CT6 Platinum in Stellar Black Metallic.

| PERFORMANCE

TRAVEL THE ROAD WITH AUTHORITY

The CT6 is equipped with an array of performance features that assure the road is firmly under your command. Engine options offer horsepower and torque in abundance. And a lightweight, bespoke vehicle architecture paired with advanced handling technologies deliver remarkable comfort and responsive driving dynamics.

OFFERED FEATURES: 3.6L V6 ENGINE • 3.0L V6 TWIN TURBO ENGINE •
ACTIVE CHASSIS SYSTEM • FUSION FRAME AND JOINING TECHNOLOGY •
MAGNETIC RIDE CONTROL • ALL-WHEEL DRIVE

Wield power, wisely

The CT6 offers you a choice of two remarkable powerplants. The standard 3.6L V6 AWD engine combines 335 hp of performance with cylinder deactivation efficiency, making it powerful and shrewdly efficient.

While the available 3.0L V6 Twin Turbo, the first V6 Twin Turbo to incorporate cylinder deactivation technology, delivers 404 hp and 542 Nm of torque for instant acceleration and response.

Assertive agility and control

An available Active Chassis System monitors each wheel independently, adjusting vertical suspension damping within milliseconds. The system includes active-on-demand All-Wheel Drive, Magnetic Ride Control and Active Rear Steering offering you complete maneuverability and high-speed stability.

Reframing performance

An innovative vehicle architecture is at the core of agile performance. The CT6 fusion technologies combine high-pressure aluminum and high-strength steel into a lightweight, yet rigid frame, which provides impressive acoustics and a more precise handling experience for you.

Read the road 1000 times a second

Cadillac's available Magnetic Ride Control automatically adjusts the suspension to road quality and weather conditions. And it reads the road up to 1000 times a second to react accordingly. Your result is a smooth, responsive drive.

Poor weather, superior handling

Standard All-Wheel Drive delivers enhanced control when you accelerate and turn, keeping you in command at all times — especially in wet road conditions.

| TECHNOLOGY

MAKE AN ELEGANT LEAP FORWARD

The CT6 offers leading-edge technologies to help you obtain information, master communications and make the most of your own digital devices. Whatever their function, the futuristic vision behind these features all share seamless designs and intuitive interfaces that help keep you, and your world, moving forward.

OFFERED FEATURES: CADILLAC USER EXPERIENCE AND PHONE INTEGRATION • REAR CAMERA MIRROR • WIRELESS CHARGING • REAR SEAT INFOTAINMENT • TOUCHPAD

Your phone, even smarter

The Cadillac user experience¹ projects Phone Integration with Apple CarPlay™² compatibility and allows you to access your contacts, Apple Music™ and other information from your iPhone® with a touch of the screen, shown below. You can also access Siri®, so features are easily accessible to you or your front-seat passenger. Phone Integration also offers Android™ Auto² compatibility.

More than at your fingertips

The Cadillac user experience¹ puts a suite of information and entertainment offerings at your command, including climate and audio.

1. Cadillac user experience functionality varies by model. Full functionality requires compatible Bluetooth and smartphone. Some devices require USB connectivity. 2. Vehicle user interfaces are products of Apple and Google and their terms and privacy statements apply. Requires compatible smartphone and data plan rates apply. CarPlay is a trademark of Apple Inc.

Entertained, regardless of where you're sitting

The available Rear Seat Infotainment features articulating 10" diagonal HD screens with Blu-ray™ playback and connectivity for your personal devices including an HDMI and USB ports¹. Your passengers can enjoy different entertainment while on the road. The screen also tilts for easy viewing and will remember that preferred position.

A brilliant look back

Available Rear Camera Mirror streams HD video through the rearview mirror (A). This less obstructed view offers you significantly more vision than an ordinary mirror, but can revert to a traditional mirror (B) with just a toggle.

Charging convenience

With Wireless Charging² and phone charging case, you can power up your compatible phone anytime the vehicle is running.

