

We drive head-first into a better future.

Hyundai SUVs are designed around your life for today and beyond.

A future as bright as we can make it.

You can let change happen to you, or you can drive the change. At Hyundai, we believe in the latter. That is why every car we make embodies our three pillars for future mobility:

- | | |
|--------------|---|
| Personalised | So that every car considers your needs from functionality and styling to performance and value. |
| Intuitive | So that even the most advanced driving features are easily accessed and sensibly implemented. |
| Pro-active | To provide peace-of-mind, be it through our advanced SmartSense™ technologies or better choices in hybrid powered models. |

Making every moment count.

Our vision goes beyond just designing great cars. We want them to deliver experiences that connect you to more quality time. That means making cars with intelligent features that take care of your comfort and safety, and integrated with your lifestyle to make every journey more enjoyable and stress-free from start to finish and everywhere in-between.

Designed to engage your senses.

**It's not just how it looks,
it's how a Hyundai makes
you feel.**

Called 'Sensual Sportiness', our signature look of flowing lines is woven into the DNA of our SUVs, with unique characteristics that lets the spirit of individuality shine. With each year, we incorporate even more sustainable materials and progressive elements like the TUCSON's 'hidden lighting' that add emotional value to your experience.

Smarter on and off the road.

Power is nothing without control. We continuously improve our SmartStream™ drivetrain so that gear shifts become a natural extension of your instincts.

But it goes further. Hyundai extends your situational awareness with SmartSense™ — a suite of intelligent sensors that pro-actively look out for your safety and convenience. From blind-spots and safety alerts – like knowing when you cannot open the rear door due to incoming traffic – we are always thinking of better driving experiences for you.

Creating a sustainable future for humanity.

Sustainability is at the heart of Hyundai's long term goal.

Even as we continue to push the limits for efficiency and performance in conventional, hybrid and electric powered vehicles, we are already working on next generation fuel-cell technology and even robotics for enhanced personal mobility.

There is no greater sign of our commitment than the recently announced Hyundai Motor Group Innovation Centre in Singapore. Focused on research into future mobility including Electric Vehicles (EVs) and battery technology, the centre will take Singapore – and the world – closer to the ideal where humans can coexist more harmoniously with nature.

VENUE

VENUE

Urban Vibes

Perfectly suited for the hustle and grind of urban life. The time has come to create your own groove. Days in the city overflow with rhythm. Only a car that stays ahead of the groove can bring out your full potential. Explore your potential in every note of the urban grooves. VENUE will create new experiences for you and revitalize urban life. Introducing the first-ever VENUE, an urban utility vehicle with a larger-than-life personality and style to match.

Cascading Grille and Twin Headlight Design

17-inch Alloy Wheels

Lenticular Lens Featured Rear Lamp

Wake up all your senses.

VENUE may look small from the outside but it packs a full suite of advanced SmartSense™ technologies that enhance driver confidence and convenience to stay ahead of the competition. VENUE's advanced infotainment system features an 8-inch Display Audio touchscreen system and rearview monitor. The multi-dimensional and sporty instrument cluster makes information easily visible while the three-dial air-conditioning controller offers easy and intuitive control—these iconic design elements come together to create a unique image.

8-inch Colour LCD with Apple CarPlay and Android Auto

3.5-inch Mono TFT-LCD Cluster

Heating, Ventilation and Air-conditioning Control

Rear View Monitor (RVM)

KONA Hybrid

KONA Hybrid

Live a vibrant life.

There's a vibrant feeling about the new KONA Hybrid. It's a youthful, playful design that stirs the senses and invites closer examination of its capabilities. Step inside, press the start button and KONA stirs to life to deliver exceptional dynamic performance. From front to back, KONA has been extensively enhanced to meet the needs of customers who lead active lifestyles.

New Sporty and Muscular Front End Design

LED Rear Combination Lamps

LED Positioning Lamps and LED DRLs

18-inch Alloy Wheels

An impressive performance.

From the moment you step on the accelerator to unleash KONA's full potential, you will be smiling at the surge of quiet, clean power. KONA's power plants are third generation which means they benefit from the very latest technologies that improve their efficiency, reliability and, most importantly, your driving enjoyment. You have three engines to choose from and pure driving pleasure has been engineered into each one.

