practicality with personality is definitely Colt Plus.

STYLISH
INDIVIDUAL
AND AMAZINGLY
PRACTICAL

Colt Plus wears its extra space superbly, with a swept-back look that is sleek and streamlined. Slip into the driver's seat and the floor-mounted shift falls easily to hand, putting you in charge of the willing 1.5 litre MIVEC engine. Enjoy the convenience of the remote, power tailgate, and a luggage area with multiple possibilities. Get the Colt Plus on the road, and you'll quickly see this is a car that is as much a joy to handle as it is versatile and practical.

A push of the button opens the tailgate

When you've got your arms full of shopping, or the ground is too wet to put your load down, Colt Plus makes life easy with a power-operated tailgate. It opens and closes swiftly and smoothly with a press of a button.

More cargo space than any hatch in its class

With 30 cm extra length than the Standard Colt, Colt Plus gives you a huge amount of luggage room, and all sorts of ways to arrange it.

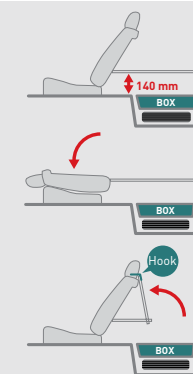

A button on the boot wall allows a simple, one-touch operation that tumbles the rear seats forward. With both back seats down there's room for 2 sets of golf clubs. If you're packing something longer, the front passenger seat can also be laid flat.

Adjustable luggage bay floor gives you more options

HIGHEST POSITION

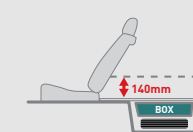

The rear part of the cargo board opens and closes. It can be secured to the headrest stay, easing access to the space beneath the board.

The luggage compartment floor has two levels. The higher one gives you a roomy floor box beneath – ideal for wet gear or items you need to keep out of sight. It also creates an even surface in the cargo area for things that need to lie flat.

Dropping the floor to the lower level gives you room for taller items like furniture or potted plants. Whatever you need to pack into your life, the versatile Colt Plus makes space for it.

LOWEST POSITION

The cargo board lowers down to 140mm.

RUNS CLEANER
**DRIVES
EVEN
BETTER**

There's now more power under the bonnet than ever before (78kW) plus more acceleration for nippier performance, thanks to Colt Plus's engine. A 1.5 litre unit with a real power boost from the Mitsubishi Innovative Valve timing Electronic Control (MIVEC) system, it's compact enough for fuel-smart city driving yet still has plenty of horses for lively motorway driving when you want to get away from it all.

LIGHTER, EASIER TO HANDLE

Because it's all aluminium, the engine is lighter, helping to make Colt Plus more economical to run.

Less weight over the front wheels also makes Colt Plus a dream to handle. Parking and manoeuvring in tight spots has never been easier!

MORE ECONOMY, FEWER EMISSIONS

Colt Plus's engine features Mitsubishi's MPI (Multi-Point-Injection) system which burns fuel more efficiently and cleanly. Increased efficiency equals more kilometres from every tank, with a fuel consumption of only 5.5 litres per 100/kms. CO2 emissions as low as 128gms/km means it's also more environmentally friendly.

MORE RELIABILITY

With fewer, more advanced parts, Colt Plus is designed for reduced maintenance and years of trouble-free motoring. For instance, the accelerator is connected to the engine electronically so there's no cable to wear out. And the traditional rubber cambelt has been replaced with a high-technology chain to help ensure longer, more reliable engine life.

CLEVER THINKING THAT MAKES LIFE EASIER

The Colt Plus features Mitsubishi's ETACS – Electric Time and Alarm Control System. It controls a whole range of functions to make your motoring simpler, safer and more secure. It even monitors driving conditions and can be customised to your own preference. Ask your Mitsubishi Motors Dealer how to customise ETACS to suit your motoring.

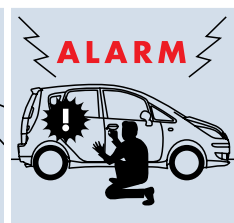

Multi-function keyless remote

FOLDING DOOR MIRRORS

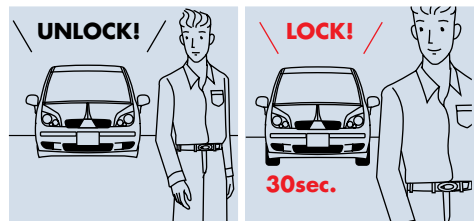

If you forget to retract the door mirrors, you can use the remote controller to do so from outside the car.

