# The New ŠKODA Octavia RS

Where a passion for power and the need for space find common ground...

A white ŠKODA Octavia RS is shown from a rear three-quarter view, driving on a modern cable-stayed bridge. The car is in motion, with a blurred background of the bridge's structure and a city skyline in the distance under a blue sky with light clouds. The car's license plate is 'CZ 2SP 9270'.

... where a sporty look and a sense of grace come together.

The **New ŠKODA Octavia RS** uniquely combines a dynamic driving experience with all the characteristics of a practical family vehicle.

As with every Octavia, the RS will captivate you with its self-confident modern design. But its sleek look is backed up with a sporty chassis and an engine to match. The top-performance 2.0 TSI/162kW petrol and 2.0 TDI CR DPF/135kW diesel engines give the RS highly agile characteristics. Advanced technologies give the driver complete control, even during the most demanding of driving conditions. And as part of the GreenFuture programme, the New ŠKODA Octavia RS brings you a range of features that result in lower fuel consumption and CO<sub>2</sub> emissions without compromising overall performance.

Riding in the RS is pleasurable not only for the driver but for the whole crew too, thanks to the unbeatable spaciousness of the interior. A range of Simply Clever details is also included to make travelling even more pleasant. The RS will fit your active lifestyle perfectly, and you won't need to forgo the everyday practicalities of life.

Why park your dream of a sports car and settle for a family vehicle instead? The New ŠKODA Octavia RS fits both roles perfectly.

The Octavia RS model can be easily identified by the **RS badge** on the front grille as well as the ferocious sports expression lent by the **Bi-Xenon headlamps with LED daytime running lights and black backfill**, in combination with a **cellular grid in the front bumper**, which is split into three vertical sections. The **sports styling** of your car can be further emphasised with the **black package**, containing external mirror covers, front grille frame and, for the combi version, roof railings in glossy black colour.

The **RS logo** on the rear forms another distinctive detail of this sports model. The liftback version features a **5th door spoiler**, which increases the stability of the vehicle at faster speeds.

The rear of the RS model is dominated by **chrome exhaust pipe end pieces**, which are very effective and further accentuate the sporty look of the car. A pronounced **taillight**, improving the car's visibility, sits above the **massive diffuser**. The **glossy black roof railings** of the combi version are available as part of the optional black package. The combi version can feature the **electrically-controlled 5th door**.

The **black backfill of the Bi-Xenon headlamps** is an unmistakable detail of all RS models. The **fog lamps in the RS design**, which perfectly fit the dynamic concept of the model's front, are located at the edges of the lower part of the front bumper.

The **rear lights**, illumination of which creates a double C letter, are equipped with energy efficient **LED diodes**. (The photo shows the liftback version.)

The 5th door bears the Octavia model name badge as well as the **RS logo**. (The photo shows the combi version.)

7.5J x 17" **Dorado** alloy wheels for 225/45 R17 tyres

7.5J x 18" **Pictoris** alloy wheels for 225/40 R18 tyres

7.5J x 18" **Gemini** alloy wheels for 225/40 R18 tyres

7.5J x 18" **Gemini** alloy wheels for 225/40 R18 tyres; in anthracite design

7.5J x 19" **Xtreme** alloy wheels for 225/35 R19 tyres; in anthracite design\*

All RS models feature red callipers as standard. \* Available from ŠKODA Genuine Accessories.

The sports styling and strong sense of attraction do not rule each other out. Those seeking to underline the elegance of the model and balance the expression of dynamics and competitiveness will be enticed by the **front grille frame in the standard chrome design**. The frame perfectly complements the characteristic **robust front bumper**.

The **3-spoke multifunction steering wheel** wrapped in perforated leather is adorned with an original **RS plaque**. The exceptional design goes hand in hand with **advanced technology**, represented by, among other things, the **electromechanical power steering with a variable transmission** based on the steering wheel position, allowing for sporty driving as well as comfortable control in city traffic or while parking. The **XDS system**, available exclusively for the RS model with ESC (Electronic Stability Control), enables better acceleration in turns.

The **instrument panel in the RS design** has a clearly legible white interface and can be equipped with an attractive **Maxi DOT colour display**.

The **decorative door sill strips with an RS inscription** accentuate the character of the model as well as increase its practicality.

The **noble steel foot pedal covers** are yet another stylish detail of the Octavia RS model.

The **leather details**, such as the gear stick knob with an RS logo and the handbrake handle, are very pleasant to touch. The sleeve features grey or red stitching.

The **Performance Mode Selection** in the RS model includes the **Performance Sound Generator** function, which allows the setting of sound, in accordance with the selected engine mode (normal/eco/sport), enabling the driver to enjoy a sports engine expression during dynamic driving or, at the other end of the spectrum, a calm sound in the eco mode.

Interior in a combination of leather/artificial leather with red stitching, sports front seats and integrated headrests.

Interior in a combination of fabric/leather/artificial leather with red stitching, sports front seats and integrated headrests.

Both interiors also come with grey stitching.