A touch of powerful design

In addition to its touchscreen, the Cadillac user experience serves many functions that can be accessed through a laptop-like touchpad, seamlessly integrated into the center console.

¹ Not compatible with all devices. ² The system wirelessly charges one PMA- or Qi-compatible mobile device. To check for phone or other device compatibility, see my.cadillac.com/learn.

| EXTERIOR

TAKE A STANCE WITH ELEGANCE, STRENGTH AND STYLE

From its bold-faced grille to its sleek, integrated rear spoiler, the look is hard to resist. And impossible to mistake. Aluminium, chrome and signature lights; lines, curves and sweeping planes. Every element comes together seamlessly to create an understated, yet riveting exterior.

CT6 Luxury in Stellar Black Metallic. Shown with available equipment.

OFFERED FEATURES: INDIRECT FIRE LED LIGHTS • BODY DESIGN •
CONCIERGE LIGHTING

Illuminating the way forward

Signature vertical lights are more than bold frames for beautiful design. They employ advanced Indirect Fire LED-powered, multi-functional headlamps. Both streamlined and brighter than conventional or competing LED technology, these lights help your visibility and are a key facet of the vehicle's sweeping silhouette.

Design is a matter of balance

By pushing the wheels to the four corners of the vehicle, Cadillac's design and engineering teams have created more interior space for you, along with a wide, low stance. This supremely balanced structure delivers you both superior control and driving dynamics.

An enchanting welcome

Approach after dark and your passive entry key fob automatically activates lights in the head- and taillamps, outside mirrors and door handles with available Concierge Lighting. This inviting beacon improves visibility and sense of security.

| INTERIOR

A TESTAMENT TO THE POWER OF CRAFT AND TASTE

The entire CT6 interior expresses unmatched attention to detail. From its elegant materials and careful assembly to its superior amenities and supreme comforts, the space evokes a new level of craftsmanship. One that combines the expertise of a lost art with the innovation of today.

OFFERED FEATURES: EXQUISITE MATERIALS AND CRAFTSMANSHIP • QUIET INTERIOR ACOUSTICS • BOSE® PANARAY® SOUND SYSTEM • EXTENDED COMFORT SEATS

Style and substance

Each of the differently curated interior themes are carefully selected to feature rich leathers, exotic wood trims and Galvano chrome accents. These options are all fit and tailored to fully appreciate an enhanced interior. And in addition to beauty, these elements are engineered for longevity.

The science of quiet

Of the many innovations that make the interior quiet, none is more important than an advanced body structure — a frame constructed using revolutionary alloys and fusion techniques. By design, it will help save you from the distractions found on the road.

Microclimates, large advantage

The available Quadzone Climate System divides the interior into four sections, allowing each passenger to tailor their individual temperature and airflow. Available Air Ionization helps keep exterior dust and odors out of the cabin.

Sound worthy of its venue

The available Bose® Panaray® sound system was designed specifically for the CT6, making the most of its innovative technologies and 34 strategically placed speakers. A first for Cadillac, this meshing of vehicle and audio design delivers an exceptional listening experience for you.

Indulgent interior comforts

For your extended comfort, the seats inside the CT6 are crafted from premium materials and have unique contours that provide cushion and support. With generous rear legroom, passengers have ample space to relax for hours on end. You can also automatically control your interior climate. The driver and passenger seats will activate based on cabin temperatures and reduce heat or cooling as it becomes more comfortable. Plus, the steering wheel will automatically heat with the heated front seats when the cabin temperature is cool.

| SAFETY

CONFIDENCE IS KEY IN ANY JOURNEY

One CT6 safety feature pierces the dark. Others look at the surrounding road. With a wide array of sophisticated technologies, the CT6 is designed to reassure you. On every drive. Every day.

