

The new Touareg

Das Auto.

The probability that the dinosaurs will return: approximately 0.0000015%.

So: not quite impossible.

The probability
that a meteor will
strike the Earth:
approximately 0.2%.

Not quite impossible either.

Ready for
anything at all.

The new Touareg.

Stylish.

Regardless of
what happens.

01

02

03

04

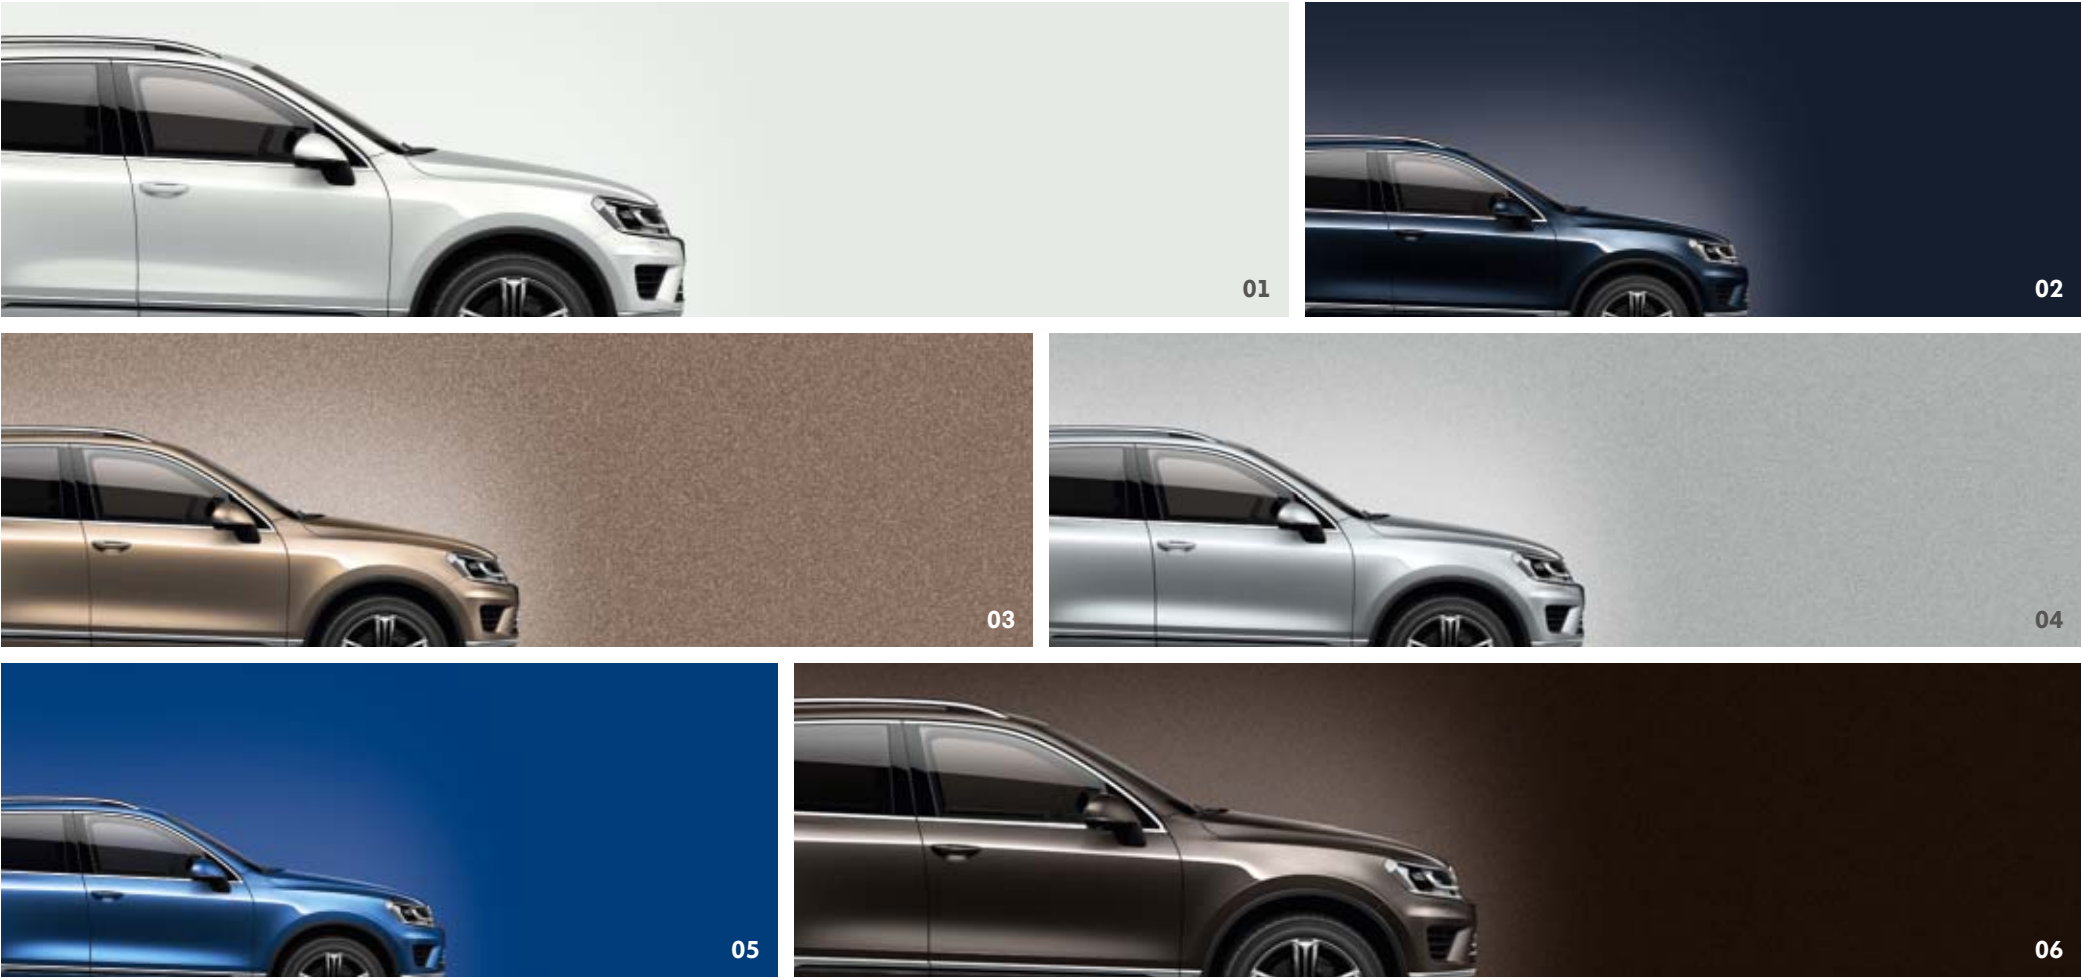

Thanks to the new **bi-xenon headlights with dynamic cornering lights** our new Touareg is ready for anything – even the things you least expect. The low-beam and high-beam lights precisely follow your steering movements and the headlights optimally adapt the low beam lights to the current situation. In addition, the **LED daytime running lights** emphasise the characteristic appearance of the new Touareg. | [V8](#) | [H](#) | [SO](#)

01 The tail lights are available with optional LED technology and give the vehicle a sophisticated and unmistakable look both during the day and at night. | [SO](#)

