

The Caddy.

Volkswagen

The Caddy combines space, luxury, safety and quality in equal measure. It's styled to not only look great, but also to work hard for your family. And with a well thought-out interior, featuring numerous storage pockets, drawers, nets and trays, there's a place for everything you'll bring along.

The latest standards in safety. To ensure that every drive ends as stress-free as it begins, the Caddy is equipped with various safety systems as standard, which are activated in critical situations as a preventive measure.

Interior. Inside the Caddy you will find seven comfortable seats and a high-quality cockpit finish. Of course, there are also several cup holders and practical storage spaces, for instance in the doors and the central console.

Exterior. Despite being a seven seat people mover, the compact Caddy is also built for getting in and out of tight areas and low undercover car parks.

Powerful and economical.

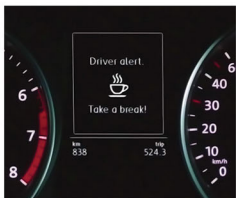

In the Caddy, you will find an engine that captivates with its impressively smooth running and fuel savings.

TDI Engine. Our TDI engine offers exceptional torque even at low revs. This results in tremendous fun at the wheel, thanks to its effortless acceleration and sparkling performance.

DSG Transmission. Combining the convenience of an automatic and the fuel-efficiency of a manual, the DSG gearbox gives you more power with every gear.

Driver Alert System. If the system detects that you're starting to lose concentration it will alert you with a visual display on the dashboard and a warning sound. If you haven't taken a break within 15 minutes, the system will repeat the warning. (Available for Sportline)

Cruise control. An electronic aid which helps regulate the vehicle's speed. The system sets and maintains the speed selected by the driver. The driver can also briefly increase or decrease the set speed manually and if desired, restore the previously stored speed.

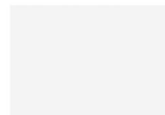

Tech Specs

Engine	1.6TDI DSG Sportline	1.6TDI DSG Comfortline
Engine Type	4-cylinder, In-line, Common Rail Turbo Direct Injection Diesel Engine

Relaxing in every respect.

Install two, three, four, five or seven seats. Whatever your plans are for the Caddy, with these many different seat options and back cabin arrangements, it's sure to be up to the task.

A great deal of space. The interior of the Caddy flexibly adapts to your varying needs every day. Whether you want to ferry up to 7 people, haul larger purchases or transport small pieces of furniture.

Composition Colour 5" Touchscreen radio. You have the flexibility to play your CDs as well as audio files through the USB, Bluetooth, SD and AUX IN, or listen to the FM/AM radio. And you'll appreciate the excellent sound quality on the system's front and rear speakers.

Proactive Occupant Protection System. In case of an accident, seatbelts will automatically tighten and windows will automatically close to assure maximum functionality of the airbag system. Front, side, head and curtain airbags are there to protect the passengers wherever the impact may be.

Rear Folding Table. Practical on long-distance journeys: the fold-up tables in the backrests of the front seats provide passengers in the second seating row with an easy to clean surface, and an integrated cupholder. They are stable enough to be used for a hot meal, or perhaps as a platform for a card game. (available for Comfortline)
