Details matters. It matters in every pound-foot of torque, every millimeter of fit and finish and every decibel of quiet. That's what drives us to reimagine solutions and create rewarding driving experiences. Like the 2017 Yukon. Its EcoTec3 engines offer proven V-8 power and efficiency, while its suspension is engineered for uncompromising ride and handling. Inside, a quiet cabin welcomes you with premium materials and ingenious technologies.

## YUKON DENALI: MAKES A STATEMENT. ADDS AN EXCLAMATION POINT.

The ultimate expression of Commands Respect arrives in the form of Yukon Denali. Signature Denali styling begins with its three-dimensional grille, projector-beam HID headlamps and chrome accents and continues with available 22" wheels and optional power-retractable assist steps with perimeter lighting.

## YUKON: DESIGNED TO STAND OUT. EXCEPT TO THE WIND.

The 2017 Yukon was designed for efficient aerodynamics. The goal was to make it feel smaller to the wind for reduced noise and improved efficiency. Bold, sculpted lines glide from the three-dimensional grille and over the inlaid doors for smooth, uninterrupted airflow.

## SHINING EXAMPLES OF REFINEMENT.

Yukon's bold lines and striking looks are complemented by design innovations such as available power-retractable assist steps and a rear window wiper concealed under the spoiler. These features prove that when limits are pushed, there's no compromise between convenience and style.

**POWER-RETRACTABLE ASSIST STEPS WITH PERIMETER LIGHTING** Yukon Denali models offer illuminated power-retractable assist steps that automatically extend when the front- or second-row doors are opened to provide easy, lighted access. They retract when the doors close for an uncluttered profile.

**WHEEL STYLING** Yukon's exterior design is fully complemented with an equally striking selection of available 18," 20" and 22" wheels in various finishes.

**SIGNATURE LIGHTING** Yukon features projector-beam headlamps (HID on Denali) as well as front and rear "C"-shaped LED signature lighting to create a distinctive appearance.

**KEYLESS ENTRY** With Yukon's key fob in your pocket, the available keyless entry system allows access to all four doors as well as the liftgate. Then, upon exit, this feature will automatically lock the vehicle several seconds after all doors are closed.

**REAR SPOILER** Located on top of the liftgate, the spoiler houses a window wiper hidden when not in use for a clean, uncluttered appearance.

## IT WHISPERS PREMIUM.

Both Yukon and Yukon Denali raise the standard for quietness. Acoustic laminated windshield and front door glass, triple door seals, an engine compartment barrier and damping materials in the floor sheet metal all help keep noises from entering the cabin. Yukon Denali adds Bose® Active Noise Cancellation to tune out additional disturbances. As a result, you'll enjoy the quietest Yukon ever. In Yukon Denali, premium surroundings abound thanks to authentic materials and exacting details.

## YUKON TAKES YOUR ENJOYMENT SERIOUSLY.

Yukon's instrument panel and Driver Information Center put driver controls and entertainment options at your fingertips. At the center of it all is the Color Touch Audio System with IntelliLink, featuring an 8" diagonal display and seamless hands-free integration of digital devices. Yukon Denali adds a Customizable Driver Display so you can choose the information you see and how you see it. Denali also offers a Bose Centerpoint® surround-sound system and a four-color Head-Up Display to help keep your eyes focused on the road.

Some devices require USB connectivity.

## WE REALIZE YOU ONLY HAVE TWO HANDS.

To help you load it up while your hands are full, Yukon and Yukon XL Denali include a hands-free, foot-activated power liftgate. Once the liftgate is open, Yukon makes it easy to lower the second and third rows to create a flat cargo floor. And since we all travel with plenty of things we just can't leave behind, you'll find generous storage compartments, including an expansive center console as well as power outlets, integrated throughout Yukon.

## EASILY GOES FROM PEOPLE TO CARGO IN UNDER 5 SECONDS. FLAT.

With the touch of a button, Yukon's available third-row power fold-flat seats turn generous passenger room into an equally generous cargo area. For even more flexibility, second-row seats offer an easy-to-use, power-release fold-and-tumble feature. It's a luxury combination no other competitor offers. To provide second-row passengers with easier access, Yukon is designed with large second-row doors.