OFFERED FEATURES: NIGHT VISION • FRONT PEDESTRIAN BRAKING • FORWARD COLLISION ALERT • SURROUND VISION • REAR CROSS TRAFFIC ALERT • LANE KEEP ASSIST WITH LANE DEPARTURE WARNING • LANE CHANGE ALERT WITH SIDE BLIND ZONE ALERT • FORWARD AND REVERSE AUTOMATIC BRAKING • INTELLIBEAM HEADLAMP • ADAPTIVE CRUISE CONTROL • SAFETY ALERT SEAT

Surrounded by safety innovation

FRONT

Experience fewer surprises in the dark

Using thermal technology, available Night Vision shows detected people and large animals ahead.

Help keep an eye on pedestrians

Front Pedestrian Braking, available as part of the Driver Awareness and Convenience Package, uses a camera to scan the road ahead. If a pedestrian is detected, the system alerts the driver and, if necessary, applies the brakes to help avoid or reduce the severity of a collision.

Truly forward thinking

Forward Collision Alert, available as part of the Driver Awareness and Convenience Package, monitors traffic ahead, alerting you if a potential collision is imminent, while the available Following Distance Indicator shows the following time to the detected vehicle ahead (in seconds) in the Driver Information Center (DIC).

REAR

Be alerted even in reverse

When backing out of a parking space, the available Rear Cross Traffic Alert warns of oncoming traffic to either side of your vehicle.

See what lies behind you

Standard Rear Vision Camera automatically displays a live image of the area behind you on the Cadillac user experience screen. Guiding lines on the image plot out your intended trajectory, helping you to see objects that might be in your path.

SIDE

Travel the straight and smart

Using monitors to sense lane boundaries, available Lane Keep Assist gently turns the steering wheel if the system anticipates the vehicle is leaving the lane unintentionally or without using your turn signal. Working in conjunction with the available Safety Alert Seat, available Lane Departure Warning sends a visual alert in the cluster and a warning pulse through the seat cushion.

All clear

Lane Change Alert, available as part of the Driver Awareness and Convenience Package, surveys the area well beyond the side blind zone, and illuminates the side mirror warning icon to alert you of a rapidly approaching vehicle. Side Blind Zone Alert, also part of the available Driver Awareness and Convenience Package, monitors your blind spots, so if a vehicle is in the adjacent lane it also illuminates the side mirror icon. In both features, if you've activated your turn signal, the icon on the side mirror will flash to alert you.

INSIDE

Gain precious time

Up to certain speeds, available Forward and Reverse Automatic Braking can sense imminent forward and reverse collisions and automatically engage the brakes, if you have not already done so, helping to reduce the severity of the collision. The system may even help avoid a collision at very low speeds.

Maintain an intelligent space

Available Adaptive Cruise Control employs front-radar technology to maintain a selected distance between you and the detected vehicle ahead.