## Technical specifications - Octavia RS

Engine	2.0 TSI/162 kW Green tec	2.0 TDI CR DPF/135 kW Green tec

## General information

### ŠKODA Service

Put your car in good hands. We give you good reasons to choose an authorised ŠKODA service partner.

#### We offer you first-class quality

Your car requires advanced technology. For this reason, all the ŠKODA authorised service partners have special tools and quality diagnostic systems at their disposal, which, in combination with the technological procedures prescribed by the manufacturer, ensure the perfect functionality and reliability of your car.

#### Professionally trained staff by the manufacturer

The ever-rising standard of the technology used in the car requires corresponding professional qualifications on the part of the staff. To meet this requirement, the manufacturer organises regular training for the staff of the authorised service partners in order to provide them with up-to-date information important for their activities.

#### Our motto: be fair and open with our customers

Careful, professional and friendly counselling for the customers upon acceptance of orders is of great importance to us in the same manner as diligence and completeness with respect to repairs and maintenance work. All this is continuously monitored by internal quality control of the provided services.

#### Comprehensive range of services:

##### › Service inspections

For your car to remain in top condition and functional for a long time it is essential to conduct all regular service inspections in accordance with the manufacturer's instructions, which can only be guaranteed if performed by an authorised ŠKODA service partner. The service schedule informs you when the service inspection must be done.

##### › Body and paintwork service

Damage to the body and painted areas following an accident will be fixed by your authorised ŠKODA service partner in an expert manner, in accordance with information from the manufacturer, using ŠKODA Genuine Parts. This is important not only for your

safety, but also for functionality and maintaining your car's value.

##### › Courtesy car

The authorised ŠKODA service partner can provide you with a courtesy car for the period of repair or service inspection.

##### › Pick-up and delivery service

If you are unable to take your vehicle to the ŠKODA Service, an authorised ŠKODA service partner will arrange a date with you to pick up the car. The car will be delivered back after the service work has been completed.

The listed services represent only a part of the wide range of ŠKODA Service offers, which may vary from country to country. Please contact your authorised ŠKODA service partner for further details and information on the range and specific conditions of services they offer.

### ŠKODA Genuine Accessories

ŠKODA Genuine Accessories offer you child safety seats, roof rails, alloy wheels, sunblinds and more. For more detailed information on the complete ŠKODA Genuine Accessories range see the individual ŠKODA model catalogues.

### ŠKODA Genuine Parts

#### Safety

ŠKODA Genuine Parts are identical to those used during the assembly of ŠKODA vehicles. The use of first-class materials and technologies guarantees safe and worry-free driving.

#### Availability

ŠKODA AUTO offers a complete range of parts and equipment items that are used in the vehicle's batch production and does not merely focus on high-turnover parts. ŠKODA ensures the provision of genuine parts even after the relevant model is discontinued, and not

only for the duration of the statutory period but for at least 15 years for the essential operational parts.

#### Long service life

The use of first-rate materials and production technologies in the manufacture of ŠKODA Genuine Parts ensure their maximum reliability and long life. As proof, we have extended the genuine batteries warranty to three years.

#### Environment protection

The ŠKODA Genuine Parts range includes exchange parts whose production has a low environmental impact in terms of waste, excess heat and water contamination.

### Information on the internet

Information is available at [www.skoda-auto.com](http://www.skoda-auto.com) to assist you in deciding which vehicle suits your needs, thanks to the detailed descriptions and photographs of all our models. Visit [www.facebook.com/skoda](http://www.facebook.com/skoda) and become a fan of ŠKODA to receive the latest updates and get in touch with our community.

### ŠKODA Finance

ŠkoFIN offers solutions for both individuals and businesses. You can learn about the current offer through any authorised ŠKODA partner. The credit or lease contract can also be concluded directly with the car dealer.

### Global fleet

The ŠKODA AUTO Global Fleet Services offer B2B fleet solutions to customers with all kinds of requirements. A fleet made up of ŠKODA cars offers unmatched roominess, long-lasting quality, safety, low total costs of ownership and, as a result, excellent value for money. You can find more information about our products and services at [www.skoda-auto.com/fleet](http://www.skoda-auto.com/fleet).

One of the most important goals of ŠKODA AUTO is the development and manufacture of products that are as environmentally friendly as possible throughout their life cycle phases, placing principal emphasis on the selection of recyclable materials. Our ŠKODA cars are produced using progressive types of technology in modern production facilities that meet the strictest criteria. Anticorrosive protection of the cars' painted parts is based exclusively on lead-free cathaphoresis (KTL) and water-soluble paints.

Our company strategy includes limiting fuel consumption and emissions. As a result, the engines we offer meet the current emission regulations. All ŠKODA products are made using manufacturing processes that adhere to the laws and regulations concerning the protection of soil and water. As a result of these activities, ŠKODA cars meet technical, safety, quality and environmental requirements. ŠKODA AUTO contributes to the preservation of a clean environment and provides mobility and comfort to its customers.

The environmental logo expresses ŠKODA AUTO's awareness of, responsibility for and attempts at the sustainable development of the company and a friendly approach to life and nature.