## TECHNOLOGY AT YOUR FINGERTIPS, YOUR EYES, YOUR EARS AND ESPECIALLY YOUR VOICE.

The idea behind the design and engineering of Yukon is to help you focus solely on the road. That means offering technologies that eliminate distractions while keeping you connected, informed and entertained at the same time.

**CUSTOMIZABLE DRIVER DISPLAY** Choose Yukon Denali, and a reconfigurable gauge cluster with three selectable themes—Standard, Technology and Media—allows you to personalize the 8" diagonal Customizable Driver Display for optimized information placement. The display's menu can be navigated with steering-wheel-mounted controls. Driver alerts are also clearly displayed.

**INTEGRATED COMMUNICATION** New for 2017 is support for Apple CarPlay.<sup>1</sup> It's the smarter way to use your iPhone® inside your Yukon. Now many of the functions you use your phone for—entertainment and communication appear on the built-in display. There's also the GMC Color Touch Audio System featuring a full-color, 8" diagonal screen for easy viewing and hands-free, voice-activated control of your smartphone as well as offering:

- IntelliLink
- MP3 music syncing
- HD Radio
- Vocalized text messages
- Siri® Eyes Free assistance
- Hidden storage with USB<sup>3</sup> outlet
- Personal library access from multiple devices
- Storage of frequently used phone contacts

**VOICE AND TOUCH-SCREEN NAVIGATION** In response to your voice or touch, Yukon's available Navigation System displays 2-D or 3-D map graphics on the 8" diagonal center-mounted screen.

**BOSE SOUND SYSTEM** Yukon's Bose system is engineered to allow you to hear each and every note just as the musician intended. It features nine premium speakers and a center-mounted subwoofer for rich bass tones to create a fuller listening experience.

**BOSE CENTERPOINT SURROUND SOUND** For the sensation of a live performance, Denali includes a 10-speaker surround sound system with SurroundStage® signal processing. This technology, along with AudioPilot® noise compensation, delivers five independent channels from existing two-channel recordings.

**FOUR-COLOR HEAD-UP DISPLAY (HUD)** Inspired by fighter aircraft technology, this GM segment-exclusive system projects important driving information at eye level. Without taking your eyes off the road, see speedometer and rpm, Forward Collision Alert, Lane Keep Assist, adaptive cruise control, transmission position and Turn-by-Turn Navigation information, if equipped.

**BLU-RAY™/DVD REAR-SEAT ENTERTAINMENT SYSTEM** This available system includes a Blu-ray/DVD player and 9.2" diagonal flip-down display. Yukon XL and XL Denali models feature two screens, with one screen specifically for the third-row passengers. This system is compatible with most popular video gaming systems.

**WIRELESS CHARGING MAT** With available wireless charging conveniently located on the center console, you can power up your compatible phone or device anytime the vehicle is running. No cord necessary.

**CONNECTIVITY** Depending on the model you choose, you'll never be far from a convenient power supply: up to five USB ports,<sup>3</sup> five 12-volt auxiliary power outlets and a 230-volt outlet located in the second row keep first- and second-row passengers connected and powered up.

## EXUDES POWER. RESPECTS RESOURCES.

Yukon's EcoTec3 engine family combines three engine technologies: Direct Injection (DI), Active Fuel Management (AFM) and continuously Variable Valve Timing (VVT) to deliver exceptional power, torque, efficiency and durability. The 5.3L V-8 achieves the best highway fuel efficiency<sup>1</sup> in a full-size SUV. It generates 355 hp, 520 Nm of torque and 9.8 Km/L hwy.<sup>1</sup> For even more power and torque, Yukon Denali features a 6.2L V-8 with class-leading horsepower and torque and a Hydra-Matic 8-speed automatic transmission.

## HANDLE LIFE'S TWISTS AND TURNS AND UPS AND DOWNS.

From behind the wheel of Yukon you'll feel confident and in command, while your passengers enjoy a comfortable ride. Yukon is engineered for a smooth ride and unexpected handling to create the experience of driving a much smaller vehicle.

**STABILITRAK** Yukon's electronic stability control system helps improve stability by reducing traction loss. Sensing when Yukon isn't responding to steering inputs, it adjusts engine speed and applies brake pressure to any wheel to help maintain directional control. To mitigate rollovers, it anticipates a vehicle "tip up" situation, rapidly braking to help reduce lateral forces and the likelihood of a rollover.