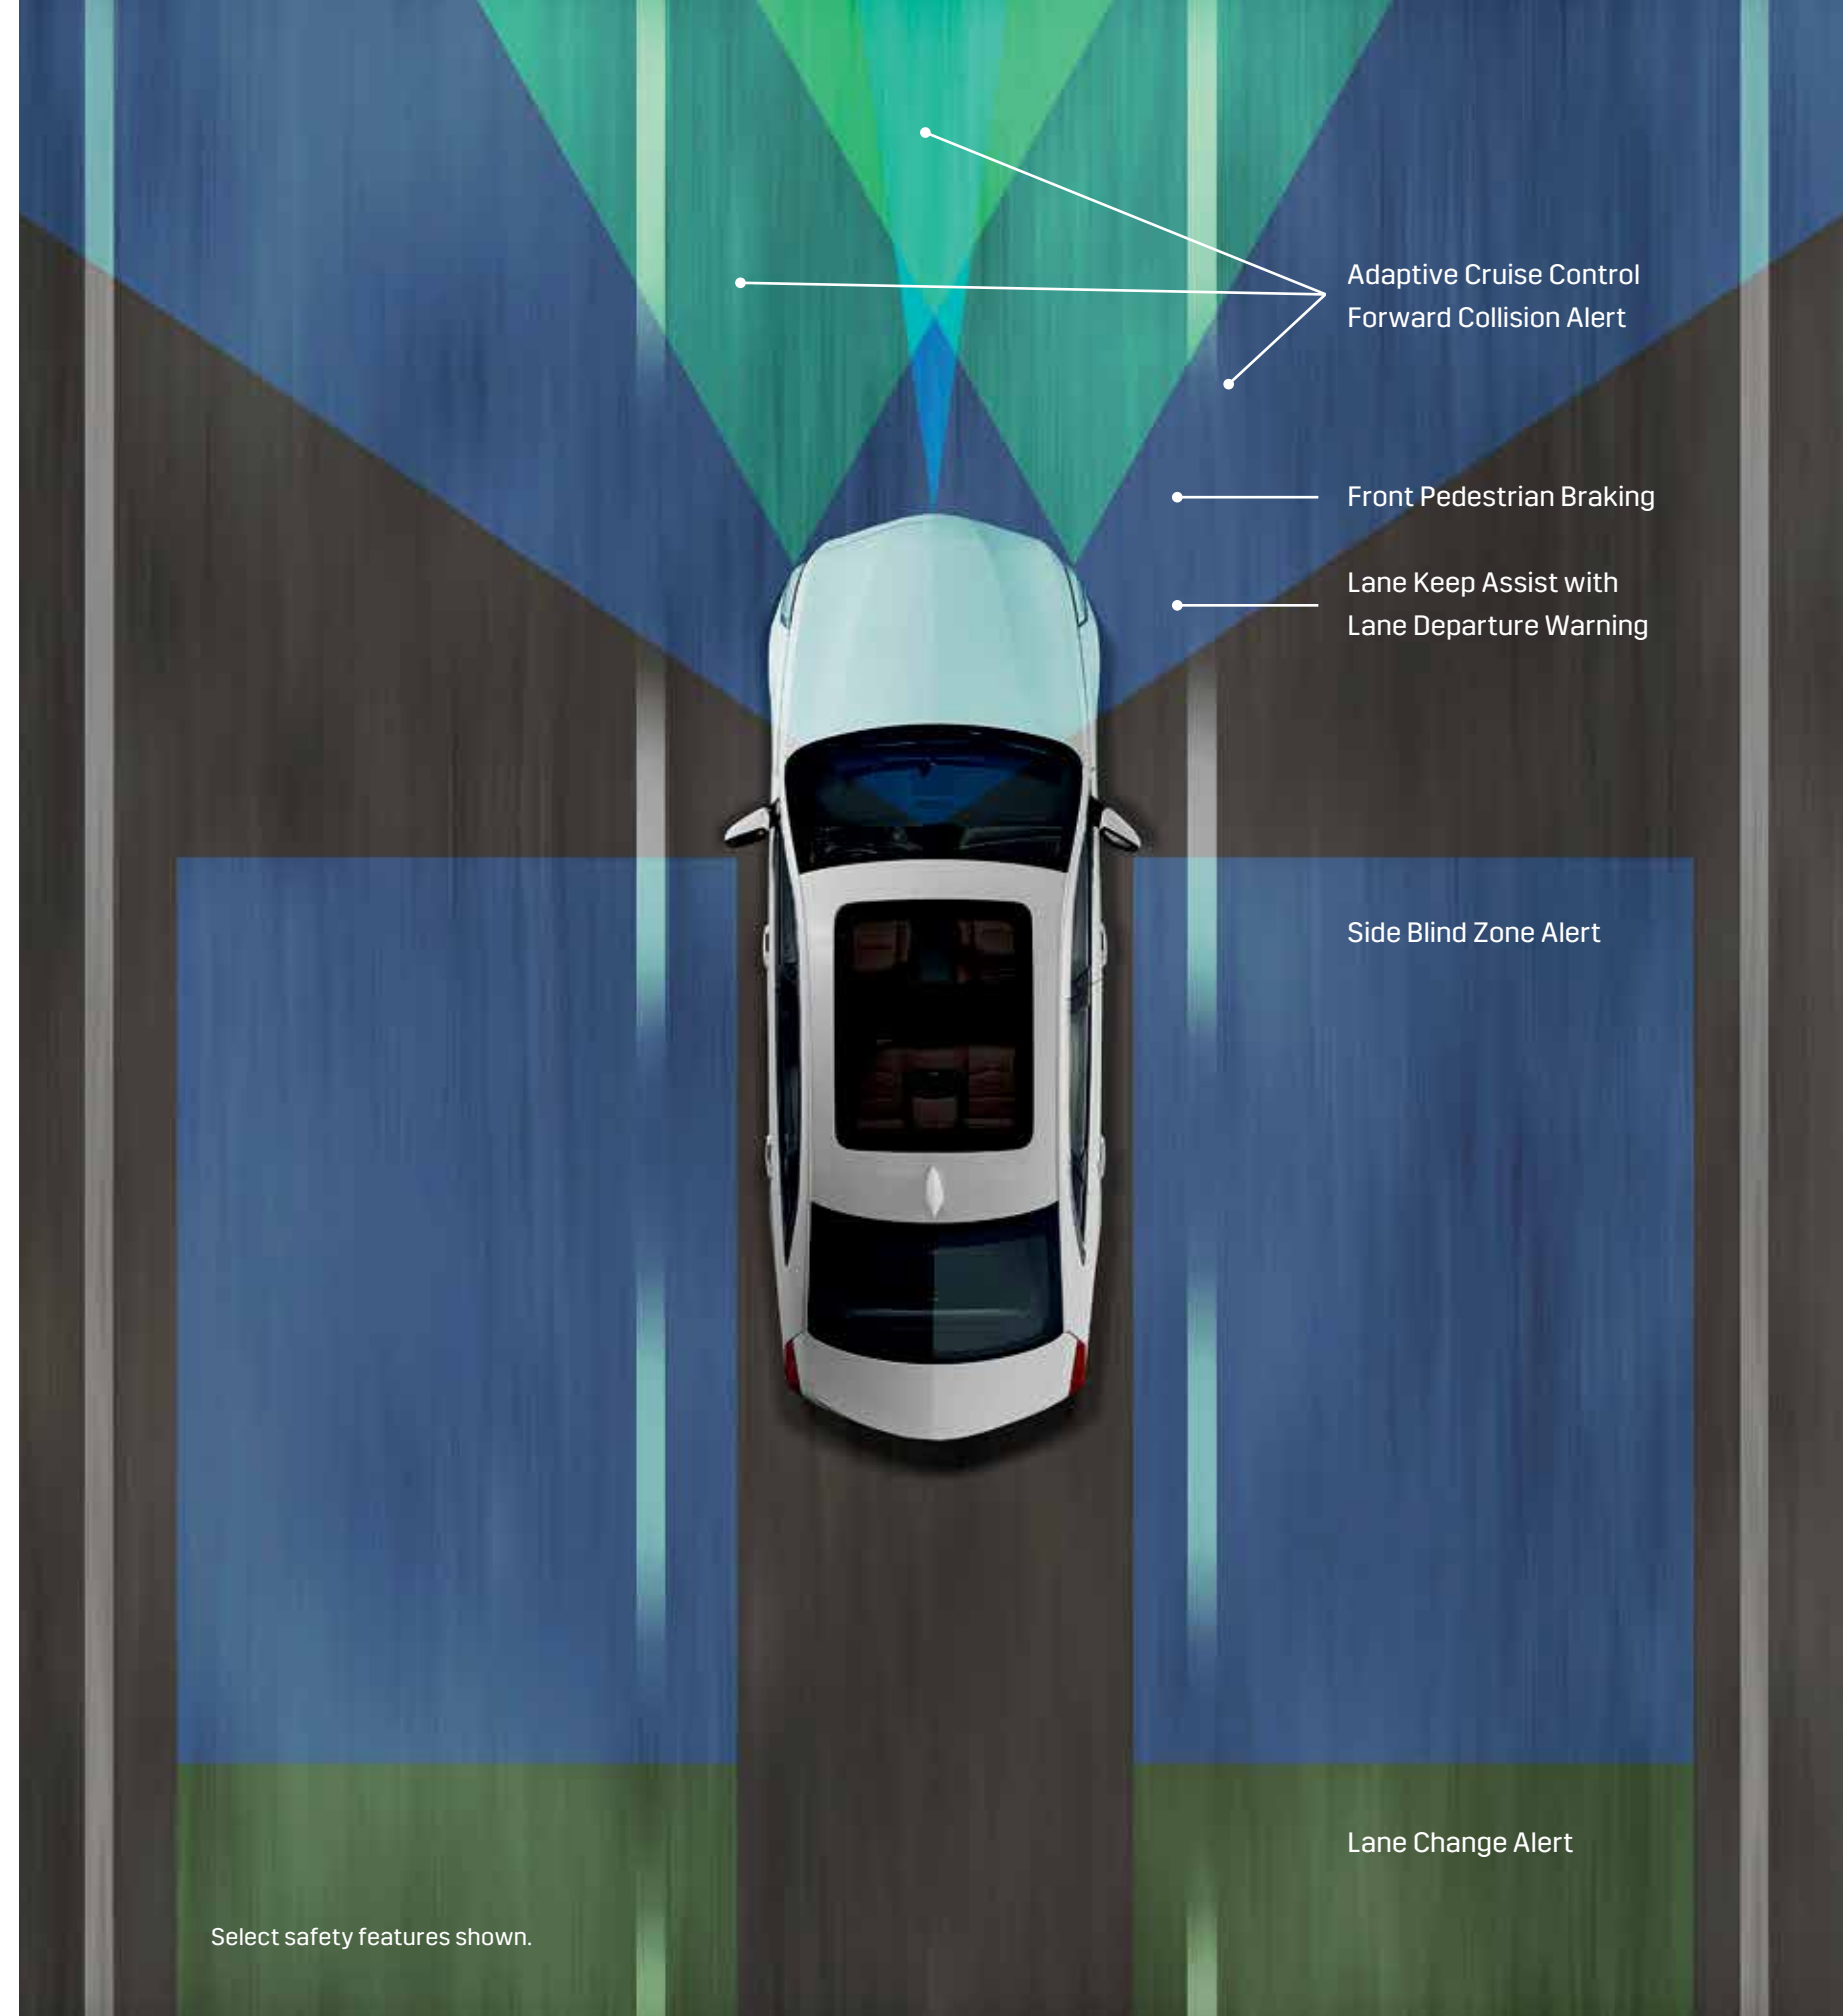

Grabs your attention. Subtly.

Cadillac's available patented Safety Alert Seat sends a discreet pulse to the left, right or both sides of the driver's seat, indicating the direction of the threat — left, right, front or rear.

A higher look at what surrounds

Available Surround Vision provides a bird's-eye view of the area immediately surrounding the vehicle when in low-speed Drive or Reverse. This view, projected on the Cadillac user experience screen, helps increase your awareness when parking or in Reverse.

Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle Owner's Manual for important feature limitations and information.

Select safety features shown.

| PLATINUM

OWN THE EPITOME OF PRESTIGE

It is called Platinum. And it lives up to the name. From the distinguished front grille to the sleek and long exterior lines, no detail has been overlooked. Inside, curated aesthetics, modern comforts and savvy controls result in an entirely new experience. Everything has been leading up to this.

OFFERED FEATURES EXCLUSIVELY IN PLATINUM: 20" PLATINUM WHEELS • ARTICULATING REAR SEATS WITH MASSAGE • EXTENDED COMFORT FRONT BUCKET SEATS WITH 20-WAY ADJUSTMENTS

2nd-row seats, second to none

The Articulating Rear Seats, standard with Platinum, feature reclining and tilting cushions with heat, ventilation and massage functions. The rear-seat armrest offers a variety of media controls, such as USB ports¹ and an HDMI port.

¹. Not compatible with all devices.

Impossible to look away

An exclusive 20" Platinum wheel design grounds a low, brilliantly lit rear. While a signature Platinum grille projects a sophistication that's miles ahead.

