

**Innovation  
that excites**

# NISSAN NOTE

## Sporty & Dynamic

With low roofline, flared wheel arches, distinctive V-Motion grille that flows seamlessly with swept-back headlamps and bold character lines on the doors, the Nissan NOTE's sharpened silhouette reflects energy in motion, even at a standstill.

Note 1.2#

Note 1.2

**A Big  
Surprise**

Take a seat inside and be awed by the surprising cabin spaciousness and level of comfort for both the driver and passengers.

*Overseas model shown. Features and specifications subject to change.*

## Interior Innovations

By paying attention to the smallest details, Nissan's designers and engineers have produced the greatest improvements. Each innovation contributing to a more pleasurable driving experience!

Thoughtful layout that makes great use of space. Nissan's engineers have reduced the sizes of all mechanical components to take up as little room as possible in order to provide a spacious interior.

### Impressive length and width

With Nissan's smart packaging, NOTE gives you the space you need. It has an interior length of up to an impressive 2,065mm. The curvature of the back sides of the front seats have been meticulously crafted for the comfort of the rear passengers, giving them ample space and unobstructed forward views.

Impressive legroom. Stretch or cross your legs as you desire.

Overseas model shown. Features and specifications subject to change.

06-07

## Refreshing Refinement

The Zen-like simple and elegant dashboard provides an open feeling to the driver and the front passenger. Essential controls such as the infotainment system and climate control are well displayed and within easy reach.

A lightweight body and compact engine matched with the advanced Xtronic CVT transmission, maintains optimal rpm balancing performance and fuel economy with efficiently selected gear ratios in all driving conditions. Together with Idling Stop System (ISS) and an aerodynamic exterior design, NOTE achieves excellent fuel economy.

**Excellent  
Efficiency**

Overseas model shown. Features and specifications subject to change.

**Idling Stop System (ISS)**

To save fuel, Nissan's ISS stops the engine during idle, at traffic lights for example, and then smoothly and quickly restarts when the driver releases the brake.

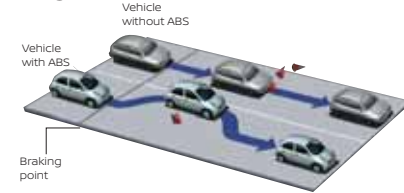

# SAFETY SHIELD

SAFETY SHIELD

## Drive with peace of mind

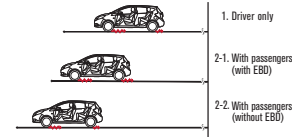

In the area of safety technology, NISSAN pursues innovation as part of its "Safety Shield" concept, an advanced, proactive approach to safety issues based on the idea that cars should help protect people. This approach provides various measures to help the driver and passengers better avoid dangers in ways that are optimized to each of a wide range of circumstances that the vehicle may be in, from "risk has not yet appeared" to "post-crash".

### ABS

### EBD

EBD optimizes rear brake force depending on the load.

Rear brake force in 2-1: Greater than 1 or 2-2

## Keeps you safe even in dangerous conditions

### Anti-Lock Braking System (ABS)

ABS optimizes braking while maintaining directional control, especially in an emergency situation and on slippery surfaces.

### Electronic Brake-Force Distribution (EBD)

The weight of passengers and cargo will inevitably increase the braking distance, but the NOTE's EBD system serves to reduce the braking distance by sensing the load carried and redistributing the brake-force in the front and rear for more effective braking.

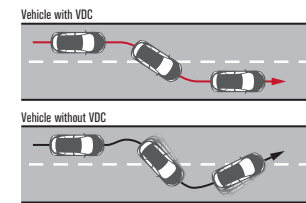

### Vehicle Dynamic Control (VDC)

VDC automatically controls brake and engine output to enhance stability when sensors detect that the vehicle may slip sideways, due to steering, braking or accelerator pedal operation.

### Hill Start Assist (HSA)

HSA prevents the car from rolling back when it is pulled off on the sloping ground. When you shift your feet from the brake pedal, the system will continue to work on the brake, thus the car can start smoothly and safely.

### VDC

### HSA

## Minimizes damage in the event a collision is unavoidable

### Nissan's High-Strength Zone Body

When a collision is unavoidable, the NOTE's enhanced impact-absorbing body absorbs shocks efficiently while the Nissan's zone body construction provides a high strength cabin safety zone to ensure protection for passengers.

### SRS Airbags

Both the driver and the front seat passenger are protected by supplementary restraint system (SRS) airbags. These work in combination with seatbelts to reduce the force of head-on impact.

## BODY COLOURS

White (QAY)

Brilliant White Pearl (QAB)

Galaxy Gold (HAJ)

Sunshine Yellow (EAV)

Pink (NAR)

Garnet Red (NBF)

Emerald Green (EBA)

Shining Blue (RAW)

Imperial Umber (CAS)

# LOVE THE NISSAN EXPERIENCE

## DUO PROGRAMME

**DUO** is a community specially created by the Tan Chong Group, dedicated solely for customers of Tan Chong. As a **DUO** member, you enjoy exclusive membership privileges and special promotional deals, everything from automobiles to lifestyle privileges. The **DUO** community hosts regular events and activities that allow the coming together and interaction between Tan Chong and its customers. Complete the Nissan Experience by signing up at [www.duo.com.sg](http://www.duo.com.sg)

## GENUINE NISSAN PARTS

While imitation parts are relatively cheaper, they are also inferior in quality and have shorter service life which may result in greater loss to you in the long run. Only **Genuine Nissan Parts** offer maximum performance and reliability, fulfilling the highest quality standards set by Nissan and come with a warranty for greater peace of mind. Quality that clearly makes a world of difference.

## NISSAN PREVENTIVE MAINTENANCE PROGRAMME

The **Nissan Preventive Maintenance Programme** is a comprehensive package competitively priced to offer you true value for money. Under this programme, all Nissan cars are maintained in accordance with Nissan's standard and quality so that they are kept in tip-top condition and serve owners well for years to come.

# NISSAN INTELLIGENT MOBILITY

Intelligent Mobility guides everything we do. At Nissan, we use new technologies to transform cars from mere driving machines into partners. Together the journey is more confident, connected, and exciting. Whether it is cars that share the task of driving with you, or highways that charge your EV as you go along, it's all in the very near future. And it's a future already taking shape in the Nissan you drive today.