**MAGNETIC RIDE CONTROL** For smoothness and refinement that rival that of premium luxury sedans, Yukon Denali features the remarkable capability of Magnetic Ride Control. This system senses changes in the road surface up to 1000 times per second, instantly adjusting the shock absorbers for maximum comfort and control, without sacrificing agility.

### **CORROSION-RESISTANT DURALIFE BRAKE ROTORS**

To reinvent the brake rotor, GMC engineers used Ferritic Nitro-Carburizing (FNC) technology, which can help double rotor life. FNC is a patented, GM-exclusive corrosion protection process designed to help prolong rotor life by hardening the rotor surface. It provides protection against rust to help prevent steering-wheel shudder when applying the brakes.

**FOUR-WHEEL DRIVE** Yukon's available four-wheel-drive system allows you to switch between two-wheel drive for optimum fuel efficiency<sup>1</sup> and four-wheel drive for much-needed additional traction and control.

**FOUR-WHEEL DISC BRAKES** The stopping system improves pedal feel for a stronger, more confident braking performance.

**FULLY BOXED FRAME** Yukon's frame is constructed with 75 percent high-strength steel for maximum people- and cargo-carrying capability.

**WIDE TRACK** For improved stability and more confident cornering, Yukon features a wider rear track. Wider wheels reduce tire flex for improved cornering, and low-rolling-resistance tires aid in fuel efficiency.<sup>1</sup>

**ELECTRIC VARIABLE-ASSIST POWER STEERING** The electric variable-assist power rack-and-pinion steering system improves fuel efficiency<sup>1</sup> versus engine-powered systems. It provides less assist at highway speeds for a solid on-center feel, and more assist for less steering effort when you're maneuvering in tight spaces.

**SHEAR-STYLE BODY MOUNTS** Connecting the body to the frame are high lateral-rate and redesigned hydraulic body mounts. You'll enjoy improved comfort and a smoother, quieter ride. The shear-style mounts dampen side-to-side vibrations, while the new hydraulic mounts dampen vertical vibrations.

<sup>1</sup>EPA-estimated mpg: 6.8 city/9.8 hwy [2WD], 6.8 city/9.35 hwy [4WD] with 5.3L V-8 engine and 6.4 city/9.35 hwy [2WD], 6.4 city/8.9 hwy [4WD] with 6.2L V-8 engine.

## BECAUSE SOME HOBBIES REQUIRE BIGGER EQUIPMENT.

Everything about Yukon is designed and engineered for ease of travel, including pulling your recreational equipment. Yukon offers a maximum trailer weight rating of up to 3855 kgs.<sup>1</sup>

<sup>1</sup>Requires 5.3L V-8 and Heavy-Duty Trailering Package. Before you buy a vehicle or use it for trailering, carefully review the trailering section of the Owner's Manual. The weight of passengers, cargo and options or accessories may reduce the amount you can tow.

**AUTOMATIC LOCKING DIFFERENTIAL** This feature directs power to the rear wheel with the most traction on loose gravel or slippery surfaces.

**AUTO GRADE BRAKING** It automatically senses when you want to slow your Yukon and engages a Grade Braking shift pattern within the transmission to help maintain your desired speed.

**PREMIUM SMOOTH-RIDE SUSPENSION WITH AIR LEVELER** The available system constantly senses and adjusts Yukon's rear suspension height to maintain a level position. It also contributes to Yukon's max trailering rating.

**HILL START ASSIST** Sensors automatically detect when Yukon is on a 5 percent grade or more. It holds the brakes momentarily or until the accelerator is pressed, preventing rollback. It's most effective when trailering, providing time to switch from the brake to the accelerator without rolling.

**TOW/HAUL MODE** Providing more power to accelerate when trailering or hauling heavy loads, Tow/Haul mode raises transmission upshift points. It also helps reduce speed by using engine compression to slow Yukon instead of merely braking.

**TRAILER SWAY CONTROL** Keep both you and your trailer heading in the same direction, automatically. The system uses StabiliTrak sensors to detect a swaying trailer, applying both Yukon's and the trailer's brakes (if properly equipped) to help bring it back in line.