02 The “Arica” alloy wheel,
8 J x 18, tyre size 255/55 R 18 | [V8](#) | [SO](#)

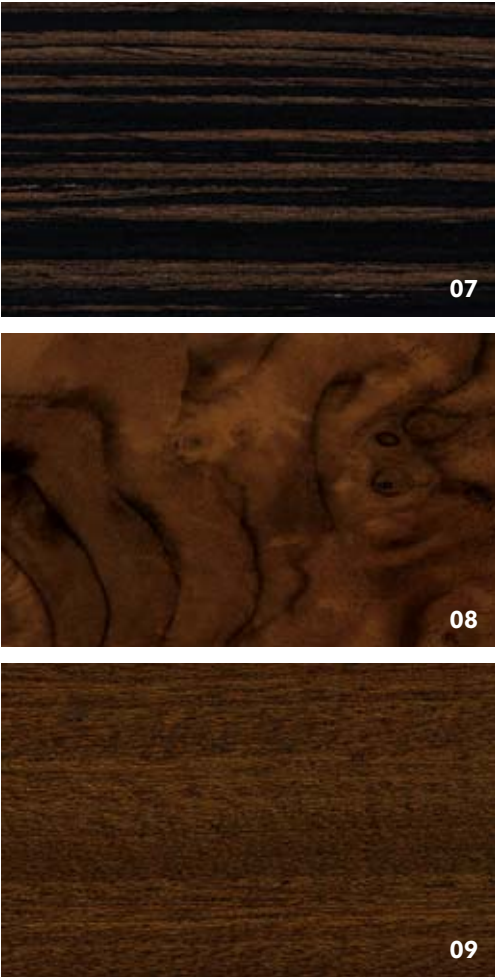

03 Volkswagen R “Talladega” alloy wheel,
9 J x 20, 275/45 R 20 tyres, in Grey Metallic | [SO](#)

9 J x 20, tyre size 275/45 R 20 | [SO](#)

Paint finishes.

	01	02	03	04	05	06
Even though the new Touareg possesses outstanding off-road characteristics: the new paint finishes in Sand Gold, Black Oak Brown, Moonlight Blue, Reef Blue and Light Silver are almost too beautiful to expose to desert dust and mud.*	Oryx White Mother-of-Pearl Effect paint OROR so	Moonlight Blue Pearl Effect paint C7C7 so	Sand Gold Metallic paint 4T4T so	Light Silver Metallic paint 8E8E so	Pacific Blue Metallic paint 0A0A so	Black Oak Brown Metallic paint POPO so

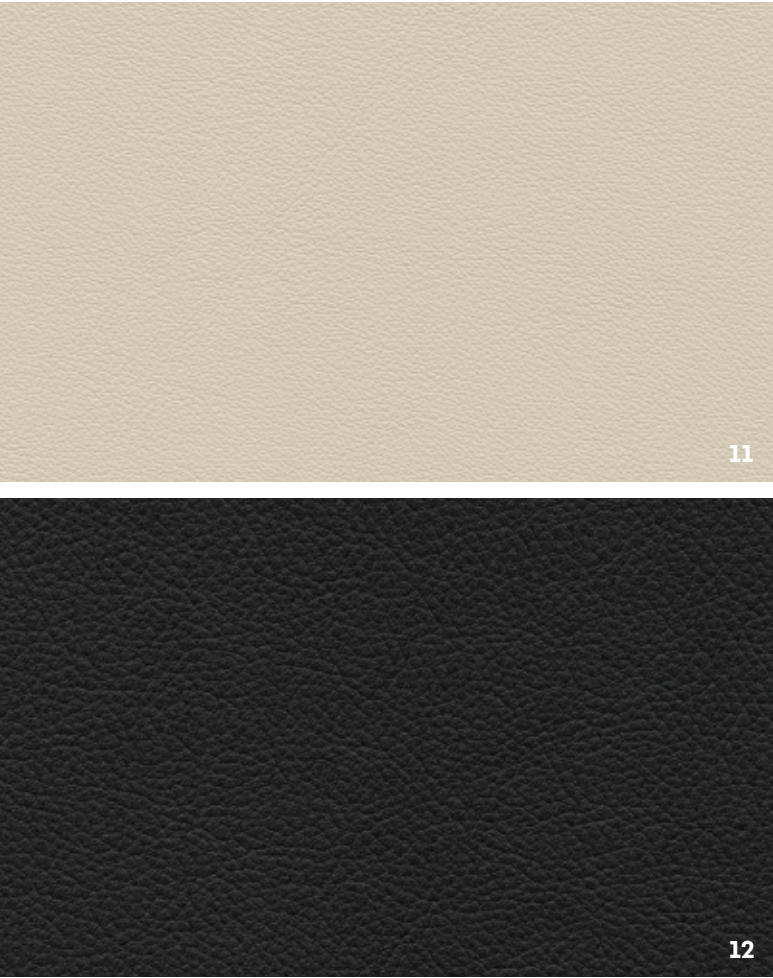

Decorative inserts.

