

Evolution

The Evolution of Perfection Continues...

The new range of Lexus surpasses its predecessor in virtually every significant category.

As always, every Lexus sets new benchmarks for other cars to follow. Every detail, however small is painstakingly handled with great precision and care.

So each new vehicle that rolls-out from the Lexus plant is almost indistinguishable from a custom-made car.

It's not surprising why Lexus engineers take so much pride in their creation, for each new Lexus leads us one step closer to perfection.

The Lexus LS400

The Lexus LS400 is by far a more superior vehicle than its predecessor. It offers a roomier interior, more powerful engine, more responsive handling and a longer list of highly appreciated luxury, comfort and convenience features. In true Lexus fashion, the LS400 achieves these ambitious goals while enhancing safety, structural integrity, fuel efficiency, quality and value.

Engine

Type: 4.0-litre V8 Quad Cam 32-Valve

Displacement: 3969CC

Max. output: 194kW/5400rpm (EEC)

Max. torque: 365Nm/4600rpm (EEC)

Fuel system: Electronic Fuel Injection

Fuel tank capacity: 85 litres

Chassis

Suspension front/rear: Double wishbones, coil springs, pressured shock absorbers, stabiliser bar

Brakes front/rear: 315mm ventilated discs with 4-piston aluminium calipers/307mm ventilated discs with aluminium calipers

Minimum turning radius (tyres): 5.3m

Steering: Rack and pinion, vehicle speed-sensitive variable power assist

Tyres: 225/60 R16

The Lexus GS300

Designed by Giorgetto Giugiaro and aerodynamically refined by Lexus engineers, the GS300 boasts exceptional aerodynamics with a remarkable drag co-efficient of just 0.31. This superbly balanced car combines a new degree of driving excitement with further dimensions of luxury. Adhering to our standard of perfection, the GS300 embodies all that the Lexus marque stands for: luxury, safety, precision engineering, smoothness and quietness.

Engine

Type: 3.0-litre Twin Cam 24-Valve

Displacement: 2997CC

Max. output: 156kW/5800rpm

Max. torque: 275Nm/4800rpm

Fuel system: Electronic Fuel Injection

Fuel tank capacity: 80 litres

Chassis

Suspension front/rear: Double wishbones, coil springs, gas-pressure shock absorbers, stabiliser bar

Brakes front/rear: 296mm ventilated disc brakes/307mm ventilated disc brakes

Transmission: 4-speed ECT-i
(Electronically Controlled Transmission
with intelligence)

Steering: Rack and pinion with
speed-sensitive variable power assist

Tyres: 225/55 R16 94V

The new Lexus ES300

The second-generation Lexus ES300 takes us a step forward in our pursuit of perfection. Like all fine designs, the new Lexus ES300 is flawlessly sculpted to combine casual elegance with functionality. A more robust powerplant, more impressive handling capabilities, a more spacious interior and a host of luxury features dominate the list of refinements. Other hallmark attributes that are quintessentially Lexus – safety, performance, quietness – are further enhanced to cast an even more polished ride.

Engine

Type: 3.0-litre V6 Four Cam 24-Valve

Displacement: 2995CC

Max. output: 149kW/5200rpm (SAE net)

Max. torque: 290Nm/4400rpm (SAE net)

Fuel system: Electronic Fuel Injection

Fuel tank capacity: 70 litres

Chassis

Suspension (front/rear): MacPherson struts (L-shaped lower arms, gas-filled shock absorbers and off-set coil springs) with a stabiliser bar/Dual-link (lower arms and control rods) with a stabiliser bar

Brakes (front/rear): 15-inch ventilated discs/14-inch discs

Steering: Rack and pinion, power assist (engine revolution sensing)

