

SIMPLY CLEVER

ŠKODA

THE NEW ŠKODA OCTAVIA SCOUT

What's on your bucket list? Discovering frozen meals or the frozen corners of the planet? If it's the latter, then yours is a family whose wild ambitions can't be tamed by the concrete jungle. Explore your wildest desires in a car that shares your adventurous spirit: **the New ŠKODA Octavia Scout.**

Imagine a family combi with space and comfort in abundance for both people and luggage. Imagine a car that offers all this and, at the same time, an exciting ride and supreme handling, even in extreme driving conditions. That's the New ŠKODA Octavia Scout. And its wild appeal applies not only to its robust exterior. The model is available exclusively with a 4x4 drive and a higher chassis, so you can go off-road without trepidation.

As a member of the ŠKODA fleet, the Octavia Scout model also offers numerous Simply Clever details and solutions. For example, the double-sided carpet in the luggage compartment. One side is smart textile carpeting, while the other is resilient rubber, so you can simply flip it over to avoid muddying the carpet.

It's a small detail but, just like in life, it's the little things that often make a big difference. And this thinking guides everything we do.

That's Simply Clever. That's ŠKODA.

And this is your New ŠKODA Octavia Scout.

The robust spoiler with a silver protective cover on the **front bumper** gives the Scout a fierce look and also contributes to its aerodynamic properties. The front bumper features integrated **fog lamps in a Scout design** with an optional Corner function. The car can be equipped with the attractive Bi-Xenon headlamps with the AFS (Adaptive Frontlight System) in a combination with LEDs as daytime running lights.

The **decorative door sill strips** with the Scout inscription are an original feature with aesthetic as well as practical functions.

The **retractable external mirrors** automatically retract when holding down the "lock" button on the remote control.

The **roof railing** serves as a base for the attachment of further racks (from the ŠKODA Genuine Accessories range) needed for carrying skis, snowboards, bicycles or surfboards.

The **rear bumper** with a silver protective cover lends the car's body a tough appearance, which is further underlined by plastic covers on the wheel arches and door sills. The rear lights, the illumination of which creates a double C letter, can be equipped with highly luminescent and energy efficient LED diodes.

17" Polar alloy wheels come as standard.

17" Nivalis alloy wheels are available as extra equipment.

17" Nivalis alloy wheels in anthracite design are available as extra equipment.

Simply Clever details and solutions as well as storage compartments significantly increase the practicality of the car. Namely, they simply multiply its transport options, help keep the car tidy, and make travelling more pleasant for all passengers.

An exceptionally pleasant feature is the two-part electrically-adjustable **panoramic sunroof**, which will bring more riding enjoyment to the whole crew. The sunroof can be covered with an electrically-adjustable net roll cover.

The **electrically-controlled 5th door** is opened and closed automatically so you don't have to touch it, which you'll especially appreciate in rain or winter weather.

The **mid-level luggage compartment floor** facilitates easier luggage handling by placing the bottom of the compartment on the level of the loading edge. In addition, it provides a special storage space.

The high-quality materials in the interior stand out with their attractiveness and excel with their durability. You can select an **interior** in brown colour upholstered with Alcantara/leather/artificial leather. The **Scout logo** on the seats, steering wheel and gear stick are characteristic interior features.

The unique combination of modern design and engineering is represented by the **3-spoke multifunction leather steering wheel** with radio and telephone controls.

You can also opt for a black **interior** in Alcantara/leather/artificial leather.

The brown (see photo) or black **interior** with fabric upholstery comes as standard.

The stylish sports-elegant interior can be complemented by **noble steel foot pedal covers**.

The 4x4 drive and **automatic 6-speed DSG** (Direct Shift Gearbox) are two state-of-the-art technologies, which in combination guarantee an extraordinary driving experience.

The **Columbus navigation system** provides your car with the most attractive multimedia information system alternative. Thus Columbus enables you, among others, to access the car function settings. And last but not least, it also offers extraordinarily comfortable touch control on an 8" display.

General information

ŠKODA Service

Put your car in good hands. We give you good reasons to choose an authorised ŠKODA service partner.

We offer you first-class quality

Your car requires advanced technology. All the authorised ŠKODA service partners have special tools and quality diagnostic systems at their disposal to ensure the perfect functionality and reliability of your car.

Professionally trained staff by the manufacturer

The ever-rising standard of the technology used in our cars requires corresponding professional qualifications on the part of the staff. To meet this requirement, the manufacturer organises regular training for the authorised ŠKODA service partners in order to provide them with up-to-date information important for their activities.

