NP300 NAVARA

Nissan has been building strong, dependable pickups for 80 years. That's a lifetime worth of global pickup expertise and legendary reliability. Now with 14 MILLION PICKUP OWNERS blazing trails in 180 DIFFERENT MARKETS around the world, the legacy of reliability and innovation powers on. And at every turn, we've ridden the edge of innovation to deliver what you want —a tested and proven fully boxed frame, a world-class engine and go-anywhere 4x4 command.

Now it's time to experience the excitement of the next generation pickup.

80 YEARS
OF PICKUP PERFECTION

GAME-CHANGING NEXT GENERATION PICKUP

The NP300 Navara isn't just about good looks. It has a rear multi-link suspension system gives it an almost passenger car-like ride—a first-in-segment feature that gives you class-leading comfort. It's no slouch on the road either. The NP300 Navara has 7-speed automatic transmission, engineered using Nissan's race-tested technology. That's why you get a pickup that delivers ultimate driving performance and better fuel economy.

BEASTLY POWER

Whether it's power or fuel efficiency you want, you'll get both in the all-new NP300 Navara. This powerhouse boasts a maximum power output of 190ps and maximum torque output of 450 Nm*. Nissan uses race-proven engineering. That's why the NP300 Navara gets the most out of every drop of fuel, including low-friction components that help the engine use less energy to do its job. The improved aerodynamics also greatly reduces wind drag on the pickup.

*2.5L 4x4 VL variant

TOUGH JUST GOT TOUGHER

The all-new NP300 Navara is even tougher than it looks. Underneath, it's built with a high strength chassis that can stand up to even the most challenging daily usage. Whether you're running it through bad city roads or places where there aren't any roads, this pickup will always be up for the challenge.

FULL-LENGTH, FULLY BOXED FRAME

A full-length, fully boxed ladder frame, makes the NP300 Navara one of the toughest pickups on the road. This ladder frame adds torsional stiffness to enhance performance, on and off-road.

A BEAUTY ON THE INSIDE. This pickup's good looks are not just skin-deep. At the heart of its interior is an intuitive and sophisticated dashboard that's designed for better accessibility. The spacious cabin is designed with car-like comforts that include premium accents and Zero-Gravity front seats that offer superior spinal support. This greatly eases driver and passenger fatigue, specially on long drives.

CABIN COMFORTS. The NP300 Navara's improved rear passenger comfort begins with ergonomically designed seats that achieve the best balance between knee room and torso angle.

REAR A/C VENTS. Located on the back of the centre console, between the front seats, the rear AC vents distribute cool air, helping keep the cabin as cool as you like.

PREMIUM SOUND SYSTEM. The NP300 Navara comes fully equipped with a 6-speaker system, 5" display audio with CD/Tuner/MP3/AUX/USB, iPod connectivity plus Bluetooth phone and audio streaming functions.*

INTELLIGENT KEY. Just press the request switch on the door handle to unlock it without taking out the key from your pocket. Then start the engine with a push of a button and drive away.*