TUCSON

TUCSON

Step in, Stand out.

The all-new TUCSON signals the start of a new day, and a new way of driving. Rejecting the ordinary, the all-new TUCSON pushes the boundaries of the segment to reinvent just about everything – including options for conventional petrol and hybrid powered drivetrains. Outside, TUCSON is designed to impress while inside, you'll discover a level of roominess, comfort and versatility that exceeds all expectations.

Signature Parametric Hidden Lights

LED Projection Headlamps

LED Rear Combination Lamps

Live for the moment.

Whether it's a solo adventure or a long weekend excursion with the entire family, TUCSON offers you exceptional versatility like the rear seat folding feature that provides up to 1,860 litres of flat storage space. The passenger space is equally accommodating with abundant amounts of room to keep everyone seated comfortably.

SANTA FE Hybrid

SANTA FE Hybrid

Rediscovering happiness.

Every new detail in the new SANTA FE Hybrid edition, both visible and hidden, is geared towards one goal: family. Rediscover your family's happiness with upscale designs that brighten up daily routines, interior spaces big enough to accommodate all types of lifestyles and advanced technology that keeps everyone safe at all times. Stay focused on your family's happiness. SANTA FE will do the rest.

Signature T-shaped LED Daytime Running Lights

LED Rear Combination Lamps

LED Outside Mirror Repeaters

Making every day comfortable.

Don't worry about extra family members or distances with the SANTA FE.

A wide choice of seat variations and convenient features* will accommodate everyone, everywhere. A simple button is all it takes to fold and slide the second row seats forward for easier access to the third row seats, while SANTA FE's new platform and layout design provides more room in the second row and cargo area, ensuring a comfortable journey for all. When both hands are full, thoughtful details like the Smart Power Tailgate will take a load off your shoulders.

Spacious Comfort

One-Touch Walk-in & Folding

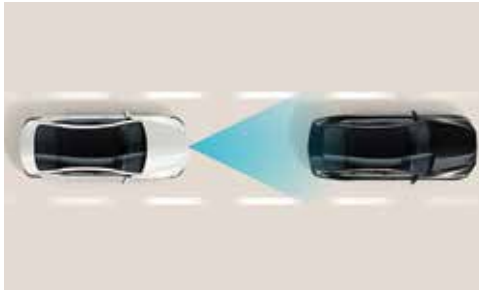

Smart Power Tailgate

* Features and specifications vary by market. Please consult your local dealer.

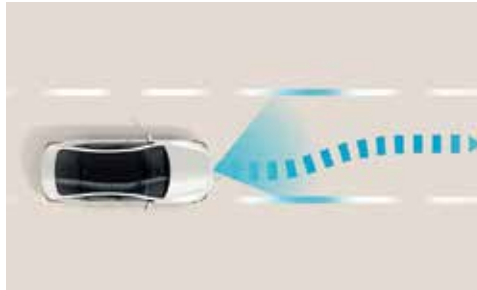

Hyundai SmartSense™

Achieving the highest possible ANCAP ratings for our cars is one way to demonstrate our commitment to safety. But we don't stop there. On top of all the safety fundamentals (such as airbags, anti-lock brakes and traction control), we go further by equipping all Hyundai SUVs with advanced SmartSense™ technologies.

Smart Cruise Control

This system will maintain the driver's pre-set speed and distance from the vehicle ahead without requiring the driver to use the accelerator or brake pedals.

Lane Keeping Assist

A front view camera detects lane markers and road edges helping prevent unintentional lane departures. When the vehicle strays from its lane, an audible and visual alert will be triggered.

Blind-Spot Collision-Avoidance Warning

Radar sensors in the rear bumper are used to warn the driver of approaching vehicles in the blind spot and activate the warning when there is a collision risk in lane changing maneuvers.

Rear Cross-Traffic Collision-Avoidance Assist

Keeps an eye out for vehicles approaching from either side of you when you're reversing out of a perpendicular parking space, and if necessary apply emergency braking to prevent from collision.

Forward Collision Avoidance Assist

Front view camera and front radar are in place to warn the driver of imminent collisions with other vehicles, or even certain types of objects; and if necessary apply emergency braking to prevent from collision.

