

The Santana.

Volkswagen

Make your someday car, your today car. With its affordable price and once a year maintenance (every 10k kms), you can drive the German-engineered car of your dreams today.

It's your first step.

1.4 MPI Petrol engine offers power, efficiency and durability with 90 Ps output and 132 Nm of torque.

1.5 MPI with BlueMotion. The Automatic Transmission adapts to your driving style at any given time. It not only reduces strain on the engine and transmission in stop-start traffic, but also reduces stress on the driver. BlueMotion Technology significantly improves fuel economy and reduce emissions.

Spacious interior. The Santana is a smart choice for the car buyer looking for a vehicle ready to conquer the roads while finding a balance in practicality, spaciousness and performance.

Blaupunkt Infotainment System (Option). What matters most to the car occupants is how to spend good time in the car while they are travelling.

The Santana.

Your first Volkswagen.

Anti-Lock Brake System. The Santana is equipped with ABS that ensures the car remains maneuverable and in control, even in the event of heavy braking on slippery roads.

Airbags for Driver and Front Passenger. We don't take anything for granted. The Santana carries dual airbags for the driver and co-driver. Along with the seatbelts and ABS, the Santana is one of the safest cars in its class.

Electronic Stabilisation Program (ESP). This system detects critical driving conditions, such as a risk of skidding, wheel spin or over/under steering, and take actions to keep the vehicle on course each and every time.

(Available for Automatic Transmission)

Electronic Engine Immobiliser and Keyless entry. The engine immobiliser has revolutionised car security. It uses coding software to ensure the correct key is being used to start your car. When you insert the key it 'talks' electronically to the immobiliser and the engine which will only start if the correct key is used. So it stops the wrong user from starting your engine, and driving off.