07 “Engineered Ebony” fine wood inserts, PNM so
08 “Walnut Burr” fine wood inserts, 5MG so
09 “Sapelli Mahogany” fine wood inserts, PND so

Seat upholstery.

10 De luxe seat with “Nappa” leather in Bonanza Braun, TA so
11 “Nappa” leather in St. Tropez for de luxe seat, TP so
12 “Vienna” leather in Titanium Black for de luxe seat, TO so

*Further paint finishes are also available in addition to the paint finishes shown here. Your Volkswagen Dealer will be pleased to inform you.
The illustrations on these pages can only be regarded as a general guide. The printing process cannot render the attractive paint finishes, decorative inserts, and seat upholstery with absolute accuracy.
Standard (V6 TDI) S Standard on V8 TDI V8 Standard on Hybrid H Optional extra SO
Fuel consumption in litres/100 km: 9.1-6.6 (combined); CO ₂ emissions in g/km: 239-173 (combined); efficiency classes: D-B.

Masters a
100% gradient,
580 millimetre
water depth.

And everything else,
as well.

Finding paths where none exist: the **4MOTION permanent all-wheel drive** enables the engine power to be distributed among all four wheels as needed. This guarantees optimum traction and drive on almost any surface.

01 The **air suspension** literally offers driving comfort at the highest level. Whether “COMFORT”, “NORMAL” or “SPORT” – the new Touareg lets you decide on the type of driving experience. In addition, the vehicle can also be raised to provide up to 300 mm more ground clearance. In contrast, the tail end can be lowered up to 50 mm below the standard level, allowing comfortable loading and unloading. |so

02 Even when you leave your familiar environment behind: the **off-road display on the “RNS 850” radio/navigation system** shows you the way with its multi-colour, high-resolution TFT display. The compass and altitude display ensure that you always know where you are, even in the middle of nowhere. In addition, steering angle display is also helpful on loose surfaces. |so

03 Regardless of where: the transfer box with gear reduction and differential locks is designed for off-road environments and allows your new Touareg optimally adapt to the driving situation. The V6 TDI 193 kW¹⁾ **4MOTION “Terrain Tech”** features a rotary knob on the centre console allowing you to select from five driving configurations: “Onroad” for sealed surfaces, “Offroad” for unsealed surfaces, “Low” for offroad support and for increasing the shifting points, locking the middle differential for further optimised power distribution between the front and rear axles along with locking the rear axle to prevent the rear wheels from spinning on loose surfaces. |so

04 Side slope angle: 35°. The new Touareg always retains control of the situation and delivers ideal traction even on steep inclines.

05 Wading depth: up to 580 mm. Always a hand's breadth of water beneath the keel – The new Touareg can even handle a few more hands.²⁾

06 Ramp angle: up to 27°. Incredible ground clearance allows the new Touareg to overcome almost any obstacle.²⁾

07 Approach angle: 30°. No reason to touch the ground: embankments, dams and hills become fun to tackle in the new Touareg.²⁾

08 Hill-climbing ability: up to 45°. Steep slopes are no longer an obstacle for the new Touareg, but rather a welcome opportunity to demonstrate its 100% hill-climbing ability.²⁾

1) Fuel consumption in litres/100 km: 7.9 (urban)/6.3 (extra-urban)/6.9 (combined); CO₂ emissions in g/km: 180 (combined); efficiency class: B.
2) Wading depth, ramp angle, approach and departure angles and hill-climbing ability vary according to engine version and equipment.

Standard (V6 TDI) | **S** Standard on V8 TDI | **V8** Standard on Hybrid | **H** Optional extra | **SO**