Surround View Monitor (SVM)

A multi-camera system provides a 360-degree view around the vehicle to assist the driver in parking situations.

Rear Seat Occupant Alert

The Rear Occupant Alert detects movement in the rear seats and reminds the driver there are rear occupants with an alert on the cluster. If the system detects movement after the driver has left the car and locked it, it sets off a sound alarm.

Safe Exit Assist

The system detects any oncoming vehicles approaching from the rear and alerts you that it may be dangerous for passengers to exit. And if the child safety lock is activated, the system will prevent that door from being opened.

Advanced High-Strength Steel (AHSS)

By increasing use of Advanced High Strength Steel (AHSS), which is 10% lighter and 200% stronger than regular steel, Hyundai SUVs offer greater sturdiness and safety to drivers and passengers. Straightened body connections and installation of load paths improve each vehicle's performance in collision tests, ensuring greater safety in real life situations.

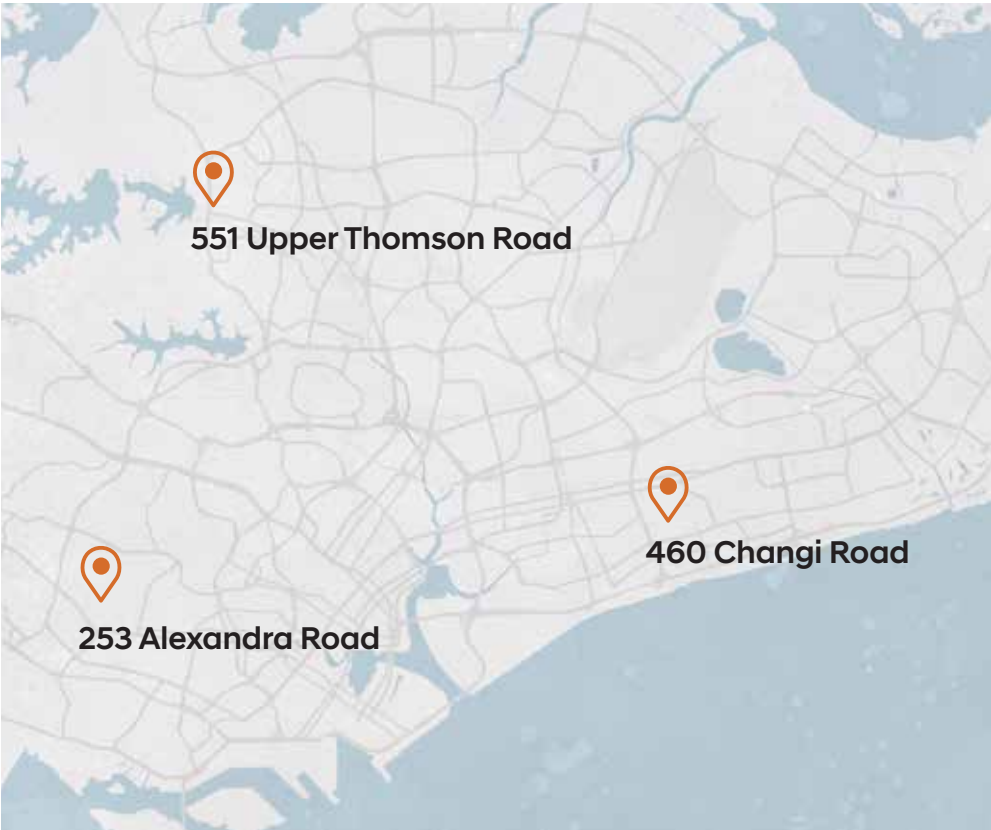

Six-airbag System, with Front and Side Airbags and Curtain Airbags

Keeps you and your family well-protected.

Certified service centres and team at your service.

Officially certified and trained to the highest standards by Hyundai Motor Company (HMC), our team of care experts are on hand to attend to you and your Hyundai vehicles with a full-fledged workshop, supported with genuine parts that will safeguard the interests of your investment.

At Komoco Motors, we constantly strive to give you a better all-rounded care experience. All you have to do is to dial **6473 5588** to make an appointment.
