THE LEGEND CONTINUES

Driving the Nissan GT-R means driving an icon that is instantly recognizable anywhere in the world, even by just looking at its taillights. Its new upgrades rewrite the laws of aerodynamics and make the air your ally for an unforgettable experience. ATTESA E-TS® All-Wheel Drive redefines supercar performance to give you excitement on various road conditions. It proves you can outperform purpose-built mid-engine exotics and have 4 seats, a handcrafted interior, and even a trunk — a classic redesigned for the modern era.

HANDCRAFTED PERFORMANCE

Each GT-R engine is assembled by master craftsmen called Takumi – renowned for their dedication and mastery. With only five Takumi in the world entrusted with the honor, the plaque on the engine bearing their name has true significance. As one of the Takumi says, “We put our souls into each engine, hoping to deliver that excitement to customers.”

570_{PS}

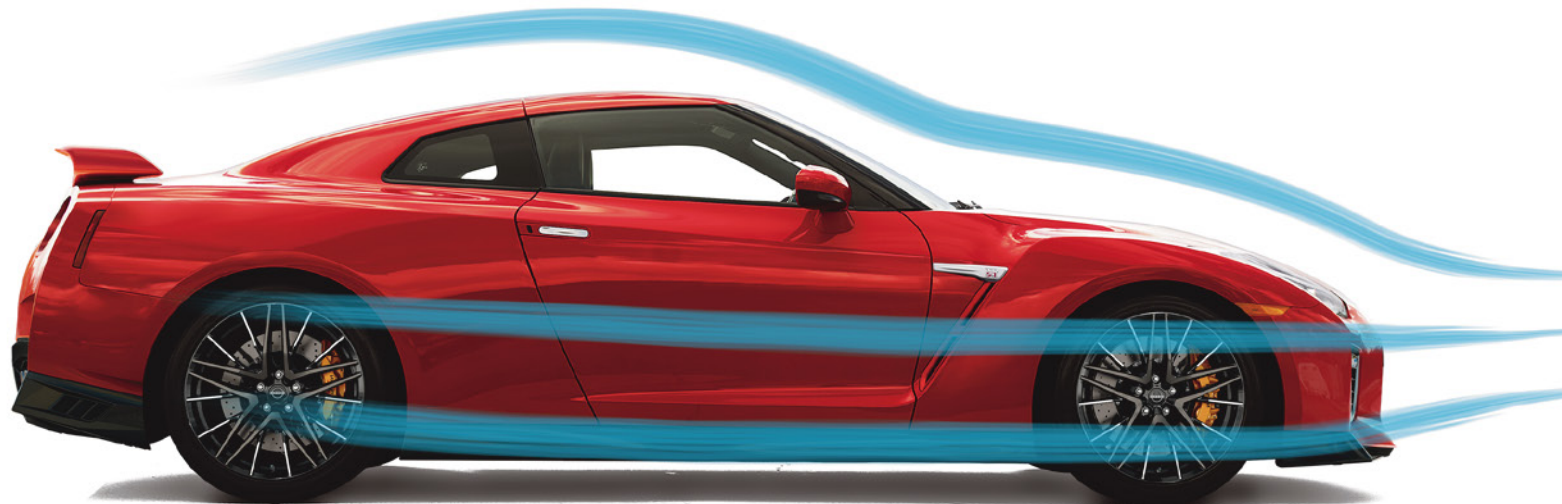

MASTERY AT EVERY TOUCHPOINT

The Nissan GT-R's interior is a carefully selected blend of premium materials, from hand-stitched seats to a dashboard pad crafted from a single, hand-selected Nappa leather hide. Subtle etching on the aluminum bezels enhances their feel, while sports seats provide comfort and support, creating an ideal place to take in its exhilarating drive.

- Carbon-Fiber Interior Accents
- Hand-Stitched Semi-Aniline Leather Seats
- Machined Aluminum Interior Accents

AERODYNAMIC ALCHEMY

Rather than being confined by the demands of aerodynamics, the Nissan GT-R sculpts the air to its needs – becoming a force of nature, as much as a force to be reckoned with. Every aerodynamic detail is designed to deliver thrill in every motion.

A SHARPER FOCUS ON DRIVING

Taking advantage of the capabilities of the Nissan GT-R requires your attention, but it should never feel like information overload. The GTR's intuitive dashboard design makes access to vital vehicle information simple, giving you more time to focus on what's important – the pure excitement of the drive.

- 5 Customizable Performance Screens
- Upshift Indicator
- Steering Wheel-Mounted Paddle Shifters

To break records, first break the convention.

