

BUILT TO BE
UNBEATABLE

Built to be unbeatable, stunning form meets spectacular functions in this adrenaline-fuelled ride. Turn heads and wow everyone as you take on the road ahead with the Fortuner GR-S.

BUILT TO **EXPLORE**

Get ready to conquer the roads or the hills or wherever else your journey takes you. The adventurer inside you will be glad you chose a worthy companion.

■ 9" Infotainment System

■ Cruise Control

■ Dual Zone Climate Control

BUILT TO BE **DIFFERENT**

Experience the thrilling feel of an unstoppable adventure. The new Fortuner GR-S is carefully crafted to ensure every journey feels like a thrilling adventure.

■ Red GR Brake Callipers

■ GR Smart Entry

BUILT TO **TURN HEADS**

Set out like never before. The new Fortuner GR-S is built to accompany you on any journey. Through the hillside, through the dirt, and whatever else comes your way. Create your own adventure, without limitations.

Sensual surfaces, stunning contours, and breath-taking beauty, the new Fortuner GR-S is built to be the centre of attention. The bold exterior helps you stand out from the crowd, while making sure you can comfortably keep up with them.

■ 18" All Black Alloy Rims

■ GR Emblem on Front & Rear Bumpers

BUILT TO **STAND OUT**

The side profile is enhanced with new colours adorning the side mirrors, while the tyre and disc wheel is embellished with a black tinted clear coating to provide a unique and unforgettable look. Further, the front and rear brake callipers contain a GR brand mark with its custom red paint to ensure you keep heads turning as you drive by.

The vibrant red of the GR emblem emblazons the steering wheel accompanied by an all new bezel. The steering is further enhanced with fine leather and stunning red stitching.

■ Leather Steering and GR Emblem

■ Projector Head Lamps
Waterfall DRLs with LED Fog Lamps

BUILT TO BE
UNSTOPPABLE

The Fortuner GR-S is unmatched in its power. Easily navigate the toughest terrains with complete ease in this marvel of modern engineering. Coupled with the latest technology to provide an experience like no other, the GR-S is a beast unleashed.

■ Advance Monotube Shock Absorbers

BUILT TO **PERFORM**

Powered by the New Generation 2.8-Litre Diesel engine (IGD-FTV), the Fortuner GR-S has had its Variable Nozzle Turbocharger and Intercooler refined for higher power and torque output while providing better fuel economy. The refinement has resulted in a +20KW power output and +50Nm torque improvement from the previous generation engine.

POWER PACKED BUT COMFORTABLE.

The all-new Balance Shaft in the 1GD engine means that despite the increase in power you will experience fewer vibrations and reduced harshness during acceleration or while the car is stationary.

■ New Generation 2.8-Litre Diesel Engine (IGD-FTV)

■ Paddle Shifter

■ Six Speed Sequential Gear

BEAUTY MEETS THE **BEAST**

True beauty lies within. Plush new interiors combine form with function, the new sport seat made with suede and a combination of leathers lets you relax in comfort as you enjoy the stunning views around you. A shade of smoke silver metallic covers everything in sight, providing a truly unique mix of sport and unabashed utility.

■ Push Start with GR Emblem

■ GR Design Premium Optitron Meter

■ Stunning Red Stitching

■ 8-Way Power-Adjustable Front Row Seats

HEIGHT ADJUSTMENT

RECLINER

LENGTH ADJUSTMENT

■ GR Emblem Embroidery

BUILT TO CREATE ITS OWN PATH

The Fortuner GR-S has been created with adventure in mind. Perfect for both on- and off- road driving, built on a body-on-frame platform with proper 4x4 functionality, it provides a perfect mix of power with sophisticated agility. Its various off-road features enhance the driving experience, and provide unmatched control over every type of terrain.

Superior angle of approach (29 degrees) and departure (24 degrees)
Superior minimum running ground clearance (279mm*)

Class leading 4x4 driving features:

- Limited Slip Differential (LSD)
- Hill-Start Assist Control (HAC)

A limited slip differential (LSD) keeps the power going to a drive wheel that has traction, this ensures that you can traverse mud and other soft surfaces with ease. It also provides better control during extreme corners.

The Hill-assist control (HAC) feature automatically retains the pressure in the braking system, ensuring that you don't roll back unwillingly. It provides greater control and protection when dealing with sharp inclines.