**TRAILER BRAKE CONTROLLER** For fingertip control and easy monitoring of your trailer brakes, there's an available integrated trailer brake controller. Conveniently located to the left of the steering wheel, it displays the level of brake force or "gain" in the Driver Information Center.

## SO SMART, YOU GAIN CONFIDENCE JUST BY DRIVING IT.

Yukon offers a comprehensive array of driver-alert technologies, engineered with the idea that the best way to handle a collision is to avoid it. For 2017, Yukon adds Lane Keep Assist and IntelliBeam to the available Enhanced Driver Alert Package that also includes Forward Collision Alert and the Safety Alert Driver Seat.

**DRIVER AWARENESS** Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the Yukon Owner's Manual for more important safety information.

**LANE KEEP ASSIST** This new available technology (shown above) for 2017 helps Yukon stay in its lane and avoid unintentional lane changes. It assists by gently correcting the steering path and may also issue an alert if Yukon approaches a detected lane marking without the turn signal being activated. Standard on SLT and Denali.

**FRONT CENTER AIR BAG<sup>1</sup>** The Front Center Air Bag is designed to help protect drivers and front-seat passengers in side-impact crashes where the affected occupant is on the opposite, non-struck side of the vehicle.

**INTELLIBEAM** When oncoming headlamps or taillamps are detected in front of Yukon, this new system automatically adjusts between low and high beams.

**LANE CHANGE ALERT** Working with Side Blind Zone Alert, this available system uses long-range (up to 70 meters) radar to help detect and warn you of fast-approaching traffic in the next lane.

**SIDE BLIND ZONE ALERT** The available radar-equipped sensors monitor Yukon's blind spots, alerting the driver via visual warnings to help reduce the risk of collisions.<sup>2</sup>

**ADAPTIVE CRUISE CONTROL** This available technology detects a vehicle ahead and automatically adjusts Yukon's speed to maintain a steady driving distance. It also includes Front Automatic Braking that automatically slows Yukon down to help prevent an impact.

**FORWARD COLLISION ALERT** The available Forward Collision Alert warns you when you're rapidly approaching another vehicle and it appears a collision is imminent. It also provides an alert if the driver is following a detected vehicle too closely.

**REAR CROSS TRAFFIC ALERT** Monitoring your surroundings and working with the Rear Vision Camera System, it sends audio and visual warnings, alerting you to approaching cross traffic while backing up in a parking lot or driveway.

**ENHANCED SECURITY PACKAGE** To help ensure that it remains in your possession, the 2017 Yukon surrounds itself with this available package that includes glass breakage sensors, vertical movement sensors, interior motion detectors, door and liftgate lock shields and numerous other theft-deterrent technologies to keep potential thieves at bay.

**SAFETY ALERT DRIVER SEAT** Forward Collision Alert, Lane Keep Assist and Front and Rear Park Assist provide visual alerts and allow you to choose from additional audible signals or the available Safety Alert Driver Seat, which uses directional vibrations to help warn you of a potential collision.

<sup>1</sup>A NOTE ON CHILD SAFETY: Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your Owner's Manual and child safety seat instructions for more safety information. Front Center Air Bag is not included with available front 40/20/40 split bench on SLE. <sup>2</sup>Before making a lane change, always check the Side Blind Zone Alert display, check the side and inside rearview mirrors, look over your shoulder for vehicles and hazards and start the turn signal.

**GMC** When you buy a GMC, you don't just take home a new vehicle. You also enjoy the peace of mind that makes driving your GMC a pleasant experience.

#### MIDDLE EAST VEHICLE TESTING

Every GMC is tested in the region, so we know it can withstand the climate. Then, before launch, we check and double-check every inch of the vehicle for optimal performance. GMC specifically develops many of its features—including its air conditioning, engine cooling systems, and paint—to perform in tough conditions. The result is a vehicle you can depend on.

#### BUMPER TO BUMPER 3-YEAR / 100,000 KM WARRANTY \*

Every GMC comes with a comprehensive 3-year/100,000 km warranty to cover any eventuality. So wherever you are in the Middle East, you can be sure that any malfunction from defects in materials or workmanship will be taken care of.