The GT-R® philosophy says nothing is sacred — question everything, and come up with new answers to achieve the desired results.

A perfect example is the Premium Midship platform. Moving the engine farther back in the chassis reduces weight over the nose for better handling. In traditional layouts, this would place the transmission rearward, intruding into the passenger cabin.

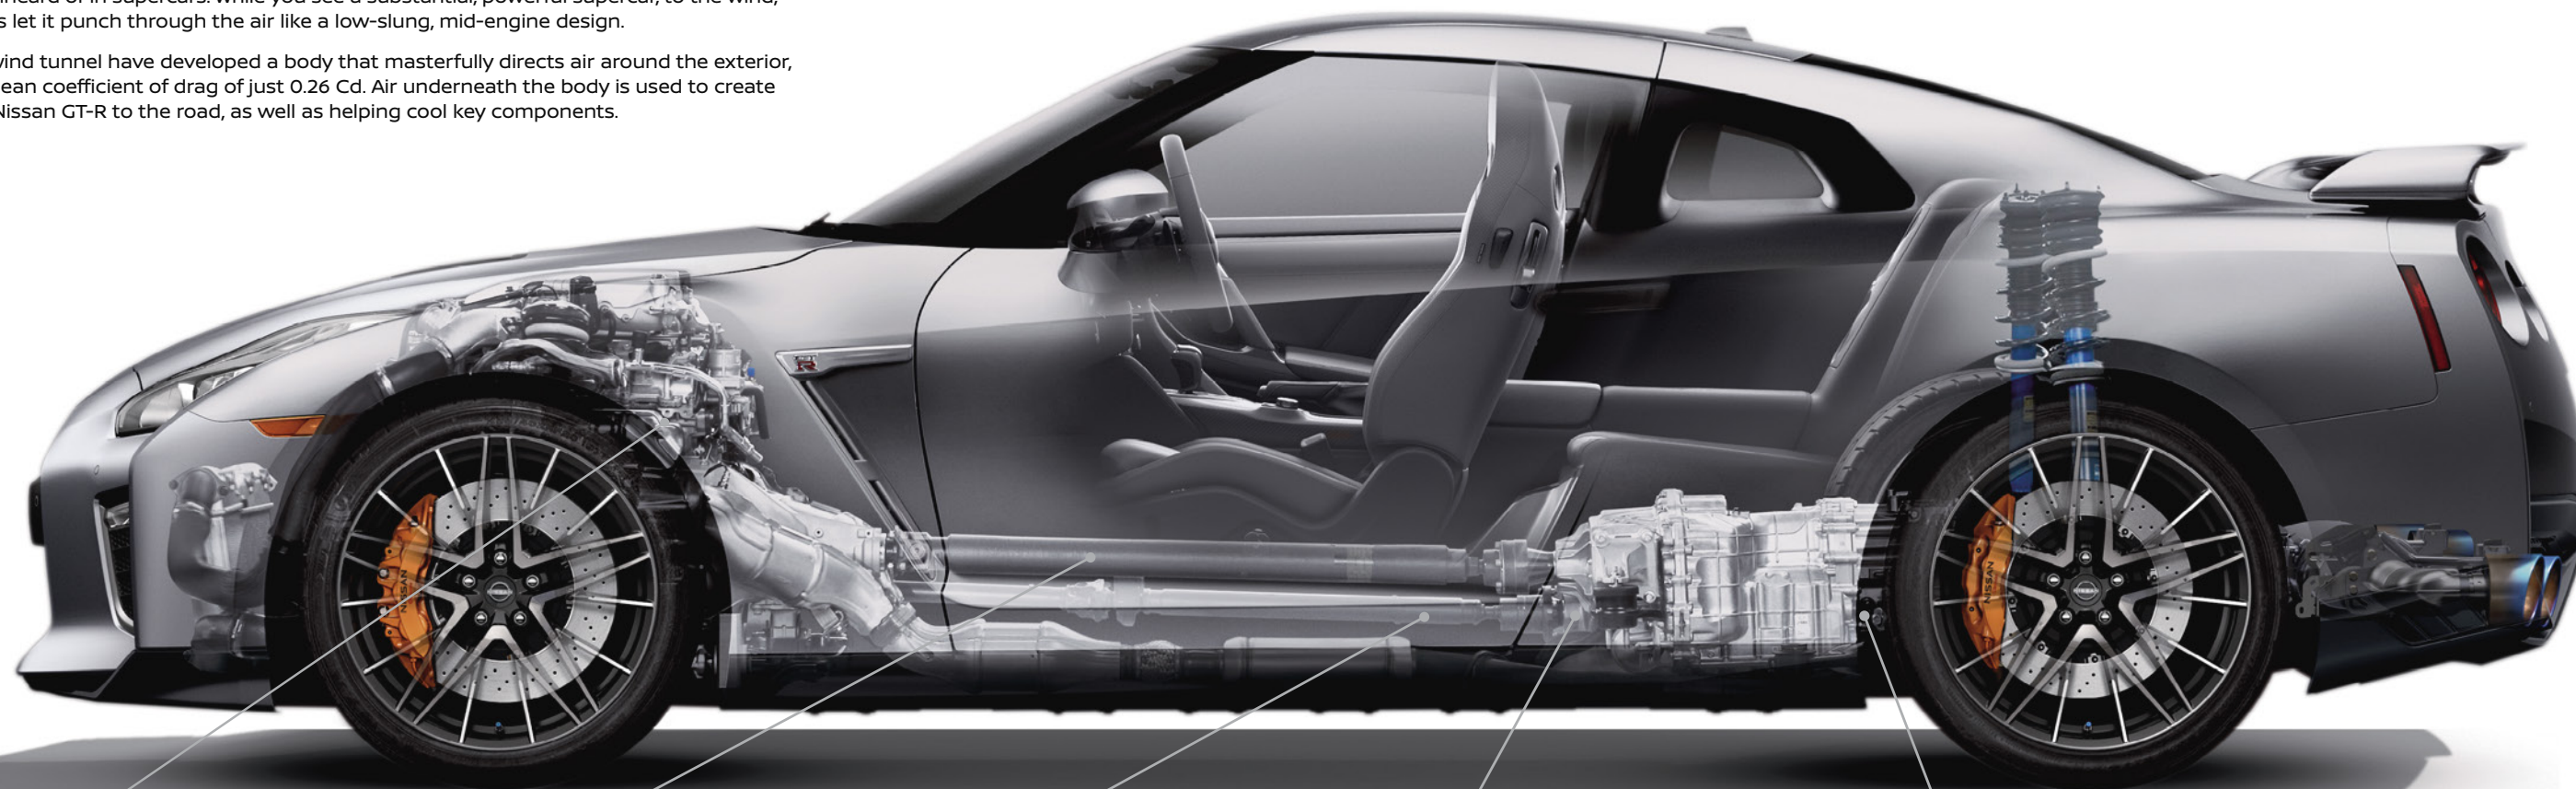

The solution: Separate the transmission from the engine, and mount it with the transfer case in the rear of the vehicle, creating an independent rear transaxle. A brilliant innovation in pursuit of handling perfection.

Another challenge was to make the GT-R as slippery to the wind as possible but still allow a rear seat and a usable trunk — unheard of in supercars. While you see a substantial, powerful supercar, to the wind, advanced aerodynamics let it punch through the air like a low-slung, mid-engine design.

Years of testing in the wind tunnel have developed a body that masterfully directs air around the exterior, creating an incredibly clean coefficient of drag of just 0.26 Cd. Air underneath the body is used to create downforce, pulling the Nissan GT-R to the road, as well as helping cool key components.

For maximum acceleration, GT-R's 6-speed sequential dual-clutch transmission can snap off incredibly quick shifts when in R Mode. Steering wheel-mounted shifters help ensure that a rapid-fire shift is always easily within reach, regardless of wheel position.

Premium Midship Engine Position
Centre of engine placed rearward in chassis for superior handling.

Carbon-composite Driveshaft
Helps to reduce weight while still capable of handling the engine's prodigious output.

Slanted Input and Output Shafts
The input and output shafts are slanted and flattened out to lower the centre of gravity, further enhancing handling.

Rear Transmission Position
Transmission placed at rear of chassis for better traction and braking.

Independent Rear Axle
By moving the transfer case to the rear of the vehicle, GT-R creates an independent rear transaxle.

MAXIMUM EXHILARATION

The Nissan GT-R is powered by a twin-turbocharged 3.8L V6 that produces a massive 570 hp and an equally immense 637 Nm of torque. For higher horsepower and better response than a naturally aspirated engine, each side of the VR38 features its own turbocharger, intercooler, and catalyst. Inside, innovative plasma-sprayed bores are used in each cylinder instead of traditional cast-iron liners to reduce friction and weight while maximizing horsepower and increasing fuel efficiency.

