Go Further

TOUGH DONE SMARTER

Better. Smarter. And just as tough as ever. Introducing the next generation Ranger truck. With a bold new design, Ford's latest smart features, and in-built tools to get the job done smarter—Ranger gives new meaning to “intelligent design.”

BUILT TO TAKE ON YOUR WORLD

The new Ranger's unsurpassed 800mm water wading, best-in-class 3,500kg towing capacity, improved turbo-charged diesel engines, and the comprehensive Electronic Stability Program get anywhere you need to go. In total control.

NOT JUST TOUGH. PURPOSE-BUILT TOUGH.

When your truck doubles as your office, a purposeful design makes all the difference. The new, smarter Ranger delivers a next generation, ultra-strength chassis and functional features designed to conquer any challenge.

Clean or caked in mud, Ranger makes tough look good. It all begins with a Wildtrak accent grille and a more aggressive, muscular front-end design.

A rock-solid under-body gives the new Ranger a durable, ultra-tough foundation.

Do more. Wherever the job finds you. The new Ranger's 230V power inverter powers electrical equipment, wherever the job finds you.

See more at night when loading and unloading, with Ranger's new load box working light.

Auto headlamps come on automatically when there's not enough ambient light.

MAKE LIGHT WORK OF BIG CHALLENGES

The new Ranger's ultra-strength chassis, torque-heavy engines, and superior suspension help you tow, haul and move with ease.

Tested in the real world. Ranger has been torture-tested to backbreaking extremes in the toughest climates and terrains.

Bigger, stronger chassis. The new Ranger combines an ultra-high-strength steel chassis and a superior suspension design to deliver a stronger, smoother ride.

Tow more. Sweat less. Ranger's unbeatable 3,500kg towing capacity with Trailer Sway Control let you handle big loads with greater confidence.

Payload capacity up to 1,000 kg. Ranger is tough enough to haul the most backbreaking of loads.

COMFORT OUT OF YOUR COMFORT ZONE

The next generation Ranger's interior is durable, spacious, and has been crafted for a quieter ride. Throw in leather seats, six airbags and a centre console with extra storage space and you get a Ranger that's more comfortable, more functional, and helps keep you safer than ever.

A dual TFT instrument cluster displays all types of vehicle information from performance to navigation to entertainment - on a low-glare, high-quality flat screen.

Built tough. Built safe. Six airbags - including side and curtain airbags along with a reinforced safety cell help make every journey a safer one.

Hello. Goodbye. Enjoy the ride. Ranger's ambient lighting system illuminates to welcome you when you enter the vehicle, and helps you see more when you exit. You can also choose between seven ambient lighting colours that automatically switch on at night.

STAY CONNECTED ANYWHERE AND EVERYWHERE

Work smarter. Play harder. Streamline your life. Pair your mobile device to SYNC™ to make calls, select music, and even have text messages read aloud while you're on the move. Totally hands-free.

Let your fingers do the talking. View vehicle information on the 4.2-inch screen. You can also customise and view vehicle info on the dual instrument cluster.

Connect more devices in more ways with SYNC™'s Media Hub. Use the USB port or auxiliary jack to play your music over Ranger's sound system.

BRING IT ON

Take on whatever the world throws at you. From river crossing to challenging off-road terrain, the next generation Ranger is ready for anything.

Unbeatable 800mm water wading means a river can't come between you and the task at hand.

Mud, sand, and steep inclines. The new Ranger conquers them all. eLocking Rear Differential locks rear wheels together for maximum traction when driving on challenging surfaces or when it's difficult to keep both rear wheels on the ground at the same time.

4x4 shift on the fly lets you shift between 2WD and 4WD High mode and Low mode with a turn of a dial.

237mm ground clearance means almost nothing can get between you and the task at hand.

BRAINS MEET BRAWN

Packed with Ford's most ingenious technologies, Ranger has set a new benchmark in the tough truck category.

Park almost anywhere. The new Ranger combines a rear view camera with front and rear parking sensors to make parking easier.