SECURITY ALARM

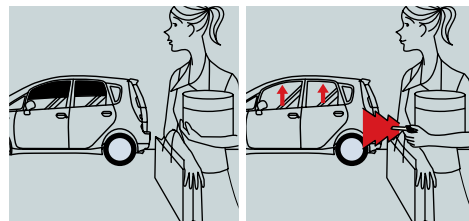

When the vehicle is locked by keyless remote, the alarm will trigger when any other form of reopening is attempted.

AUTOMATIC DOOR-LOCKING

If you unlock the doors with the remote, the system automatically locks them for you following 30 seconds of inactivity.

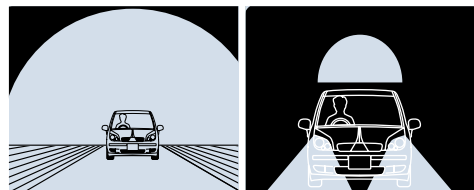

POWER WINDOWS

Using the remote you can close all windows from outside the car.

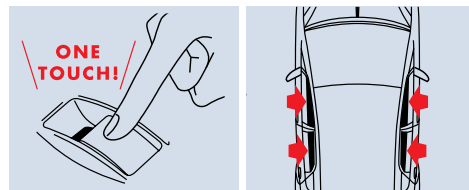

Driver-friendly electronics

AUTOMATIC HEADLAMP CONTROL

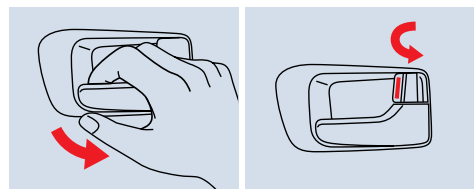

The headlamps automatically turn on in failing light, such as going into a tunnel, and turn off again when light improves. (Only on Sport model.)

ONE-TOUCH POWER WINDOWS

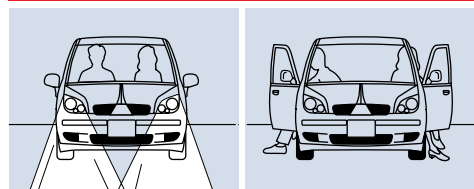

All power windows can be opened or closed with a single touch of the driver's-side master switch.

KEY LOCK OVERRIDE SYSTEM

Pulling on the driver's-side inner door handle automatically unlocks all doors.

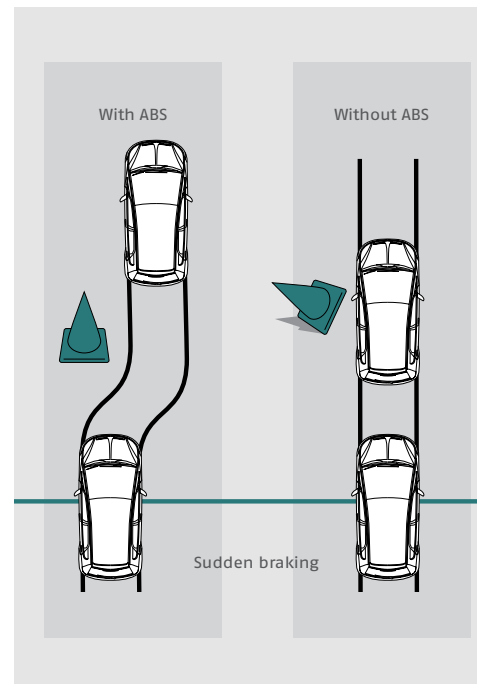

AUTOMATIC HEADLAMP TURN-OFF

Even if you forget to turn off your headlamps, when you turn off the ignition and open the driver's door, they will automatically turn off for you.

CLEVER THINKING THAT MAKES LIFE EASIER

Active safety

Active safety systems, to help the driver avoid accidents, include anti-lock brakes and a high-mount brake light.

