

THE NEW  
**OPEL CORSA /**

## SIMPLY ELECTRIC //

Next-gen battery technology provides the freedom to go further with up to 383 km\* according to WLTP on just a single charge. Corsa-e adapts to your driving style by offering you Sport, ECO and Normal driving modes, each adjusting vehicle-wide systems such as pedal mapping and power steering assistance.

CORSA 

\*Range may vary depending on actual conditions of use and various factors such as speed, weather, and driving styles.  
WLTP stands for World Wide Harmonized Light-Duty Test Procedure

## PERFORMANCE FOR FUN //

Bold, pure, and ready for the future – the Opel Corsa combines driving fun for every day with technologies from higher vehicle classes. Now as petrol or 100% electric.

## POWER FOR PROGRESS /

Besides all electric, Corsa also offers alternative highly efficient Turbo Direct Injection petrol engine. All with state-of-the-art CO2 levels attracting a rebate – ready for those who prefer progress in combustion technology.

OVERSEAS MODEL SHOWN

# MODERN GERMAN

A design statement with the precision of German engineering. With dynamic front, attractive side line and striking rear, and IntelliLux adaptive LED Matrix headlights. Thanks to this adaptive technology, individual lights shut off, so the maximum amount of the road remains illuminated with the clarity of powerful high beams, while small parts are darkened to avoid dazzling other drivers. the Opel Corsa is a real eye-catcher from all sides.

# OPEL PURE TECHNOLOGY //

We believe technology works best when it's smart and intuitive. We call this approach Pure Technology. It combines the latest driving, convenience and safety technology with efficient and electric powertrains and connectivity. Most importantly though, it is always streamlined and easy to use, with our PurePanel dual display and touchscreen system that retains ergonomic switchgear for the most often used items. No gimmicks, nothing overly complicated, just technology that makes driving better, safer and more exciting, for everyone.

## OPEL PureSense

OPEL PureSense gives you heightened awareness on the road, with smart driver assistance technology that makes every journey safer and more enjoyable. And the best bit? You don't have to do a thing. PureSense is always on, continually working away in the background, scanning the road ahead, keeping you safe and allowing you to just enjoy the drive.

## OPEL PureConnect

We live in a connected world. Friends and relatives are only a button away. We play music on demand. Information is instant. At OPEL we've brought your connected world inside the car – we call it PureConnect. Easy to use and always on, PureConnect seamlessly connects you to the things that matter through the infotainment system, touchscreen, and voice control.

## OPEL PureEnergy

At OPEL, we're on a mission to open up electric driving to everyone. To deliver instant, exhilarating performance with low emissions. To change the way we move, for the better. And with innovative plug-in HYBRID-e/electric models available across the OPEL range, there's an electric Corsa that will fit seamlessly into your life. One that's more exciting than ever, while keeping costs as low as possible. Thanks to PureEnergy from OPEL.