Our motto: be fair and open with our customers

Careful, professional and friendly counselling for the customers upon acceptance of orders is just as important to us as diligence and completeness with respect to repairs and maintenance work. All this is continuously monitored by internal quality control.

Comprehensive range of services:

› **Service inspections**

The authorised ŠKODA service partner guarantees the performance of regular service inspections in accordance with the manufacturer's instructions and ensures the long-term functionality of your car. The service schedule informs you when the service inspection must be done.

› **Body and paintwork service**

Damage to the body and painted areas will be fixed by your authorised ŠKODA service partner in an expert manner, in accordance with the manufacturer's instructions, using ŠKODA Genuine Parts. This is important not only for your safety, but also for functionality and maintaining your car's value.

› **Courtesy car**

The authorised ŠKODA service partner can provide you with a courtesy car for the period of repair or service inspection.

› **Pick up and delivery service**

If you are unable to take your vehicle to the ŠKODA Service, an authorised ŠKODA service partner will

arrange a date with you to pick up the car. The car will be delivered back to you after the service work has been completed.

The listed services represent only part of the wide range of ŠKODA Service offers, which may vary from country to country. Please contact your authorised ŠKODA service partner for further details.

ŠKODA Applications

ŠKODA Service App - ŠKODA Service in your pocket

The ŠKODA Service application is designed for smartphones operating on iOS and Android systems and its purpose is to help ŠKODA customers in any difficult situation they may encounter on their travels.

ŠKODA Manual App - know your vehicle

The ŠKODA Manual application is aimed at users of tablet PCs who are interested in ŠKODA vehicles or already own one. The application contains a full featured digital version of the owner's manual for all current ŠKODA models.

ŠKODA Genuine Accessories

ŠKODA Genuine Accessories offer you a wide assortment oriented to five main product groups (sport and design, music and communication, comfort and utility, transport and safety) and bicycle products. For more detailed information on the complete ŠKODA Genuine Accessories range see the individual ŠKODA model catalogues.

ŠKODA Genuine Parts

Safety

ŠKODA Genuine Parts are identical to those used in the assembly of ŠKODA vehicles. The use of first-class materials and technologies guarantees safe and worry-free motoring.

Availability

ŠKODA AUTO offers a complete range of parts and equipment items used in the vehicle's series production

and does not merely focus on high-turnover parts. Our objective is to secure ŠKODA Genuine Parts supplies essential for the operation of the vehicle for a period of 15 years after the end of the model run.

Long service life

The use of first-rate materials and manufacturing technologies applied in the production of ŠKODA Genuine Parts ensure their maximum reliability and long life. As proof, we have extended the genuine batteries warranty to three years.

Environment protection

The ŠKODA Genuine Parts range includes exchange parts, which are manufactured with a low environmental impact in terms of waste, excess heat and water contamination.

Information on the internet

Information is available at www.skoda-auto.com to assist you in deciding which vehicle suits your needs, thanks to the detailed descriptions and photographs of all our models. Visit www.facebook.com/skoda and become a fan of ŠKODA to receive the latest updates and get in touch with our community.

ŠKODA Finance

ŠKODA Finance provided by ŠkoFIN offers solutions for both individuals and businesses. Purchase your car with favorable conditions without additional costs. You can learn about the current credit or lease offer through any authorised ŠKODA partner.

Global fleet

The ŠKODA AUTO Global Fleet Services offer B2B fleet solutions to customers with all kinds of requirements. A fleet made up of ŠKODA cars offers unmatched roominess, long-lasting quality, safety, low total costs of ownership and as a result excellent value for money. You can find more information about our products and services at www.skoda-auto.com/fleet.

One of the most important goals of ŠKODA AUTO is the development and manufacture of products that are as environmentally friendly as possible throughout their life cycle phases, placing principal emphasis on the selection of recyclable materials. Our ŠKODA cars are produced using progressive types of technology in modern production facilities that meet the strictest criteria: Anticorrosive protection of the cars' painted parts is based exclusively on lead-free cathaphoresis (KTL) and water-soluble paints.

Our company strategy includes limiting fuel consumption and emissions. As a result, the engines we offer meet the current emission regulations. All ŠKODA products are made using manufacturing processes that adhere to the laws and regulations concerning the protection of soil and water. As a result of these activities, ŠKODA cars meet technical, safety, quality and environmental requirements. ŠKODA AUTO contributes to the preservation of a clean environment and provides mobility and comfort to its customers.

The environmental logo expresses ŠKODA AUTO's awareness of responsibility for and attempts at the sustainable development of the company and a friendly approach to life and nature.