ABS WITH EBD

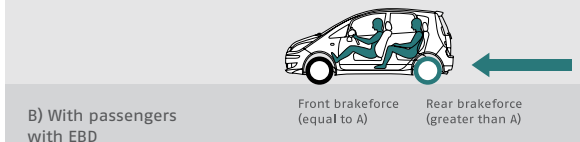

Anti-locking (ABS) brakes use computer-integrated EBD (Electronic Brakeforce Distribution) to ensure controlled, linear braking regardless of road conditions or cargo load.

EBD EFFECT (STOPPING DISTANCE WITH IDENTICAL BRAKING FORCE)

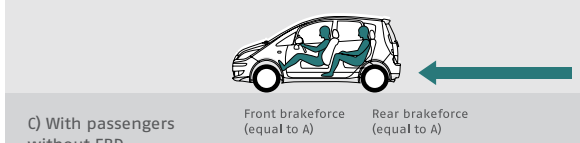

With multiple passengers, EBD increases rear-wheel brakeforce

A) Driver only with EBD

B) With passengers with EBD

C) With passengers without EBD

Passive safety

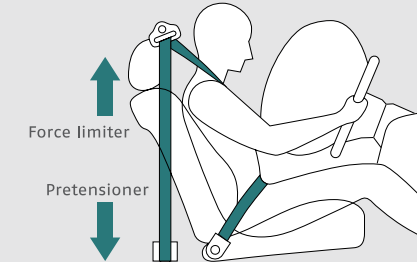

AIRBAGS AS STANDARD

SRS front, side and curtain airbags, when used in conjunction with ELR seat belts, offer passengers maximum protection in frontal collisions.

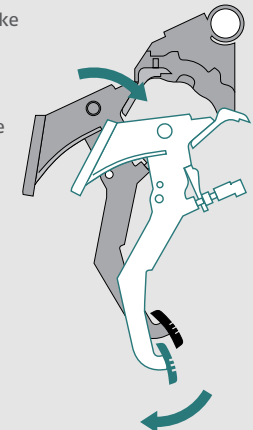

FORCE LIMITER WITH PRETENSIONER

Force limiter with pretensioner on the seatbelts ensures that, on impact, the pretensioner instantly takes up any slack. The force limiter then eases the seatbelt tension to help prevent inadvertent seatbelt injuries.

ANTI-INTRUSION BRAKE PEDALS

Anti-intrusion brake pedals collapse in the event of a frontal collision to help prevent ankle and leg injuries to the driver.

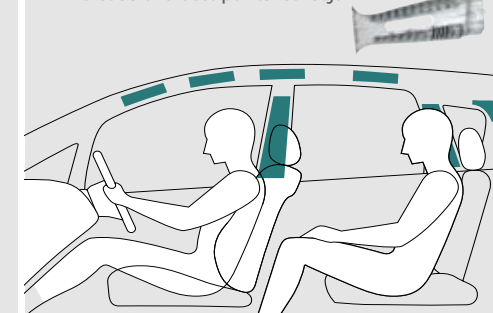

NEW STRAIGHT FRAME PLATFORM

The new design platform of the Colt Plus combines straight frame outer rails with octagonal section cross-members and spherical section doors and floor, for reassuring body stiffness and crash-worthiness. Active and passive safety systems ensure class-leading occupant protection.

IMPACT-ABSORBING MEASURES

Impact-absorbing materials are contained within the roof pillars and linings to increase the occupants' safety.

	Colt Plus LS
Model code	ZA6H45
Engine Type	1.5 litre DOHC MIVEC 16 valve
Max power DIN (kW/rpm)	78/6000
Max torque DIN (Nm/rpm)	143/4000
Displacement (cc)	1,499
Compression ratio	10.0: 1

Colour Range

Note: The colours shown are approximate and may differ from the actual colours. Every endeavour has been made to ensure these specifications and colours are accurate. However, changes may occur and your dealer will be aware of any variations.

All product imagery, features and specification information referred to in this brochure was correct at the time of publication. Mitsubishi Motors New Zealand Ltd reserves the right to discontinue, or make changes to, the designs, specifications, colours, material of products or options described in this brochure, at any time and without notice, without incurring any liability to any purchaser thereof.

HEADLAMP PROTECTORS

For protection of headlamps on those loose chipped roads.

Please enquire at your local Mitsubishi Motors dealer.