Minimum turning radius (tyres): 5.5m

Tyres: P205/65 VR13

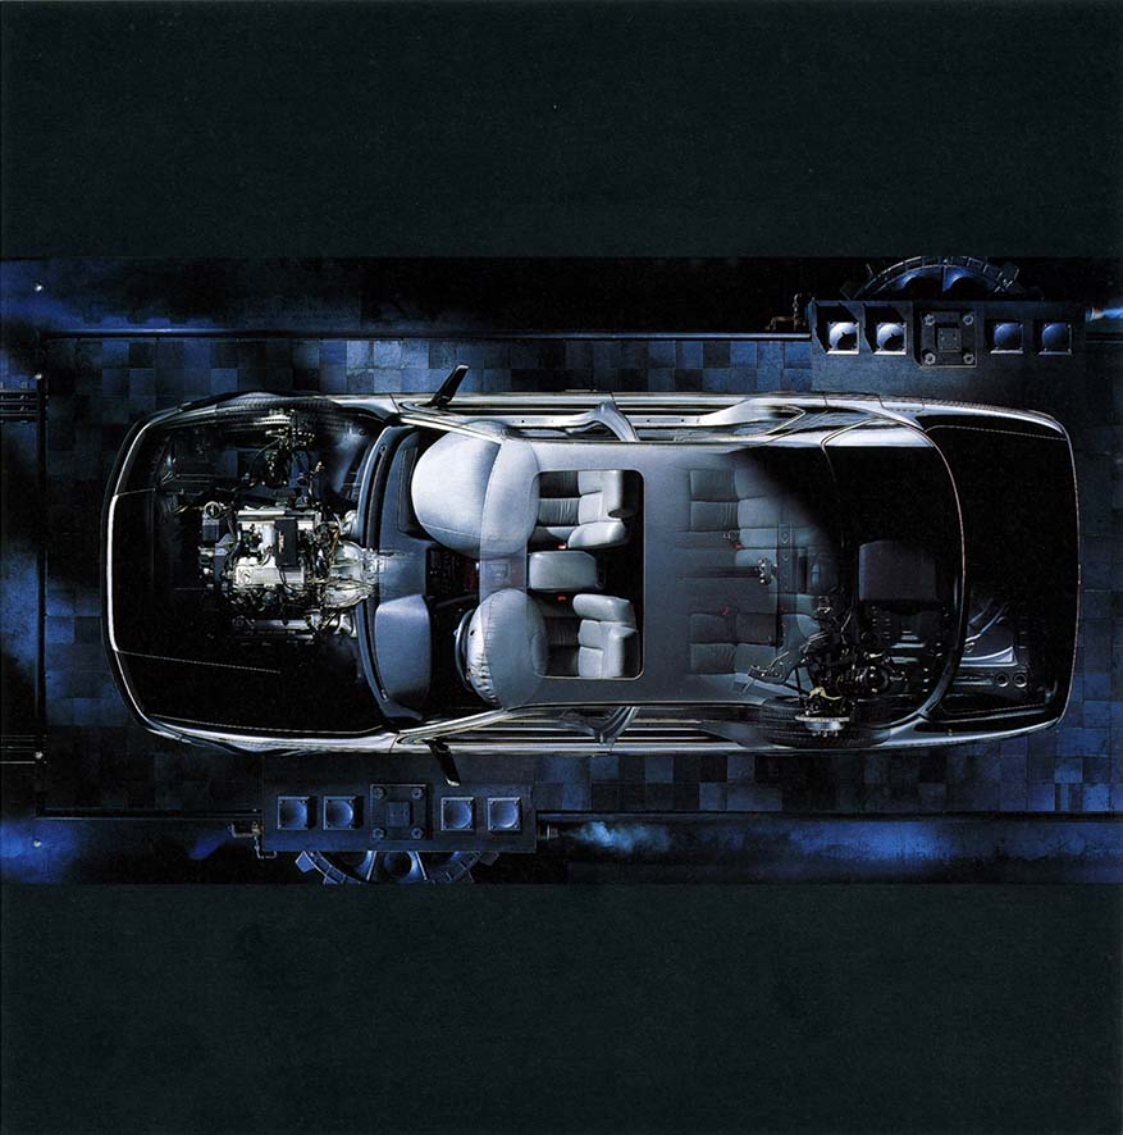

The Lexus Pre-Owned Cars

The Lexus Certified Pre-Owned Car Programme represents yet another milestone for us. For the first time in Singapore, a car maker is willing to stand firmly behind a previously owned vehicle.

What it means to you is peace of mind from knowing that each Pre-Owned Lexus is every bit as good as a brand new one.

To qualify as a Lexus Certified, only the best trade-in vehicles are selected, and subjected to severe microscopic scrutiny.

This merciless 108-point inspection quickly locates problems so that our engineers can replace any parts that are not up to the Lexus standards. Then, each Pre-Owned Lexus is blanketed with a brand new 3-year or 100,000 km warranty. Further assurance can be found in the 24-hour roadside assistance and the free use of a Lexus should the repair take more than a day. All of which adds up to one indisputable fact: acquiring a Pre-Owned Lexus assures you of exactly the same peace of mind as buying a new car.

To fully experience the driving excitement of a Lexus,
please call your Lexus Consultant at 378 8833,

or visit the Lexus Showroom at:

Borneo Motors (S) Pte Ltd (An Inchcape Company) Lexus Division.

31/33 Leng Kee Road, Singapore 159101.