■ Active Traction Control (A-TRC)

When off-roading or driving in slippery conditions, the Active Traction Control (A-TRC) provides assistance when wheel slippage is detected, helping you accelerate safely and efficiently in slippery conditions.

■ Advanced Suspension

Through the double wishbone in the front suspension and four-link suspension at the rear, the advanced suspension allows drivers complete handling prowess and a greater riding experience.

■ Part-Time 4WD Selector

Part-time 4WD allows the driver to turn on 4WD only when needed. On regular driving surfaces without the 4WD engaged, it works like a rear-driven 2WD vehicle, allowing for greater fuel efficiency. However, it can easily be switched to 4WD or 4WD low when sensing a slip in the wheels in the rain, sand, or mud.

■ Downhill Assist Control (DAC)

Downhill Assist Control (DAC) brakes individual wheels to maintain control and provides a safe rate of descent without any driver intervention required. It prevents the wheels from locking by managing engine braking and brake pressure, ensuring a stall-free vehicle.

■ Rear Differential Lock

The Rear Differential Lock system, once engaged, ensures both the wheels spin at the same rate, and provides unequal torque to each tyre on the axle to reduce the risk of losing traction or spinning out. This is particularly helpful in muddy terrain to provide stronger grip and control.

■ Trailer Sway Control (TSC)

Trailer Sway Control (TSC) ensures that you and your trailer remain safe by minimising lateral movement from road surface changes and cross winds. Tow away with complete peace of mind.

* H2 MODE ONLY

** H4 OR L4 MODE ONLY

PLEASE REFER TO THE OWNER'S MANUAL FOR PROPER USAGE OF ELECTRONIC TRANSFER SWITCH OPERATION (4WD).

BUILT TO **PROTECT**

Active Safety

Every Fortuner GR-S is outfitted with cutting-edge advanced security features that include smart entry wireless door locking, speed sensing door-locks, an independently-powered alarm, and an immobiliser to ensure your car remains yours.

■ ABS with BA & EBD

The Anti-lock braking system (ABS) allows for continued tyre rotation under extreme braking conditions.

Brake Assist (BA) applies additional braking force to reduce the braking distance.

Electronic Brake-force Distribution (EBD) helps shift weight under hard braking, reducing pressure on the wheels that carry the least amounts of weight – this helps ensure you and your vehicle always stay in control.

■ Vehicle Stability Control (VSC)

The Vehicle Stability Control keeps the vehicle pointing up on slippery surfaces by braking each individual tyre, where necessary.

■ Drive Start Control (DSC)

The Drive Start Control prevents acceleration when the vehicle is switched to the wrong gear, helping avoid collisions.

■ Impact Absorbing Structures

The tough and rugged frame suppresses deformation of the side rails and cross members, while the body shell helps disperse impact energy in the event of a collision.

■ Collapsible Steering Column

The collapsible safety steering column consists of several different components which help absorb impact energy in the event of a collision and prevent it from entering the interior of the vehicle or harming the occupants inside.

■ Whiplash Injury Lessening (WIL) Front Seats

Whiplash Injury Lessening (WIL) seats reduce the risk of whiplash neck injuries in lower speed rear-end collisions. It achieves this by providing support to the passenger's head and chest simultaneously.

■ Pedestrian Protection Structure

The Pedestrian Protection Structure provides an Impact absorbing structure at the front section, helping to reduce impact energy directed at a pedestrian.

■ **SRS Airbags**
SRS front driver and passenger airbags
SRS driver knee airbag

Front passenger airbag should only be deactivated when using a child restraint system on the front passenger seat.

■ **Rear ISOFIX Child Seat Fixture**

■ **Security Equipment**

Immobiliser system with security alarm

■ **Seatbelts**

3-Point ELR Front Seatbelts with pretensioner and force limiter
3-Point ELR rear seatbelts
Front seatbelt reminder

■ 040 SUPER WHITE

As pale as the winter snow and just as stunning.
Stand out from the crowd in a bright SUPER WHITE.

■ 218 ATTITUDE BLACK

True beauty awaits you. ATTITUDE BLACK helps your GR-S awe and wow
spectators as you drive by. Simply stunning and perfect for every landscape.
