

Nissan Patrol

A SHIFT\_ is both an invitation and a challenge. A challenge to open your mind to whatever feels unfamiliar. To re-evaluate whatever feels too familiar. And ask questions different from those everyone else is asking. At Nissan, we're asking these very questions every day.

The result is the Patrol, a vehicle that represents a pure, uncompromising SHIFT\_ from the ordinary.

## SHIFT\_toughness.

You live in one of the most beautiful countries in the world. And there's a lot to explore.

And when you try, this country will throw everything it has at you. From muddy valleys to freezing mountaintops – it can lay down a challenge at every turn.

No wonder then, that the Nissan Patrol has reached legendary status. For over thirty years, it has proved

time and time again that it has the toughness, integrity and reliability to survive, even prosper, in rugged environments.

The new range of Patrols maintain the legend, while adding unprecedented levels of style and refinement to your journey.

## SHIFT\_power.

Tough, rugged and powerful. They're the hallmarks of the Nissan Patrol. And they can be delivered through a choice of a high performance petrol or turbo diesel model.

The 4.8 litre DOHC 6 cylinder engine uses a five-speed automatic transmission with manual shift mode. You'll enjoy fuel-efficient high speed cruising in automatic mode while travelling the highways. Then take full advantage of the engine's power with the swift five-speed manual shift when you're off-road.

Nissan's Valve Timing Control (VTC) system in combination with the Nissan Induction Control System (NICS), optimises torque and power by varying valve-closing timing at low and mid speeds, and delaying valve closing at high speeds.

The Patrol is also available with a new 3.0 litre DOHC direct injection turbo engine with intercooler that offers greatly improved torque characteristics and power over the previous version. This engine offers all the benefits of diesel fuel economy with the kind of performance normally associated with petrol engines.

## SHIFT\_off road. And on.

The Patrol is all about taking the rough with the smooth. Turn off the beaten track and you can shift directly from 2WD to 4WD on the move. The auto locking front hubs engage automatically when 4WD is chosen. A manual override option is available when conditions require this.

In addition, a dual-range transfer gearbox gives the driver the further option of easily selected high or low range ratios. Low ratio is designed to cope with more demanding terrain.

A big contributor to Patrol's handling is the All-Terrain suspension. Heavy duty coil springs provide superior

durability and ride comfort on any surface. There are telescopic shock absorbers front and rear as well as a stabiliser bar for improved cornering.

The Antilock Braking System (ABS) includes a G-sensor that actually detects what sort of surface the Patrol is on and automatically adjusts itself to best handle the situation. It comes standard on the Ti and ST-L models.

What's more, the construction of Patrol greatly influences the enjoyment of the ride. An all-steel body on a strong separate ladder chassis adds strength for tough off road driving, towing heavy loads, and the safety of its occupants.

Ti interior

## INSIDE...it's a different story.

Not everything about the new range of Patrols is rugged and tough. In fact, climb inside and you'll find quite the opposite. These are, without question, the most stylish and refined Patrols ever built.

The newly designed instrument panel immediately gives the interior of the vehicle a strong contemporary appearance. The Fine Vision meters in the Ti feature orange illumination for added visibility.

There are new interior trim features as well. The Ti model now features the classic elegance of wood

grain and both the Ti and ST-L are finished with the luxury of leather as standard.

Patrol's interior luxury is defined in other ways too. There's plenty of space inside, for both people and cargo. This is augmented by the added feeling of spaciousness from the large high visibility windows. Naturally there is also a huge array of clever storage spaces.

There's no doubt that when conditions are harsh outside, one of the most comfortable places to be is inside a Patrol.

The toughest Patrol ever, is now the most refined. With dual climate control\*, AM/FM radio/cassette with in-dash CD player, power seats, cruise control, leather steering wheel and gearshift, leather seat trim and woodgrain finish\*, electric sunroof\*, overhead console & map lights, remote central locking, seven seats and storage everywhere etc.

## Nissan Finance.

We can provide a range of finance and leasing packages tailored to meet your needs. When you have chosen the Nissan that you want, simply talk to your Nissan Dealer for details.

## Premium Care.

At Nissan, we never forget who buys our cars and who drives them – you, our customer. That's the basis of our 'customer first' policy and the reason why your Patrol, along with every other new Nissan, comes with the assurance of Premium Care, an exclusive package of extras designed to cater to your every motoring need.

### 3 Year/100,000km Warranty

A comprehensive warranty covering your vehicle for 3 years or 100,000km, whichever comes first.

### Customer Assistance Centre

We have a 24 hour free phone (0800 808 606) support line if you require roadside assistance.

Complimentary Rental Car and Accommodation. If you're more than 100km from home and your car is off the road due to mechanical fault, we'll supply you with a complimentary rental car (if your vehicle takes more than 8 hours to repair) and up to 3 nights accommodation\*.

\*Special conditions apply. Please refer to your Warranty Booklet for full details. Nissan New Zealand reserves the right to introduce changes to vehicle specifications on models contained in this brochure, at any time. Please contact your Nissan Dealer for information.
