

AVANTE

Parametric Jewel Pattern Grille

The stereoscopic Parametric Jewel-pattern design highlights the depth of the front grille, making it resemble diamond-cut gemstones, and the bold and elongated front headlights come together to give Avante its front sporty look.

The edgy spoiler on the trunk and the integrated all-in-one taillight - representing Hyundai with its distinct H-shape design - help to create a high-tech, futuristic rear look.

Hyundai SmartSense

Forward Collision-Avoidance Assist

If the preceding vehicle suddenly slows down, or if a forward collision risk is detected, such as a stopped vehicle or a pedestrian in front, it provides a warning. After the warning, if the risk of collision increases, it automatically assists with emergency braking. While driving, if there is a risk of collision with a cyclist, it automatically assists with emergency braking. If there is a risk of collision with an oncoming vehicle while turning left at an intersection, it automatically assists with emergency braking.

Blind-Spot Collision-Avoidance Assist

When operating the turn signal switch to change lanes, if there is a risk of collision with a rear side vehicle, it provides a warning. After the warning, if the risk of collision increases, it automatically controls the vehicle to help avoid a collision.

Driver Attention Warning

Displays the driver's attention level while driving. Provides a warning when signs of driver inattentiveness are detected, and recommends a rest if needed. The driver should stop and park in a safe place and get plenty of rest before driving. During a stop, the driver is alerted if the leading vehicle departs.

Smart Cruise Control with Stop & Go

Smart Cruise Control helps maintain distance from the vehicle ahead and drive at a speed, set by the driver. The vehicle stops automatically and starts automatically if the vehicle in front starts in a short time. If a period of time has elapsed, start again by pressing the accelerator pedal or operating the switch.

Lane Following Assist

Detects lane and vehicle ahead on the road with a front view camera on the front windshield, and assists the driver's steering to help keep the vehicle centered between the lanes.

Rear Cross-Traffic Collision-Avoidance Assist

If there is a risk of collision with an oncoming vehicle on the left or right side while reversing, it provides a warning. After the warning, if the risk of collision increases, it automatically assists with emergency braking.

Most sensuous.

The Immersive Interface cocoons the driver like a cockpit that surrounds the pilot, offering easier control and an enveloping , advanced driving experience.

Immersive Interface

The 10.25" cluster display and 8" audio display deliver a fully immersive space, tilted 10 degrees toward the driver for easier control and a high-tech feel.

Wireless Smartphone Connectivity

Stay connected through your drive with Apple CarPlay and Andriod Auto. Enjoy Dual Bluetooth Connection as well as Bluetooth Voice Recognition.

Wireless Smartphone Charging

Wireless charging that is as simple as placing your phone on the charging pad.

* The availability of Hyundai CarPlay and Android Auto on mobile phones may vary depending on your country or region and will be in compliance with the policies of Google Play and App Store.

Make your move.

Avante's highly advanced connectivity features are extremely intuitive and easy to use, keeping you connected with the car and bringing greater innovation to your driving experience.