#### COURTESY VEHICLE PROGRAM \*\*

GMC strives for your convenience. In the unlikely event of a warranty repair involving extended repair times, you may be offered a suitable courtesy vehicle for your convenience.

#### MAINTENANCE PLEDGE

Our Maintenance Pledge is simple: every visit you make to a GMC dealer service center will be a satisfying one. Here's why:

- Our service and maintenance pricing is transparent, competitive, and comes with no hidden charges. You'll know up front how much it costs to maintain your vehicle throughout its warranty period.
- Our cost of maintenance is extremely competitive, and our service is second to none. Regular maintenance of your GMC at a GMC dealer service center will ensure it retains the highest possible resale value.
- For a scheduled maintenance service booked under appointment we guarantee same-day delivery of your vehicle—in most cases, while you wait.

#### ROADSIDE ASSISTANCE \*\*\*

Driving a GMC entitles you to free emergency roadside assistance and recovery 24 hours a day, 365 days a year, wherever you are in the Middle East, for a period of 4 years.

#### GMC PARTS

GMC's region-wide dealer network is supported by a well-stocked parts distribution center, ensuring constant availability of parts to keep your vehicle on the road.

GMC parts are priced to ensure low cost of maintenance and at the same time guarantee that you get genuine parts at competitive prices.

#### GMC CERTIFIED PRE-OWNED VEHICLES

All of our certified pre-owned vehicles come with the confidence of:

- A 110+ point quality inspection
- A minimum 12-month warranty
- 24-hour roadside assistance
- A 7-day exchange option

#### GMC CUSTOMER ASSISTANCE

Should you have any questions or concerns, our Customer Communications Center can take care of them. Simply email us at [customerservice@GMCArabia.com](mailto:customerservice@GMCArabia.com) or call +971-4-429-0352.

## CHOOSING THE RIGHT CHILD SEAT

### REAR-FACING: THE SAFEST WAY FOR NEWBORN BABIES TO TRAVEL

#### FOR INFANTS AGED FROM 0-12 MONTHS / UP TO 13KG

Newborn babies must travel in a rear-facing seat. To secure the seat, adjust the harness so the webbing comes through the harness slots behind or below the baby's shoulders. For convenience, you can purchase a base that fits into the car with detachable carrier. Many infant seats also fit into a stroller.

### FORWARD-FACING: THE SAFEST WAY FOR TODDLERS TO TRAVEL

#### THE NEXT STAGE – FOR INFANTS AGED 9 MONTHS – 3.5 YEARS / 9KG TO 18KG

These bigger seats allow children to ride forward facing. They are still used semi-reclined to keep the baby's head on the headrest and its airway open. Harness straps still come from behind or below the shoulders.

#### TODDLER SEATS – FOR CHILDREN AGED 3.5 – 12 YEARS / 15KG TO 36KG

These seats face forward in an upright position and the shoulder straps come from harness slots that are placed at or above the shoulders.

### BOOSTER SEATS: THE NEXT STEP BEFORE SEATBELT USE

#### BACKLESS BOOSTERS – FOR CHILDREN FROM 21KG TO 45KG

These booster seats have no back and must be used with a lap and shoulder belt system. The lap belt should sit low on the hips; the shoulder belt should rest on the collarbone and not cross the face or neck.

#### HIGH-BACK BOOSTERS – FOR CHILDREN FROM 21KG TO 45KG

This type of booster seat has a back and, sometimes, side wings near the head. It must be used with a lap and shoulder belt system. This is a good type of seat if your child falls asleep in the car.

Always keep infants and children under 12 in the back seat.

## MINIMAL MAINTENANCE. MAXIMUM ENJOYMENT.

### SCHEDULED MAINTENANCE

To complement Yukon's intelligent and protective engineering, regular scheduled maintenance will keep it running further and longer. To keep your SUV in perfect condition, work should be carried out at regular intervals, according to the recommendations in your owner's manual.

### MENU PRICING

As time and kilometers pass, certain wear-and-tear items will need replacing. Whether it's wiper blades, shock absorbers, or brake pads, it's all covered in Menu Pricing, and our competitive prices will help you keep your Yukon on the road with minimal cost. Check with your dealer for details or log on to [GMCArabia.com](http://GMCArabia.com).
