MAKING EVERY JOURNEY, A SAFE JOURNEY!

Toyota values driver and passenger safety, which is why the all new Corolla Altis X is one of the safest vehicles to drive in. Equipped with dual SRS Airbags, ISOFIX Child Seat Anchors, 3-Point ELR Seat Belts (with pre-tensioner and force limiter) and a reinforced GOA body.

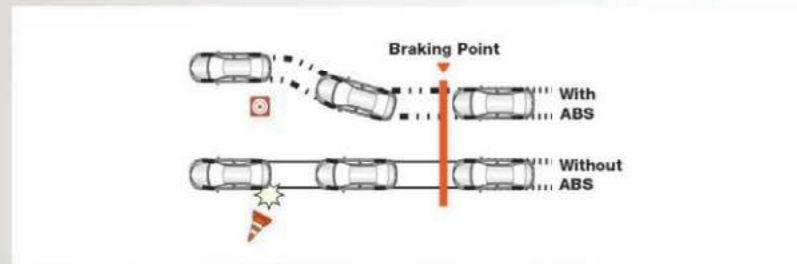

EQUIPPED WITH INTERNATIONALLY APPROVED ISOFIX STANDARD FOR CHILD SEAT

safe. comfortable. secure

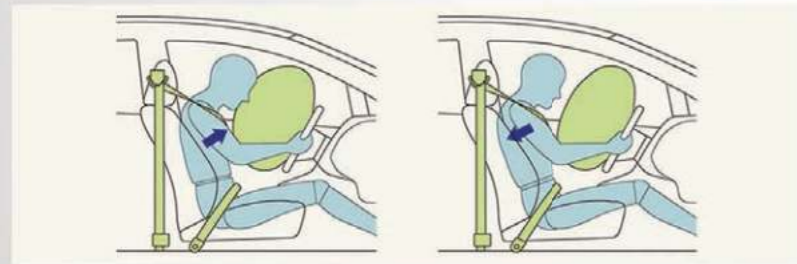

GOA BODY WITH REINFORCEMENT

Our collision safety technology (GOA) accomplishes the highest collision safety standards through high-integrity cabins and impact absorbing body structures.

ABS WITH EBD AND BA

ABS ensures passengers' safety by preventing wheel lock during high pressure situations, such as driving on a slippery road or braking suddenly. Electronic Brake Distribution (EBD) helps provide excellent brake performance and vehicle stability. Brake Assist (BA) helps ensure passenger safety by exerting pressure on brakes when they are depressed during a panic situation.

FRONT SEAT BELTS: 3-POINT ELR WITH PRETENSIONER AND FORCE LIMITER

Our seat belts ensure the highest quality of passenger protection during instances of distress. The pretensioner quickly restrains passengers in the event of a severe frontal collision, meanwhile force limiters mitigate any pressure applied to the chest during impact.

TRACTION & VEHICLE STABILITY CONTROL

Traction Control maintains drive power and prevents vehicle tires from over-spinning when starting the vehicle or accelerating on slippery roads. Necessary friction and tire control is maintained to ensure a confident drive.

Vehicle Stability Control avoids over-steering or under-steering during sharp turns. The vehicle is controlled when swerving or turning on slippery roads.
