# The Tiguan.

**You live life as if it were an adventure, during your weeks in the city and weekends in the wilderness. But wouldn't it be better if you had German-engineering on your side as you go on your journeys?**

# It's an adventure with every ride.

**1.4 TSI Engine with BlueMotion.** It's lighter and fuel efficient - and turbocharged, so it doesn't sacrifice performance. As if you're getting two engines in one. BlueMotion Technologies significantly improve fuel economy and reduce emissions.

**DSG Transmission.** Combining the convenience of an automatic and the fuel-efficiency of a manual, the DSG gearbox gives you more power with every gear.

**Auto Hold.** Is an extension of our electronic parking brake system. It stops your car from accidentally rolling backwards when you're stationary. That means you won't need to keep applying the parking brake manually, check whether you've applied enough braking pressure, or worry about rolling back as you prepare to move off.

**2-zone Climatronic airconditioning.** The 2-zone Climatronic automatically ensures clean air and healthy air conditioning in the vehicle's cabin. An air quality sensor and an anti-allergenic filter keep the air quality at a consistently high level and reduce the intrusion of unpleasant substances, including fungal spores and allergens.