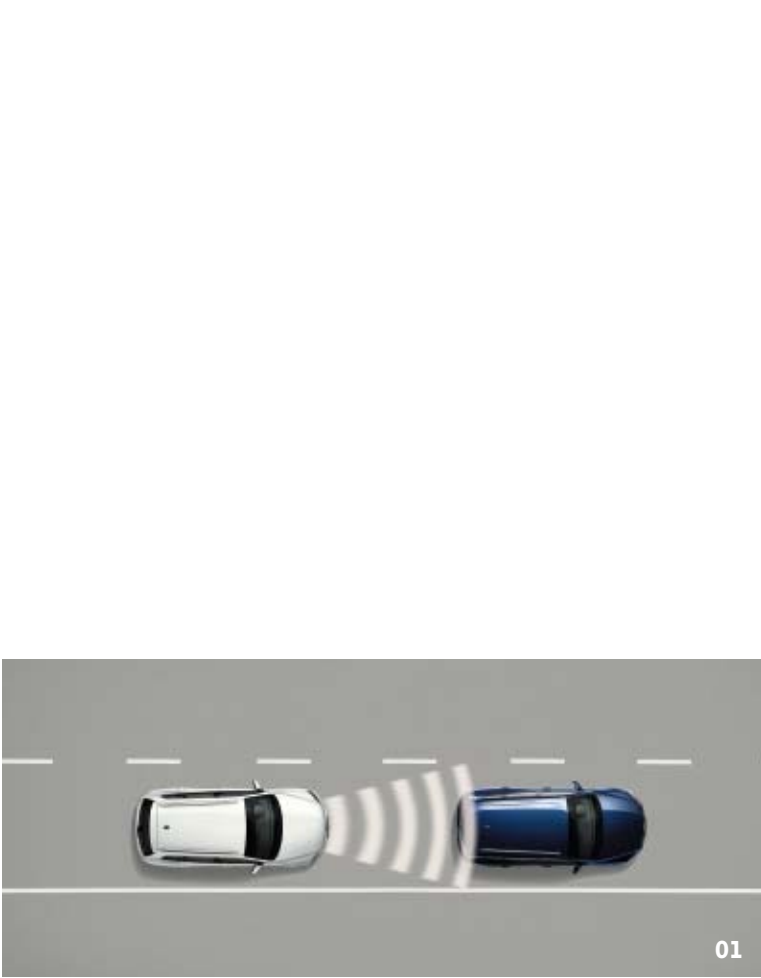

Fuel consumption in litres/100 km: 9.1-6.6 (combined); CO₂ emissions in g/km: 239-173 (combined); efficiency classes: D-B.

The comfort features.

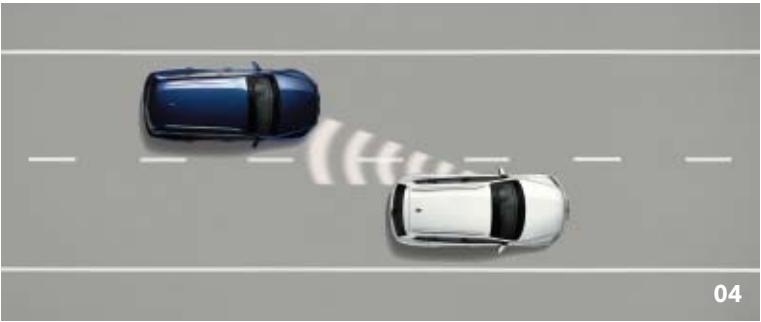

Ready for everything – par for the course with the new Touareg. A variety of assistance ensure that you are prepared for almost anything imaginable. So that every journey is not only exceptionally comfortable but, above all, safe.

The **“Easy Open” comfort function** enables the luggage compartment lid to be opened without contact. Briefly triggering the additional sensors at the rear of the vehicle with a small foot movement is sufficient. The key for the “Keyless Access” opening and closing system provides the authorisation. |so

The driver assistance systems.