MODEL		NISSAN GT-R	
VARIANT		Premium	
ENGINE			
Code		VR38DETT	
Engine Type		3.8-Liter DOHC 24-Valve Twin-Turbocharged V6 with Continuously Variable Valve Timing Control System (CVTCS)	
Bore x Stroke	mm	95.5 x 88.4	
Maximum Power	ps/rpm	570 / 6,800	
Maximum Torque	Nm/rpm	637 / 3,300 - 5,800	
Required Fuel		100 Octane	
Fuel Tank Capacity	liters	74	
DRIVETRAIN			
Drive System		ATTESA E-TS All-Wheel Drive (AWD) with Patented Independent Rear-Mounted Transaxle	
Transmission Type		6-Speed Dual-Clutch with Paddle Shifter and Rev-Matching	
Limited Slip Differential		1.5 Way Mechanical Rear LSD	
SUSPENSION / CHASSIS / STEERING			
Suspension Type	Front	Double-Wishbone with Aluminum Upper Links and Lower Arms	
	Rear	Multi-Link with Aluminum Upper Links	
Bilstein DampTronic Suspension System		With (Front and Rear)	
Stabilizer Bars		With	
Brakes	Nissan / Brembo Braking System		
	Front	6-Piston Monoblock Calipers on 15.3" Ventilated Rotors	
	Rear	4-Piston Monoblock Calipers on 15.0" Ventilated Rotors	
Wheels	Front	20" x 9.5" RAYS Forged-Alloy Wheels	
	Rear	20" x 10.5" RAYS Forged-Alloy Wheels	
Tires	Front	Nitrogen-Filled 255 / 40 ZRF 20	
	Rear	Nitrogen-Filled 285 / 35 ZRF 20	
Steering Type		Vehicle-Speed-Sensitive Electronically Controlled Rack & Pinion	
Steering Turns Lock-to-Lock		2.4	
DIMENSIONS / WEIGHT			
Dimensions (L x W x H)	mm	4,710 x 1,895 x 1,370	
Wheelbase	mm	2,780	
Ground Clearance	mm	110	
Curb Weight	kg	1,770	
Trunk Capacity	liters	315	
Seating Capacity	persons	4	
EXTERIOR			
Headlamps		Super Wide Beam Multi-Projector LED with AFS	
Daytime Running Lamps (DRL)		With (LED)	
Tail Lamps		GT-R Signature LED	
Rear Fog Lamp		With (LED)	
Door Mirror		Power Adjust and Power Folding, Heated	
Door Handle		Flush Mounted Aluminum Door Handles with i-Key Switch	
Rear Spoiler		With	
Side Air Vents		With	
Exhaust		Quad-Tip Titanium Exhaust with Burnt Tip and Sound Control	
Wiper		Rain-Sensing	

INTERIOR		
Seats	Front	Power Adjustable, Heated Sport Seats
	Material	Hand-Stitched Semi-Aniline Leather
Steering Wheel	Type	3-Spoke Leather-Wrapped
	Controls	Audio, Hands Free Telephone, Cruise Control, Lap Timer
	Adjustment	Manual Tilt and Telescopic
Shift Knob		Leather Wrapped
Pedals		Aluminum Sport Pedals
Interior Trim		Leather, Aluminum and Carbon-Fiber
Rear View Mirror		Auto Dimming
Sun Visor		Driver and Front Passenger with Vanity Mirror and Illumination
Meter		Standard with Upshift Indicator, Vehicle Information Display and Gear Indicator
Cup and Bottle Holder		Front: x2, Rear: x1
Lamp		Map Lamp and Mood Lamp

FUNCTION		
Keyless Entry System		With (GT-R Intelligent Key)
Engine Push Start-Stop System		With
Power Windows		One-Touch Auto-Up / Down with Anti-Pinch
Power Door Locks		With
Air Conditioning System		Dual Zone Automatic
Cruise Control		With
Audio	Type	Nissan 8" Advanced Touchscreen Display Audio
	Connectivity	Bluetooth / USB / CD / MP3 / Tuner
	Speakers	Bose Premium Audio System with 11 Speakers (Dual Subwoofer)
Active Noise Cancellation		With
Active Sound Enhancement		With

SAFETY / SECURITY		
SRS Airbags		Driver, Passenger, Side and Side Curtain
Anti-Lock Braking System (ABS)		With Brake Assist (BA)
Vehicle Dynamic Control (VDC)		With (3 Driver Selectable Modes)
Traction Control System (TCS)		With
Hill Start Assist (HSA)		With
Reverse Camera		With
Parking Sensors		With (Front and Rear)
High Mount Stop Lamp		With (LED on Rear Spoiler)
Seatbelts	Front	3 Point ELR with Pre-Tensioner and Load Limiter
	Rear	3 Point ELR
Tire Pressure Monitoring System (TPMS)		With Individual Tire Pressure Display
Anti-Theft System		Alarm with Engine Immobilizer