PART NO: JCMR927767

CUSTOM MATS

Available in charcoal, these floor mats are contoured and branded especially for Colt, with 'non-slip' backing to prevent the mats from slipping.

Includes two-piece rear mats.

PART NO: U803/COLT03

ROOF RAILS

Available with a full range of accessory add-ons e.g. snowboard racks.

PART NO: U804/COLT

PARKING SENSOR

There are five different models with either stick-on mount or bumper mount available. The units automatically engage when the vehicle is put into reverse to make for safer parking and the prevention of accidental damage. Please enquire at your local Mitsubishi Motors dealer.

WEATHER SHEILDS

Prevent rain and run-off water from entering the cabin when driving with a partly open window.

RIGHT HAND PART NO: JCMR927772

LEFT HAND PART NO: JCMR927771

TOW BAR

Towbar capacity rated at 400 kg unbraked (not recommended for braked towing). Towbars are fitted with 17/8" cadmium towball. Refer to your owner's manual for full towing details.

PART NO: JCL10742C

Mitsubishi has a number of superior service standards we set ourselves every day. It defines our attitude to our customers and their vehicles. It is expressed in details such as the comprehensive service notes you receive and the questionnaires that give you the opportunity to comment on our work.

MITSUBISHI WARRANTY

The Mitsubishi Warranty gives you 3-years/ unlimited kms protection on all Mitsubishi passenger vehicles.

Your warranty is transferable, so if you sell the vehicle within 3-years, the new owner will continue to enjoy peace of mind for the remainder of the period.

FINANCE MITSUBISHI

Paying cash is just one of the ways to purchase a Mitsubishi. There is a range of finance options that make ownership easier – you should explore them with your Mitsubishi Motors dealer.

For example, leasing helps spread the impact of a big capital purchase and provides protection against depreciation costs.

The ways Mitsubishi lease packages can be tailored are virtually limitless. You can spread or delay payments to suit your situation.

One option is the Operating Lease, particularly suitable for businesses, where your rental is effectively the monthly payment.

Leasing means you don't have a depreciating asset and you can keep upgrading regularly without having to worry about selling used vehicles.

MITSUBISHI EXTENDED WARRANTY

Extended warranties are available at the time of purchase at very competitive rates. You can extend the standard Mitsubishi Warranty by anything from 12 to 36 months.

MITSUBISHI SERVICE

Your first service at one month/1,500km is free. After that your Colt Plus will require servicing every 15,000kms.

MITSUBISHI ROADSIDE ASSISTANCE

Wherever you travel in New Zealand, no matter what happens, you have the support of our 24-hour helpline right through the warranty period. Whatever it takes to get you going again, Mitsubishi Roadside Assistance will work with the nearest Mitsubishi Motors dealer to make it happen. If necessary, we can even help with rental car or accommodation costs. To talk to Mitsubishi staff who can help, just call 0800 806 661.

MITSUBISHI PAYMENT PROTECTION

Your Mitsubishi Motors dealer can also arrange Payment Protection Insurance. It means that, in the event of an illness, accident or interruption to your income, you and your family will be able to continue enjoying your Mitsubishi.

MITSUBISHI FULL REPLACEMENT VEHICLE INSURANCE

Mitsubishi Motors dealers can offer you a special insurance package with full replacement instead of the 'agreed value' most policies provide. It means that if your new vehicle is written off within the first 3-years or 100,000kms of continuous ownership, you will receive a brand new one. If there has been a model upgrade since you purchased, you will get the upgrade.

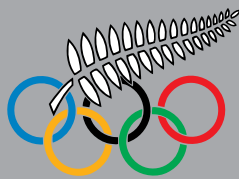

Mitsubishi's insurance gives you competitive premiums negotiated with the benefit of group buying power, and the reassurance of knowing only approved Mitsubishi parts will be used in any repairs.

MITSUBISHI SERVICE AND PARTS

With 60 dealers nationwide, Mitsubishi's network is one of the most extensive in New Zealand. Wherever you are, whatever assistance you need, support is always close at hand.

Mitsubishi's M-Step Technician Training

Qualified technicians are well trained to service your vehicle – many of them have also passed through the international M-step Mitsubishi training plan. They work to detailed servicing specifications, set out by the manufacturer and adapted for New Zealand driving conditions.