These seats stand alone

Exclusive with Platinum, 20-way adjustable front seats, both heated and ventilated, also offer fifteen unique massage settings. In addition, the armrest is equipped with USB¹ ports.

Seating Front bucket, 20-way driver and front passenger, includes 4-way power pneumatic lumbar and 4-way manual adjustable head restraints
 Ventilated driver and front passenger seat cushions and seatbacks
 Semi-Aniline full-leather seating surfaces with chevron perforated inserts
 Extended Comfort Seats with 5 massage programs
Wheels 20" aluminium with Manoogian Silver premium painted finish and chrome inserts (see Page 43 for more details)

AVAILABLE FEATURES

3.0L V6 Twin Turbo Direct Injection VVT 6-Cylinder Engine with 404 hp and 542 Nm of torque with Auto Stop/Start and disengage with three performance driving modes

1. Go to my.cadillac.com to find out which phones are compatible with the vehicle. 2. Cadillac user experience functionality varies by model. Full functionality requires compatible Bluetooth® and smartphone. Some devices require USB connectivity. 3. Not compatible with all devices. 4. The system wirelessly charges one PMA- or Qi-compatible mobile device. To check for phone or other device compatibility, see my.cadillac.com. 5. Always use safety belts and child restraints. Children are safer when properly secured in a rear seat in the appropriate child restraint. See the Owner's Manual for more information. 6. Before making a lane change, always check the Side Blind Zone Alert display and the side and inside rear mirrors, look over your shoulder for vehicles and hazards, and activate the turn signal. 7. Adaptive Cruise Control is no substitute for the driver's personal responsibility to operate the vehicle in a safe manner. The driver needs to remain attentive to traffic and road conditions and provide the steering, braking or other inputs necessary to retain control of the vehicle.

OWNER BENEFITS

Our owners deserve it all. That's why 2018 vehicles are backed by a comprehensive suite of owner benefits.

ABOUT THIS CATALOG

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Cadillac dealer for complete details. Any variations in colors shown are due to reproduction variation in the printing process. Cadillac reserves the right to lengthen or shorten the model year for any product for any reason, or start and end model years at different times. Note: Some photographs in this catalog show vehicles with optional equipment.

ENGINES

Cadillac products are equipped with engines produced by GM Powertrain or suppliers to GM worldwide. The engines in Cadillac products may also be used in other GM makes or models.

TIRE SEALANT AND COMPRESSOR KIT

If your vehicle has a tire sealant and compressor kit, it uses a liquid tire sealant to temporarily seal up to a 6mm puncture in the tread area of the tire. After using the inflator kit, it is recommended to take the tire to an authorized dealer for inspection and repair as soon as possible but at least within 161 Km of driving. The tire sealant cannot seal and inflate sidewall damage, punctures larger than 6mm or a tire that has unseated from the wheel. The sealant can only be used on one tire, one time before its expiration date.

ASSEMBLY

Cadillac vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillac vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

COVERED FOR 4 YEARS/100,000 KM (WHICHEVER COMES FIRST)

Powertrain limited warranty with no deductible, Roadside Assistance Program¹ and Courtesy Transportation Program¹

COVERED FOR 4 YEARS/100,000 KM (WHICHEVER COMES FIRST)

Bumper-to-bumper coverage. Tires—defects in material and workmanship; repairs made to correct any vehicle defect; corrosion on body sheet metal panels.

RUST-THROUGH COVERAGE

Cadillac vehicles are designed and built to resist corrosion and rust-through corrosion. Any body sheet metal that rusts through (in the form of an actual hole in the sheet metal) is covered for six years and unlimited mileage. Cosmetic or surface corrosion—resulting from stone chips or scratches in the paint, for example—is not included in the rust-through coverage. Application of additional rust-inhibiting materials is not required under the rust-through coverage and none is recommended. See your Cadillac dealer for terms of this limited warranty.

FLEET ORDERS

Some standard content may be deleted with fleet orders. See dealer for details.