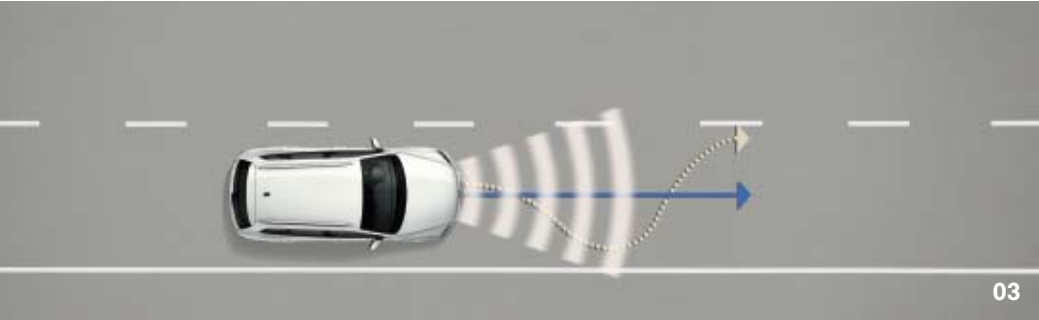

The **ACC adaptive cruise control** matches the speed to that of the vehicle driving ahead within the system thresholds, for example when driving in the city or on the motorway, and maintains the distance set. The **“Front Assist” area monitoring system** registers that another vehicle is approached too closely and in an emergency, for example at slow speeds, produces so much brake pressure that collision severity can in many cases be diminished or even avoided completely.* |so

The **“Dynamic Light Assist” dynamic high-beam control** makes it possible to drive with permanent high beam at speeds above 60 km/h without dazzling oncoming traffic. Optimum illumination of the road provides even greater safety when driving.* |so

The **“Lane Assist” lane departure warning**: at speeds above 65 km/h, a camera recognises when the vehicle unintentionally leaves the marked lane. Once activated, the system provides a warning by vibrating the steering wheel in the event that this occurs.* |so

The **“Side Assist” lane change warning** monitors the traffic to the rear of the vehicle. When activated at speeds above 30 km/h, **“Side Assist”** identifies when a vehicle is located in the blind spot when changing lanes and provides a warning via the side mirror.* |so

The **Multi Collision Brake** automatically initiates braking after a collision in order to prevent or minimise the severity of subsequent collisions.* |so

*Within the system thresholds.

Ready to take the lead.

“Think Blue.”

“Think Blue.”. This is the expression of Volkswagen’s holistic attitude to sustainable mobility. Because car makers bear a responsibility. That’s why we do everything in our power to give every new Volkswagen better environmental properties than its predecessor – from material production to end-of-life recycling.

Think Blue.

High performance with low fuel consumption: an objective which the Touareg Hybrid¹⁾ consistently pursues. The basis for this technology is a V6 TSI petrol engine with 245 kW (333 bhp)²⁾. This is combined with a hybrid module with a 34.3 kW (46 bhp)* electric motor. This enables the vehicle to be driven purely electrically for a range of approximately two kilometres and up to approximately 50 km/h – and, thus, emission free.

01 The technical structure of the hybrid technology package facilitates the highest level of vehicle robustness and occupant protection. The hybrid module, which includes an electric motor, is fitted between the combustion engine and the automatic gearbox.

The energy accumulator is integrated in the spare wheel recess – and has a protection box as an optimal safeguard. In the event of a rear collision, impact forces are directed away from the battery to the vehicle structure. | H

02 Hybrid information can be shown via the **Energy display on the “Premium” multifunction display** in the driver’s direct field of vision. | H

03 The **energy flow indicator on the display of the radio or radio/navigation system** supplies information on the charge level of the high-volt battery and various other hybrid modes. | H

04 BlueMotion Technology is part of a large-scale idea – numerous innovations consistently put it into practice. The new Touareg with BlueMotion Technology²⁾ features a range of standard measures which significantly increase the efficiency, reduce fuel consumption and CO₂ emissions. This includes intelligent energy management, low-friction tyres, regenerative braking, and a start/stop system. | S

1) Fuel consumption in litres/100 km: 8.7 (urban)/7.9 (extra-urban)/8.2 (combined); CO₂ emissions in g/km: 193 (combined); efficiency class: B.

The engines.

Whatever awaits you: the powerful engines in the new Touareg deliver the right solution for almost any challenge. The five different engines are distinguished by their enormous power output as well as their especially efficient and economical energy management.

The details given on performance and consumption apply to the use of sulphur-free 95 RON premium fuel, in accordance with DIN EN 228. The fuel grade 95 RON unleaded containing a maximum of 10% ethanol (E10) may in principle be used. Detailed information on the compatibility of E10 fuels can be obtained via www.volkswagen.com or under www.dat.de/e10liste/ e10verträglichkeit. 1) The SCR system contains an additional operating fluid which customers can refill themselves. Further information is available in the technical data and prices. 2) Temporary total output of combustion engine and electric motor is 279 kW (380 bhp). 3) The figures listed have been determined in accordance with the legal measuring method stipulated. These figures do not refer to a particular vehicle and do not constitute part of the offer, but are purely for comparison purposes between the various types of vehicle. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors, for example the ambient conditions, play a role in determining a car's fuel consumption and CO₂ emissions. Additional equipment and accessories such as add-on parts and tyres may alter vehicle parameters such as weight, rolling resistance, and aerodynamics, thus affecting consumption and performance in addition to the effects of weather and traffic conditions. Where ranges are given, the figures for fuel consumption and CO₂ emissions depend on the selected tyre format and optional extras. Note in accordance with the version of Directive 1999/94/EC currently valid: further information on the official fuel consumption and official specific CO₂ emissions of new passenger cars is given in a guide containing data on fuel consumption, CO₂ emissions and power consumption for new passenger car models. It is available free of charge at every point of sale in the European Union and, for prospective buyers in Germany, at DAT Deutsche Automobil Treuhand GmbH, Hellmuth-Hirth-Strasse 1, 73760 Ostfildern, Germany, or at www.dat.de. 4) Efficiency classes evaluate vehicles on the basis of CO₂ emissions, taking into account the vehicle's unladen weight. Vehicles corresponding with the average are given a D rating. A+, A, B or C ratings are given to vehicles that are better than the present-day average, and E, F or G to those below this average.

R-Line.

01	02	03	04	
The new Touareg is a natural athlete. The R-Line “Exterior” and “Interior” packages let you express this sporty nature in an even more striking and powerful way.	The R-Line “Exterior” package promises to deliver all-round dynamics: the R-Line bumpers at the front and rear, the 19 inch “Salvador” alloy wheels (the illustration shows the optional 20 inch “Talladega” alloy wheels), the broader side sills and the rear spoiler all emphasise the athletic character of the new Touareg. The R-Line logo decorates the radiator grille and the black high-sheen diffuser with two chromed angular tail pipes gives the rear end of the vehicle an unmistakably sporty accent. so	Maximum sportiness combined with complete control: the heated R-Line leather-covered multifunction steering wheel with paddles and integrated R-Line logo ensures that you always have everything in hand.* so	A sporty look, down to the last detail: the high-quality entry trim strips in stainless steel with R-Line logo.* so	the R-Line logo on the headrests at the front are upholstered with a two-colour Nappa leather combination and offer excellent side support when driving dynamically combined with high comfort, even over long distances. These can be ordered in addition to the R-Line “Interior” package.
				The R-Line “Interior” package defines the sporty style of the interior with the “Silver Lane” decorative inserts for the dash panel, the door cladding and the middle console. The style continues with the foot well with the stainless steel pedals. The R-Line 14-way sports seats embroidered with
				the black headlining of the R-Line “Interior” package is shown here in combination with the “Flint Grey” trim. so
				*Part of the R-Line “Interior” package. The R-Line equipment will be available at a later date. Your Volkswagen Partner will be pleased to advise you. An offer from Volkswagen R GmbH. Further information is available at www.volkswagen-r.de. Standard (V6 TDI) \$ Standard on V8 TDI V8 Standard on Hybrid H Optional extra SO Fuel consumption in litres/100 km: 9.1-6.6 (combined); CO₂ emissions in g/km: 239-173 (combined); efficiency classes: D-B.

Volkswagen Exclusive.

Ready for your individual wishes: Volkswagen Exclusive gives your new Touareg a truly exclusive look with numerous enhancements. Furthermore, the “Touareg Exclusive” model is also available and features a tasteful combination of selected optional extras.

01

Sophistication as far as the eye can see: The interior welcomes you with the **“Pepper Beige” leather package** featuring seats and door inserts upholstered with high-quality Nappa leather. The **“Olive Ash silky sheen” fine wood décor** creates elegant accents and decorates the dash panel along with the door cladding and the middle console. |so

02

The threshold to the most refined materials: the “Volkswagen Exclusive” entry trim strips are part of the leather package. Upon request, these are also available as the illuminated **“Volkswagen Exclusive” entry trim strips**, as shown in the illustration. |so
